

AUTOMOBILE WRECKER TOW CAR OPERATOR INSTRUCTION GUIDE

October 2004

PREFACE

The Nevada Department of Motor Vehicles has prepared this guide to assist Nevada Automobile Wreckers and Tow Car Operator when conducting business with the Department. It was created as an informational and instructional reference, and attention to the detailed information and examples will ensure proper completion of forms required to register and/or title vehicles in the State of Nevada.

Implementation of requirements as outlined in this guide and attention to detail when completing forms will be beneficial to you, your customers and the Department. Documents properly prepared and submitted will ensure that our records are correct. This allows the Department to respond to inquiries from consumers, vehicle industry members and law enforcement with up to date, accurate information.

If you have any suggestions that may help improved this guide, please provide them in writing to:

SECTION I

GENERAL INFORMATION

AUTOMOBILE WRECKER OPERATIONS

ACQUIRING VEHICLES

Nevada automobile wreckers may acquire vehicles in the following manner:

1. By direct purchase, with the owner providing title documents.
2. By direct purchase, with an automobile wrecker providing a salvage title, non-repairable vehicle certificate or junk certificate.
3. By direct purchase, with an insurance company or its agent providing a salvage title, non-repairable vehicle certificate or junk certificate.
4. By direct purchase, with a salvage pool providing salvage title, non-repairable vehicle certificate or junk certificate.
5. Through receipt of a vehicle removed from public or private property at the request of an enforcement agency or property owner.
6. Lien Process.
7. Junk Certificate.

ACQUIRING PARTS OF PARTIAL VEHICLES

When an automobile wrecker acquires parts of a vehicle through purchase or exchange, a bill of sale from the owner of the parts must be maintained.

If a vehicle that has been partially dismantled is acquired, a written statement from the owner, listing those parts that have previously been removed is required. If the part includes the frame or other major component, a salvage title may be required.

GUIDELINES

Always type or print in black or dark blue ink.

The owner's full legal name and address information must be recorded on registration and title documents exactly as it reads on the owner's driver's license.

Ensure that the vehicle identification number (VIN), year, make, odometer readings and registered owner and legal owner information are consistent on all documents.

Signatures must always be handwritten. A printed release will not be accepted unless accompanied by a notarized or witnessed statement (from the person in question) stating that the signature is a legal signature.

Do not use correction fluid or correction tape.

Do not alter any information on documents.

A release should be the same, as it appears on title documents, i.e., Elizabeth should sign as Elizabeth, not Liz.

All documents must be originals, unless certified to be true copies of the original document.

IMPORTANCE OF ACCURACY

The Department of Motor Vehicles uses the Vehicle Identification Number (VIN) as the primary identifier for entry and retrieval of records. It is therefore critical that all documents are completed using the correct VIN.

TO AVOID ERRORS:

- Ensure the entire VIN is used at all times.
- Ensure the VIN is entered or recorded legibly and accurately. It is best to use block letters.
- If the VIN is handwritten, try to avoid the following most common errors:

<u>LETTER</u>	<u>MAY BE MISTAKEN FOR</u>
B	13 or 8
D	0
G	6 or C
J	T or I or 5
R	K
S	5
Y	4 or H
Z	2 or a 7 on a line
U	Y or V

“l” and “1” are often confused. The letter “l” is rarely used in a VIN. The number 9 and/or 4 can also be confused if not written legibly.

The letter “O” is never used in a VIN, with the exception of VINs that are assigned by the States of Colorado (i.e., COLO123456) or Missouri (DR000000MO or DRMVB0000000000MO).

VEHICLES IDENTIFICATION NUMBER INFORMATION

Since 1954, American automobile manufacturers have used a Vehicle Identification Number (VIN) to identify and describe a vehicle.

Since 1981, all manufacturers of vehicles sold in the United States are required to use a standardized 17-digit VIN structure. When the Department is provided with a vehicle with an 18-digit VIN, the first letter or number is dropped.

Variations exist in the location of a VIN and in the systems used for a VIN; they may vary by year of manufacture and between manufacturers.

A VIN should always be verified by a physical inspection of the vehicle.

ATTEMPT TO CONTACT

If the Department of Motor Vehicles requires evidence of an "Attempt to Contact" the owner or lienholder of a vehicle, you must do the following:

- Write to the owner of record asking them to sign the enclosed documents (Bill of Sale, Application for Duplicate Title etc., depending on the requirements) in front of a Notary or to contact you. Caution: Do not mail original ownership documents that are in your possession. Mail photocopies of the ownership documents.
- If you need a signature on an original document, and it is a secure document (ie, Secure Power of Attorney, Title) a photocopy is not acceptable.
- Send the letter by "Certified Mail – Return Receipt Requested." Keep the payment receipt, issued to you by the Post Office, with your records. Retain copies of everything you mail.
- If the letter is returned with a forwarding address filed with the U.S. Postal Service, resend the letter to the forwarding address by "Certified Mail – Return Receipt Requested."
- If the letter is returned to you as "Undeliverable," do not open it; or
- If you receive a signed Post Office Receipt showing the letter was received and fifteen (15) days have passed since the date of receipt:
- Bring all documents for the vehicle, along with the returned letter or the signed receipt, to the Department of Motor Vehicles.
- If the former owner(s) contact you and provide you with the necessary signatures, the receipt or returned letter is not needed.
- Prior to being issued a vehicle registration or title, you may need to have a vehicle identification number inspection completed on the vehicle.

MOTOR HOME

Motor homes are vehicles described as permanently attached to a self-propelled chassis and that are designed for use as temporary living quarters. Nevada Revised Statutes define three types of motor homes.

Definitions

Mini motor home (NRS 482.066): A vehicular-type unit designed for temporary living quarters for travel, camping or recreational use, which is:

1. A structure attached permanently on a self-propelled chassis; or
2. A portable unit designed to be affixed permanently to a truck chassis with cab, which is designated as a mini motor home by the manufacturer.

Motor home (NRS 482.071): A structure:

1. Attached permanently to a self-propelled motor vehicle chassis;
2. Designed as a temporary dwelling for travel, recreational or camping use; and
3. When assembled for the road, having a maximum body width of 102 inches.

Chassis-mount camper (NRS 482.0151): A portable unit designed to be permanently affixed to a truck chassis and cab, and so constructed as to provide temporary living quarters for travel, camping or recreational use.

In all cases, the chassis/frame number is used as the Vehicle Identification Number (VIN).

The make of the vehicle is the motor home name, not the chassis/frame manufacturer.

Example: Winnebago makes the Itasca and Fleetwood makes the Tioga. The makes are therefore Itasca and Tioga; Winnebago and Fleetwood are not used.

The vehicle year is as established by the manufacturer on the vehicle's original documentation.

Example: The chassis/frame is manufactured in 2003, the body is manufactured in 2004, and therefore the vehicle year is 2003.

In all cases, the vehicle length must be included on the registration and title documents as part of the vehicle description.

**NOTARIES PUBLIC
NRS 240.010 – 240.150**

If a document must be notarized, the provisions of Nevada Revised Statutes (NRS) 240.010 through 240.150 must be followed.

A Notary Public may not perform any act authorized by NRS 240.065 if he or she:

- Executed or is named in the instrument acknowledged or sworn to;
- Will receive, directly from a transaction relating to the instrument, any commission, fee, advantage, right, title or interest, property or other consideration in excess of the authorized fees; or
- Is related to the person whose signature is to be acknowledged or sworn to as a spouse, sibling, or lineal ancestor or descendant.

SECTION II

OWNERSHIP DOCUMENTS

**NEVADA TITLE
NRS 482.285 and 482.400**

There are currently several valid styles of Nevada Certificates of Title (Form RD-2) in circulation. For the purpose of this guide, only the two most recent styles will be addressed (Revision 10/96 and Revision 10/01).

The owner or seller must sign the certificate of title exactly as the name appears on the face of the certificate of title.

- If there is more than one owner or seller, and they are joined by “and,” the signature of each owner or seller is required.
- If there is more than one owner or seller, and they are joined by “and/or” or “or,” only one of the owner’s or seller’s signature is required.
- If there is more than one owner or seller, and there is no name code between them, the signature of each owner or seller is required.
- If the owner or seller information is in the name of a business, the name of the business must appear along with the signature of an authorized business representative.

Buyer information must be completed indicating exactly how the new certificate of title is to read, using the buyer’s full legal name as it appears on their driver’s license.

ALTERATION OR ERASURE VOIDS THIS TITLE

OUT-OF-STATE SALVAGE CERTIFICATES

Salvage titles issued by other states must be properly endorsed and must indicate and document a complete “chain of ownership” for the vehicle.

Contact the Department prior to accepting documents for a salvaged or junked vehicle, as laws from other states vary, and there may be instances where the Department must determine whether the documents can be accepted and whether a Salvage Title can be issued.

**NON-REPAIRABLE VEHICLE CERTIFICATE
(FORM RD2-NR)**

A Non-Repairable Vehicle is defined as a motor vehicle, other than an abandoned vehicle that:

1. Has value only as a source of parts or scrap metal;
2. Has been designated by its owner for dismantling as a source of parts or scrap metal;
3. Has been stripped of all body panels, doors, hatches, substantially all interior components and substantially all grill and light assemblies; or
4. Has been burned, destroyed or otherwise damaged to such an extent that it cannot be returned to a condition which is legal for operation on the highways of this state.

A Non-Repairable Vehicle Certificate will be issued, upon application, for a vehicle as described in the definition (follow directions for Application for Salvage Title or Non-Repairable Vehicle Certificate, page II-3). A Non-Repairable Vehicle Certificate must be issued before the ownership interest in a non-repairable vehicle may be transferred.

Once a vehicle has been issued a Non-Repairable Vehicle Certificate, the vehicle may not be registered or issued a Certificate of Title, or be restored for use on Nevada highways.

A vehicle for which a Non-Repairable Vehicle Certificate has been issued may not apply for or be issued a Salvage Title.

Transfer of ownership for a Non-Repairable Vehicle may only occur between a licensed automobile wrecker, dismantler or recycler. A licensed automobile wrecker, dismantler or recycler may only process a Non-Repairable Vehicle as parts or scrap metal.

A Duplicate Non-Repairable Vehicle Certificate may be issued by completing an Application for Salvage Title or Non-Repairable Vehicle Certificate, checking the transaction type box, indicating "Duplicate."

No fee is assessed for a Non-Repairable Vehicle Certificate.

POWER OF ATTORNEY (RD-136)

A power of attorney is a legal document whereby one individual conveys to another the legal right to act on his or her behalf. A general or specific power of attorney cannot be used to disclose the odometer reading on vehicles nine years old or newer.

If the right to release interest in a vehicle has been conveyed to another person or firm by power of attorney, the original power of attorney must accompany the title or ownership documents, and it must contain a complete description of the vehicle, including the vehicle identification number, year, make and body type.

If a general power of attorney is used to convey an individual's legal rights, a photocopy attached to the title or ownership documents is acceptable.

A power of attorney becomes null and void upon the death of the individual who conveyed his or her rights to another.

The power of attorney must be exercised by the person or firm named as representative on the form. To properly exercise the power of attorney, the name of the owner must be listed prior to that of the representative.

- Example for an individual:
Sharon Smith by Jane Doe, P of A
- Example for a business:
Sharon Smith by Morrison's Garage George Morrison, P of A

The power of attorney may only be exercised on the Certificate of Title or document for which the authority was granted. Otherwise, it is null and void.

The power of attorney must be witnessed by a notary public or authorized Nevada Department of Motor Vehicles employee or representative.

When the power of attorney is used to release ownership of a vehicle, the Certificate of Title must be signed in the appropriate area by the individual appointed as power of attorney.

If a specific power of attorney is used to release ownership of a vehicle, only certified copies are acceptable. The following statement must be included on the certified copy:

"I hereby certify that this is a true and exact copy of the original that is being held in our files. I further certify that the original will be available during normal business hours for review by Department of Motor Vehicles personnel if necessary."

If a power of attorney is given to a business, the certification statement must include the business stamp or the printed or typed name of the business, the signature of the individual authorized to act on behalf of the business and the printed or typed name of the person certifying the copy of the specific power of attorney.

LIEN SALES

LIEN SALES

Any person who is entitled to impose a lien on a motor vehicle as provided for in Nevada Revised Statutes 487 or 108 may, without process of law, detain the vehicle in his possession until the sum due to him is paid. If the sum due is not paid the lien may be satisfied by a sale. Prior to the sale, Nevada law requires the lien claimant to meet a number of requirements.

The following information is intended to help you process a lien sale in a minimum amount of time, while meeting all statutory requirements. Samples of letters and forms are provided for your convenience.
