Electronic mail is a technology that allows for the written exchange of information in machine readable format. E-mail represents not the system, but the information communicated through the system. E-mail messages are public records when they are created or received in the transaction of public business. They must be retained as evidence of official policies, actions, decisions, or transactions. Such messages must be identified, filed, and retained just like records in other formats. E-mail is managed by its content, not its format. For additional information on E-mail see the State of Nevada - Guidelines for Developing an Agency Email Policy.	Retain for the retention period required for equivalent hardcopy.	Same as the equivalent hardcopy (if applicable).	Same as the equivalent hardcopy (if applicable). Payment Card Industry (PCI) – Cardholder Data

LRDA # 20181988

Description	Minimum Retention Period	Disposition	Legal Citations	References
This record series consists of Cardholder Data (CHD) obtained during electronic financial transactions where an agency stores, processes or transmits cardholder data received via point of sale systems, phone, email, internet, paper, etc. This sensitive cardholder data is security-related information (primary account number (PAN), expiration date, cardholder name, and service code) used to authorize and process payment card transactions. Any local government agency that processes, stores, or transmits payment card data is required by the card provider (Visa, MasterCard, American Express, etc.) to comply with certain security standards to prevent cardholder data theft.	Retain for no longer than required for legal, regulatory, and/or business requirements. It is recommended this data be retained no longer than ninety (90) days from the completion of the transaction. If you don't need it, don't store it.	This record series contains confidential/sensitive information and must be destroyed in a secure manner that will prevent reconstruction of the information.	PCI Security Standards Council - Data Security Standard 3.1 to 3.7, NRS 205.602, NRS 603A.040, NRS 603A.215	In accordance with PCI Security Standards Council - Data Security Standard 3.4 – The primary account number (PAN) must be rendered unreadable anywhere it is stored (including on portable digital media, backup media, and in logs).

Payment Card Industry (PCI)-Audit Logs

LRDA # 20181975

Description	Minimum Retention Period	Disposition	Legal Citations	References
This record series consists of audit logs created to document compliance with PCI Data Security Standards. Logging mechanisms and the ability to track user activities are critical in preventing, detecting, or minimizing the impact of a data compromise. The presence of logs in all environments allows thorough tracking, alerting, and analysis when something does go wrong.	One (1) fiscal year from the end of the fiscal year in which the log was created with a minimum of three (3) months immediately available for analysis (for example, online, archived, or restorable from backup).	This record series contains confidential/sensitive information and must be destroyed in a secure manner that will prevent reconstruction of the information.	PCI Security Standards Council - Data Security Standard 10.7, NRS 603A.215	Retaining logs for at least a year allows for the fact that it often takes a while to notice that a compromise has occurred or is occurring and allows investigators sufficient log history to better determine the length of time of a potential breach and potential system(s) impacted. By having three months of logs immediately available, an entity can quickly identify and minimize impact of a data breach.
