Median Wage Subset	9
Appendix	10

Background

The following report considers the cost of providing Medicaid to members who work for an employer with 50 or more employees for State Fiscal Year (SFY) 2019. This report was created to meet the requirements set forth in Senate Bill 366 of the 2017 Legislative Session. Senate Bill 366 requires "... the Department of Health and Human Services to prepare an annual report which lists all employers in this State which have 50 or more employees and the number of full-time employees of such an employer who are enrolled in Medicaid."

Technical Notes

Determining if a company had employees on Medicaid was done by matching Medicaid members to records in the Department of Employment, Training, and Rehabilitation (DETR). This match provided quarterly wage information and the identification number of the employers that Medicaid members worked for during each quarter of SFY 2019.

Employment was then defined using the wage threshold associated with earning minimum wage in Nevada. More specifically, the group of Medicaid members presented in this report represents employees who earned \$3,480.00 or more in gross wage earnings for any 12-week consecutive period (one quarter) in SFY 2019, as reported to DETR. This gross quarterly wage represents the minimum wage of \$7.25 an hour paid to employees who worked 40 hours per week.

DETR also supplied a file with the employer identification number, company name, and address for employers in Nevada with 50 or more employees. The wage file and employer file were then combined to identify which Medicaid members were employed by companies with 50 or more employees. It is important to note that a Medicaid member may have had more than one employer during the year. The total cost to Nevada Medicaid represents a distinct cost to the state. However, the cost associated with each company considers the complete cost of the employees and dependents of that company and may be duplicated across companies when an individual is employed by multiple employers.

To determine dependents of Medicaid members who work for a company with 50 or more employees, corresponding case IDs (ICIs) were identified for the list of Medicaid members who work for companies with 50 or more employees and all other members of the case were counted.

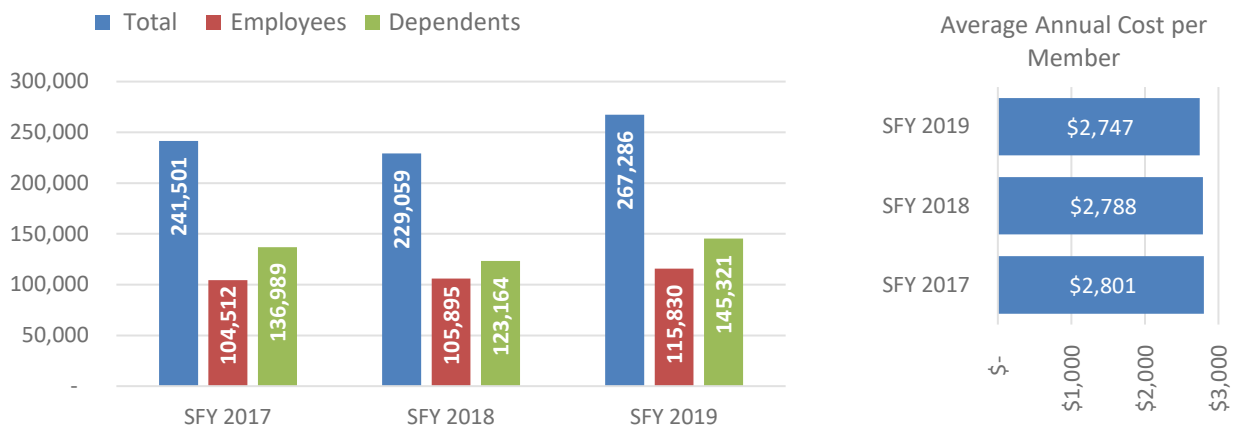

Determining whether or not an employer offered health coverage benefits was done by matching the employer's Employer Identification Number (EIN) against the Department of Labor's Employee Benefits Security Administration's database of Form 5500's filed by the employer. Form 5500 identifies the different welfare, health, and pension plans offered by an employer. A value of 4A in line 8b on Form 5500 indicates that the employer offers a health benefits plan and a value of 4U in line 8b on Form 5500 indicates that the employer has a collective-bargained welfare arrangement. However, not all employers need to file a Form 5500 and may offer health benefits to their employees. The Division of Insurance does not currently track which employers offer health insurance unless there is a consumer complaint.

Results

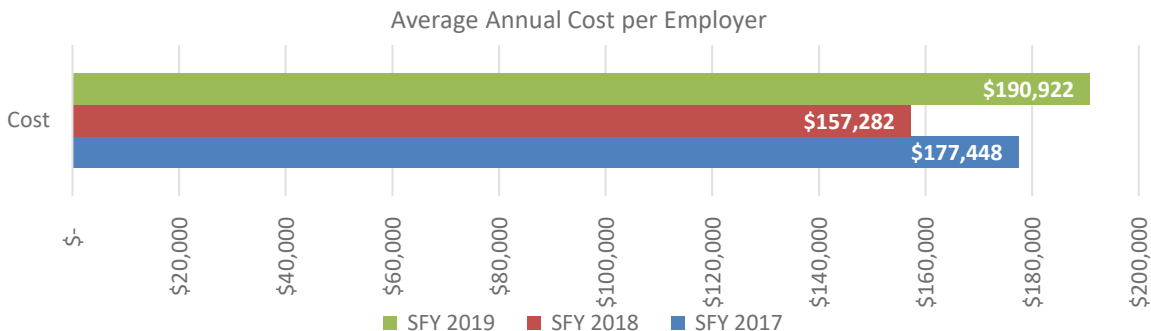

In SFY 2019 there were 115,830 Medicaid members employed by employers with 50 or more employees and an additional 145,321 dependents. The total cost of providing health care to these employees was approximately \$422,032,965. The total cost for providing health care to the dependents of these employees was approximately \$312,289,084. Combining these costs, the overall cost of health care to these Medicaid members was \$734,322,050.

	SFY 2017	SFY 2018	SFY 2019
Cost to Nevada Medicaid	\$ 676,547,896	\$ 638,563,801	\$ 734,322,050

Over the past three state fiscal years, the annual average cost per this subset of Medicaid members has slowly declined from \$2,801/member in 2017 to \$2,747/member in 2019. Still, the overall cost to Nevada Medicaid has increased, due to an increase in the number of Medicaid members working for employers with 50 or more employees.

The average company with 50 or more total employees, and with employees on Medicaid, had 31 employees on Medicaid and 35 dependents associated with these employees on Medicaid, with an average cost to Nevada Medicaid of \$190,922 annually and a median cost to Nevada Medicaid of \$72,125 annually.

As shown in the table on page 6, this average is highly skewed by the top companies with the most employees and dependents on Medicaid. For example, the health care coverage costs associated with Medicaid members who were employed by Wal-Mart Associates Inc. and their dependents alone cost

Nevada Medicaid \$19,630,091. The table below displays the companies who made up the top 10 employers when ranked by the number of employees and dependents on Nevada Medicaid.

Top 10 Employers by Number of Employees and Dependents on Medicaid

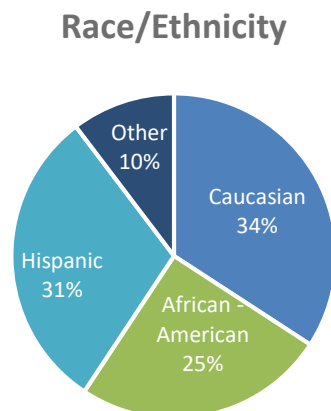

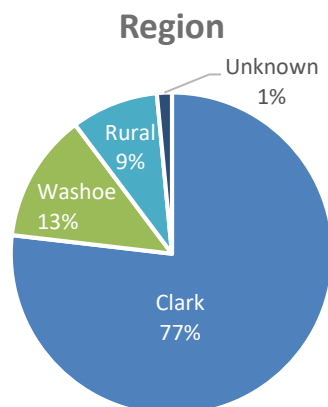

Rank	Company Name	Form 5500	Employees on Medicaid		Dependents on Medicaid		Total

- Wal-Mart Associates Inc. has been the leading employer of Nevada Medicaid recipients consistently for the past three years, followed by Clark County School District.
- Amazon has been ranked third for the past two consecutive years, after not appearing in the top 10 in SFY 2017.
- Smith’s Food and Drug, State of Nevada, Sutherland Global Services, Sitel Operating Corporation, Wynn Las Vegas, and Peppermill Casinos are consistently among top employers of Medicaid recipients.
- Tesla Inc. appears on the top 10 list for the first time in SFY 2019, ranked eighth.
- Aria Resort & Casino LLC was in the top 10 in previous years but has moved out of the top 10 in SFY 2019.

Employee Demographics

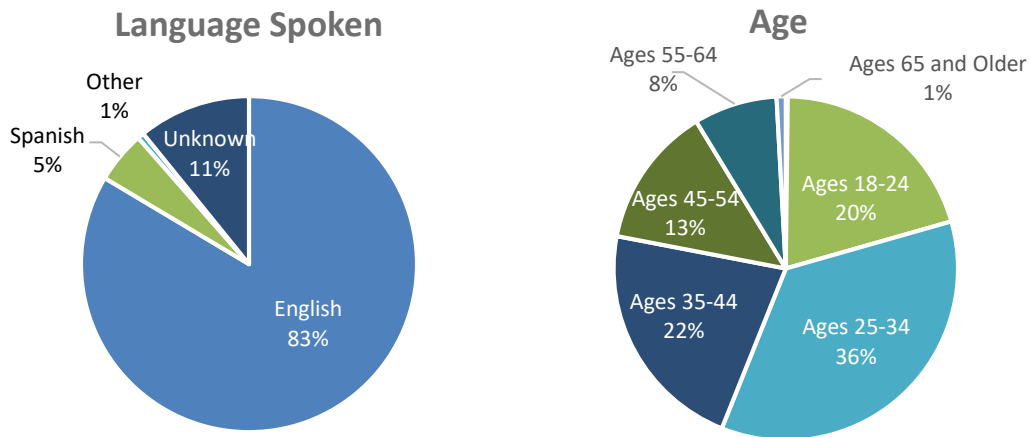

The majority of these Medicaid members lived in Clark County (77%), with 13% in Washoe County and 9% in the remainder of the state. Region of residence was unknown for 1% of these members.

Thirty-four percent (34%) were Caucasian, 31% were Hispanic, 25% were African American, and 10% were of another race/ethnicity.

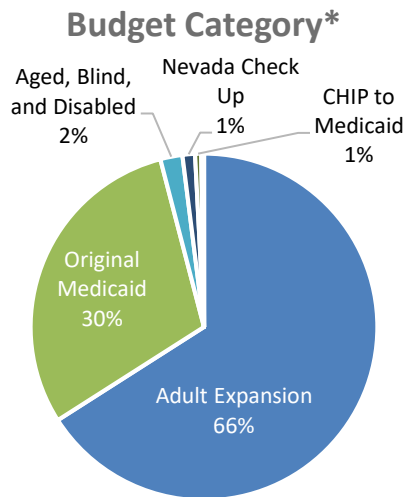

Most of these Medicaid members spoke English as a primary language (83%), with 5% listing Spanish as their language spoken. One percent (1%) listed another language and 11% had an unknown language.

Twenty percent (20%) of these Medicaid members were 18-24 years old, 36% were 25-34 years old, 22% were 35-44 years old, 13% were 45-54 years old, 8% were 55-64 years old, and 1% were 65 years old and older. Age was unknown for 1% of these members.

The majority of these Medicaid members were eligible for Medicaid under the Adult Expansion budget category (66%). Thirty percent (30%) were eligible under Original Medicaid, 2% were eligible under the Aged, Blind, and Disabled category, 1% were eligible under Nevada Check-up, and 1% were eligible under CHIP to Medicaid.

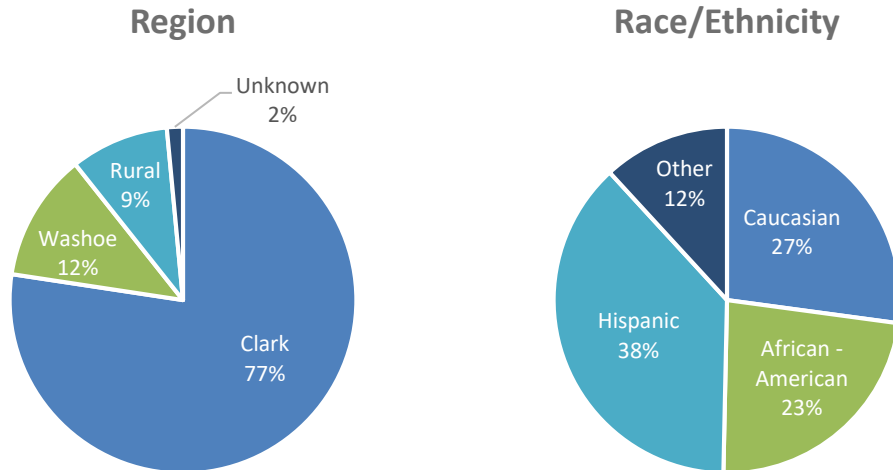

**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Dependent Demographics

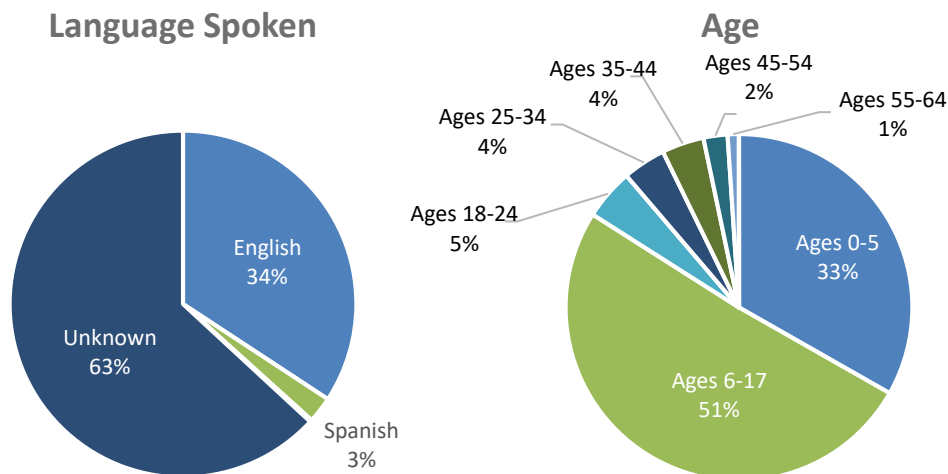

The majority of the dependents of these Medicaid members also lived in Clark County (77%), with 12% in Washoe County, 9% in the remainder of the state, and 2% with unknown address information.

Twenty-seven percent (27%) were Caucasian, 38% were Hispanic, 23% were African American, and 12% were of another race/ethnicity.

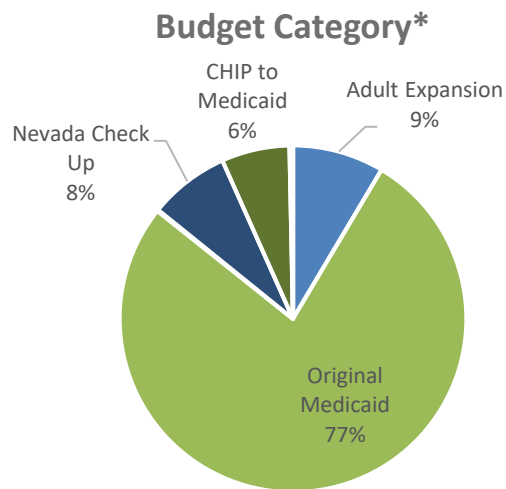

Language information was unknown for most of the dependents (63%). Thirty-four percent (34%) spoke English as a primary language, and 3% listed Spanish as their language spoken.

Thirty-three percent (33%) of the dependents were 0-5 years old, 51% were 6-17 years old, and 15% were 18 years old or older.

Most of the dependents were eligible for Medicaid under the Original Medicaid budget category (77%). An additional 9% were eligible under Adult Expansion, 8% were eligible under Nevada Check-up, and 6% were eligible under CHIP to Medicaid.

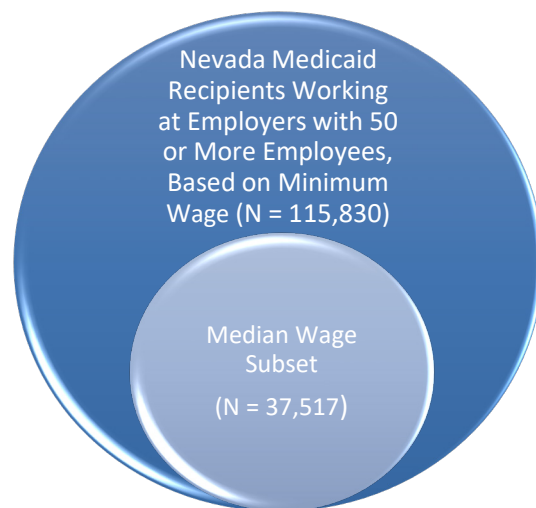

**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Aged, Blind, and Disabled, Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Median Wage Subset

It may also be of interest to consider the subset of these employees who earned enough in wages to meet the quarterly wage threshold associated with the median Nevada wage. More specifically, the subset of these Medicaid members who earned \$8,203.20 or more in gross earnings in a quarter. This gross quarterly wage represents the median wage in Nevada as of May of 2018, according to the Bureau of Labor Statistics, of \$17.09 an hour¹.

Out of the 115,830 Medicaid members employed by employers with 50 or more employees who earned \$3,480.00 or more per quarter, 37,517 Medicaid members (32%) earned \$8,203.20 or more in gross earnings in a quarter. There were also 52,805 dependents associated with the Medicaid members in this subset. The demographics associated with this subset did not differ significantly from the demographics of the larger pool of Medicaid members and dependents considered in this report.

¹ "Nevada - May 2018 OES State Occupational Employment and Wage Estimates." U.S. Bureau of Labor Statistics, U.S. Bureau of Labor Statistics, 2 Apr. 2019, https://www.bls.gov/oes/current/oes_nv.htm#00-0000.
