NEVADA'S

July - August - September 2013 System Changes STATE MAINTAINED HIGHWAYS DESCRIPTIONS AND MAPS

(aka Description Index)

Note: Please remember, resources like Google Maps, MSN Maps, Wikipedia and other web based resources do not reflect the most current information regarding the State maintained routes. Changes to the routes can occur so quickly they may not be reflected in these resources for quite some time. State System changes are announced via a quarterly memo, which is posted on the NDOT Internet site under the Documents tab, and also on the NDOT Roadway Systems Sharepoint site under Shared Documents. However, if you are looking for the most up-to-date information it is best to contact us via e-mail or phone

INTRODUCTION

This document was created to provide users with a single source reference for the current State System. It contains the official description and mileage for all State maintained routes and is divided into two main sections.

The first section contains a list of State maintained Interstate (IR), United States (US), and State Routes (SR) by County, to include the begin and end points and the total length of the route. Also included in this section are Access Roads (AR), Escape Ramps (ER), Frontage Roads (FR), State Park Roads (SP), and Rest Parks (RP).

The second section contains a summary of the State System by rural/urban designation and by District. A summary of the routes by county, and a cross reference linking the current State System to previous route aliases is also included. As changes to the State Maintained Roadway System occur, the Roadway Systems Division will notify the Department through a Quarterly System Change Memorandum. Copies of these memos can be found on the NDOT Intranet Sharepoint site under the Roadway Systems Division.

Also included are the Route Master Identification (RMID) numbers and the cardinal direction for US, IR and SR roads. The Route Master is a program application that assigns a unique number to segments of line work in the geospatial representation of the State Road Network. The State Road Network is established by the Location Division Geographic Information Systems (GIS) section and verified by Roadway Systems. The RMID number correlates to a route in the geospatial representation. The cardinal direction reflects the direction in which the road begins and ends.

Any questions regarding this document or for additional copies please contact Patty Shinault at (775) 888-7447 or by e-mail at: pshinault@dot.state.nv.us. You may also obtain an electronic copy by visiting our website at <http://www.nevadadot.com>
