## 2. Naming of Campus Buildings

Institutions of the NSHE shall adhere to the following standardized procedures for naming buildings, rooms, or public spaces. Names for new or unnamed buildings, building additions, or for renaming existing buildings are subject to approval by the NSHE Board of Regents. Names for a room, part of a building or a public space on campus are subject to approval by the president of the institution with written notification to the chancellor.

- a. The naming of a building, room, part of building, or public space shall be considered in accordance with the following principles, if it is to be named after a person or persons:
  - i. Years of service to public education;
  - ii. Contributions to public education (other than employment);
  - iii. Quality and time of service to community or state;
  - iv. Years residing in the community or state;
  - v. Contributions to the development of the community or state; and

When a building is named in recognition of a donor or non donor honoree that name will generally be effective for the useful life of the facility.

- b. When a building named in recognition of a gift or an individual has reached the end of its useful life and will be replaced or substantially renovated, the replaced or renovated building may be renamed. Appropriate recognition of earlier donors and honorees shall be included in or adjacent to the new or renovated building or in an appropriate way on the same campus. When a building is proposed for renaming, the institution will make all reasonable efforts to inform in advance the original donor or honorees and their immediate family members, as appropriate.
- c. A name on a building that was named in recognition of a gift may be removed with approval of the Board of Regents if the donor defaults on the gift.

- e. No more than one building at the same NSHE institution shall be named for a single individual. Exceptions shall be allowed for buildings named for a private foundation, private donors, or at the request of private donors regardless of being otherwise disqualified under subsection (d) above.
- f. In the exercise of its discretion, the Board of Regents may waive any limitations contained in subsections (d) and (e).
- g. In considering potential names for new buildings, both the campus constituents and appropriate community groups shall be consulted, as appropriate.

- h. For buildings 1) located on property not owned by NSHE or 2) built cooperatively in partnership with another entity, the selection of a name to be recommended by the president shall be done in consultation with the partner.

### 4. Capital Improvement Programming

The following general procedures and divisions of responsibility shall govern the capital improvement programming of all NSHE projects:

- a. The NSHE shall determine the sequence of priority and scope of work of all NSHE projects.
- b. The sequence of priority and scope of work shall be submitted to the State Public Works Board for review and comment. Should the State Public Works Board disagree with the projects submitted, or the priority assigned, the submission shall be returned to the NSHE with an explanation. Representatives of the two agencies shall then meet and attempt to develop a satisfactory list. Should agreement not be reached, the proposals of both agencies shall be transmitted to the Governor and Legislature by the respective agencies.
- c. The State Public Works Board shall develop budget estimates of total project costs based on the project scope of the work and shall submit the budget estimates to the NSHE for review and comment prior to adoption.

### 5. Project Design Process for State Funded Projects

The following general procedures and divisions of responsibility shall govern the design of all projects financed in whole or part by state-appropriated funds:

- a. Detailed project programs based on legislative action shall be prepared by the campus committee and submitted to the State Public Works Board for approval.

- b. The campus committee shall include representatives from the college or department to be served by the building, at least one representative from the Physical Plant Department/Facilities Management and the chief financial officer serving that campus. The program shall contain the educational and departmental needs for space with proposed room sizes.
- c. Detailed project budgets based on the campus program and legislative appropriations and authorizations shall be prepared by the State Public Works Board and submitted to the campus committee for review and comment prior to adoption by the State Public Works Board.
- d. The State Public Works Board shall insure that qualified architects and engineers are retained to design all projects. On all campus projects, the State Public Works Board shall extend to the Board of Regents the courtesy of nominating two or more architectural or engineering firms, ranked in preferential order, and the State Public Works Board shall either select from among those nominated or request a new slate be submitted. The preparation, execution and administration of professional service agreements shall be a State Public Works Board responsibility.
- e. Preliminary plans and specifications, which shall include a cost estimate, a building configuration, number of floors, shape, exterior appearance, building blueprint, elevations, relationship to other facilities on campus, relationship of departments and rooms within the structure, shall be recommended by the campus building committee to its president for approval. The president will then forward the preliminary plans to the State Public Works Board for its approval.
- f. During the preparation of the working drawings, all communications from the architects, consultants or State Public Works Board shall be directed to the chief financial officer or designee from the Physical Plant Department/Facilities Management.
- g. Final plans, including final cost estimates, must be presented by the architects or consultants to the campus for approval. The chief financial officer will present the final plans to campus users and recommend approval to the president. Recommendations on the arrangement of the alternates, if any, should be recommended by the chief financial officer. The president will then recommend the final plan to the Board of Regents for approval prior to forwarding the final plans to the State Public Works Board for its approval.
- h. The contract documents and bid schedule shall be approved by the State Public Works Board after consultation with the campus. All contract and financial documents shall be directed through the chief financial officer of the campus.
- i. The bidding procedures shall be a State Public Works Board responsibility.
- j. The technical and professional staffs of the campus and the State Public Works Board shall cooperate to ensure the satisfactory design of the project.

## 6. Construction Projects

The following general procedures and divisions of responsibility shall govern the construction procedures on all projects funded in whole or in part by State appropriated funds:

- a. The State Public Works Board shall award construction contracts with the concurrence of the campus. Construction contracts jointly financed by state appropriated funds and by non appropriated funds shall be executed by both the State Public Works Board and the campus.
- b. The administration of construction contracts shall be a State Public Works Board responsibility and the Board shall comply with all commitments made by the campus in obtaining non-appropriated funds. Expenditures during the administration of the contract shall be consistent with the approved budget. All change orders shall be submitted to the campus for review and comment prior to approval. During the construction of the project, the campus will be represented by the Physical Plant Department/Facilities Management. All communications from the contractor, architects, consultants or the State Public Works Board should be directed to the chief financial officer or designee from the Physical Plant Department/Facilities Management.
- c. Final inspection will be made by the State Public Works Board, architect/consultants, and the Physical Plant Department/Facilities Management to assure that the building has been built in strict conformance with the plans and specifications. The project should be signed off, not only with a deficiency list, but with the approval of consultants attesting to the fact that it does meet the plans and specifications as drawn and that it will function as designed by them. The campus will accept the building in writing subject to corrections of the deficiency list. The State Public Works Board shall, prior to final payment to the contractor, provide copies of "As built" drawings and guarantees to the campus on all completed projects. Sufficient funds should be retained to guarantee the completion of all items should there be a partial occupancy or a substantial notice of completion filed. All deficiencies discovered by the users should be channeled through the Physical Plant Department/Facilities Management to the State Public Works Board for correction by warranties, by the contractors or by the campus. At the eleventh month of the guarantee period, the Physical Plant Department/Facilities Management and the State Public Works Board will be responsible for guaranteeing that all one-year warranties have been met by the contractors.
- d. Final acceptance and the Notice of Completion shall be a State Public Works Board responsibility.
- e. The technical and professional staffs of the campus and the State Public Works Board shall cooperate to ensure the satisfactory completion of all construction projects.

## 7. Projects Financed by Non-appropriated Funds

- b. Preliminary plans showing the site and architecture may be submitted to the State Public Works Board for review and comment.
- c. Proposed acquisitions of land by the NSHE may be submitted to the State Public Works Board for review and comment.
- d. The State Public Works Board shall provide all possible architectural and engineering services to the NSHE upon request of the NSHE.
- e. Final plans of all construction work, which establish new facilities, shall be submitted to the State Public Works Board for review and comment prior to bidding.

## 8. Disposal of Surplus Equipment

- a. Departments having surplus equipment will notify their respective Purchasing Department of intent to dispose of said equipment.
- b. The department and Purchasing will jointly arrive at a "fair market value" and establish a minimum acceptable bid for the equipment.
- c. Purchasing will circulate to all departments in the business center a notice of surplus equipment which shall include a description of the equipment, a statement of its conditions, the minimum acceptable bid, the location of the equipment, and a deadline for acceptance of bids.  
  
Included in the notice will be listed only those items, which in the opinion of the Purchasing Department and releasing department, are in good useable or economically repairable condition and in the best interest of the institution to retain for campus use.
- d. Bids will be accepted and equipment will be purchased by the department submitting the highest bid. Department accounts will be charged accordingly.
- e. A "Furniture and Equipment Pool" will be established by each campus whereby usable Items may be placed in the pool for future disposal.
- f. Any remaining equipment not purchased following the above procedure will be disposed of by advertising for sealed bids, open auction, or by whatever manner is most advantageous to the Purchasing Department but governmental or other political subdivisions shall be given preference. Thereafter, the Purchasing Department will consider disposal by discard or donation.

9. Equipment Inventory (formerly CM 01-03)

Title 4, Chapter 10, of the *Board of Regents Handbook* provides that equipment that exceeds certain cost thresholds is required to be inventoried by each NSHE institution.

The following items must also be inventoried by the institution regardless of acquisition cost.

1. Firearms
2. Computers: i.e. desktop, servers, laptop

Institutions that wish to inventory additional items within the aforementioned definition may do so at their discretion.

- a. Equipment is anything tangible, other than real property, with a value equal to or more than an amount determined by the respective Purchasing Department.
- b. Each department has custodial responsibility for all equipment within its jurisdiction. Each department is also responsible for reporting all additions, deletions, and material changes in condition of equipment within their unit, to the respective Purchasing Department.
- c. The respective Purchasing Department, through its Fixed Assets Section, is responsible for maintaining and reporting records of equipment inventories. The Purchasing Department is responsible for establishing and monitoring control procedures, ensuring that purchase acquisitions of inventoried equipment are properly recorded and recording equipment disposals.
- d. Deans, directors and department heads are responsible, within their area, for reconciling annual physical inventories with periodic or special Purchasing Department reports. The accuracy of such reconciliations shall be documented by signed certification.
- e. Loans of equipment to not-for-profit and non-political entities may be made if it is determined to be in the best interest of the institution and the public good. All loans must be documented in writing, including which entity is responsible for maintenance, and approved by the president. Each president shall submit to the chancellor annually a list of loaned equipment.
- f. All equipment located at off-campus sites and used for institutional programs must be inventoried and maintained in the same manner as equipment on campus. If the institution does not control the site, written agreements must be in place with the organization that owns or controls the site.

### **Section 3. New Campus and Branch Campus Instructional Sites**

The following criteria approved by the Board of Regents shall be used in developing instructional sites:

1. Campus

A campus is the primary institutional site that provides complete instructional services, including a full range of student and academic support services. A campus offers a comprehensive general education program plus specialized academic programs. Facilities shall include classrooms, laboratories, a library and other learning centers, a student counseling/advising center, registration and bursar functions, and a bookstore. A campus will enroll a sufficient number of students to offer an array of courses and programs sufficient to meet fully the institutional mission approved by the Board of Regents.

2. Branch Campus

A branch campus is a permanent or semi-permanent partial service facility that is either owned or leased by the NSHE where limited general education and specialized programs are made available. Classrooms and partial student and/or academic support services are provided by the institution. Laboratory facilities may also be provided in some circumstances.

3. Satellite

A satellite is a small flexible instructional facility with limited offerings. Facilities include modest classroom space, but generally no laboratories. Permanent student support services are not made available at the satellite site. Satellite sites are not owned by the NSHE but are rented or leased or provided by the local community, a government agency, or a corporate sponsor. Satellite sites are temporary, based on community need, and no permanent commitment to maintain a satellite site should be implied.

4. Public School

A public school site may be developed in partnership with a school district where classes are offered to high school students and to other students with permission of the school district. Public school sites may be jointly owned and operated or owned by the school district.

(B/R 3/98; Added 6/05)

## **Section 4. NSHE Salvage Value Policy, July 2005**

Salvage or residual value is an estimate of the amount that will be realized at the end of the useful life of a depreciable asset through sale or other disposal. Frequently, depreciable assets have little or no salvage value at the end of their estimated useful life and, if immaterial, the amount(s) may be ignored.<sup>1</sup> Therefore, salvage value should generally not be utilized in calculating depreciation. This policy becomes effective July 1, 2005.

## **Section 2. Executive Evaluations**

### **1. ANNUAL EVALUATION OF NSHE PRESIDENTS (Board Approved 10/03)**

- A. The purpose of the annual evaluation is to provide ongoing, constructive feedback so that presidents may know how the Chancellor and the Board view their areas of strength as well as areas that may be improved upon. It also provides an opportunity for the president and Chancellor to discuss personal and institutional goals for the next evaluation period.
- 1) The president will prepare an annual confidential Self-Evaluation Report, addressing the areas of review as described in subsection B. The timeframe for the annual self-report shall be the prior calendar year.
  - 2) The Chancellor reviews the president's self-evaluation and prepares a confidential written evaluation assessing the president's performance against the goals set for the prior calendar year. The emphasis of the annual evaluation shall be on an analysis of areas for future focus and improvement.
  - 3) The Chancellor meets with the president to review the written evaluation and to agree on personal and institutional goals for the following evaluation period.
  - 4) If the Chancellor recommends a change to the president's contract a summary of the evaluation and the new evaluation goals will be provided to the Board of Regents. (These are public documents.) The Board will discuss the findings of the annual review at a meeting in an open personnel session and consider the contract recommendations.
  - 5) A copy of the confidential written evaluation, signed by both the Chancellor and president, is retained in the president's personnel file, along with a copy of the president's confidential annual self-evaluation report.
- B. The following format and evaluation criteria are based on principles developed by the Association of Governing Boards of Universities and Colleges for formative reviews and shall be considered in the annual evaluation of NSHE presidents.

#### **1. GOALS AND ACHIEVEMENTS**

- i. Discuss the goals you set for yourself and your institution last year along with a description of your efforts to meet them.
- ii. Discuss any other personal and institutional achievements that you, your senior management team, or your faculty are especially pleased to have accomplished. Include achievement in meeting institutional goals for the upward mobility of underrepresented groups (faculty, staff, and students).
- iii. Discuss any disappointments, frustrations, or problems you may have experienced during the past year, especially those that are likely to persist.

- iv. Discuss in a thoughtful way your relationships with the Board of Regents; your faculty, staff, students, alumni, and community leaders; and any other appropriate stakeholders or organizations.

## 2. CHALLENGES AND OPPORTUNITIES

- i. Outline your institution's principal challenges and opportunities as you see them.
- ii. List evaluation goals you propose for yourself and your institution for the next year. These goals should focus on, but are not limited to, meeting institutional and System-wide strategic goals in the following areas:
  - a. Academic Administration;
  - b. Academic Advancement;
  - c. Budgetary and Personnel Management;
  - d. Access and Diversity;
  - e. Research and Workforce Development; and
  - f. Internal Communication, External Relations and Fund-raising.
- iii. Provide any other thoughts, ambitions, or plans you have as president.

## 3. OTHERS

- i. Attach any other information or materials that will help assess your institution's achievements and progress over the past year or so.
- ii. If you wish, discuss your desires or plans for professional growth.

## 2. PERIODIC EVALUATION OF NSHE PRESIDENTS

A comprehensive, periodic assessment of the performance of each president in four key areas will be conducted in the next-to-last year of each contract period. The purpose of the periodic evaluation is to provide constructive feedback on measurable performance metrics assessed over a period of time so that presidents may know how colleagues, Regents, and key leaders in the community view their efforts, including areas of strength as well as areas that may need improvement.

- 1.) The president being evaluated shall prepare a written self-evaluation based upon the four areas of evaluation described in subsection 3. The self-evaluation shall be submitted to the Chancellor and provided to the Evaluation Committee.
- 2.) The Chancellor shall appoint an Evaluation Committee composed of not more than four individuals knowledgeable with the institution, including one senior faculty member. The Chancellor shall appoint one member to serve as Chair of the Committee. The Committee shall conduct the evaluation using the evaluation metrics described in subsection 3. The Committee shall be provided with the prior evaluation(s) of the president, if any, together with any interim annual evaluations.

- 3.) In advance of the evaluation, the Evaluation Committee and the Chancellor shall meet to review and discuss prior evaluations, the details of the current evaluation and any issues that may be raised during the evaluation process. The Chancellor shall provide the Committee with a list of stakeholders to be interviewed. The list shall consist of a wide variety of individuals, internal and external to the institution, who are knowledgeable about the president's work and shall include student leaders. The president shall be permitted to submit a list of potential interviewees. The Chancellor shall select the names to be forwarded from the president's list. The list shall be divided by the Chair among the four committee members. Appropriate accommodations will be made for the Evaluation Committee members to conduct interviews at institutions with multiple campus sites.
- 4.) The evaluation process will include the opportunity for a representative sample of vice presidents, deans, academic and administrative department heads, faculty, students, and community and alumni leaders to be interviewed, and may also include a faculty survey submitted in compliance with the provisions of this section. With the exception of the results of a faculty survey, the Evaluation Committee shall not accept anonymous materials, as part of the evaluation process.

The faculty senate may conduct a survey of faculty regarding the performance of the president. The survey shall address the Performance Metrics for the Periodic Evaluation of the Performance of NSHE Presidents set forth in Subsection 3. Within the scope of the Performance Metrics, the survey may also seek input regarding the effectiveness of the relevant institutional offices or departments. In preparing the survey and the final survey report, the faculty senate shall consult with the institution's general counsel to ensure the questions in the survey and the final survey report do not seek or contain comments about the performance of individuals other than the president. The final survey report must be provided to the Evaluation Committee.

The Chancellor shall establish guidelines in consultation with the faculty senate regarding the process, timeline, and notification schedule in order to obtain constructive feedback from the faculty.

- 5.) Prior to conducting interviews with institution constituents, the Evaluation Committee will meet with the president for the purpose of reviewing strategic plans, goals, objectives, resource allocation policies, major challenges and successes, and the president's own assessment of the interval being appraised. The Committee shall review the president's self-evaluation with the president and allow the president to discuss any relevant facts with the Committee.
- 6.) At the conclusion of this meeting, the Committee members shall disperse to meet with the assigned interviewees. The Committee shall also conduct an open forum for students. During the course of conducting the interviews, the Committee shall meet at the call of the Chair to review the interviews conducted so far and to discuss common thoughts and themes that have emerged from stakeholder input.

- 7.) At the conclusion of the interviews and student forum, the Committee shall meet with the president to discuss what its members have heard, including strengths and weaknesses of the president in the four areas of evaluation described in Subsection 3 and will recommend areas for future focus and improvement. The president shall be provided an opportunity to clarify points the president believes should be made.
- 8.) The Committee shall prepare a written report within two weeks of the Committee's final meeting with the president, with each member contributing a portion of the report as assigned by the Committee Chair. The Chair shall combine the individual member contributions into a final version of the report.
- 9.) The Committee Chair shall meet with the president to review the final evaluation report in order to correct any factual errors but other than such corrections, no changes may be made to the evaluation. The Committee Chair shall then deliver the final evaluation report to the Chancellor for transmittal to the Board.
- 10.) As soon as practical after the submission of the final evaluation report, the Chancellor will present an evaluation of the president, which shall include the final evaluation report, at a regularly scheduled meeting of the Board of Regents where the president will participate in an open personnel session to review the findings of the periodic evaluation. The open personnel session will take place on the first day of the meeting of the Board of Regents.
- 11.) At the conclusion of the periodic evaluation process, in an open personnel session on the second day of the meeting, the Board Chair may recommend contract terms and conditions for approval by the Board of Regents.
- 12.) A copy of the Chancellor's evaluation, the Evaluation Committee's report and a copy of the president's self-evaluation will be retained in the president's personnel file. All these documents are public documents.

### **3. PERFORMANCE METRICS FOR PERIODIC EVALUATION OF NSHE PRESIDENTS**

The periodic presidential evaluation shall be conducted with reference to the following criteria.

#### **Part 1. FUNDAMENTAL PRODUCTIVITY**

- A. Academic Completion – Student Success. The NSHE is a performance oriented system. Student success as reflected in academic completion is a key Board policy each president embraces. A president shall be evaluated based on:
  1. Graduation rates;
  2. The total number of degrees and certificates awarded; and
  3. Year to year persistence rates.

- B. Enrollment – Student Access. While the NSHE has moved from an input to an output formula, performance growth cannot occur without attracting more students. In addition, Nevada needs more graduates so serving more Nevadans remains important. A president shall be evaluated based on enrollment, including online enrollment.

NSHE has a fundamental commitment to equity and diversity. The president shall separately state institutional progress with respect to critical underserved populations, including minority groups and low income students, indicating efforts to close attainment gaps where they exist among populations.

NSHE community colleges serve a diverse student body and have more part time students. The Chancellor shall develop and utilize as a component of the evaluation a completion metric which reflects the complex mission of a community college.

- C. Grants/Contracts/Special Events/ Research and Development/Gifts. Funding is a challenge all institutions face. A major focus of every president is leading an institution that secures alternative funding sources. The sources include attracting grants, contracts and gifts. The goal is to diversify sources of college revenue through community partnerships.

A president shall separately state funding attainments in each of the following categories, giving the institution's baseline for the applicable evaluation period for each:

1. Grants and contracts;
2. Special events;
3. Research and development; and
4. Gifts.

The Chancellor shall develop data dashboards for reporting annual performance for the metrics in Part 1 that shall be reported to the Board and posted on the NSHE website.

## Part 2: INSTITUTIONAL WELL-BEING AND MANAGEMENT EFFECTIVENESS

- D. Entrepreneurship. Closely related to the metrics in Part 1 C is encouraging innovation and entrepreneurship throughout the institution. A president shall separately state steps the president and the institution have taken to encourage entrepreneurial activity.
- E. Campus Environment. As president, effectiveness as a leader echoes throughout the institution. A president shall detail any major initiatives or advancements to improve the campus environment under the president's leadership.

## Part 3: INSTITUTIONAL RELATIONS TO EXTERNAL COMMUNITIES

- F. Collaboration. NSHE consists of multiple institutions, making relations with other member institutions critical. A president shall work closely with other member institutions to further the goals of student success. A president shall separately state collaborative relationships with member institutions and plans for the extension of these partnerships.

- G. Regent Strategic Directions. The Board has adopted Strategic Directions and expects full participation by all institutions in critical initiatives such as 15 to Finish, eLearning, Effectiveness and Efficiency, iNtegrate 2 and similar programs. The Chancellor shall review and evaluate the activity and commitment of a president in achieving implementation of critical Board priorities.
- H. Community Partnerships and Connections. Connecting with communities is crucial. This extends beyond fund raising to ensuring the health of critical relationships throughout an institution's service areas. A president shall describe how critical partnerships and community and business relationships have been maintained and extended.

#### Part 4: OTHER

If a president believes other factors than those covered herein fundamentally reflect on the president's performance, the president may briefly describe such efforts separately. In preparing a self-evaluation, the president may also bring to the attention of the Evaluation Committee such distinct aspects and missions of the president's respective university, college or institute as the president deems appropriate to fully convey the essential nature of presidential performance and institutional advancement.

In addition to the factors above, the Evaluation Committee may consider such additional indicators of presidential performance as it deems appropriate to present a complete picture of the president's performance including, but not limited to, relationship with the Board of Regents, promoting and sustaining diversity, budgetary matters, academic and general administration, management and planning including planning for deferred maintenance, and if applicable, oversight and management of intercollegiate athletics.

### **4. CRITERIA FOR THE ANNUAL AND PERIODIC EVALUATION OF THE CHANCELLOR** (Board Approved 10/03)

#### **A. INTRODUCTION**

The principles for the evaluation of the Chancellor are similar to those for evaluating presidents. However, they differ in that the Chancellor is the chief executive of the NSHE and is directly accountable to the Board of Regents. It follows, therefore, that the Chancellor's evaluation must be conducted by the Board.

#### **B. SCOPE & FREQUENCY**

The Chair of the Board of Regents is responsible for conducting two kinds of ongoing performance evaluation of the Chancellor:

1. An Annual Evaluation conducted by the Chair of the Board and

2. An extensive Periodic Evaluation to be conducted in the next-to-last year of each contract period by an Evaluation Committee of the Board.

In both instances, the Chair may be assisted by the Vice Chair as needed and may have a person from outside the NSHE with extensive experience in higher education for the periodic evaluation.

### C. ANNUAL EVALUATION

The Chair of the Board of Regents is responsible for conducting the annual evaluation of the Chancellor, in compliance with the Nevada Open Meeting Law (OML), and in consultation with other members of the Board, will establish a performance program for the Chancellor for the upcoming year. The review will be based upon:

1. A progress report and self-evaluation by the Chancellor;
2. Invited input from individual Regents, institution presidents, and senior System staff reporting to the Chancellor; and
3. Extensive personal consultation between the Board Chair and the Chancellor.

Comments from Regents will be received at an open meeting or by another process approved by the vice chancellor for legal affairs to insure compliance with the OML. The purpose of the annual evaluation is to identify the Chancellor's accomplishments and areas which may have required special attention during the past year, areas which may need special attention during the coming year, and to discuss his or her performance objectives for the coming year in light of the Board's priorities.

#### Procedure

An outline of the process to be used in conducting the annual evaluation of the Chancellor is as follows:

1. The Chancellor will prepare a self-evaluation report based on the Board's performance areas of review (subsection 5) and forward it to members of the Board of Regents.
2. The Chair will consult, in compliance with the OML as approved by the vice chancellor for legal affairs, with other Board members, institution presidents, and senior system staff using the performance areas for review identified in subsection 5.
3. The Chair of the Board will prepare a written report to the Board. The Board will meet in an open personnel session with the Chancellor to consider the contents of the report and other matters believed pertinent to the Chancellor's evaluation.
4. A copy of the written evaluation, signed by both the Board Chair and the Chancellor, is retained in the Chancellor's personnel file, along with a copy of the Chancellor's annual self-evaluation report. The self-evaluation report and the written evaluation are public records.

### D. PERIODIC EVALUATION

Prior to the final year of a Chancellor's multi-year contract, the Chair of the Board will convene an Evaluation Committee to conduct a more in-depth evaluation of the Chancellor's performance.

The Evaluation Committee shall consist of up to four - six members, including the Chair, Vice Chair, and immediate past Chair. Additional members may be appointed by the Chair. The Board may elect to engage the services of an external consultant to assist the Evaluation Committee in its work.

The purposes of the periodic evaluation are:

1. To give an expanded group of constituencies an opportunity to learn of the Chancellor's sense of progress and to provide their views regarding his/her performance; and
2. To give the full Board an appraisal of the Chancellor's performance in light of the NSHE's progress.

#### Procedure

An outline of the process to be used in conducting the periodic evaluation of the Chancellor is as follows:

1. The Chancellor will write a retrospective report describing his/her view of accomplishments, and areas that need improving. This report should address:
  - a. The performance areas outlined in the Board of Regents Bylaws and in subsection 5 of this performance evaluation policy, and
  - b. The annual performance program since the last periodic evaluation.
2. The Chancellor's retrospective report will be sent to major constituencies for their review and comment. The constituencies may include, but are not limited to, Regents, vice chancellors, other System executive staff and directors, presidents, faculty senate chairs, student body presidents, public officers, and the Governor's staff. The review and comment by Regents will occur at an open meeting or by another process approved by the vice chancellor for legal affairs to insure compliance with the OML.
3. The Evaluation Committee will conduct interviews with a representative sample of major constituencies on the contents of the Chancellor's retrospective report and their assessment of the Chancellor's performance in the areas identified for review (subsection 5).
4. The Evaluation Committee will prepare a written report to the Board. The Board will meet in an open personnel session with the Chancellor to consider the contents of the report and other matters believed pertinent to the Chancellor's evaluation.
5. A copy of the written evaluation, signed by both the Board Chair and the Chancellor, is retained in the Chancellor's personnel file, along with a copy of the Chancellor's retrospective report. The written evaluation and the retrospective report are public records.

## E. PRINCIPLES OF THE PERIODIC EVALUATION

1. The responsibility for evaluating the performance of the Chancellor rests with the Board of Regents and cannot be delegated to others.
2. The authority and responsibilities of a system Chancellor are different from those of an institution president. Therefore, a system Chancellor should be evaluated in terms of his/her performance in respect to system goals and objectives and not in terms of a model defined in terms of presidential performance expectations.
3. The Chancellor's retrospective report and the constituent interviews should constitute the primary elements of the evaluation process. The process should be open and inclusive in terms of input and consultation, while recognizing that it is not possible to involve all of the groups and individuals who may wish to provide input in the process. The Evaluation Committee shall not accept anonymous materials.

## 5. PERFORMANCE CRITERIA FOR EVALUATION OF THE CHANCELLOR (Board Approved 10/03)

- 1) Relations with the Board of Regents.
- 2) Relations with NSHE Institutions.
- 3) Relations with the Executive Branch.
- 4) Relations with the Legislative Branch.
- 5) Administrative and Management System-Wide Responsibilities.
- 6) Administration of the Chancellor's Office and Related Activities.
- 7) Decision Making and Problem Solving Abilities.
- 8) Relations with External Communities
  - a. State
  - b. Regional
  - c. National
- 9) Implementation of NSHE Master Plan Vision and Goals  
(B/R 10/03; Added 6/05; A. 3/06, 8/08, 9/11, 3/12, 3/13, 6/13, 9/13, 6/15)

## **Section 3.        Rehire of a PERS Retiree (formerly CM 01-04)**

1. The reemployment restrictions for Public Employees Retirement System (PERS) retirees can be waived in some cases to assist employers with the hiring of retirees in areas of critical labor shortage.

An exemption from PERS reemployment restrictions allows a retiree to return to employment with a participating public employer and continue to receive their retirement benefit at the same time. There will be no cap on earnings related to that employment for the retiree in a critical labor shortage position. The retirees will have the option to reenroll in PERS and continue to receive their retirement benefit.

The Board of Regents will make the determination for NSHE classified and professional positions based on the following criteria:

- Turnover – Turnover for the class or type of position has exceeded the State average in two out of the last three years.
- Recruitment – Recruitment (including out-of-state) has been open on a continuing basis for the last two months, producing less than five qualified and available applicants for each opening. The Board will consider the history and efforts to recruit for the position, including, without limitation, advertising, recruitment outside of this State and all other efforts made.
- Average length of vacancy exceeds the State average.
- Special Requirements – The difficulty in filling the position due to special circumstances, including, without limitation, special educational or experience requirements for the position; the position requires exceptional qualifications of a scientific, professional or expert nature; and/or the position requires a license or certification and there has been historical difficulty in recruitment.

In addition, the Board of Regents may consider if there is a known labor shortage in the field.

All applicants, including retirees seeking reemployment in areas of critical labor shortage, must meet the current minimum qualifications specified for the position. Persons applying for a classified position must be appointed under the provisions of *Nevada Administrative Code 284*.

## 2. Eligibility

Until it sunsets on June 30, 2015, the law allows retirees to apply for employment in positions deemed to be experiencing a critical labor shortage. Requests will not be approved for immediate rehiring into the same position of incumbent employees who elect to retire; consideration may be given on a case-by-case basis if a strong rationale can be presented that demonstrates how the position and the person meet the criteria noted in this procedure.

In order to be eligible for hiring into a position experiencing a critical labor shortage, the PERS employee must have retired with:

- (For regular members) 5 years of service at age 65, 10 years of service at age 60, and 30 years of service at any age.
- (For police and fire members) 5 years of service at age 65, 10 years of police/fire service at age 55, 20 years of police/fire service at age 50, and 25 years of police/fire service at any age.

Retirees who retired before full eligibility as described above:

- May return to employment under this statute when they reach the age at which they could have retired without early retirement reduction.

### 3. Procedure

Departments within a NSHE institution requesting approval of a position that conforms to this statute must complete a form, including approvals by appropriate institutional administrators, and submit it to the NSHE human resources officer. The department must also submit written findings for consideration of the Board of Regents on the form prescribed by the PERS (*NRS 286.523*). The NSHE human resources officer will make a recommendation to the Chancellor for placement on the Board of Regents agenda. Final approval of all such requests rests with the Board of Regents. The PERS must be notified pursuant to *NRS 286.523* within 10 days of the rehire of a retiree under these provisions.  
(Added 6/05; A. 11/05, 12/09)

## **Section 4. Procedure For Recertifying a PERS Retiree**

In accordance with *Nevada Revised Statutes 286.523(5)*, departments within a NSHE institution that are requesting the recertification of a PERS retiree hire must submit a request every two years. In recommending the redesignation of a position as one for which the critical labor shortage continues, the following criteria must be considered:

- A search was conducted and the incumbent was clearly the best candidate for the position.
- The position requires exceptional qualifications of a scientific, professional or expert nature and conducting a search would not produce a more qualified candidate than the incumbent.
- There is a known labor shortage in the field and conducting a search would be an unnecessary expenditure as the incumbent is clearly qualified for the position. Conditions in the market have not changed since the incumbent was hired.
- The position requires a license or certification that the incumbent possesses and a search would cause an unnecessary expenditure as the incumbent is clearly qualified for the position.
- The incumbent is uniquely qualified for the position and these skills cannot be duplicated in the market place.
- This appointment is short term and conducting a search would cause unnecessary expense to the institution.
- Other information that supports the recertification of the PERS rehire.

The methodology used to establish the community college academic salary schedule is the following. The community college academic salary schedule Grade 3 Median is a percentage of the overall university academic salary schedule median (currently 78% of the university overall median). The overall university median is an average of the midpoints of the four university rank ranges.

The median of each Grade on the community college academic salary schedule is the following:

Grade 5 Median = 1.20 x Range 3 Median  
Grade 4 Median = 1.12 x Range 3 Median  
Grade 3 Median = Set by the formula above  
Grade 2 Median = 0.88 x Grade 3 Median  
Grade 1 Median = 0.80 x Grade 3 Median

The Min, Q1, Q3 and Max quartile values for each Grade on the community college academic salary schedule are:

Max = Grade Median x 1.466178  
Q3 = Grade Median x 1.203361  
Median = Grade Median as set above  
Q1 = Grade Median x 0.830879  
Min = Grade Median x 0.681941

The above methodology (the percentage, median and quartile values) may be adjusted as part of the review and update of salary schedules under Title 4, Chapter 3, Section 34, and recognizes as a possible goal for future salary schedules to be indexed at the same percentage as the community college administrative faculty salary schedule.

## **Section 2. Community College Academic Salary Schedule**

### **1. Grades**

The grades on the salary schedule are “categories” that correspond to the faculty member’s academic preparation as follows:

- Grade 1      Less than a bachelor's degree.
- Grade 2      Bachelor's degree or associate's plus approved contact hours of occupationally related discipline<sup>1</sup>, or associate's plus 60 upper level credit hours in an approved instructional field(s).
- Grade 3      master's degree or a bachelor's degree plus approved contact hours of occupationally related discipline, or a Bachelor's degree plus 30 graduate credits in an approved instructional field(s).
- Grade 4      master's degree with a minimum of 30 graduate credits in an approved instructional field(s), or equivalency or a bachelor's degree plus approved contact hours of occupationally related discipline, or a bachelor's degree plus 60 graduate credits or equivalency in an approved instructional field(s).
- Grade 5      Earned doctorate. Equivalence can be approved by the president for a master's degree plus approved occupational contact hours or academic credits.

## 2. Initial Placement

- a. The determination of grade for the purposes of initial placement of a faculty member on the academic salary schedule shall be based upon education. New hires shall normally be placed at the minimum of the appropriate grade, unless the institution chooses to consider relevant experience up to a maximum of twenty-five percent above the minimum. The institution guidelines for evaluating relevant experience shall be in writing and publicly available. Each year of relevant experience (as determined by the institution) will equate to an additional 2.5 percent up to the maximum stated above.
  - b. Consideration will be given to authorizing a higher salary in order to attract an applicant with qualifications in areas pre-defined as difficult to recruit. Faculty senate and/or Human Resources shall submit recommendations to the president for designating difficult to recruit positions. The president shall review the recommendations, determine the positions that are to be designated difficult to recruit, and forward the same to the chancellor. Designating difficult to recruit positions will be reviewed on a yearly basis by the System and approved by the chancellor. The president will make the final determination on initial salary placement for those positions determined to be difficult to recruit.
3. Movement on the Schedule. Salary increases, as set forth below, may occur as a result of the Community College Professional Advancement Program, cost of living adjustments, merit awards, salary equity adjustments, award of tenure, or promotional/rank/benchmark advancement.
- a. Community College Professional Advancement Program. Advancement from grade to grade on the salary schedule is governed by the Community College Professional Advancement Program set forth in Section 3 below.

---

<sup>1</sup> Occupationally related discipline equivalency will be determined at each campus. The ratio of academic credit to contact hours will be 1:15.

- b. Cost of Living Adjustments (COLA). COLA is a Cost of Living Adjustment which may be funded by the Legislature. During years in which a COLA appropriation is provided, all academic faculty receive the same percentage COLA increase which is added to base salary.
- c. Merit Awards. Academic faculty shall be eligible to be considered for merit awards during fiscal years when a merit pool appropriation is provided. Each community college shall develop written policies and criteria by institution for the recommendation of merit awards. The written policies and criteria shall be drafted by the faculty senate and approved by the president, and shall be set forth in institutional bylaws. Until the adoption of institutional bylaws governing merit awards, faculty who has received a satisfactory evaluation, will be awarded an equal share of merit. Merit awards are added to base salary.
- d. Salary Equity Adjustments. Each institution shall adopt an Equity Salary Adjustment Plan agreed upon by the faculty senate and the president. The Plan must include but is not limited to the following:
  - 1. Providing for an initial and thereafter, biannual review of the salaries of academic faculty to determine whether a faculty member's salary is appropriate as compared to the salaries of other faculty at the institution based upon years of experience and educational attainment.
  - 2. Identify institutional resources to fund equity adjustments.
  - 3. Providing for appropriate adjustment of salaries which may be phased-in incrementally depending on funding resources.
  - 4. The salary equity study may be performed by institution personnel or the institution may hire an outside consultant as agreed upon by the president and the faculty senate.
  - 5. The results of an equity study shall be provided to the faculty senate.
  - 6. A faculty member may request an equity review of his or her salary.
  - 7. Reporting annually to the Board of Regents regarding the progress made in implementing salary equity adjustments identified in an equity study.
- e. Award of Tenure. Upon the award of tenure, an academic faculty member shall receive a minimum 2.5 percent increase in salary, which is added to the base salary. An institution may provide for a higher salary increase upon award of tenure in accordance with a written policy drafted by the president in consultation with the faculty senate.
- f. Promotional, Rank or Benchmark Advancement. In the institutional bylaws, by agreement of the president and the faculty senate, an institution may adopt other policies setting forth criteria and procedures for additional advancement within a salary grade range. The policies may include, but are not necessarily limited to criteria and procedures for promotional or rank advancement, or salary benchmarks within the grade ranges.

#### 4. Other Salary Considerations

- a. All individuals employed on administrative faculty contracts that are eligible to receive legislatively appropriated merit and who are not on the academic faculty salary schedule will be given consideration for merit increases and will receive cost-of-living increases.
- b. All individuals employed on non-tenure track, Range 0 contracts that are eligible to receive legislatively appropriate merit and who are not on the academic faculty salary schedule will be given consideration for merit increases and will receive cost-of-living increases.
- c. Academic faculty who are required to work under calendar year contracts versus academic year contracts will negotiate additional salaries in view of their respective responsibilities and number of working days compared to the working days under an academic year contract. The factor used can vary, but will not fall below 1.2. Contracts falling between a B contract and an A contract will be developed in a similar fashion.

(B/R 3/02; Added 6/05; A. 11/05, 11/06, 3/08, 3/13)

### **Section 3. Community College Professional Advancement Program**

#### A. PROGRAM OUTLINE

##### 1. Professional Advancement Approval Process for Credit Courses/Programs

- a. Courses/programs, etc. may be used for professional advancement only with prior written administrative approval as stated in Title 4, Chapter 3.
- b. The process for approval will be developed at each institution with faculty senate input. The final decision rests with the president.
- c. Any movement on the salary schedule can only occur consistent with the fiscal year contract. Exceptions must be approved by the president.

##### 2. Degree Programs

- a. The academic faculty member wishing to advance on the salary schedule by completing a bachelor's, master's or doctorate degree (grades 2, 3, 4 and 5) must submit a written formal request.
- b. Upon appropriate vice presidential/dean approval, a formal professional advancement agreement will be written. The program must identify the anticipated program and program completion date. The agreement is not valid unless the appropriate vice president/dean and the faculty member sign the agreement.

- c. Upon successful completion of the degree program, the faculty member must submit official verification to his/her official personnel file. In the event the degree program is not completed in the anticipated time frame, the faculty member will notify the appropriate body in writing prior to the anticipated date of completion. A review of completed work will be made by the appropriate body for consideration of movement on the schedule. Grade movement will not occur without the approval of the president.

### 3. Credit Course Work

- a. The academic faculty member wishing to move across the grades by completing credit course work must comply with the provisions of the Board of Regents' policy. That is, grade 2 requires upper level/division undergraduate credit hours, grade 3 and 4 require graduate credits. The faculty member must submit a written formal request to the appropriate body. The appropriate body will forward the recommendation to the appropriate vice president/dean. The appropriate vice president/dean will notify the faculty member of approval/non-approval within 20 working days from receipt of the application.
- b. Upon successful completion of the agreed upon course work, the faculty member must submit official grade verification to the faculty member's official personnel file. The faculty member will not be eligible for grade movement until all requirements for advancement have been met. When the approved courses total the credits required for advancement, the faculty member must notify the human resources director.

### 4. Professional Advancement Approval Process for Occupationally-Related Courses

- a. The academic faculty member wishing to take individual contact hour courses for advancement across the grades on the salary schedule must submit a written formal request to the appropriate body who will forward the recommendation to the appropriate vice president/dean or designee<sup>2</sup>These courses could include, but are not limited to, continuing education courses in a specific discipline and specialized workshops or institutes in which contact hours rather than credits are used to grant recognition for successful completion.
- b. Due to the manner in which some occupationally-related courses are offered, the faculty member may only have a few days or weeks between notification of offering and actual registration. Therefore, every effort must be made by all parties involved to complete this process prior to the due date for registration. When the approved courses reach the contact hours required for advancement, the faculty member must notify the human resources director in writing of that fact.
- c. Upon successful completion of the courses, the faculty member must submit official verification to his/her official personnel file. The faculty member will not be eligible for grade movement until all requirements for advancement have been met.

---

<sup>2</sup> Designee means someone appointed by the appropriate vice president/dean only in his/her absence.

5. Approvals for degree programs, credit courses, continuing education and occupational courses will be filed in the faculty member's official personnel file.

## B. PROGRAM STANDARDS/DEFINITION OF TERMS

### 1. Education Standards

For degree programs and credit courses, the degree/credit must be awarded by regionally accredited institutions. Non-degree (non-credit or continuing education) courses will be awarded equivalency based upon accepted industrial and/or professional standards.

### 2. Relevance

The program or courses must either be relevant to the academic faculty member's discipline or enhance teaching/counseling/professional skills, or provide benefit or advancement.

### 3. Equivalency

For purposes of this document, all academic courses will be equated to a sixteen-week semester. Courses taken in quarter or trimester credits will be adjusted to this standard. Degree programs will stand on their own as approved by accrediting institutions. That is, a master's degree will transfer as a master's degree regardless of the institutional differences in semester vs. quarters.

### 4. Occupationally-Related Courses

Occupationally-related courses are those courses that relate to the faculty's primary duties, e.g. courses taught, services provided, etc.

### 5. Official Verification

Official verification shall include, but not be limited to: diplomas, transcripts, certificates, or letters from sponsoring agencies.

### 6. Professional Degrees

A professional degree itself does not apply toward movement on the salary schedule. It is recognized that some occupational areas have specific degrees that may be equivalent to the degree qualifications set forth above. This list includes, but is not limited to, the following: MD, DDS and JD. The number of graduate hours in the curriculum will be equated to the standard master's, etc. degrees.

For example, a JD, MD and DDS would be the equivalent of three to four years of graduate school, and should therefore be considered as the fifth grade of professional advancement. Two master's' degrees, however, would not be the equivalent of a fifth grade of movement, but would qualify for a fourth grade movement, if approved.

This explanation does not mean automatic approval of such professional degrees, only an explanation of the existence of these occupational areas.

### C. PROGRAM STANDARDS

The professional advancement program may be, except where otherwise noted, any combination of the following categories or programs:

#### 1. Degree Program/Credit Courses

- a. The credit awarded for completion of a degree program will be limited to only the degree awarded to the individual. All programs/courses must be offered by regionally accredited institutions.
- b. Movement from one grade to another beyond grade two must be accomplished in blocks of 30 or 60 credits as appropriate. Movement to:

Grade 2	Bachelor's or associate's plus 60 upper level undergraduate credits.
Grade 3	master's or bachelor's plus 30 graduate credits
Grade 4	master's plus 30 graduate credits or equivalent <sup>3</sup> or bachelor's plus 60 graduate credits or equivalent.
Grade 5	Earned doctorate

#### 2. Non-Credit/Contact Hours Course Training

##### a. Continuing Education

1. The equivalency for continuing education is 1:15. For every fifteen hours of continuing education, one unit of credit will be awarded. Continuing education can be in the form of workshops, institutes or other recognized educational programs.
2. All courses/workshops must meet national standards for occupational areas. Movement from one grade to another beyond grade two must be accomplished in blocks of 450 or 900 contact hours. Movement to:

Grade 2	Associate's plus 900 contact hours
Grade 3	Bachelor's plus 450 contact hours
Grade 4	Bachelor's plus 900 contact hours. Master's plus 450 contact hours.
Grade 5	Special permission of president. <sup>4</sup>

---

<sup>3</sup> Equivalency will be determined by the appropriate body.

<sup>4</sup> Equivalence can be approved by the president for a master's degree plus approved occupational contact hours or academic credits.

b. On-the-Job Work Experience

On-the-Job work experience with pay will be 1:75. For every 75 hours of internship, one unit of credit will be awarded. Faculty entering into such experience must follow the same requirements and program as established by the college with students within the college's cooperative education program. All hours of On-the-Job Work experience must be certified by an outside agency/employer.

c. Internships

1. On-the-job work experience without pay will be 1:75. For every 75 hours of internship, one unit of credit will be awarded. All hours of internship experience must be certified by the outside agency/employer. The internship experience for the faculty member must follow the same standards and requirements established for the On-the-Job Work Experience Program.

2. Movement from one grade to another beyond grade two must be accomplished in blocks of 2250 or 4500 contact hours as appropriate. Movement to:

Grade 2	Associate's plus 4500 contact hours.
Grade 3	Bachelor's plus 2250 contact hours.
Grade 4	Bachelor's plus 4500 contact hours. Master's plus 2250 contact hours.
Grade 5	Special permission of president.

D. APPEALS PROCESS

In the event the faculty member's application for professional advancement is denied, the decision can be appealed. The appeal will be submitted to the faculty senate chair, who will forward the appeal to the appropriate committee. The committee will review and recommend to the faculty senate chair its approval or non-approval of the appeal. The faculty senate chair will carry the committee recommendation to the appropriate vice president/dean. If the appeal is denied by the vice president/dean, college grievance procedures can be utilized.  
(B/R 3/02; Added 6/05, 3/13)

**Section 4. Merit Procedures for Community College Faculty at the Top of Their Salary Range (formerly CM 96-2)**

All faculty should be eligible for consideration for legislatively approved increases in salary earned through meritorious performance. Consideration should be based upon performance evaluation. An addition to the Board of Regents policy governing community college faculty salary schedule implementation was approved by the Board of Regents November 14-15, 1996. The policy allows for merit consideration for faculty who are at the top of their salary range.

The processes in support of the Board's policy are listed below:

- Performance evaluation should demonstrate exceptional, not merely satisfactory, performance for the period in question; and

- Identification of recipients should be highly selective, but it should not be based upon a quota (proportion of eligible recipients), nor should recipients be rotated among those eligible;
  - The pool of funds from which these awards will be made is generated by the eligible faculty at the top of the ranges; making these awards cannot adversely affect the total of merit awards made to other faculty;
  - The criteria for selection and process for implementation will be developed on each campus by the president in consultation with the campus faculty senate;
  - The process will be directed and administered by the campus president;
  - The president will be responsible for reporting annually to the chancellor the merit increases in salary awarded to faculty at or above the salary plan ranges.
- (Added 6/05; A. 3/13)

- b. Faculty who are part-time during the academic year will be paid for summer teaching on a per-credit basis according to the same rate used during the Spring semester of that academic year.
- c. Should enrollment in an instructor's Summer classes fail to produce the revenues necessary to hold all of their classes or cover the instructor's salary for all of their classes, the president or designee may, in lieu of cancelation, negotiate and establish a mutually agreeable rate less than the maximum provided above for each instructor.
- d. Faculty may teach nine credits in Summer school. Additional credits may be taught under extenuating circumstances when recommended by the department chair and with the approval of the dean and the vice president of academic affairs and student services. Compensation above the maximum or full load will be compensated at the part-time faculty rate only.
- e. Faculty who are on an "A" contract during the academic year will be considered as teaching an overload and be compensated at the part-time rate unless their contract specifically requires a Summer school load in which case they will not receive an additional stipend.

7. Western Nevada College

- a. The salary for a Summer session course shall be 75 percent of the revenue generated from registration fees, not to exceed \$1,200 per credit.
- b. Faculty may teach nine IUs in the Summer session. Additional credits may be taught under extenuating circumstances when recommended by the academic director and with the approval of the vice president of academic and student affairs.

## Section 6. Part-Time Salary Schedules

The following schedule provides salary targets for NSHE institutions to reach as funding permits.

Type of Institution	Per-Credit Target
Universities	\$1,130
State College	\$1,074
Community Colleges	\$1,017

- 2. The salary schedule is derived from a formula calculation based upon a percentage of the entry-level semester salary for a university instructor on a nine-month contract, as described below.

Base Formula:

$$\begin{aligned} & \text{Annual entry-level University Instructor salary divided by 2} \\ & \times \text{Percent of semester salary based on 16-unit workload (6.25)} \\ & = \text{Per credit target} \end{aligned}$$

The schedule will automatically increase with any cost-of-living adjustment provided to professional employees.

\*Target amounts are based on FY 08-09. No adjustment made in FY 13.

- 3. The salaries for temporary part-time faculty at the state college shall be calculated at 95 percent of the university target. The salaries for temporary part-time faculty at the community colleges shall be calculated at 90 percent of the university target.  
(B/R 10/03; Added 6/05; A. 7/06, 12/07, 3/08, 3/13)

## **Section 7.           Compensated Outside Services/Entrepreneurial Activities**

In accordance with Board policy, outside professional services, scholarly services, or entrepreneurial activities by NSHE faculty members within their subject matter field and for compensation is recognized as a legitimate activity unless specifically prohibited by the employee's contract. Annually, each institution shall report aggregated information on the professional, scholarly and entrepreneurial activities engaged in by the institution's respective faculty using the form prescribed by the chancellor that is included in the Forms Appendix of this *Procedures and Guidelines Manual*.

(Added 4/11)

## **Section 8.           Temporary Unpaid Leave (Expires June 30, 2015)**

1. Temporary Unpaid Leave. Temporarily require six days per year of unpaid leave per 1.0 FTE for NSHE employees and a corresponding 2.3 percent salary reduction for FY 2014 and FY 2015. For contracts of less than 1.0 FTE, such leave shall be prorated accordingly. Letter of appointment instructors, temporary part-time faculty, residents, and graduate assistants shall not be subject to this furlough requirement. Unpaid leave required by this section is final and not subject to appeal, grievance or reconsideration. The Board shall protect base compensation and benefits for this salary reduction for professional employees. Faculty funded at least 90 percent through external grants and contracts may be excluded from this unpaid leave requirement for the period that such external support continues in FY 2014 and FY 2015, if the resulting salary increase can be paid for by the faculty member's external grants and contracts.
2. Exemptions. Multi-year contracts shall be exempt from the provisions of Subsection 1 if the Chancellor's Office determines there will be an impairment of the contract by implementing the unpaid leave requirement. In addition, the clinical component of University of Nevada School of Medicine salaries shall likewise be exempt from Subsection 1 (and any corresponding salary reduction) due to impairment of contracts with the practice plans.
3. Notice. This section, as approved by the Board, shall constitute constructive notice to all faculty and no individual notice to any faculty member shall be required hereunder to implement the foregoing.
4. Expiration. This section expires by limitation on June 30, 2015.

**NEVADA SYSTEM OF HIGHER EDUCATION  
PROCEDURES AND GUIDELINES MANUAL**

**CHAPTER 4**

**GENERAL GUIDELINES AND PROCEDURES**

**Section 1.        AIDS Guidelines**

1. The Nevada System of Higher Education (NSHE), in order to address the personal, administrative, medical, and legal problems associated with the Acquired Immune Deficiency Syndrome (AIDS), has established the following guidelines. These are intended to provide direction for our institutions when dealing with the disease of AIDS and AIDS-related issues.
2. The primary response of Nevada System of Higher Education institutions to AIDS should be increasing awareness and education - for students, employees, faculty, and others. Effective education based upon the best currently available information will aid in preventing the spread of the disease.
3. Individuals will not be required to undergo screening for AIDS as a condition of enrollment, employment, or financial services. Faculty, students, and staff who are diagnosed as having AIDS, AIDS-related complex, or a positive antibody test and who are otherwise qualified should be afforded normal classroom attendance, working conditions, student housing, benefits, and participation in curricular and extracurricular activities in an unrestricted manner, as long as they are physically and psychologically able to do so. Decisions regarding such individuals will be made on a case-by-case basis, taking into account the individual's behavior and physical condition.
4. The American College Health Association prepares guidelines on aids-related issues. It is suggested NSHE institutions refer to this report for guidance in addressing local needs.
5. It is also recommended that the Center for Disease Control guidelines be used to insure safety of students, staff, and faculty handling human blood, blood products, and other body secretions.
6. Each NSHE institution will establish procedures to respond to AIDS-related concerns, as well as to public inquiries.
7. The institution guidelines will be revised as necessary, in response to the release of new scientific information.

(B/R 6/88; Added 6/05)

## **Section 2. System Office and Campus Closures (formerly CM 05-01)**

This is intended to clarify procedures for system and campus closures for any adverse event including weather.

1. The chancellor, or designee, has sole authority to close the entire NSHE or any part of the system for unforeseen events which may include but are not limited to extreme weather conditions, natural disasters, or other emergencies. In the event the governor closes all or any part of the state offices, the chancellor will be notified and will similarly declare NSHE properties closed, as appropriate. When the NSHE or any part of the system is closed, employees at the affected location(s) are granted administrative leave. No other person has authority to close offices or grant administrative leave.
2. The president, or designee, of each campus has the authority to close the campus for unforeseen events (as defined above). The president, or designee, must report such closure to the chancellor and receive acknowledgement, if possible, prior to the closure, unless there is an emergency status that requires immediate action. In the event of a campus closure, employees at the affected institution or location will be granted administrative leave. No other person has the authority to close offices or grant administrative leave.
3. When campuses or offices are open, employees desiring not to report to work due to extreme weather conditions or natural disasters must request and receive approval of annual leave.
4. Employees on previously approved leave during a closure do not get administrative leave credit.

(Added 6/05)

## **Section 3. Coordination of Information Request from Executive and Legislative Branches**

The Nevada System of Higher Education is committed to providing accurate and timely information regarding public postsecondary education matters to State agencies and the public. To maintain this commitment, all NSHE institutions shall coordinate for submission through the System Office any request for information that is communicated to or transmitted to or from the Executive and Legislative Branches of Government, whether initiated by the institution or the government entity, including but not limited to, requests from or to individual legislators or the Governor, standing committees of the State Legislature, the Legislative Counsel Bureau, and the Budget Division within the Department of Administration.

(Added 6/05; A. 9/12)

## **Section 4.           Limit on Teaching for Graduate Teaching Assistants**

Pursuant to Board policy, Title 4, Chapter 5, graduate teaching assistants may teach no more than two courses per semester subject to the following guidelines:

1. First year graduate assistants without prior teaching experience are to be assigned tasks to assist a professor; that is, grading papers, proctoring examinations, serving as laboratory assistants, leading discussion groups of a subdivided class.
2. First year graduate assistants will be expected to complete, during their first year, a special teaching methods course if they are to teach during their second year. First year graduate assistants may also teach under the supervision of a professor or director while concurrently taking a teaching methods course.
3. Second and third year graduate assistants, after evaluation by their departments, are to be allowed to teach courses following the prescribed course syllabus, in conformity with standards adopted by the department, and at a level determined by the department as appropriate for each individual.

(B/R 3/71, 6/85, 8/86; Added 6/05)

## **Section 5.           Moving Expenses for Presidents (formerly CM 95-2)**

New permanent appointees to the position of president of a NSHE institution may be reimbursed from institutional funds for the following expenses:

- Relocation travel: For the employee and immediate dependent family members.
- Moving household goods: Reasonable moving expenses for household goods that conform to State of Nevada guidelines and limits. Approval for moving expenses must be obtained from the chancellor prior to incurring any such expense.
- Office and Professional Materials: Where such materials are deemed essential to the successful performance of the president as an administrator and/or as an academic faculty member, it is appropriate to be reimbursed for reasonable relocation expenses for office and professional material. Non-state appropriated funds must be used for this item. The extent and composition of allowable materials is subject to the approval of the chancellor.

In the event that moving expenses exceed State of Nevada guidelines, such excess will be submitted to the chancellor for review and approval at the chancellor's discretion. Non-state appropriated funds must be used for any excess.

Should appointee leave employment voluntarily within the first 12 months, these moving and relocation expenses shall be repaid in full.

(Added 6/05)

## **Section 6.            No Smoking Law (formerly CM 95-3)**

### Policy and State Law

*Nevada Revised Statutes* 202.2491 prohibits the smoking of tobacco in any public building, except within a separate room or area of the building. The person in control of a public building is required to designate a separate room or area in which smoking is permitted and is further required to post “no smoking” signs in the building.

NSHE vice chancellor for Legal Affairs interprets this statute as permitting a person in control of a public building to designate only one room or area in a public building for smoking. The term “building” means any building owned by the Nevada System of Higher Education. It would obviously be inappropriate for any System employee to experience any employment retaliation for complaining about smoking in prohibited areas or for taking action to enforce the state law.

### Penalties:

*Nevada Revised Statutes* 202.2492 provides that any person who violates NRS 202.2491 is guilty of a misdemeanor.

The posting of “no smoking” signs and the designation of a separate room or area in a public building for smoking, done pursuant to this law, constitute an order to employees not to smoke tobacco in a public building except in such a designated room or area. Violation of such an order would constitute insubordination, which conduct would authorize disciplinary action to be taken against classified employees under *Nevada Administrative Code* § 284.650 (6) and against professional employees under Section 6.2.1 (d) of the NSHE Code. Section 6.2.2 (m) of the NSHE Code also authorizes disciplinary action against professional employees who violate state law on System premises.

### Implementation:

Please take the necessary steps to implement and inform your employees about this policy.  
(Added 6/05)

## **Section 7.            Council of Professional Police Standards (formerly CM 03-02)**

The Nevada System of Higher Education requires NSHE institutions that have a police department to establish a system to review allegations of misconduct made against police department officers and employees. At present, the University of Nevada, Reno, the University of Nevada, Las Vegas, College of Southern Nevada and Truckee Meadows Community College are the only NSHE institutions that have a police department. The guidelines for establishing an institutional Council of Professional Police Standards are outlined in this procedure.

The name of the council established at the University of Nevada, Reno shall be the Police Services Board of Professional Standards (hereinafter “board or council.”)

The name of the council established at UNLV shall be the Council of Professional Police Standards. (hereinafter “board or council.”)

The name of the board established at TMCC shall be called the TMCC Police Department Professional Standards Board. (hereinafter “board or council.”)

Personally identifying information concerning employees will be redacted from the documents provided to the council. In the event that confidential information other than personally identifying information is withheld from the council by the department head, the department head will disclose the fact that information was withheld to the council and describe the nature of the information withheld.

If, during the course of a calendar year, there are no allegations of misconduct reported, the council will convene no later than the last day of the spring semester to review *all* complaints received by each respective department.

(Added 6/05; A 10/08)

## **Section 8. System Expectations for Inter-Institutional Relationships (formerly CM 96-01)**

(Added 6/05)

## **Section 9. Interim Information Security Plan for NSHE (formerly CM 03-03)**

- I. BACKGROUND.** Graham-Leach-Bliley Financial Services Modernization Act of 1999 (*GLB*), 15 U.S. Code §6801, 16 CFR, Part 314, mandates that in addition to complying with the Privacy Rules of Family Education and Privacy Act and Health Insurance Portability Act financial institutions must take steps to safeguard the security of customers' financial information. The Federal Trade Commission (FTC), which regulates this area, takes the position that these safeguarding rules apply to institutions of higher education. It governs non-public, personally identifiable financial information, such as student loan application information and social security numbers. The FTC has determined that institutions must comply with the Safeguards Rule by May 23, 2003. This Chancellor's Memorandum is intended to serve as the NSHE's Interim Information Security Plan in compliance with the FTC's Safeguards Rule. The sources for this Information Security Plan were obtained from materials provided by the National Association of College and University Business Officers and the National Association of College and University Attorneys.
- II. SCOPE OF THE SECURITY PLAN:** This Plan applies to any record containing nonpublic financial information about a student or other third party who has a relationship with the Institution, whether in paper, electronic or other form, which is handled or maintained by or on behalf of the Institution or its affiliates. For these purposes, the term nonpublic financial information shall mean any information (i) a student or other third party provides in order to obtain a financial service from the Institution, (ii) about a student or other third party resulting from any transaction with the Institution involving a financial service, or (iii) otherwise obtained about a student or other third party in connection with providing a financial service to that person.
- III. ELEMENTS OF THE SECURITY PLAN:**
  - 1. Risk Identification and Assessment.** This element is intended to identify and assess external and internal risks to the security, confidentiality, and integrity of nonpublic financial information that could result in the unauthorized disclosure, misuse, alteration, destruction or other compromise of such information whether in electronic, paper or other form. The Security Program Officer will coordinate the establishment of procedures for identifying and assessing such risks in each relevant area of the Institution's operations, including: (1) Employee training and management; (2) Information systems and information processing and disposal; and (3) Detecting, preventing and responding to attacks.

2. **Designing and Implementing Safeguards.** The program officer will, on a regular basis, implement safeguards to control the risks identified through such assessments and to regularly test or otherwise monitor the effectiveness of such safeguards.
3. **Overseeing Service Providers.** The security program officer shall coordinate with those responsible for the third party service procurement activities among the affected departments to raise awareness of, and to institute methods for, selecting and retaining only those service providers that are capable of maintaining appropriate safeguards for nonpublic financial information of students and other third parties to which they will have access.
4. **Adjustments to Plan.** The program officer is responsible for evaluating and adjusting the plan based on the risk identification and assessment activities undertaken pursuant to the program, as well as any material changes to the institution's operations or other circumstances that may have a material impact on the Plan.

**IV. DESIGNATED SECURITY PROGRAM OFFICER.** The president of each institution shall designate a security program officer for the coordination and execution of the information security plan. This designation must be made by May 23, 2003. All correspondence and inquiries should be directed to the security program officer.

**V. RELEVANT RISK ASSESSMENT AREAS.** The following have been identified as relevant areas to be considered when assessing the risks to customer information:

- Employee Management and Training
- Information Systems
- Managing System Failures
- Student Loans
- Student Card Office
- Admissions
- Registrar's Office
- Financial Aid Office
- Accounts Receivable Office
- Residence Life
- Student Health Center
- Continuing Education
- Business Centers
- System Computing Services

**VI. SECURITY POLICY COORDINATION.** The security program officer will coordinate with the above offices to maintain the information security program. The security program officer will provide guidance in complying with all privacy regulations. Each relevant area is responsible to secure customer information in accordance with all privacy guidelines. A written security policy that details the information security policies and processes will be maintained by each relevant area and will be made available to the security program officer upon request. In addition, the information technology department and System Computing Services will maintain and provide access to policies and procedures that protect against any anticipated threats to the security or integrity of electronic customer information and that guard against the unauthorized access or use of such information.

**VII. SERVICE PROVIDERS' CONTRACTS.** Each of the institutions within NSHE will select appropriate service providers that are given access to customer nonpublic financial information in the normal course of business and will contract with them to provide adequate safeguards. In the process of choosing a service provider that will have access to customer information, the evaluation process shall include the ability of the service provider to safeguard customer information. Contracts with service providers shall include the following provisions:

- An explicit acknowledgment that the contract allows the contract partner access to confidential information;
- A specific definition of the confidential information being provided;
- A stipulation that the confidential information will be held in strict confidence and accessed only for the explicit business purpose of the contract;
- A guarantee from the contract partner that it will ensure compliance with the protective conditions outlined in the contract;
- A guarantee from the contract partner that it will protect the confidential information it accesses according to commercially acceptable standards and no less rigorously than it protects its own customers' confidential information;
- A provision allowing for the return or destruction of all confidential information received by the contract partner upon completion of the contract;
- A stipulation allowing the entry of injunctive relief without posting bond in order to prevent or remedy breach of the confidentiality obligations of the contract;
- A stipulation that any violation of the contract's protective conditions amounts to a material breach of contract and entitles NSHE to immediately terminate the contract without penalty;
- A provision allowing auditing of the contract partners' compliance with the contract safeguard requirements; and
- A provision ensuring that the contract's protective requirements shall survive any termination agreement.

These standards shall apply to all existing and future contracts entered into with such third party service providers. While contracts entered into prior to May 23, 2003 may be grandfathered, the Security Program Officer, in cooperation with the vice chancellor for Legal Affairs Office, will take steps to ensure that all relevant future contracts include a privacy clause and that all existing contracts are in compliance with GLB.

**VIII. REASSESSMENT OF INFORMATION SECURITY PLAN.** This information security plan shall be evaluated and adjusted in light of relevant circumstances, including changes in the institution's business arrangements or operations, or as a result of testing and monitoring the safeguards. Periodic auditing of each relevant area's compliance shall be done by the security program officer. Annual risk assessment will be done through the security program officer. Evaluation of the risk of new or changed business arrangements will be done through the vice chancellor for Legal Affairs Office.

(Added 6/05)

## **Section 10. HIPAA Guidelines**

The purpose of this section is to outline the basics of HIPAA. It may be useful to information technology, accounting, payroll, human resources and auditing staff who are not regularly involved in handling health care records. For more detailed information, you may contact one of the HIPAA Privacy Officers for UNR, UNLV or CSN, or the vice chancellor for Legal Affairs Office of the NSHE.

### **What is HIPAA?**

The Health Insurance Portability and Accountability Act (HIPAA) was enacted by Congress on 21 August 1996 to combat waste, fraud and abuse, improve portability of health insurance coverage, and simplify health care administration. HIPAA is intended to promote efficient electronic transmission of health information, enhance patient rights, and provide standards to protect the privacy and security of health information. There are two primary rules at issue. The Privacy Rule protects individually identifiable health information in all forms – verbal, written or electronic. The Security Rule concerns only individually identifiable health information that is maintained, transmitted or received in electronic form.

### **Who is covered?**

The institutions within NSHE are not primarily health care providers. We are called a Hybrid Covered Entity under HIPAA, which means that we are allowed to designate which parts of NSHE are covered. Those entities and programs that are covered are free to share health care information with each other for legitimate purposes. Those entities or programs that are not covered may not receive or obtain access to identifiable health information unless authorized by the patient. As an example, most of the School of Medicine is covered; its Human Resources Department is not. It would not be appropriate for the School of Medicine to share a clinical record of an employee/patient with Human Resources unless the patient authorizes the disclosure. The chancellor of NSHE has designated the covered programs and departments. This may be changed from time to time. Any program or department that is not covered is not required to follow any aspect of the Privacy or Security Rules.

### **Who must be covered?**

Any program or department that provides a health related service and engages in certain electronic transactions related to payment must be covered. Those programs and departments that provide health related services, but do not engage in any of the specified electronic transactions may choose to be covered as it may assist them in interacting with patients and other providers in the health care industry. The specified electronic transactions include: health care claims, health care payment and remittance advice, coordination of benefits, health care claim status, enrollment and disenrollment in a health plan, eligibility for a health plan, health-plan premium payments, and referral certification and authorization.

### **Individually Identifiable Health Information**

HIPAA protects only certain information that may identify a patient. This includes demographic information such as name, address, phone number, age over 70, dates of service and account numbers of all types (social security, date of birth, drivers license, etc.), as well as treatment and billing records.

### **Basic Privacy Rule Requirements**

The Privacy Rule requires:

- Provision of information to patients about their privacy rights and how their information can be used;
- Adoption of clear privacy procedures;
- Training of employees so they understand the privacy procedures;
- Designating an individual to be responsible for ensuring that the privacy procedures are adopted and followed;
- Securing patient records containing individually identifiable health information so they are not readily available to those who do not need them.

### **Privacy Rule Limitations on Use**

In general, treating professionals are allowed to freely exchange patient information as necessary for treatment without the necessity of obtaining patient authorization. In addition, a health care provider may use and submit information to obtain payment (but not for insurance underwriting), and for internal operations purposes (such as a peer review committee), without patient authorization. If outside non-treating vendors will require access to patient health information in order to perform a service for a covered program (e.g. computer technician, copy service, record storage company, etc.), patient authorization is required unless a business associate agreement is in place. Apart from certain disclosures that may be required in response to subpoenas and other law enforcement measures, any other disclosure outside the covered department requires written patient approval.

### **Privacy Rule Patient Rights**

Patients are required to be informed of their rights under HIPAA, which include rights related to access to records, correction of records, and accounting for disclosures. There must be a mechanism in place to receive complaints. Civil and criminal penalties are in place for violations of the law. For example, improperly providing patient data for material gain could result in a criminal violation.

## **Security Rule Applicability**

The Security Rule applies to all covered programs that receive, transmit or store health care records electronically.

## **Basic Security Rule Provisions**

### **Administrative Procedures**

Policies and procedures must be implemented and documented in each of these eight areas:

- Training programs in security management and process issues;
- Formal protocols for controlling access to data;
- Internal audit procedures;
- Contingency plan to ensure continuity and preservation of data in an emergency;
- Security features for initial clearance of all personnel who have access to health information along with ongoing supervision, training and monitoring;
- Security configuration management procedures such as virus checking, hardware and software systems review, and documentation;
- Specific procedures when personnel terminate employment;
- Security management structure that maintains continual risk assessment and sanction policies and procedures.

### **Physical Safeguards**

Data and data systems must be physically protected from intrusion and environmental hazards with specific attention to the following:

- Designation of a specific person for responsibility of security;
- Controlling access to and altering of computer hardware;
- Implementation of work station security activities;
- Development of disaster/intrusion response and recovery plans;
- Maintenance of security records;
- Implementation of identity verification procedures to physically access sites.

### **Technical Security Services**

Software control and procedures regarding stored data include these requirements:

- Providing for internal audits and controls within data systems;
- Controlling access by users through authentication;
- Ensuring that stored data is neither altered nor inappropriately accessed/processed;
- Allowing data access during crises.

## Technical Security Mechanisms

These requirements relate to accessed data and the transmission of stored data, to ensure that data cannot easily be accessed, intercepted or interpreted by unauthorized third parties. (Added 6/05)

## **Section 12. Campus Sex Crimes Prevention Act Compliance (formerly CM 02-05)**

### **A. THE FEDERAL CAMPUS SEX CRIMES PREVENTION ACT.**

- 1. The Campus Sex Crimes Prevention Act (CSCPA) requires campuses to notify campus communities where law enforcement agency information concerning registered sex offenders may be obtained.**

The CSCPA requires sex offenders to register pursuant to State law and to provide notice of each institution of higher education at which the person is employed, carries on a vocation, or is a student and of each change in enrollment or employment status of such person at an institution of higher education in the State. The State must ensure that the registration information collected about offenders employed at or enrolled in institutions of higher education is promptly made available to a law enforcement agency having jurisdiction where such institution is located.<sup>1</sup>

The institution is required to provide as a part of its annual security report:

---

<sup>1</sup> For NSHE institutions that do not have a campus police department, the “law enforcement agency having jurisdiction where such institution is located” is the law enforcement agency or agencies providing police protection to the institution. For institutions that do maintain a campus police department, several law enforcement agencies will have, as a legal proposition, concurrent jurisdiction where the institution is located, including the campus police department, the sheriff’s office of a county, a police department of an incorporated city or a metropolitan police department. Despite the concurrent jurisdiction of multiple law enforcement agencies to provide police services to an institution, however, the campus police department may have primary responsibility for providing police protection to the institution pursuant to an Interlocal Agreement among the various police agencies.

A statement advising the campus community where law enforcement agency information provided by a State under section 170101(j) of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14071(j)), concerning registered sex offenders may be obtained, such as the law enforcement agency with jurisdiction for the campus, or a computer network address.

20 U.S.C. § 1092(f)(1)(I).

2. The Proposed Guidelines for the Campus Sex Crimes Prevention Act (CSCPA) suggest that the Department of Justice will construe the CSCPA as imposing a duty on campus police departments to protect campus communities by providing community notification.

The Department of Justice published proposed guidelines for the CSCPA on March 8, 2002. The proposed guidelines provide in part:

Subsection (j)'s requirement to promptly make the information available to a law enforcement agency having jurisdiction where the institution is located is supplementary to the requirement under subsection (b)(2)(A) and (4) of the Wetterling Act (42 U.S.C. 14071(b)(2)(A), (4)) to promptly make information concerning registrants available to a law enforcement agency having jurisdiction where the registrant resides. The legislative history of the Campus Sex Crimes Prevention Act explains subsection (j)'s requirement as follows:

Once information about an offender's enrollment at, or employment by, an institution of higher education has been provided to a state's sex offender registration program, that information should be shared with that school's law enforcement unit as soon as possible.

**The reason for this is simple. An institution's law enforcement unit will have the most direct responsibility for protecting that school's community and daily contact with those that should be informed about the presence of the convicted offender.**

If an institution does not have a campus police department, or other form of state recognized law enforcement agency, the sex offender information could then be shared with a local law enforcement agency having primary jurisdiction for the campus.

146 Cong. Rec. S102216 (Oct. 11, 2000) (remarks of Senator Kyl).

Thus, if an institution of higher education has a campus police department or other form of state recognized law enforcement agency, state procedures must ensure that information concerning the enrollment or employment of registrants at that institution (and subsequent changes in registrants' enrollment or employment status) is promptly made available to the campus police department or law enforcement agency. If there is no such department or agency at the institution, then state procedures must ensure that this information is promptly made available to some other law enforcement agency having jurisdiction where the institution is located. Regardless of whether an institution of higher education has its own law enforcement unit, the Wetterling Act does not limit the discretion of states to make the information concerning registrants enrolled or working at the institution available to other law enforcement agencies as well.

The CSCPA and the guidelines implementing the CSCPA require or expect that college and university police departments will provide the campus community with clear guidance as to where information about registered sex offenders can be found. Congress left to the colleges the discretion as to how to go about informing the campus communities of registered sex offenders in their midst. The overriding concern of the legislation is that campus police departments or law enforcement agencies responsible for providing police protection to campuses adequately protect the campus communities from registered sex offenders. In order to protect campus communities, campus police departments may have to provide greater notification to campus communities of the enrollment or employment of registered sex offenders than the CSCPA actually requires.

## **B. NEVADA'S SEX OFFENDER REGISTRATION LAW.**

### **1. Nevada's sex offender registration law requires "the law enforcement agency in whose jurisdiction the sex offender resides or is a student or worker" to register sex offenders and provide community notification.**

*NRS* Chapter 179D, which is Nevada's sex offender registration law, requires "the law enforcement agency in whose jurisdiction the sex offender resides or is a student or worker" to register sex offenders and provide community notification of sex offenders within its territorial jurisdiction. *NRS* 179D.730. Sex offenders present within a jurisdiction for 48 hours or more also must register in the jurisdiction. *NRS* 179D.240, 179D.460.

*NRS* 179D.730 establishes minimum levels of community notification on the basis of an offender's risk of recidivism. If the risk of recidivism is low, the sex offender is assigned a Tier 1 level of notification. If the risk is moderate, the sex offender must be assigned a Tier 2 level of notification. If the risk of recidivism is high, the sex offender must be assigned a Tier 3 level of notification. *NRS* 179D.730 imposes a duty on "the law enforcement agency in whose jurisdiction the sex offender resides or is a student or worker" to provide the appropriate level of community notification.

"Local law enforcement agency" is defined in *NRS* 179D.050 to mean: "1. The sheriff's office of a county; 2. A metropolitan police department; or 3. A police department of an incorporated city." Although a campus police department has primary jurisdiction for providing police services to the campus community and would be "the law enforcement agency in whose jurisdiction the sex offender resides or is a student or worker" with respect to offenders enrolled at or employed by the college or university, it is not a "local law enforcement agency" responsible for providing community notification pursuant to State law because it is not listed in the definition of "local law enforcement agency" in *NRS* 179D.050.2

---

<sup>2</sup> If the Nevada Legislature were to amend *NRS* 179D.050 by adding "college or university police departments" to the definition of "local law enforcement agency," then all of *NRS* Chapter 179D would apply to NSHE institutions maintaining campus police departments, and they would be required to register sex offenders and provide appropriate community notification.

NRS Chapter 179D does not require college or university police departments to register sex offenders or to provide community notification of sex offenders who are enrolled in or employed by an institution or who are present for 48 hours or more because college and university police department departments are not included in the definition of “local law enforcement agency” in NRS 179D.050.

### **C. THE RESPONSIBILITIES OF NSHE INSTITUTIONS MAINTAINING CAMPUS POLICE DEPARTMENTS.**

- 1. Because UNR, UNLV, AND TMCC police departments have assumed primary responsibility for providing police protection to their campuses in Interlocal Agreements with local law enforcement agencies, they are “the law enforcement agency” in whose jurisdiction the sex offender is a student or worker with a duty to register sex offenders and provide community notification pursuant to NRS chapter 179D.**

Although several law enforcement agencies have concurrent jurisdiction over UNR, UNLV, and TMCC’s property, the agencies have, by agreement, made campus police departments primarily responsible for providing police protection to these campuses. Because these campus police departments have assumed the primary responsibility to provide police protection, these police departments are the “law enforcement agency in whose jurisdiction the sex offender is a student or worker” or in which the sex offender is present for 48 hours or more. These departments, accordingly, must register sex offenders and provide community notification to the campus communities pursuant to NRS Chapter 179D.3

---

<sup>3</sup> “Worker” is defined broadly in NRS 179D.120:

1. “Worker” means a person who engages in or who knows or reasonably should know that he will engage in any type of occupation, employment, work or volunteer service on a full-time or part-time basis within this state for:

- (a) Any period exceeding 14 days; or
- (b) More than 30 days, in the aggregate, during any calendar year, whether or not the person engages in or will engage in the occupation, employment, work or volunteer service for compensation or for the purposes of a governmental or educational benefit.

2. The term includes, but is not limited to:

- (a) A person who is self-employed.
- (b) An employee of an independent contractor.
- (c) A paid or unpaid intern, extern, aide, assistant or volunteer.

A NSHE institution maintaining a campus police department must provide community notification consistent with the requirements of *NRS 179D.730*. When an offender is assigned a Tier 1 level of notification, meaning that the risk of recidivism is low, a campus police department will notify other law enforcement agencies that are likely to encounter the sex offender. This is required by the *NRS 179D.730(1)(a)*. The offender's name may be posted to the campus police department's website. The campus police department may post the offender's picture and a description of the crime on the website, and may conduct community notification if the campus police department determines there may be a danger to the campus community. This is consistent with *NRS 179D.710(3)*.

When an offender is assigned a Tier 2 level of notification, meaning the offender is a moderate risk of re-offending, the campus police department will notify other law enforcement agencies that are likely to encounter the sex offender and will notify schools, religious and youth organizations situated on or adjacent to the campus that are likely to encounter the sex offender. This level of notification is required by *NRS 179D.730(1)(b)*. Where the campus police department determines that there may be a danger to the campus, the offender's name may be posted to the website, the offender's picture and a description of the crime may be posted on the website, and the campus police department may provide notification to the University community. These actions are consistent with *NRS 179D.710(3)*.

When an offender is assigned a Tier 3 level of notification, meaning the offender is a high risk of re-offending, the campus police department will, in addition to providing the required Tier 1 and 2 level of notification, notify the campus community through the use of flyers, photographs, email, and other means designed to reach members of the campus community who are likely to encounter the sex offender. This level of notification is required by *NRS 179D.730(1)(c)*.

When an offender is assigned a Tier 2 or 3 level of notification and the sex offender has committed a sexual offense against a person less than 18 years of age, the campus police department will provide the appropriate notification for Tier 2 or Tier 3 and, in addition, will notify: (a) motion picture theaters, other than adult motion picture theaters, which are likely to encounter the sex offender; and (b) businesses which are likely to encounter the sex offender and which primarily have children as customers or conduct events that primarily children attend. This level of notification must include a copy of a photograph of the sex offender and is required by *NRS 179D.730(2)*.

Chapter 179D sets forth minimum levels of notification and grants law enforcement the right to provide supplemental notification where the law enforcement agency determines the offender poses a threat to the safety of the public. The community notification procedures described in this procedure reflect what is required or permitted by law.

#### **D. THE RESPONSIBILITIES OF NSHE INSTITUTIONS THAT DO NOT MAINTAIN CAMPUS POLICE DEPARTMENTS.**

All NSHE institutions, including those that do not maintain campus police departments, must comply with the CSCPA by providing, as a part of its annual security report, “a statement advising the campus community where law enforcement agency information provided by a State . . . concerning registered sex offenders may be obtained, such as the law enforcement agency with jurisdiction for the campus, or a computer network address.”

NSHE institutions that do not maintain campus police departments should determine whether they are parties to Interlocal Agreements with local law enforcement agencies for the provisions of police protection to the campuses. Unless the colleges, by agreement, assumed responsibility for providing some level of police protection to their campuses that would trigger duties under Chapter 179D, the local law enforcement agency with jurisdiction for the campus would be responsible for registration and notification. The colleges also should communicate with the local law enforcement agencies with jurisdiction over the campus for the purpose of assuring themselves that information concerning registered sex offenders will be available to the campus community. If the colleges have assumed any responsibility for providing notification to the campus community, they must provide the minimum levels of notification required by *NRS 179D.730*.

#### **E. LIABILITY.**

An institution may be liable for the failure of its campus police department to disclose the enrollment or employment of a registered sex offender who assaults a student or employee. Although the CSCPA, which is part of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, provides that the failure to comply with the act does not create a cause of action against any institution of higher education or any employee of such an institution, a claim could be brought under State law alleging that the campus police department was negligent in failing to disclose or failing to adequately disclose the enrollment or employment of an offender. Similarly, institutions that do not maintain campus police departments, but which may have assumed responsibility for providing some degree of notification to the campus community, may be liable for failing to provide the notification required by *NRS 179D.730*.

Like the CSCPA, Chapter 179D contains an immunity provision shielding law enforcement agencies and its officers from liability for acts or omissions relating to the disclosure of information. However, campus police departments may not be able to make use of this immunity provision because campus police departments, which will register offenders and provide community notification pursuant to Interlocal Agreements, are not included in the definition of “local law enforcement agency” in *NRS 179D.050*.

Amendment of *NRS 179D.050* would clarify the responsibility of campus police departments and would limit the liability of institutions by giving campus police departments the benefit of *NRS 179D.850*, which grants immunity for acts or omissions relating to the accuracy of information in a record of registration and the disclosure of or the failure to disclose information.

Questions about compliance with the Campus Sex Crimes Prevention Act or Chapter 179D should be addressed to the Vice chancellor for Legal Affairs.  
(Added 6/05)

## **Section 13. Internal Procedures for Telephone Charges**

### Telephone Use:

Sound internal control procedures require that each institution be responsible for creating policies that provide adequate review of its telephone charges on a monthly basis. The telephone charges should be filed either at the department level or with accounts payable for at least three years. Charging personal toll calls to institutional funds is strictly prohibited.

Where assigned, access codes or pin numbers should not be shared. These codes should always be cancelled when an employee terminates his/her employment.

### Cell Phone Use:

Employee Owned Cell Phone Used For Business Purposes: The System will reimburse employees for the cost of all Institution business calls placed from their personal cellular telephone. The Institution will not reimburse any portion of the monthly service charges associated with personal cellular telephones nor will the Institution accept any fiscal or legal liability for a personal cellular telephone used for business. Institutions may develop policies limiting or prohibiting employees from making business calls on personal cellular telephones.

Institution Owned Cell Phone Used For Personal Purposes: Employees are discouraged from making or receiving personal telephone calls or cellular phone text messages using institutional resources. NSHE does recognize that under certain circumstances, however, an employee will need to make or receive a telephone call or text message from an institutional phone (including institutional long distance charges and institutional cellular phones and/or other wireless devices) of a personal nature. When those personal telephone calls or cellular text messages incur an additional charge to the institution, it is the employees' responsibility to reimburse the institution for that charge promptly. In addition, when personal calls or cellular text messages are made and/or received on institutional cellular phones, the employee is responsible for reimbursement of the prorated share of the charges for personal use of the cellular or wireless devices. In addition, the employee must reimburse any purchase of specialized ring tones, video games, or software programs on institutional or corporate liable cellular phones to the institution.

Cell Phone Allowance Program: For institutions that adopt a cell phone allowance program, those employees who have a documented business need for a cellular telephone may receive an allowance for the devices and the monthly services. The intent of this policy is to be at least revenue neutral, meaning that it is anticipated that the cost of necessary cell phone service will be no more than the amounts being paid currently, but the policy change will improve efficiency by minimizing the time in processing cell phone bills. This policy is also not intended to expand the number of cell phone users/allowances.

## **Section 14. Annual and Sick Leave Record Keeping Guidelines**

Per Title 4, Chapter 3 of the *Board of Regents Handbook* each appointing authority must keep accurate and complete records of earned and used leave for each NSHE employee. Such records will be kept as designated by the appropriate Human Resource office. Leave records are subject to examination by those persons in the employee's chain of command, by Human Resource officials, and by internal or external auditors.

Insofar as possible, all leave must be requested and approved in advance by the supervisor or other appropriate administrative officer according to the policies for each type of leave as contained Title 4, Chapter 3 of the Handbook. The approval and recording of unanticipated leave must occur immediately after use of the leave.

Sick Leave: Full-time professional staff members on an "A" or "B" contract shall be granted sick leave as required, up to 30 working days at full salary, available at any time during the initial 12 months of service. Part-time professional staff members on an "A" or "B" contract shall be granted a pro rata amount as appropriate.

Beginning one year after the starting date of his or her initial contract, each full-time staff member will begin to accrue additional sick leave at the rate of two days for each full month of paid service, to be added to any remaining balance of unused sick leave from the first 12 months of service. Sick Leave may be cumulative from year to year, not to exceed 96 days as of the first day of each fiscal year, and any sick leave in excess of 96 days is forfeited on that date. Part-time staff members will earn a pro rata amount of sick leave for each calendar month worked.

Paid sick leave shall not be granted in excess of sick leave earned except as provided in the extended salary sick leave policy as outlined in Title 4, Chapter 3 of the *Handbook*. The employee shall not be paid for any unused sick leave upon termination of employment.

Annual Leave: All professional staff members on a full-time 12-month appointment ("A" contract) earn annual leave at the rate of two working days for each full calendar month of service. Prorated credit shall be earned for partial months of service. Professional staff members on a part-time 12-month appointment earn pro rata annual leave credit.

Annual leave may be cumulative from year to year, not to exceed 48 days as of the first day of each fiscal year, and any annual leave in excess of 48 days is forfeited on that date. No compensation will be authorized for unused or excess leave at the end of each fiscal year. Earned annual leave shall be taken at a time approved or directed by the supervisor or other appropriate administrative officer. Insofar as possible, approval to use annual leave must be secured in advance, in accordance with the provisions contained in Title 4, Chapter 3 of the *Handbook*.

Employees shall be given an opportunity to use accumulated annual leave in excess of 48 working days prior to the last day of the fiscal year provided a request for leave is given by the employee no later than April 1 to the supervisor or other appropriate administrative officer.

Professional staff on an “A” contract appointment who resign or retire shall be entitled to be paid for unused accumulated annual leave up to the maximum of 48 days, unless the supervisor or other appropriate administrative officer directs the employee, in writing, to use all or a portion of the accumulated leave prior to the final date of employment.

(Added 6/05; A. 12/05)

## **Section 15. Phase-in Retirement Program**

This program allows faculty and professional staff to phase-in their retirement (generally between a .50 and .75 FTE course load or work assignment) over an agreed-upon period of time, not to exceed five years. During the phase-in, the institution and employee will continue contributing to their retirement plan as if they were employed 100percent FTE.

The phase-in process is governed by a formal contract between the employee and the NSHE. The basic provisions of the program are outlined below. If you have further questions about the phased-in retirement program, please contact the Human Resources Office on your campus.

### **Eligibility**

The employee must have attained the age of 65 and completed at least five years of service with the institution at the expiration of the term of the agreement;

OR

have attained the age of 60 and completed at least 10 years of service with the institution at the expiration of the term of the agreement;

OR

at any age have completed 30 or more years of service with the institution at the expiration of the term of the agreement.

### **Process**

- The employee requests an application form from the institution’s Human Resource office.
- The employee completes the application and forwards it through the chain of command for signatures from the employee’s chairperson, dean, provost/vice president, and president.
- The completed and signed form is sent to the campus Human Resources office, which officially determines eligibility.
- Human Resources notifies the employee of the status of their application.
- If the application is approved, the Human Resources office types the formal agreement and sends the agreement through the chain of command for signatures.
- No contract exists until such time as the agreement has been fully executed by the president of the institution.
- Any changes to the agreement, once executed, must be endorsed by the president and approved by the NSHE Chancellor.

## **Enrollment Period and Application Deadline**

- Completed applications for consideration of phased-in retirement will be due on February 1 of each year for the following Fall semester. The form must contain all required signatures by that date.

(Added 6/05; A. 12/05)

## **Section 16. Conference/Training Policy**

All System professional staff are eligible to request attendance annually for one out-of-state conference/meeting, to be paid for by the System that is applicable to their job duties and is approved by their supervisor. Any exceptions to this policy must be approved by the chancellor. (Added 7/06)

## **Section 17. System Administration Cellular Phone, Personal Digital Assistant (PDA), and Data Plan Guidelines**

1. The NSHE System Administration Office, including its units, shall not purchase cellular phones or Personal Digital Assistants (PDA) or enter into monthly cellular phone, PDA or data plan contracts, except as provided in this section.
2. Allowance for Cellular Phone, PDA or Data Plan
  - a. Employees who have a documented business need for a cellular phone or PDA may receive an allowance for a portion of the monthly services as provided in this section.
  - b. Employees who have a documented business need for a data plan for Internet access for a tablet, laptop or similar device may receive a allowance for the data plan as provided in this section.
  - c. An employee may not receive more than one allowance as provided in this section unless the employee's direct supervisor determines there is a documented business need for a cellular phone/PDA allowance and a data plan allowance.
  - d. An employee cannot request an allowance greater than the cost of the plan. The employee may be asked for documentation showing he or she is not being reimbursed over the cost of the plan.
3. Procedure. All employees with a regular business-related need for a cellular phone, PDA, or data plan allowance must complete the "Cellular Phone / PDA / Data Plan Allowance Request Form." This form must be approved by the employee's direct supervisor as well as by the appropriate vice chancellor.

- a. Once completed, the original, signed form should be sent to the vice chancellor of Finance to be processed through the appropriate controller/payroll unit. Once received and processed, a monthly allowance will be added to the employee's paycheck each month. This allowance amount will be charged to the appropriate departmental operating budget as indicated on the request form.
  - b. Neither the employee's purchasing card nor the departmental purchasing card may be used to pay for cellular phones/PDA devices or the monthly charges unless an exception is granted to issue an NSHE phone.
  - c. The stipend will terminate effective with the employee's last day of employment, regardless of the employee's cell-phone contract length.
4. Amount of the Cellular/PDA Service Allowance. The amount of the monthly allowance represents a sharing of the cost of a typical contract necessary to meet business related needs for voice and data services for a cellular phone or PDA. The System offers a monthly allowance for voice and data plans for cellular and PDA service based on usage level. An average usage level is based on the expectation that approximately 25 percent or more of the monthly minutes and data used are work related. A high usage level is based on the expectation that 50percent or more of the monthly minutes and data usage are work related. No extra allowance will be provided for text message services.

Usage Level	Voice and Data Allowance for Cellular or PDA Service
Average Usage	\$50 per month
High Usage	\$75 per month

- a. This allowance does not represent an increase in base pay.
  - b. The allowance will continue until the Vice Chancellor of Finance Office is notified in writing either by the employee or the supervisor that the allowance is to cease.
  - c. The Vice Chancellor of Finance will maintain a list of employees who receive this stipend and will provide this list to the responsible vice chancellors for a review on an annual basis. A yearly review of the need for a cellular phone or PDA or data plan will be conducted by the appropriate vice chancellor.
  - d. No additional reimbursement will be provided to those receiving a monthly allowance even if the monthly charges to the employee exceed the allowance amount. When contracting for services, the employee should inquire as to the availability of any discounts that may be available to NSHE employees.
5. Amount of the Data Plan Allowance for Internet Access. The amount of the data plan allowance for Internet access for a device such as a tablet or laptop is based on the amount of data usage for the device. This allowance does not cover any costs related to the use of a System-issued laptop for the purpose of checking email messages after hours or out of the office.

Data	Data Plan Allowance
6 GB	\$20 per month
12 GB	\$45 per month

6. Equipment Allowance Prohibited. No allowance will be made towards the purchase of personally owned cellular, PDA, tablet, or laptop equipment. Likewise, System funds may not be used to pay for accessories or applications/ software without prior written authorization.
7. Policy Regarding Use of a Personal Cellular Phone, PDA or Other Device. Because the cellular phone, PDA, tablet, laptop or similar device for which a monthly allowance is approved is owned by the employee, the device may be used by the employee for both personal and business-related purposes. The employee may also use the allowance as he or she sees fit in order to obtain cellular or PDA service or a data plan, and may freely use it to purchase an individual cellular plan, a so-called “family” plan, or data sharing plan.
- a. All contracts for service or a data plan must be taken out in the name of the employee receiving the allowance and may not be taken out in the name of NSHE.
  - b. As a condition of receiving the allowance, the employee understands and agrees that the employee may be contacted through his or her personal cell phone number for work-related matters as reasonably necessary during regular or after business hours. Special rules may apply to contacting hourly employees for substantive work issues after hours.
  - c. As a condition of receiving the allowance, the employee understands and agrees to maintain an active cellular phone, PDA or data plan, as applicable, as long as an approved allowance is in place.
  - d. Federal law may allow an employee to deduct the business-related portion of the bill for cellular phone/PDA service or for a data plan on the employee’s federal income tax return. If applicable, the employee is responsible for any required documentation.
8. Support for Cellular Phones, PDAs, and Data Plans. All support for cellular phones, PDAs, and data plans is provided by the cellular or mobile service company chosen by the employee. System Computing Services (SCS) cannot offer any support for individually owned cellular phones, PDAs, tablets, laptops, or similar devices. However, SCS will provide support for NSHE provided software that is used on those devices to synchronize them with NSHE email accounts, calendars or other NSHE systems and services if available for the particular device and if reasonable security protocols can be established. If an employee intends to try to link a personal device to NSHE systems and services, the employee should contact SCS before purchasing a particular device in order to ascertain the extent to which such linkage is feasible.

9. Changes to Service Contracts. NSHE reserves the right to change or terminate this policy regarding allowances for cellular phone or PDA service or data plans at any time. Individuals eligible for receipt of an allowance should understand that they are personally liable for monthly charges or termination fees, regardless of employment status or any change in this reimbursement policy.
10. Special Procedures for NSHE owned cellular phones and PDAs. In some situations, it may be necessary or advantageous for NSHE to own and pay the monthly service charges for cellular phones or PDAs. The purchase and use of such devices must be approved in advance by the supervisor and appropriate vice chancellor. In those cases where NSHE directly pays for the cellular voice or PDA contract, the cellular phone or PDA may not be used for personal purposes, and the monthly bills may be audited for such personal use. Violation of this policy may result in disciplinary action. NSHE-owned cell phone records are subject to public records review and disclosure, with limited exceptions, as provided under Nevada law.

## **Section 18. Fees for Public Records**

### **A. POSTING; DESIGNATION OF RECORDS OFFICIALS; ADOPTION OF INSTITUTION POLICIES**

This policy must be posted in a conspicuous place at the NSHE System Administration offices (Reno and Las Vegas) and at the office of the president of each NSHE institution. Each institution and the Chancellor's office shall post the policy on its website. The president of each institution and the Chancellor shall designate one or more employees to act as records officials. (NRS 239.008). Each institution may establish its own policy in compliance with NRS Chapter 239, to be followed in lieu of this policy, subject to the prior review of institution general counsel and approval of the president.

### **B. PROCEDURE AND FEES**

The following fees are to be charged by all NSHE institutions or units in responding to all requests for copies of public books or records pursuant to NRS Chapter 239 (Nevada Public Records Act). The fees set forth in this schedule are solely applicable to public records requests. Requests for copies of public books or records may be oral or in writing. NOTE: The Nevada Public Records Act does not require the creation of documents or customized reports in response to requests for information.

1. Fees for Copies of Public Records on Letter Size or Legal Size Paper (NRS 239.052). Ten cents (\$.10) per page after the first twenty (20) pages will be charged for a copy of a public book or record on standard letter size or legal size paper. Additional fees may be charged for oversized, difficult to copy or color records, or for the cost of a DVD/CD on which the record is provided. The requester must be informed of any such additional charges before the copies are made and such charges must not exceed the actual cost of providing the copies. The per page copy fees are separate and in addition to any fee to be charged for extraordinary use of personnel or technology.

2. Fees for Requests Requiring Extraordinary Use of Personnel or Technology (NRS 239.055). If extraordinary use of personnel or technological resources is required to comply with a public books or records request, the requester must be charged a reasonable fee, not to exceed fifty (50) cents per page, for the extraordinary use of personnel or technological resources.
  - a. Extraordinary Use of Personnel. Extraordinary use of personnel means time in excess of two (2) hours per employee reasonably and necessarily required to provide cost estimates, locate, format, retrieve, compile, review of confidentiality, research, redact, copy requested documents, provide required notices, or other work related to responding to the request. The rate charged must be reasonable, based on the actual cost incurred and must not exceed fifty (50) cents per page. The estimate of the cost shall take into consideration, but not necessarily be limited to, the gross hourly wages of each of the staff member(s) reasonably available and qualified to respond to the request. The time must be the actual time required to respond to the request. The extraordinary use of personnel fee must not include the first two (2) hours of each employee's time.
  - b. Extraordinary Use of Technological Resources. Should extraordinary use of technology be required to comply with a public books or records request, the requester must be charged the actual cost for the use of the technology, exclusive of overhead, and not to exceed fifty (50) cents per page.
3. Prior Notice of Extraordinary Fees (NRS 239.055). Prior to preparing information which requires extraordinary use of personnel or technology, the employee who is responding to the request must prepare an estimate of the time required to comply and must inform the requester of the anticipated charge based upon those estimates. The estimated fee must be collected before the work begins to prepare the requested copy of the public record. If the requester objects to the prior payment of all or part of the estimate, counsel should be consulted. NSHE will not charge an additional fee as provided herein if subsequent requests for the same documents do not require the extraordinary use of NSHE personnel or technological resources to fulfill the additional or subsequent requests. If the actual cost is less than the estimate, the balance must be returned to the requester.
4. Fees for Copies of Public Records in Other Media (NRS 239.010(4)). A person may request a copy of a public record in any medium in which the public record is readily available. An officer, employee or agent of a governmental entity who has custody of a public record must not refuse to provide a copy of that public record in a readily available medium because the officer, employee or agent has already prepared or would prefer to provide the copy in a different medium. In the event a request is made for a public record maintained in a readily available medium other than letter size or legal size paper or the readily available medium of the public record cannot be accurately reproduced on a standard copier to letter size or legal size paper, the requester must be charged the actual cost for reproducing the record.

5. Fees for Records from Geographic Information Systems (NRS 239.054). A fee for public information maintained and retrieved from a geographic information system may include the reasonable costs related to:
  - a. The gathering and entry of data into the system;
  - b. Maintenance and updating of the database of the system;
  - c. Hardware;
  - d. Software;
  - e. Quality Control;
  - f. Consultation with personnel of the governmental entity.

Prior to retrieving the record from the geographic information system, the processing employee must obtain estimates of the costs required to comply and must inform the requester of the estimated fee. The estimated fee must be collected before the work begins to prepare the requested copy of the public record. If the actual cost is less than the estimate, the balance must be returned to the requester.

6. Additional Fee for Copy of Transcript of Administrative Proceeding (NRS 239.053). If the public records request is for a copy of a transcript by a certified court reporter of an administrative proceeding, in addition to the actual cost of the medium in which the copy of a transcript is provided, the requester must be charged the per page fee set forth in the contract with the court reporter.
7. Public Meetings; Providing Copies of Agenda and Supporting Material (NRS 241.020(5) & (6)). Upon any request, a public body must provide at no charge at least one copy of:
  - a. An agenda for a public meeting;
  - b. A proposed ordinance or regulation which will be discussed at the public meeting; and
  - c. Any other supporting material provided to the members of the body except materials:
    - i. Submitted to the public body pursuant to a nondisclosure or confidentiality agreement;
    - ii. Pertaining to the closed portion of such a meeting of the public body; or
    - iii. Declared confidential by law or by application of appropriate legal standards.

If the requester has agreed to receive the information and material set forth above subsection 5 by electronic mail, the processing employee must, if feasible, provide the information and material by electronic mail.

8. Certification of Public Records (NRS 239.030). Upon request, each NSHE department having custody of a public record must certify that the copies provided are true and correct copies of the records on file in the office as of the date provided. NRS 240.100 authorizes notary fees of \$2.50 for certification of copies. No additional fee for certification will be required, unless otherwise established in state or federal law.

**NEVADA SYSTEM OF HIGHER EDUCATION  
PROCEDURES AND GUIDELINES MANUAL**

**CHAPTER 5**

**FISCAL PROCEDURES**

**Section 1. Management of Host Accounts/Expenditures (formerly CM 01-02)**

Requests by a president for reimbursement of expenses from president's Host funds must be submitted to the chancellor for approval. The president's hosting claims cannot be approved by employees subordinate to the president. Similarly, the chancellor must request approval from the Board Chair for reimbursements from chancellor's Host funds.

All host account expenditures (both president's Host funds and Institutional Host funds) must conform to Board of Regents' policy and chancellor's procedures established herein, and claims for reimbursement must include proper documentation.

For a president's or chancellor's spouse, significant other or guest, host account funds may be used to pay transportation, lodging, and meal expenses (in accordance with the standard reimbursement rates) when she or he by reason of a personal relationship is expected to accompany the president or chancellor to events outside a 50-mile radius from home for the purpose of assisting the president/chancellor in representing the institution/system.

These procedures are in addition to the Board of Regents' policies on host expenditures defined in the *Handbook*, Title 4, Chapter 10.

1. Authority. The authority to designate a specific account as a host account is delegated by the NSHE Board of Regents to the chancellor (for System Administration) and to the presidents (for each institution). Due to the sensitive nature of hosting expenditures, the president may not delegate signature authority below the level of vice president, deans, or direct reports to the president.
2. Restrictions. Host account expenditures may not be used to circumvent state or institutional regulations that restrict reimbursement rates for state-funded activities.
  - a. Host funds shall not be used to reimburse employees for expenses incurred while in travel status in excess of state-approved lodging and/or per diem rates.
  - b. Per diem will not be reimbursed to an employee or contractor for meals that have been otherwise paid as a host expense.
3. Participants. Host expenditures are warranted for business events and functions where personnel external to an institution are necessarily in attendance. Where the only participants at a business event or function are institutional employees, host expenditures may be approved by the person with account-signature authority if:
  - a. It is a special event, such as a retreat, retirement or annual recognition or award ceremony, or
  - b. It is a business meeting or workshop, scheduled for a specific agenda that runs through normal meal or break times and whose schedule permits the efficient gathering of employees from different offices or units across the institution.

- c. Spousal cost is reimbursable if approved by the president of the institution.
  - d. The primary beneficiaries/attendees are medical or dental residents whose duties restrict the resident to the premises.
4. Documentation. Hosting expenditures should be documented in accordance with Internal Revenue Service guidelines for expense substantiation. This includes, but is not limited to, amount, date, time, place, business purpose, and business relationship of those attending the function. This is referred to as the “who, what, when, where and why” substantiation. In the case of large gatherings, identification of groups of people invited may be satisfactory. All receipts submitted for payment must be originals that clearly indicate the vendor and date of purchase.
  5. Annual Review Required. Each host account will be reviewed annually by the institution’s Controller or designee to determine that the account continues to be necessary for hosting purposes.
  6. Accountability. System wide procedures for the management of host accounts within the guidelines of this section are established by the chancellor. Institutions may adopt more restrictive standards and should include them in their administrative procedures manual. The chancellor and presidents are responsible for oversight of the host accounts created under their respective authority.
  7. Table Purchases. The purchasing of tables at charity events or other public functions by the System institutions shall be limited:
    - a. The decision to purchase a table shall be governed by the following standards, with an assumption that the decision to purchase a table would normally be made on the basis of affirmative answers to two or more of these standards:
      - I. Is it an event at which individuals are likely to be present with whom the chancellor, institutional president, or an appropriate representative wishes to interact on pressing System or institutional business? Will attendance at the event enable or advance such interaction, either at the event or later?
      - II. Is it an event at which individuals are likely to be present with whom the chancellor, institutional president, or an appropriate university representative wishes to interact in order to advance fund-raising or community relations goals? Will attendance at the event enable or advance such interaction, either at the event or later?
      - III. Is it such a high-profile event that attendance by the chancellor, institutional president, or appropriate university representative is important to the recognition of the NSHE or System institution as an important corporate citizen in Nevada?
      - IV. Is it an event at which students and/or faculty from the System institution can meet and interact with special guests for educational purposes?
      - V. Will the event honor an individual who is – or has been – a significant donor to or supporter of the System institution? Will attendance by System or institutional representatives either convey thanks for such private support in an important and meaningful way or advance the institution’s conversations with the individual about additional future support?
    - b. No tables will be purchased by System institutions at events hosted by other institutions within the NSHE.

- c. No tables will be purchased by System institutions at events hosted by organizations officially registered as political action committees.
- d. System institutions shall be limited in their expenditures of host funds for table purchases not to exceed \$30,000 annually:
  - I. If a private donor or corporation provides a donation specifically for a System institution to purchase a table, the donation shall not count toward the institution's annual limit.
  - II. Donations/Foundation purchases are included in the above table restrictions.
- e. On a case-by-case basis, the chancellor may grant waivers for table purchases exceeding the annual purchase limit established in subsection 7.d. Upon request and proper documentation, the chancellor may grant a waiver for a particular event or, if appropriate, an increase in the limit. In the latter case, the institution shall provide details on the actual expenditures in order to allow compliance with the reporting requirements of this subsection. Any request for a waiver must be copied to the vice chancellor for finance who will report all such exceptions to the Board of Regents.

## **Section 2. Purchasing and Related Procedures**

The Business Centers conform to the following procedures:

- I. Basic Purchasing Procedure. Except for personal/consultant services involving technical, professional or specialized skills or training and as noted in Chapter 5, Section 2c, all materials, supplies, equipment, services, and construction shall be purchased from the lowest responsive and responsible bidder after giving due consideration to price, life cycle cost, quality, availability, conformance to specifications, financial capability and service. The Purchasing Department of each Business Center may develop more detailed policies and procedures for purchasing activities as long as they are in compliance with the limits and delegations defined in the Board of Regents Purchasing Policy (Title 4, Chapter 10). The Purchasing Division of each Business Center will develop specific policies for obtaining personal/consultant services involving technical, professional or specialized skills or training, including architects, engineers, and other design professionals.
  - a. Single or conglomerate purchases from a single vendor, the estimated cost of which is \$50,000 or more shall be purchased after the Purchasing Department:
    - (1) advertises for bids at least once in a newspaper of general circulation in the area of the campus to be supplied and not less than four (4) calendar days prior to opening bids;
    - (2) gives written notice to pertinent vendors on the "vendors list"; and
    - (3) publicly opens, reads aloud and records sealed bids at the time and place so advertised.
  - b. A contract of any nature may be entered into without advertising when the estimated amount required to perform the contract is less than \$50,000:

- (1) if the estimated amount required to perform the contract is \$25,000 or more, but is less than \$50,000, requests for quotes must be solicited from two or more responsible vendors capable of performing the contract, if available;
  - (2) the Purchasing Department shall maintain a record of all written requests for quotes and responses received, in accordance with the Nevada System of Higher Education Policy covering record retention; and
  - (3) nothing in this section prohibits the advertising for or requesting of bids for purchase of any dollar amount.
- c. Except as noted below, all other purchases shall be made by the Purchasing Department after following generally accepted purchasing procedures for the economical and timely procurement of materials, supplies, equipment, services and construction.

The Purchasing Department may grant a competitive bidding exception for the following, and if such an exception is granted, the rationale/justification for it must be in writing, approved by the Purchasing Department, and included in the Purchasing file for this transaction:

- (1) Proprietary, single, or sole source items.
  - (2) Purchasing may solicit and accept advantageous trade-in allowance for personal property which has been determined to be of no further use to the Business Center and may award any bid to the bidder submitting the lowest net bid after deduction of such trade-in allowance.
  - (3) In the case of supplies, materials or equipment which can be purchased at any court-ordered auction, closeout, bankruptcy or other similar sale may be made by the Purchasing Department or their authorized representative and at a reasonable savings over the cost of like merchandise and below market cost of the area, a contract or contracts may be let or purchase made without complying with the requirements for competitive bidding. Documentation for such purchase or acquisition must be made for record and approved by the Chief Business Officer of the institution.
  - (4) Once Purchasing has advertised for or requested formal bids or proposals in letting a contract and no responsive and responsible bids or proposals were received, Purchasing may negotiate a contract with reasonably interested parties without further need for competitive bidding.
  - (5) Contracts which by their nature are not adapted to award by competitive bidding including contracts for such items or services which may only be contracted from a single or sole source; conventions; workshops; seminar rooms; special functions, purchase of perishable goods; books; subscriptions; library materials; and
  - (6) Nothing in this section prohibits advertising for or requesting bids.
- d. With the written permission of the Chief Business Officer of the institution involved, a contract may be instituted in an "emergency" situation by waiving the necessary advertising or bidding requirements of this chapter. In any such case, a full written record shall be made of the circumstances. An emergency is defined as one which:

- (1) results from the occurrence of a disaster such as, but not limited to, fire, flood, hurricane, riot, power outage or disease; or
  - (2) may endanger the health, safety or welfare of the students, faculty, staff or public if not immediately resolved.
- e. Livestock purchases for College of Agriculture programs may be made by the Dean of the College without reference to the Purchasing Department.
  - f. Purchases in excess of \$10,000 of specially selected hay for use by the College of Agriculture in research or experimental tests may be made after solicitation of three written quotes.
  - g. Capital Construction.

Any new construction, repair, improvement, or reconstruction on land, appurtenances and buildings of the Nevada System of Higher Education, the estimated cost of which is \$25,000 or more, which is intended for long-term, continued use or which extends the useful life of a capital asset, is deemed a capital construction project.

The respective institutional Facilities Departments must provide direct oversight for all capital construction projects, including remodeling projects. Facilities Management staff will be sufficiently involved in the project review, approval, and management of all capital construction projects to ensure compliance with all internal and external requirements.

Upon the request of a campus of the Nevada System of Higher Education, the State Public Works Board may delegate to that campus any of the authority granted to the State Public Works Board pursuant to *Nevada Revised Statutes* (NRS) 341.141 to NRS 341.148, inclusive.

A contract for a capital construction project for the Nevada System of Higher Education may be entered into without advertising for sealed bids if the estimated cost to perform the contract is less than \$100,000.

- (1) If the estimated amount for performing the contract is more than \$25,000, but is less than \$100,000, requests for firm written quotations must be solicited from not less than three responsible bidders capable of performing the contract. The Nevada System of Higher Education may award the contract to the lowest bidder or reject all quotations. Nothing in this section prohibits the advertising for or requesting of bids for purchase of any dollar amount.
- (2) Such projects over \$100,000 shall be advertised in a newspaper of general circulation in the area of the campus where the work is to be performed and not less than four (4) calendar days prior to opening bids.
- (3) Separate sealed bids for each capital construction project are required.
- (4) Approved plans and specifications for the capital construction project must be on file at a place and time stated in the advertisement for the inspection of all persons desiring to bid thereon and for other interested persons.

- (5) The institution may accept bids on either the whole or part of the construction, equipment and furnishings, and may let separate contracts for different and separate portions of any project, or a combination contract for structural mechanical and electrical construction if savings will result to the lowest bidder.
- (6) The provisions of subsection (g) apply to all capital construction projects funded in whole or in part by state appropriations.
- (7) An agreement for a capital construction project, funded totally from non-appropriated sources, may be entered into with a contractor that satisfies any qualifications required by the NSHE institution.
- (8) Before any contract for a capital construction project exceeding \$100,000, or as otherwise specified in *Nevada Revised Statutes* 339.025, is awarded to any contractor, he shall furnish to the contracting body the following bonds which become binding upon the award of the contract to the contractor:
  - a. A performance bond in an amount to be fixed by the contracting body, but not less than 50 percent of the contract amount, conditioned upon the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract. The bond must be solely for the protection of the NSHE, which awarded the contract.
  - b. A payment bond in an amount to be fixed by the NSHE, but not less than 50 percent of the contract amount. The bond must be solely for the protection of claimants supplying labor or materials to the contractor to whom the contract was awarded, or to any subcontractors, in the prosecution of the work provided for in such contract.
- (9) One or more surety companies authorized to do business in the State of Nevada must execute each of the bonds required pursuant to this section. If the contracting body is the State of Nevada or any officers, employee, board, bureau, commission, department, agency or institution thereof, the bonds must be payable to the contracting body.
- (10) Each of the bonds must be filed in the office of the NSHE institution that awarded the contract for which the bonds were given.
- (11) Nothing in this section prohibits a contracting body from requiring bonds.
- (12) Contracts for Design-Build; Lease-Purchase; Installment-Purchase; or similar approaches to procure facilities must also follow appropriate public solicitation procedures, which at a minimum provide vendors with an appropriate opportunity to respond to institutional needs. Projects of these types shall be subject to an appropriate public solicitation process, which must be approved by the appropriate Purchasing Department and consistent with applicable NRS Chapter 338 provisions pertaining to design professionals. Based on the results of legislation adopted during the 2007 Session pursuant to the recommendations of the Senate Bill 426 Advisory Group to Conduct an Interim Study on Lease-Purchase and Installment Purchase Agreements by Public Entities (Chapter 508, *Statutes of Nevada 2007*), NSHE institutions will adopt specific procedural language for projects of this type on or before December 31, 2007.

- (13) A Purchase Order (PO) alone cannot be used for any construction contracts. Construction contracts exceeding \$100,000 must be properly approved and key clauses as stated in the System's contract policy must be included in the construction contracts. If a PO is used for construction activity under \$100,000, it must be supplemented by appropriate information (required clauses and information) and properly approved.
  - (14) Change orders will be approved in the same manner as the original contract.
  - (15) Each institution will collect, maintain, and report upon request, reliable capital construction project information.
- h. Joinder (or Mutual Use of Contract) Capability – With the agreement of the vendor, the NSHE may join, or mutually use, the contracts or pricing agreements of appropriate federal, state, and local entities and consortiums. Where the NSHE uses the original contract in order to obtain quantity pricing or other competitive discounts, the original contract is not liable for the obligations of the NSHE. The requirements for competitive quotations and/or formal bidding may be considered satisfied through the use of the joinder contracts, including federal/state/local contracts, consortium agreements, and the educational pricing agreements.

## II. Tier 2 & Subcontractor Reporting Requirements

- a. The Nevada System of Higher Education supports equal opportunity for minority-owned, women-owned, and other small disadvantaged business enterprises (MWDBE) to compete for contracts awarded by NSHE institutions. The NSHE also supports efforts to encourage local businesses to compete for NSHE contracts. In addition, the NSHE supports finding opportunities for such MWDBE and local business concerns to participate as subcontractors or Tier 2 suppliers in large contracts. A "Tier 2 supplier" or subcontractor is a supplier who is contracted for goods or services with the prime contractor, and may include, but is not limited to MWDBE and local business enterprises.
- b. Bid Evaluations for Prime Contractors. NSHE institutions shall require bid documents and resulting prime contracts for the purchase of goods or services that exceed \$1,000,000 include the bidder's historical and anticipated commitment to Tier 2 MWDBE and local business enterprises, including but not limited to indication of certification as a minority or women-owned business enterprise, and local subcontractor/local supplier spending. The bid documents and resulting contracts must contain a list of the Tier 2 businesses or suppliers, including any MWDBE or local business enterprises that will be given the opportunity to bid as subcontractors.
- c. Annual Reporting by Prime Contractor. Bid documents and resulting contracts for the purchase of goods or services that exceed \$1,000,000 must, at a minimum, contain a requirement for the prime contractor/supplier to annually report expenditures with MWDBE business concerns, and to also annually report expenditures with local subcontractors. These annual reports pertain only to expenditures that are directly attributable to the NSHE prime contract. This provision is not applicable to contracts for utilities or sponsored projects. The annual report should contain the following information for the most recently completed fiscal year:

- (1) The name, city and state; type of each local, women-owned, minority and/or disadvantaged subcontractor (Tier 2 supplier or local subcontractor); and any certification awarded as a local, women-owned, minority or disadvantaged subcontractor, including the entity that awarded the certification. If a business concern meets more than one definition (e.g. local and women-owned, or minority and women owned), that should be identified;
- (2) A description of the goods or services purchased; and
- (3) The amount of expenditures with the subcontractor attributed to the prime contract for the 12 month period.

Exceptions to this reporting requirement may be established by the Vice chancellor of Finance in situations where the contract is unlikely to generate Tier 2 or local subcontractor spending, or if there are legal impediments. Institutions or business centers may adopt more detailed requirements and may also apply similar reporting requirements for contracts under \$1,000,000. Federal contracts and grants may also have more detailed requirements for MWDBE spending.

- d. Definition of Local Subcontractor. "Local subcontractor" is intended to mean a business concern that is a) owned 51 percent or more by Nevada residents, b) is headquartered in Nevada, or c) a majority of employees of the business are Nevada residents.
- e. Definition of Disadvantaged Business Enterprise (DBE). "Disadvantaged Business Enterprise" is intended to mean a business concern owned by a minority or woman that is at least fifty-one percent (51%) unconditionally owned by one or more minority or women individuals who are both socially and economically disadvantaged, or a publicly owned business that has at least fifty-one percent (51%) of its stock unconditionally owned by one or more such individuals and that has its management and daily business controlled by one or more such individuals. Individuals who certify that they are a member of named groups, i.e. African Americans, Hispanic Americans, American Indians and Alaska Natives (Eskimos and Aleuts) and Asian and Pacific Island Americans are to be considered socially and economically disadvantaged.
- f. Definition of Minority Business Enterprise (MBE). "Minority Business Enterprise" is intended to mean a business concern owned by one or more minority individuals that is at least fifty-one percent (51%) unconditionally owned by one or more minority individuals, or a publicly owned business that has at least fifty-one percent (51%) of its stock unconditionally owned by one or more such individuals and that has its management and daily business controlled by one or more such individuals. Individuals who certify that they are a member of named groups, i.e. African Americans, Hispanic Americans, American Indians and Alaska Natives (Eskimos and Aleuts) and Asian and Pacific Island Americans are to be considered socially and economically disadvantaged.
- g. Definition of Women-Owned Business Enterprise (WBE). "Women-Owned Business Enterprise" is intended to mean a business concern owned by one or more women that is at least fifty-one percent (51%) unconditionally owned by one or more women, or a publicly owned business that has at least fifty-one percent (51%) of its stock unconditionally owned by one or more such individuals and that has its management and daily business controlled by one or more such individuals.

### III. Supply Chain Diversity (Tier I):

In an effort to diversify the NSHE supplier base and engage local and MWDBE vendors when possible, NSHE institutions will utilize the following supplier outreach process:

All formal solicitations must be distributed through one or more approved vendor outreach channels. The vice chancellor of finance will prepare and maintain a list of outreach channels.

Each purchasing center will designate a supplier outreach coordinator. The supplier outreach coordinator will be identified on the institution's website and in procurement documents and will assist local and disadvantaged vendors with solicitations, questions, and vendor training.

NSHE institutions will report annually the Tier I MWDBE vendor expenditures for the most recently completed fiscal year.

### IV. State Business License Requirements

A person conducting business for profit in Nevada is required to have a current Nevada business license pursuant to NRS 76.100(1) unless the entity is either a) a non-profit corporation or b) meets the requirements for an exemption and has filed the appropriate notice of exemption with the Nevada Secretary of State. All purchase orders and contracts for business services to be provided in Nevada should, at a minimum, contain a verification by the vendor that the organization has a current Nevada business license, is a non-profit corporation or has filed for an appropriate exemption. For contracts in excess of \$25,000, a business license number and information demonstrating good standing with the State of Nevada is required. If necessary, a contract may be initiated with a business that has an application for a state business license pending.

### V. Presidential Office Expense

Furniture expenses for presidential offices in excess of \$10,000 annually require the chancellor's approval. The chancellor should also be consulted with regard to significant remodeling expenses for presidential offices.

## **Section 3. Preparation and Approval of Contracts (formerly CM 02-04)**

The Nevada System of Higher Education annually enters into many contractual agreements. The efficient execution (signature) of contracts is often of critical importance. However, the processing and execution of a contract is sometimes delayed because of errors or omissions in its form.

The requirements and procedures stated in this policy have been established for the preparation and processing of proposed NSHE contracts. These requirements and procedures will result in the efficient processing of contracts and in documents that are consistently sound, correct in format, and that limit the potential liability to the System.

The six most common problems involving contracts are:

- The failure of a contract to state that the Board of Regents is the contracting party on behalf of an NSHE institution;
- The inclusion of a “hold harmless” clause holding the other party harmless without including language holding NSHE harmless;
- The inclusion of language that mandates NSHE carry commercial general or business automobile liability insurance;
- The failure of an institution to provide clear oversight of the terms and language of any sub-contracts that may be executed;
- The failure of an institution sending a contract to the chancellor to ensure that the president has reviewed and recommended it; and
- Failing to require the other party to have appropriate commercial general, business automobile, or professional liability coverage and limits.

This procedure contains the following elements:

- Policy guidelines and procedures presented in a question-and-answer format to 33 commonly asked questions;
- Checklist to be followed for each contract;
- NSHE Standard Form Contract for Services of an Independent Contractor;
- NSHE Standard Form Lease;
- NSHE Standard Form Instructional Facility Agreement;
- NSHE Standard Form Education Affiliation Agreements (Clinical and General);
- NSHE Standard Form Inter-institutional Agreement.

## **NSHE CONTRACT POLICY FREQUENTLY ASKED CONTRACT QUESTIONS**

The Board of Regents has given the chancellor of the Nevada System of Higher Education the authority to enter into contracts on behalf of the Nevada System of Higher Education subject to limited exceptions that are reserved for approval of the Board of Regents, such as certain real estate matters, and employment contracts of longer than one year.

The purpose of this question and answer format is to state in plain terms the NSHE policy on contracting, including any delegation of authority from the chancellor to the NSHE institutions. Where authority has been delegated from the chancellor to an institution that authority resides in the president of the institution. While the president may delegate that authority in writing to other administrative officers at the institution, the president ultimately remains responsible for all contracts entered into by the institution. Therefore the institution should have policies in place that provide for appropriate levels of internal review, including legal and financial review, pertaining to the economic and liability risks associated with the transaction. With respect to System Office contracts, the chancellor may establish additional policies and delegation authority within the System Office and its units.

### **Q 1 What is a contract?**

**A** A contract is an agreement between two or more persons (or entities) that creates an obligation to do or not to do a particular thing. Its essential components are competent parties (persons or entities legally capable of contracting), subject matter (the purpose of the contract), a legal consideration (the inducement to contract, usually money or something of value, but also including mere promises to perform something or refrain from doing something), mutuality of agreement (all parties must voluntarily enter the contract) and mutuality of obligation (all parties are obligated to do something or not to do something they otherwise have a right to do).

Labels do not control whether a contract exists or not. The following, which are not meant to be all-inclusive, are all contracts if they constitute an agreement between two or more persons that creates an obligation to do or not to do a particular thing:

- a contract;
- an agreement;
- a lease;
- a rental agreement;
- a letter or memorandum of intent;
- a letter or memorandum of agreement;
- a letter or memorandum of understanding;
- an employee separation agreement;
- a facility use agreement;
- an education affiliation agreement;
- a purchase order;
- a grant;
- a grant agreement.

It is generally preferable to obtain original signatures on at least one copy of the contract as such original signatures may be useful in establishing the validity of signatures in the event of a dispute. However, circumstances such as exigency, location of parties, form of the contract and size of the contract may make acceptance of a facsimile or an electronic signature acceptable. Any exception to obtaining original signatures must be expressly approved and documented by the institution General Counsel's Office.

**Q 2 Why must these procedures be followed?**

**A** A contractual obligation is a legal obligation. Signing a contract is a very serious step which, depending on the terms of the contract, could put NSHE in a position of considerable liability—sometimes political, sometimes from a public relations standpoint, but most often of a financial nature. The policies contained in this procedure have been developed in order to limit financial liability from lawsuits that might arise from improperly written contracts. The procedures serve important interests of the Board of Regents, and it is essential they be followed by NSHE officers and employees.

**Q 3 Are student government contracts governed by these requirements and procedures?**

**A** Yes. Student governments are an integral part of NSHE and the institutions in which they are established and, therefore, contracts they may enter into are subject to the contract policies established by the Board of Regents, the chancellor, and the presidents of their institutions.

**Q 4 Are contracts with performing artists governed by these requirements and procedures?**

**A** Yes. Contracts with performing artists are contracts with NSHE and, therefore, are subject to the same policies and procedures established by the Board of Regents, the chancellor, and the presidents of the institutions. If a standard form contract is used that has been approved by the Vice Chancellor for Legal Affairs office, it may be approved at the institutional level.

**Q 5 Are employment contracts for head coaches of athletic teams governed by these requirements and procedures?**

**A** Yes. Contracts with head coaches are contracts with NSHE and, therefore, are subject to the same policies and procedures established by the Board of Regents, the chancellor, and the presidents of the institutions. Often Board of Regents approval is required of athletic coach contracts because such contracts frequently exceed one year or contain certain perquisite/bonus provisions that require Board approval. Due to NCAA requirements, there are additional clauses in the employment contracts for head coaches that are not found in other employment contracts. Additional governing policy is contained in NSHE Code, Section 5.4.2 (b) and (c).

**Q6 Are internal contractual agreements between NSHE entities subject to these requirements and procedures?**

**A** As NSHE is a single legal entity, the need for oversight regarding agreements or understandings between units within the System is lessened in comparison to contractual agreements between NSHE and external legal entities. Accordingly, internal agreements between units within NSHE do not require the chancellor’s signature, unless otherwise required by Board of Regents’ policies. These agreements, nevertheless, are subject to any policies that have been adopted at the institution level for the review and approval of contracts. A standard form agreement may be found in the appendix for general use. Please note, however, that *Procedure & Guidelines Manual*, Chapter 6, Section 12 Basic Agreement for Inter-Institutional Cooperation in Sponsored Programs sets guidelines for inter-institutional agreements related to sponsored programs.

**Q 7 Why should I have to send my contract to the Chancellor’s Office at all? Why can’t the president sign it?**

**A** As the Board of Regents Bylaws state (Article III, Section 1), “The exclusive control and administration of the Nevada System of Higher Education is vested by the Constitution of the State in an elected Board of Regents.” One corollary of this is that the contracting party for any NSHE contract is the Board of Regents – not the universities, community colleges, state college, Desert Research Institute, or schools, colleges, centers, departments, or any other administrative sub unit of an institution of NSHE.

To be valid, the agreement should state that it is entered into by the **BOARD OF REGENTS OF THE NEVADA SYSTEM OF HIGHER EDUCATION, on behalf of \_\_\_\_\_** (*insert name of institution, followed by specific college or other subunit of the institution, if necessary*).

Similarly, the signature block should read:

**THE BOARD OF REGENTS OF THE NEVADA SYSTEM OF HIGHER EDUCATION, on behalf of**  
**(name of institution and college or sub unit, if necessary)**

**By:** \_\_\_\_\_  
chancellor (or appropriate title if  
signature authority has been delegated)

The chancellor signs the contract as the contracting officer for the Nevada System of Higher Education. The chancellor’s authority is derived from the Board of Regents Bylaws, Article VII, Section 3, which states that:

“The chancellor is the Chief Executive Officer and Treasurer of the Nevada System of Higher Education, and is responsible for the financial management and coordination of the administration of the Nevada System of Higher Education and for the implementation of the Board’s policies. The chancellor may delegate any of the duties of the office unless expressly prohibited by Board policy.

“Duties are prescribed by the Board of Regents and include the following:

\* \* \*

“(h) To serve as contracting officer for the Nevada System of Higher Education and to execute all contracts and other instruments on behalf of the University unless authority has been expressly retained by the Board of Regents or delegated elsewhere.”

Thus, the chancellor has the sole authority to execute contracts unless such authority is delegated to an institution.

**Q 8 Does the president of an NSHE institution and legal counsel have to review a contract before it is sent to the chancellor for signature?**

**A** Yes. It is the policy of the chancellor that any contract sent to the chancellor for signature must first be recommended by the president of the appropriate institution or the president’s designee. The purpose of this policy is to ensure that no institution will commit the Board of Regents or the institution to a binding contract without the knowledge of the institution’s chief administrative officer.

In addition, due to the nature of contracts that are sent by an institution to the System Office for chancellor signature, all such contracts must be reviewed by the institution’s General Counsel’s Office. In connection with that review, the General Counsel’s Office is responsible for ensuring that the contract complies with Board and System policies, and should specifically identify any departure from those policies, along with the rationale for the departure.

**Q 9 If a contract has been sent to the chancellor for signature and the chancellor is absent, is there a way for the contract to be signed anyway?**

**A** Yes. During an absence from the office, the chancellor delegates signature authority pursuant to written memoranda. The Chief Counsel’s office may be contacted to determine the party to whom such authority has been delegated.

**Q10 What process must be followed in sending a contract to the chancellor for approval?**

**A** All contracts submitted for approval must contain the following:

- 1) A signature block for the chancellor
- 2) Flags on all pages requiring the chancellor’s signature
- 3) One extra, flagged copy marked “chancellor’s copy” or “System copy.” (Please note that it is time consuming to sign multiple originals, particularly with initials on each page. Generally, the System Office will retain one fully signed original with initials. If the institution or other parties want an original copy, it is recommended that such additional originals not include original initial blocks.)
- 4) An addressed return envelope (with postage if campus mail is not used);

- 5) Three initial blocks on each page, except the signature page. Initials are for the use of: 1) the president or designee 2) the party representative with whom NSHE is contracting, and 3) the chancellor or designee. The failure to include initials on each page does not affect the validity of the contract, but it is cause for the chancellor's Office to reject the contract; and
- 6) An appropriately prepared cover sheet, in a form approved by the chancellor's Office that, among other things, identifies any departures from NSHE or Board rules.

**Q 11 How much time should generally be provided for review and signature by the chancellor?**

**A** Contract officers should normally anticipate a one week time period for processing at the System office. When a contract is received by the chancellor's Office, it undergoes tracking and summary review by the Chief Counsel's Office prior to signature by the chancellor. Questions about the status of a particular contract should be directed to the Chief Counsel's Office.

**Q 12 Which contracts MUST ALWAYS be sent to the chancellor for signature?**

**A** Contracts that must always be sent to the chancellor for signature are:

1. All contracts that must be approved by the Board of Regents by law. These include, but are not necessarily limited to:
  - (a) the sale or purchase of real property or the long-term lease of real property owned by NSHE, including most easements over real property (See NRS 396.430 and Board Handbook, Title 4, Chapter 10, Section 1(9)). "Long-term" is defined as in excess of four years.

NOTE A: The lease of NSHE property for specific, one-time events need not be approved by the Board of Regents and is excluded from the requirements of this paragraph, but may otherwise be subject to the requirements set forth hereinafter.

NOTE B: Contracts as described in (a) above must be placed on a Board of Regents Investment and Facilities Committee agenda for approval with final approval by the Board of Regents.

2. All contracts with an open-ended or indefinite term. Except as provided in Q 13 A.8 below, contracts with an open-ended or indefinite term are construed as contracts longer than five years. Likewise, contracts with "evergreen" clauses, i.e. clauses that automatically renew the agreement if no action is taken, or options that unilaterally allow one party to extend the term of the agreement beyond a five year term, are also construed as contracts with a term in excess of five years. In contrast, a contract that requires both parties to mutually agree upon or assent, in writing, to continue the relationship is essentially a new contract, and such a clause is not an open-ended or indefinite term.<sup>1</sup> Irrespective of this interpretation, institution's should still be mindful of any applicable purchasing rules or bid requirements before exercising such an extension.

---

<sup>1</sup> An example of this type of contract clause is as follows: "The parties may mutually agree, in writing, to extend the contract for an additional term of two years on the same or different terms."

3. Contracts that provide for the hiring of outside attorneys for legal services do not require chancellor approval, but do require written approval of the Chief Counsel's Office. Chief Counsel's Office approval is not required for the retention of outside attorneys as hearing officers or administrative code officers under Title 2, Chapter 6.
4. Except for standard form federal grants and contracts (including private and state contracts that are funded with federal funds and therefore require compliance with federal grant requirements) and for NSHE purchase orders, all contracts:

(a) which require consideration (cash, property, or services) valued in excess of one million (\$1,000,000) dollars, calculated by adding the total cumulative payments, delivery, or performance over the entire term of the contract,<sup>2</sup> OR

(b) which are for terms in excess of five years or which provide the automatic right to renew for terms that exceed five years in the aggregate.

**NOTE:** The presence of either condition is enough to require that the contract be signed by the chancellor.

5. All contracts which, in the judgment of the president of an NSHE institution, have such a serious political, social, or financial impact on NSHE or the public that the Board of Regents' or the chancellor's review is necessary.
6. All other contracts for which signature authority has not been delegated by the chancellor as provided herein.

### **Q 13 What contracts can be signed by the president?**

**A** As noted previously in Question 7, the Board of Regents Bylaws authorize the chancellor to delegate certain contract-related responsibilities.

Except for those contracts identified in Question 12 which must always be sent to the chancellor for signature, and except as may be otherwise provided herein, the chancellor hereby delegates signature authority for the following contracts to the presidents of NSHE institutions or to the presidents' designee, subject to the institution's reasonable judgment, at the time of entering into the contract, that the threshold limits set forth below will not be exceeded.

1. Consideration of One Million Dollars (\$1,000,000) or Less and Terms of Five Years or Less

All contracts (including interlocal cooperative agreements, interlocal contracts, and standard form contracts):

- (a) which require consideration (cash, property or services) valued at one million dollars (\$1,000,000) or less, calculated by adding the total cumulative payments, delivery or performance over the entire term of the contract,<sup>3</sup> AND

---

<sup>2</sup> For example: a contract for \$20,000 per month for a five-year term would cumulatively exceed \$1,000,000 and, therefore, would require the chancellor's signature.

<sup>3</sup> For example, a contract for \$15,000 per month for a five-year term would cumulatively total \$900,000 and, in conjunction with the fact that the contract is for five years or less, would therefore be a contract that could be signed by the president or designee. Please remember, however, the real estate contracts

(b) which are for terms of five years or less or which provide the automatic right of either party to renew for terms that do not exceed five years in the aggregate.

**NOTE:** Both conditions must be present before the contract can be signed at the institutional level.

2. Cost Overruns, De Minimus Changes and Change Orders

Cost overruns or change orders which in the aggregate do not exceed 10 percent of the base contract amount, or de minimus changes that do not materially increase the risks of the contract such as brief extensions for time of performance and the like. If there is any question about whether a change is de minimus, the institution should obtain the advice of the Chief Counsel's Office.

3. Standard Form Federal Grants and Contracts (including private and state contracts funded with federal grant funds)

All standard form federal grant applications, grants, contracts, modifications, and release forms, including private and state contracts funded with federal grant funds that therefore require compliance with federal grant requirements.

**NOTE:** Sub-contracts under approved federal grants and contracts are sometimes entered into with third parties to perform portions of the work or to provide materials. Because subcontracts are executed at the institution level and are not subject to review and approval by the chancellor, it is the institution's responsibility to maintain proper administrative oversight over the terms of any subcontract.

4. Education Affiliation Agreements

All education affiliation agreements that do not exceed \$1,000,000 and/or five years in duration. All education affiliation agreements must have insurance and indemnification clauses that have been approved by the institution Risk Manager and General Counsel's Office. The insurance and indemnification clauses contained in NSHE standard form Education Affiliation Agreements are approved for use by all institutions and units.

5. Purchase Orders Issued by NSHE

All purchase orders in which the purchase contract is awarded to the "lowest responsive and responsible bidder," in accordance with the purchasing policy set forth in Title 4, Chapter 10, of the Board of Regents Handbook are delegated to the Vice president for Finance at the appropriate institution or his or her designee.

6. Intra-Institutional Contracts or Agreements

Agreements between NSHE entities that do not exceed \$1,000,000 and/or five years in duration. These agreements are, however, subject to any policies that have been adopted at the institutional level pertaining to the review and approval of contracts/agreements.

7. Schedules For Master Agreements

For some contracts, the institution may enter into a master agreement that contemplates that schedules may subsequently be developed under the terms of the master agreement. Whether chancellor approval of an addendum or schedule is required is first determined by the process stated in the master agreement. For example, if the chancellor approves a master agreement that specifies that the institution will sign all schedules, the contract controls. If the master agreement is silent, then the same rule applies as that for modifications, meaning that chancellor approval is required if the schedule(s) individually or collectively exceed five years in duration or \$1,000,000 in amount.

8. Transfer Agreements for Biological Material Used in Research

Agreements to obtain the following biological materials used in research that exceed five years may be approved by the president or designee:

Material transfer agreements involving biological materials which are used in research, such as animals, reagents, cells, cell lines, antibodies, fungi, bacteria, viruses, antigens, cultures, nucleotides, proteins, pharmaceuticals, plasmids, vectors, embryos, tissues, fluids, and clinical specimens.

NOTE: The approval of such material transfers is subject to all other applicable contracting policies and procedures. At the end of each fiscal year, the institutions shall provide a report to the chancellor regarding the approval of any such transfer agreements.

**Q 14 How does the president delegate his or her signature authority to another person?**

**A** The president may delegate his or her signature authority on contracts, including employment contracts, providing such delegation is made in writing and is specific to a position rather than to a person. A copy of the written delegation of signature authority shall be kept by the institution in a secure and accessible location or established archive for inspection and audit purposes.

In the case of System units housed on NSHE campuses – such as System Computing Services – the delegation of signature authority for applicable contract documents shall be delegated by the chancellor to the appropriate vice chancellor in charge of the System unit.

**Q 15 What is the policy on delegated signature authority when standard form contracts are used?**

**A** Attached hereto are several NSHE standard form contracts. These contract forms may be used by all NSHE institutions. Electronic copies of the forms may be obtained from the chancellor's Office. The form contracts are for convenience purposes and the same rules apply as to approval requirements.

**Q 16 If an institution's president or the president's designee is absent, is it possible to have another person in the institution sign a contract which has been otherwise delegated for signature authority to the president or the president's designee?**

**A** In cases where the person who has been delegated signature authority for a particular type of contract may be absent from the institution, he or she may redelegate signature authority to another person for the period of his or her absence. Such re-delegation must be in writing and designate a specific time frame.

**Q 17 If there is any doubt as to who has authority to sign a contract, what should be done?**

**A** When there is doubt as to who has the authority to sign a contract, the contract should be sent through appropriate channels to the president for transmittal to the chancellor for signature.

**Q 18 Who must sign modifications to existing contracts?**

**A** Any modification to a contract should be in writing and signed by an appropriate officer. If the contract contains language specifically permitting authority to modify a contract, the contract provision controls. Otherwise, the modification should be signed by the highest ranking position signing the original agreement<sup>4</sup>, except that chancellor approval is not required if the modification does not exceed the authority granted in Question 13(A)(2) or the the modifications do not raise the contract amount in excess of \$1,000,000 and/or extend the term of the contract to more than five years.

**Q 19 Who is authorized to sign notices of termination on behalf of the System for contracts that contain a provision that they are cancelable upon written notice to the other party?**

**A** The person who was authorized in the original contract to send or receive notices. If no one is so designated, then the person who signed the contract on behalf of NSHE may sign a notice of termination, except that a notice of termination for an institution contract may be signed by the institution president, even if the contract required chancellor approval. The institution president should send the System Office notice of cancellation of contracts approved by the chancellor.

**Q 20 Must employee separation agreements be sent to the chancellor for review?**

**A** No, unless the agreements exceed the contracting authority of the institution president. Nevertheless, any such agreements must be reviewed by institution counsel to ensure that such agreements have the proper release language contained in them before they are executed.

---

<sup>4</sup> For example, if the President and the Chancellor signed the original agreement, and the modification is de minimus or does not exceed the authority granted for cost overruns, only the President must sign the modification.

**Q 21 What is the effect of a contract that is signed without the proper signature authority?**

**A** Any contract which is signed in violation of the policies stated herein is void and of no effect whatever. Any person who signs a contract in violation of these policies is subject to discipline up to and including termination and any other available remedies at law.

**Q 22 What are “hold harmless” clauses and why are they potentially dangerous?**

**A** Many private contractors or state or local governmental agencies routinely insert a clause in their contracts that is worded something like this:

“The University of Nevada agrees to indemnify and hold harmless the John Doe Company (or the city of Gotham) from any and all claims and losses arising from the performance of this contract.”

However, the State’s self-insurance program, to which NSHE belongs, protects only against acts or omissions of NSHE employees that occur within the scope of public duty or employment and that are performed or omitted in good faith. By agreeing to a clause like the one above, NSHE would be agreeing to defend the John Doe Company or the City of Gotham from any and all claims and losses, whether or not caused by any fault of any NSHE employee. In effect, by signing such a clause, NSHE would become the insurer of the other contractor. This is not permitted by the State of Nevada.

In addition, under Nevada law (NRS 41.035), NSHE’s liability for personal or property injury is one-hundred thousand dollars (\$100,000) per cause of action. By signing such a hold-harmless clause without reference to this limitation, NSHE may open itself up to the argument that it has waived its one-hundred thousand dollar (\$100,000) limitation on personal or property damage claims.

It is not necessary to have an indemnification clause in System contracts as such clauses seek to contractually allocate responsibility when existing state laws typically already provide a mechanism for such allocation. Nonetheless, system institutions may choose to require such a clause or the other party may request such a clause. If the other contracting party insists upon a hold-harmless clause, the statement that is acceptable to NSHE and the State of Nevada is one that states:

“To the extent limited in accordance with NRS 41.0305 to NRS 41.039, (Institution\*) shall indemnify, defend, and hold harmless (name of other party) from and against any and all liabilities, claims, losses, lawsuits, judgments, and/or expenses, including attorney fees, arising either directly or indirectly from any act or failure to act by (Institution) or any of its officers or employees, which may occur during or which may arise out of the performance of this Agreement. (Institution) will assert the defense of sovereign immunity as appropriate in all cases, including malpractice and indemnity actions. (Institution’s) indemnity obligation for actions sounding in tort is limited in accordance with the provisions of NRS 41.035 to \$100,000.00 per cause of action.”

\*Or other appropriate term representing the Board of Regents, NSHE, or one of the institutions of NSHE as used in the contract.

It is recognized that contracts that are written by the other party may not have a “hold-harmless” clause that follows exactly the required form. Provided such hold-harmless clauses state that they are conditioned “To the extent limited in accordance with NRS 41.0305 to NRS 41.039,” and provided they are limited to the acts or omissions in the course and scope of the public duties of NSHE and its officers, employees or agents, such language is acceptable. If a hold-harmless clause does not have this language, then it must be added before the contract is signed, and any language to the contrary stricken.

Except as provided below, no other form of hold-harmless clause than the statement provided above shall be authorized or accepted by NSHE. Contracts containing hold-harmless clauses using language other than that stated above will not be approved or signed by the chancellor or the chancellor’s designee, nor should such other hold-harmless clauses be placed in the contracts signed at the institutional level except as provided herein. Other persons who have been delegated contract signature authority as provided herein are not authorized to sign any contracts containing a hold-harmless clause that is not in the form stated herein or as otherwise approved as provided below. The attached standard form agreements have indemnity language that is approved for use.

**There will be no exceptions to this policy except as stated herein and except as specifically authorized by the institution General Counsel or System counsel for good cause shown.**

**NOTE:** It is not generally the policy of NSHE to volunteer to put a hold-harmless clause in a contract that benefits the other party to the contract. Only where the other party requests such a clause should it be included. Also, whenever a hold-harmless clause is required by the other party, then NSHE must insist on a mutual hold-harmless clause that benefits NSHE, its officers, and employees. Such a mutual hold-harmless clause should be in the following form:

“(Contracting party) shall indemnify, defend, and hold harmless NSHE, its officers, employees, and agents from and against any and all liabilities, claims, losses, costs or expenses to the person or property of another, lawsuits, judgments, and/or expenses, including attorney fees, arising either directly or indirectly from any act or failure to act by (contracting party) or any of its officers or employees, which may occur during or which may arise out of the performance of this Agreement.”

**Q 23 How does insurance present a problem for NSHE contracts?**

**A** Contracts should typically include standard insurance requirements for any party doing business with NSHE appropriate to the risks involved. Any exceptions should only be with the approval of the institution/Risk Manager and the institution/System counsel as the case may be.

Other parties may likewise require insurance. Unless an institution is prepared to pay expensive commercial insurance coverage, a contract provision that requires NSHE to have commercial general, business automobile, or professional liability insurance (other than medical malpractice) is not possible, as NSHE is self-insured for these coverages. The contractor should be informed of this and, if needed, a certificate of self-insurance may be supplied by the institution Risk Manager. Contract terms that require NSHE to have commercial general and business automobile liability insurance must either be

deleted from NSHE contracts or, alternatively, the following language may be added in lieu of such provisions:

“The (Board of Regents, University, College or other appropriate name) is self-insured in accordance with the limitations of NRS 41.0305 to NRS 41.039.”

Education Affiliation Agreements. The insurance and indemnification clauses in all education affiliation agreements must be approved by the institution Risk Manager and the institution General Counsel’s Office. The language contained in NSHE standard form Education Affiliation Agreements is approved for use by all institutions and units. **NOTE:** The language for medical school and allied health affiliation agreements is not the same. Be sure the correct insurance or indemnification clauses are selected.

Independent Contractor Agreements. NSHE standard form Contract for Services of Independent Contractor includes an Insurance Schedule setting forth various types of insurance that may be required of contractors with NSHE. The insurance requirements for workers’ compensation, commercial general, and business automobile liability are mandatory in all independent contractor agreements. Whether other insurance should be required will depend on the subject matter and circumstances of each contract. Contact your institution/Risk Manager with any questions regarding insurance provisions.

**Q 24 What is NSHE policy on determining which state’s law applies to a contract?**

**A** Contracts frequently provide that a contract is subject to the law of a particular state. It is NSHE’s policy that if a contract is to be performed in Nevada, the contract must be subject to Nevada law. If a contract is to be performed outside the State of Nevada, NSHE would still prefer that Nevada law apply to the contract, but has no objection if the law of the state where the contract is to be performed is applicable to the contract. The application of this section shall be subject to the guidance and approval of the institution General Counsel’s Office’s as to whether this clause can be revised or eliminated in appropriate cases. It is preferable to eliminate the clause altogether, rather than to agree to have the laws of another state apply to the contract. The following language is recommended for choice of law:

The parties agree that the laws of the State of Nevada shall govern the validity, construction, interpretation, and effect of this contract. Any and all disputes arising out of or in connection with the contract shall be litigated only in the \_\_\_Judicial District Court in and for the County of \_\_\_\_, State of Nevada, and (*name of contractor*) hereby expressly consents to the jurisdiction of said court.

**Q 25 Is there special language that must be included in nuclear waste repository research grants or contracts?**

**A** Yes. The location of a nuclear waste repository in Nevada is a highly controversial and politically charged issue. A number of highly placed public officials, as well as news media organizations, have criticized NSHE for entering into these contracts. The Board of Regents, however, has strongly supported the academic freedom of NSHE institutions and faculty to contract to perform research in this field.

The matter is complicated by the opinion of the Nevada Attorney General that by contracting with the United States Government or its contractors for research on the nuclear waste repository site, NSHE, as an instrumentality of the State of Nevada, may indirectly waive the State of Nevada's objections to the location of a nuclear waste repository in Nevada. Although the Vice Chancellor for Legal Affairs Office is not persuaded by this argument, nevertheless, as a matter of prudence, the issue must be addressed in NSHE's contracts.

Therefore, the following language must be included in every nuclear waste repository research contract (or grant) entered into between NSHE and the United States government or a contractor of the United States government:

"The parties to this contract expressly agree that neither the making or entering into of this contract, nor the terms, conditions or performance of this contract, shall be considered by the United States, the State of Nevada or any of their agencies, officers, employees or agents, either expressly or impliedly, directly or indirectly, or in any way whatsoever, as constituting the consent, permission or agreement of the State of Nevada or its legislature, agencies, officers, employees and agents to the location, establishment or creation of a nuclear waste repository site in Nevada."

**Q 26 Is there any provision which must be included in an open-ended or indefinite term contract?**

A Yes. Every open-ended or indefinite term contract must contain a mutual no-cause cancellation or termination clause. An appropriate notification period should be included as part of the cancellation or termination clause.

It is also recommended that NSHE institutions periodically review open-ended or indefinite term contracts on a regular basis to determine if the continuation or the cancellation of the contract is in order.

**Q 27 Is there special language that must be included in the event of non-appropriation of funds?**

A Yes. Every contract with a term beyond the current biennial budget cycle that may be paid in whole or in part with state funds must have a clause allowing termination without penalties in the event the Legislature fails to provide funding for the contract obligation. The reason for such a clause is grounded in state law because if a clause is not included, the contract may impact the constitutional debt limitations of the State of Nevada. The following language is recommended:

"In the event no funds or insufficient funds are appropriated and budgeted or are otherwise unavailable in any fiscal period for payments due under this Agreement, then this Agreement shall terminate on the last day of the fiscal period for which appropriations were received without penalty or expense to (Institution) of any kind whatsoever."

Minor modifications of this language may be approved by institution/System counsel as long as the intent of such a clause is satisfied.

If a contract provides that the NSHE may terminate the contract for convenience (i.e. without cause) with a short notice period (suggested no more than 90 days), then an appropriation clause is not required as NSHE may simply use that clause to terminate a contract that has not received legislative funding.

**Q28 What is “HIPAA?”**

A “HIPAA” is an acronym for the federal Health Insurance Portability and Accountability Act of 1996. Contracts with certain health care entities or providers must contain provisions to ensure compliance with HIPAA healthcare privacy requirements. Contact the institution General Counsel’s Office or the Vice Chancellor for Legal Affairs Office to determine what language is needed.

**Q 29 What are some of the other frequent problems that arise with NSHE contracts?**

A Sometimes a contract is simply ambiguous in its terms, indefinite as to time of performance, fails to state the consideration, fails to identify the parties, or fails in some other necessary element. No contract may be signed without resolving these matters.

Contract review exists for the purpose of protecting NSHE and its employees, not for the purpose of delaying a project or blocking payment for work already done. In this connection, it should be emphasized that work on a project should not be begun prior to the signing of a contract for that work.

**Q 30 Can work begin on a project before a contract is formally signed?**

A No, except with prior approval as discussed below, because it is possible beginning work on a proposed contract would be interpreted by a court as constituting acceptance of the contract and, thus, binding upon NSHE, especially if the other party was aware work was proceeding. Only the chancellor, however, or the chancellor’s designee in the specific instances defined in this policy document, has the authority to enter into contracts on behalf of the System. Therefore, such de facto acceptance of the offer of the other contracting party may place the employee who thus accepts the offer in the position of being in violation of the Board of Regents Bylaws and policies.

There is, in addition, the risk that the other party did not understand the verbal agreement exactly as the NSHE negotiator did and that, in the absence of a written instrument, disputes might arise as to some aspect of the work to be performed. Anyone who performs work without a valid contract runs the risk of not being paid.

The only exception to this policy is in specific instances where it is in the best interests of the institution to initiate the work before the contract is fully executed and where the institution has adopted a procedure for approval of the commencement of work before the contract is fully executed. In such cases, the institution must accept full financial responsibility should the contract not be executed or should payment from the outside source be denied. In situations where work has begun prior to the formal contract execution, it is appropriate to commence the contract effective on the date the parties began to mutually comply with its provisions, irrespective of the date of execution of signatures.

**Q 31 Where must copies of NSHE contracts be filed?**

A Copies of all contracts entered into by an NSHE institution pursuant to a delegation of authority must be kept in a secure and accessible location at the institution in question or at an established archive. In addition, a copy of any contract signed by the chancellor shall be kept at the chancellor’s Office or at an established archive.

**Q 32 How many copies must be made of each contract?**

**A** Institutions sending a contract to the chancellor for signature must include one extra copy of the contract for the chancellor's Office files that is marked "chancellor's copy" or "System copy." Both copies must contain flags on all pages requiring the chancellor's signature.

**Q 33 How long must copies of NSHE contracts be kept?**

**A** Copies of NSHE contracts must be kept for a period of no less than six years after the expiration of the contract.

#### 4.0 Rent:

4.1 Lessor reserves and Lessee agrees to pay as rent for the premises and equipment without notice or demand, to Lessor annual rent to the Lessor in the amount of \_\_\_\_\_ Dollars (\$ \_\_\_\_\_), in advance on the first day of every month covered by the terms of this lease, commencing \_\_\_\_\_, 20\_\_\_\_. Lessee will conform to and comply with all applicable municipal, state, and federal laws in using the premises, and will not use or suffer to be used the premises in any manner in contravention of any applicable municipal, state or federal law, nor in such a manner that will increase the existing rate for property insurance for the premises.

6.0 Condition of Premises and Repairs:

Lessee has examined the premises prior to the execution hereof, knows the condition thereof, and acknowledges that Lessee has received the premises in good order and condition, and that no representation or warranty as to the condition or repair of the premises has been made by Lessor. At the expiration of the term of this Lease, or any renewal or extension thereof, Lessee will yield up peaceably the premises to Lessor in as good order and condition as when the same were entered upon by Lessee, loss by fire or inevitable accident, damage by the elements, and reasonable use and wear excepted.

7.0 Alterations, Additions and Improvements:

7.1 Lessee shall not make, or suffer or permit to be made, any alterations, additions, or improvements whatsoever in or about the premises without first obtaining the written consent of Lessor therefore; provided, however, that such consent, if given, will be subject to the express condition that any and all alterations, additions, and improvements shall be done at Lessee's own expense, and that no liens of mechanics, material men, laborers, architects, artisans, contractors, subcontractors, or any other lien of any kind whatsoever shall be created against or imposed upon the premises or any part thereof.

8.0 Service to the Premises:

8.1 Where a check mark is placed in the box of the column under a party below, it is that party's responsibility to pay for those services to the premises. Items not checked shall not be the responsibility of either party.

In such case, a just and proportionate part of the rental herein specified shall be abated until such premises shall have been rebuilt and repaired. In case, however, Lessor elects not to rebuild or repair said premises, Lessor shall so notify Lessee by written notice within the period of 30 days after the damaging event, and thereupon this Lease shall terminate.

13.2 In the event of termination of this Lease under the terms of clause 13.1, the Lessee shall have a reasonable period of time to vacate the premises.

13.3 All notices sent under the terms of this provision shall conform to the provisions of Section 20.0, "Modification," and Section 21.0, "Notice."

15.0 Termination:

In the event Lessee fails to pay rent as required herein, Lessee shall be in default of this lease, which default must be cured or removed without notice within 15 days from the date of the rental payment as due and payable, or else Lessor may terminate this Lease forthwith in accordance with applicable law.

16.0 Default:

Lessor shall, on default with respect to any of the provisions of this Lease by Lessee except for the payment of rent, provide Lessee with a written notice of any breach of the Lease terms or conditions and Lessee shall then have 30 days either to correct the condition or commence corrective action if the condition cannot be corrected in 30 days. If the condition cannot be corrected in 30 days, Lessee shall have a reasonable time to complete the correction. Lessor may elect to enforce the terms and conditions of the Lease by any other method available under the law.

17.0 Waivers:

The failure of either party to exercise any of its rights under this Agreement for a breach thereof shall not be deemed to be a waiver of such rights, nor shall the same be deemed to be a waiver of any subsequent breach, either of the same provision or otherwise.

18.0 Binding on Heirs, Successors, and Assigns:

This Agreement shall be binding upon and inure to the benefit of their heirs, personal representatives, and permitted assigns, as applicable, of the Lessor and the Lessee.

19.0 Entire Agreement:

This Agreement (with its attachments, if any) constitutes the entire understanding between the parties with respect to the subject matter hereof and supersedes any and all prior understandings and agreements, oral and written, relating hereto. ## **Section 4. General Guidelines for Physical Master Plans to be Incorporated into the NSHE Master Plan**

1. a. The Campus Master Plan should provide the Board of Regents with the means to adopt policies and make decisions allowing for the orderly development of each institution. The plan should address existing physical sites and, if appropriate, new sites.
  - b. The plan should support the educational philosophy, the missions and goals for each institution. The plan must be consistent with educational information and data furnished by the institution regarding existing and proposed curricula and programs, methods of instruction, and existing and projected student enrollment.
2. Demographic projections of the institution and the community should be considered.
3. Each plan should be consistent with NSHE space utilization standards and should include plans for the use of existing buildings and facilities.
4. Each plan should include a consideration and discussion of the site to determine the potential for development, and it should also deal specifically with the physical problem areas of the campus. It should include consideration and discussion of landscaping, utilities, communication, and computing systems.
5. Each plan should include a consideration and discussion of community planning, including an analysis of existing and proposed physical, environmental, and governmental conditions in the vicinity of the campus. The environmental impact of the plan should be addressed.
6. Each plan should include a consideration and discussion of both pedestrian and vehicle traffic, and of policies governing parking, housing, recreation, safety, and cultural and social facilities.
7. The time for each plan should encompass at least ten years.  
(B/R 10/88; Added 6/05)

## **Section 5. Capital Improvements and Facilities Management**

### **1. Life Cycle Cost Analyses**

The following general procedures and divisions of responsibility shall govern institutional requests for new buildings as they relate to quantifying the future costs to maintain and operate the facilities as required by Board policy.

- a. Effective with the 2013 capital budget cycle, each pre-award proposal for a new building shall include a standardized Life Cycle Cost Analysis as part of the total project cost estimate developed by the State Public Works Board. In order to ensure the Life Cycle Cost Analysis produces meaningful information for the Board of Regents to assess the future costs of a new building should construction be pursued, NSHE shall provide updates to the drivers used by the State Public Works Board to calculate the future cost of the facility. The updates provided by NSHE shall include current, nationally recognized standard expenses associated with operating the facility according to the size and type of building, adjusted for localized building and operational conditions.

- b. Effective with the 2013 capital budget cycle, proposals for new buildings in the post-planning and design phases shall include detailed Life Cycle Cost Analysis submitted as a supplement to the capital improvement proposal. In completing the detailed Life Cycle Cost Analysis, institutions may use third-party solutions in order to maximize the planning and scheduling of the ongoing maintenance, capital renewal, and operational expenses that may be incurred during the useful life of the new facility.

## **Section 6. Codification of Fair Labor Practices in Contracts for Products that Bear any NSHE Logo (formerly CM 98-3)**

At its October 1-2, 1998 meeting, the Board of Regents approved language to be included in contracts with vendors supplying any entity of the NSHE with products that bear a campus or NSHE logo. Please distribute this procedure with the Board approved language that follows to appropriate staff on your campus. Please be sure that it is incorporated in the orientation and training of all current and new employees involved in the processing of contracts.

Licensee hereby certifies that it complies with all applicable labor, product safety, and occupational health laws and regulations, and that no child (under 14 years old) labor or involuntary labor is used, either domestically or abroad, in its manufacturing process, including assembly and packaging.

Licensee acknowledges and agrees that Licensor may cancel all current purchase orders, with impunity, in the event Licensee is found to not be in compliance with applicable labor, product safety, and occupational health laws and regulations, or in the event that Licensee is found to have used child or involuntary labor in its manufacturing process, including assembly and packaging.

Licensees may certify their compliance either by including the two clauses above in the contract with Licensor or by sending a separate document, in the above terms, to Licensor. The NSHE will not conduct business with vendors who do not comply with this certification.

(Added 6/05)

## **Section 7. Accounting Procedures for State Supported Summer Session Nursing and Nursing Prerequisite Courses**

State general fund support is provided through the NSHE funding formula for the undergraduate summer session nursing and science-based nursing prerequisite courses. Formula funding is determined by projecting student full time equivalent (SFTE) enrollments of nursing students registered in applicable summer session courses and by applying the enrollments in the formula to determine the budgeted revenue and expenditure levels.

Calendar year summer session reported SFTE enrollments will be added to the subsequent Fall semester reported SFTE enrollments for purposes of determining the academic fiscal year actual annualized SFTE enrollments and also for purposes of determining the three year weighted average growth rate required to apply against the most current actual annualized SFTE enrollments when projecting student FTE enrollments for the NSHE state biennial budget requests.

### Summer Session Nursing Registration Fee Determination

Summer session nursing students registered in nursing and science-based nursing prerequisite courses will be assessed the same per credit registration fee assessed for all other summer session courses, which currently is the previous spring semester Board of Regents approved per credit registration fee plus the Board approved Summer Session Registration Fee (Chapter 7, NSHE *Procedures and Guidelines Manual*).

### Summer Session Nursing Registration Fee Revenue and Expenditure Accounting

A portion of the registration fee revenue collected from 'nursing' students registered in nursing courses and from the five science-based nursing prerequisite courses needs to be transferred and distributed to the state revenue budget and the other non-state revenue budgets the same as those collected and distributed in the standard Fall and Spring terms and reflected in the *Board of Regents Handbook*, on or after December 31<sup>st</sup> each year.

To determine the registration fee revenue amount to be transferred annually, from the summer session revenue collection account to the state revenue collection account, multiply the approved summer session per credit registration fee amount, less the Board of Regents' approved Summer Session Registration Fee, against the total credit hours posted for the SFTE enrollments reported in the NSHE official summer session enrollment report.

The applicable costs associated with faculty salaries and operating costs, required to provide instructional services for the SFTE nursing enrollments reported, need to be transferred annually to the appropriate state budget account.

### Summer Session Salary Schedules - State Supported Courses

Normal academic year full-time and part-time salary schedules apply for summer session state supported instructional faculty positions.  
(Added 6/05; A. 11/05)

## **Section 8. Operating Cost-Savings Measure**

*Nevada Revised Statutes (NRS)* Chapter 333A address the requirements and procedures for operating cost-saving measure procurements including energy efficiency and Leadership in Energy and Environmental Design (LEED) project initiatives. NSHE institutions considering projects of this nature must ensure compliance with applicable statutes. For initiatives involving operating cost-saving measures, both state and non-state funded, the following procedures apply:

- a. Projects involving operating cost-saving measures must be initiated and managed by the institutional facilities management organization in accordance with applicable NRS requirements.
- b. Contracts with qualified service companies, including performance contracts, must be awarded through the institutional purchasing organization or the applicable Business Center.
- c. Contracts with a qualified service company, including performance contracts, must conform to NRS requirements outlined in the Energy Retrofit Checklist to ensure procurement steps and prevailing wage requirements are addressed. Confirmation of compliance must be demonstrated with an identifying signature and date.

- d. Performance contract modifications are not to be executed if the modifications violate the cost neutrality provisions of the NRS 333A.090(5) “unless approval of the change order is more economically feasible than termination of the operating cost-savings measure.” Determination to execute a change order will be approved by the chief business officer or Business Center upon the written recommendation of the institutional facilities officer.
- e. Multiple operating cost-savings measures may be bundled into one performance contract if the aggregate savings when compared to the aggregate costs per fund source (state and/or non-state) are in compliance with the cost-neutrality provisions of *NRS*.
- f. Multi-year contracts with qualified service companies may be permitted if the total contract term does not exceed three years. Extensions to the term of the contract for a period not to exceed six years in total may be approved by the chancellor upon the recommendation of the institutional business officer or Business Center.
- g. NSHE institutions that employ a certified energy manager or a registered professional engineer (mechanical) may use those individuals to satisfy the *NRS* 333A.086(1) requirements for a third-party consultant “...to work on behalf of the using agency in coordination with the qualified service company.”

**NEVADA SYSTEM OF HIGHER EDUCATION**  
**Checklist to be followed for each Operating Cost-savings Measure**

(rev April 4, 2006)

This checklist certifies that the energy retrofit project described in the attached Agreement fully complies with the requirements of *Nevada Revised Statutes* Chapter 333A. It specifically certifies the following items have been accomplished:

AGENCY NAME: \_\_\_\_\_

CONTRACT TERM: \_\_\_\_\_

- \_\_\_\_\_ Identify potential operating cost savings measures.
- \_\_\_\_\_ Determine need to engage a Qualified Service Company (QSCO).
- \_\_\_\_\_ If QSCO services are required contact the State Energy Coordinator requesting permission to issue an RFP for an energy “partner”.
- \_\_\_\_\_ Determine whether project scope warrants engaging a long-term (up to 3 years) energy “partner”, or if the project scope is small enough to utilize a project-specific QSCO.
- \_\_\_\_\_ Engage an QSCO per requirements in NRS Chapter 333A to include:
  - 1- Measurement and verification of savings to be accomplished as follows:
    - Lighting – at conclusion of project HVAC – annually for minimum of 5 years as defined by the agency Energy Coordinator or Professional Mechanical Engineer.
- \_\_\_\_\_ Review projected savings and determine whether or not savings will amortize a cash-neutral lease within the time allowed by NRS Chapter 333A (up to 15 years).
  - 1- Multiple operating cost-savings measures may be bundled into one performance contract provided the aggregate savings compared to the aggregate costs per fund source, state and/or non-state, meet the cost neutrality provisions of the NRS.
- \_\_\_\_\_ If savings result in cash-neutral lease, prepare a proposal for review by Agency Review Team.
- \_\_\_\_\_ Schedule a review meeting with the Review Team.
- \_\_\_\_\_ Determine feasibility of project and approve or disapprove.
- \_\_\_\_\_ If project is approved by Review Team, schedule a further, more detailed review with QSCO and the Review Team.

- \_\_\_\_\_ If project is further approved, proceed with the following:
- \_\_\_\_\_ Prepare bid documents with QSCO's input and review.
- \_\_\_\_\_ Advertise project for construction.
- \_\_\_\_\_ Determine successful bidder(s).
- \_\_\_\_\_ Award bid contingent on financing being approved by leasing/finance company.
- \_\_\_\_\_ Issue a "Letter of Intent" to the successful bidder(s) with a copy to the QSCO with instructions "NOT TO PROCEED" until a purchase order is issued by the Agency.
- \_\_\_\_\_ Obtain leasing/financing paperwork from the leasing/finance company, and submit with construction contract to the Purchasing Department.
- \_\_\_\_\_ Review construction and leasing/financing contracts, and forward to chancellor's office for review and approval. (chancellor's approval is required on all changes or additions to the Master Financing/Lease contract because of the total dollar amount of the financing/lease, and the fact that the chancellor signed the Master Financing or Lease Agreement).
- \_\_\_\_\_ Send the financing/lease paperwork back to the finance/leasing company for signature.
- \_\_\_\_\_ Notify QSCO when signed documents have been received back from the financing or leasing company.
- \_\_\_\_\_ Issue a purchase order (authorization to proceed) to the QSCO.
- \_\_\_\_\_ Provide Agency Facilities Department with construction drawings for review and approval.
- \_\_\_\_\_ Review construction drawings and note any changes or deficiencies. Return drawings and comments to contractors.
- \_\_\_\_\_ Monitor project progress, and provide Review Team with periodic project progress reports.
- \_\_\_\_\_ Approve periodic payments based upon successful installation of equipment and systems.
- \_\_\_\_\_ Upon project completion, provide savings measurement and verification report for review by Facilities Maintenance engineering staff.
- \_\_\_\_\_ Review savings measurement and verification report and ensure that proposed savings have been achieved.
- \_\_\_\_\_ If proposed savings have been achieved, close out project.
- \_\_\_\_\_ Review annual measurement and verification reports, if applicable.
- \_\_\_\_\_ If proposed savings have NOT been achieved, determine cause and correct.

## **Section 9. Purchasing Card Program Best Practices**

The following represent best practices associated with the P-card program to which each NSHE institution shall adhere:

1. Each institution shall have a specific department and personnel assigned the responsibility and authority for management of their P-Card program, with adequate staffing to support the operation.
2. Each institution shall establish an appropriate regular audit/review process for P-Card transactions to help ensure adequate operations of the program and to address errors/problems. The review process must include standard exception management reporting and other appropriate methods to regularly monitor P-card activities for potential abuses/errors, including regular reviews/evaluations of any "structured" transactions (planned and sequenced uses that circumvent existing parameters of operation for the program).
3. Each institution shall require adequate training for P-Card holders before they are issued a card. Following training P-Card holders must be issued a user's manual and sign for that manual, noting they understand their responsibilities and authority associated with the use of the P-card. Additionally, each institution shall send out regular reminders to card-holders noting key requirements and responsibilities (preferably with an updated "Quick Guide" pocket summary on proper uses of the P-Card).
4. Each institution shall establish time periods to review and update the user's manual at least annually.
5. Each institution shall ensure that all policies and procedures established are consistent with Board of Regents' and chancellor's purchasing requirements.
6. Security provisions need to be adequate, including requiring a password change at least every 90 days.
7. Each institution must have an adequate and timely process to ensure that when employees leave the institution (voluntarily or otherwise) their card is collected and/or deactivated.
8. On at least a monthly basis a supervisory review and approval of the electronic account statement for card-holder activity shall be formally completed. If the president (or lower officer which has received delegation from the president to approve host expenses under Chapter 5, Section 1) has previously approved host expenses, the officer is not required to also review and approve P-Card statements that include hosting expenses.
9. The electronic account statement shall be used to collect the business purpose summary of purchases (as back-up to the itemized receipt or invoice).
10. Only the authorized cardholder may use their card, and it shall not be loaned to another individual. Institutions may consider "departmental" cards for specific situations where the card may be used in an effective and controlled manner.
11. Each institution shall have a process to review and control the P-card limits for each user (transaction limits and monthly limits) that match the user needs, and are balanced against existing controls. One overall institutional limit is prohibited. The institution shall have a process to review all limits on at least an annual basis, and adjust as appropriate.

12. Each P-card shall have the following printed on the face: "Tax Exempt – For Business Use Only"; the institutional Tax ID #; and the institution's name (e.g. "UNR").
13. Each institution shall have an adequate policy enforcement for significant abuses to P-card uses, which may include suspension and/or deactivation of its use.
14. Each institution must have an adequate process to ensure that equipment purchased with the P-card meets all tagging requirements.
15. Each institution shall review the MCC codes to insure cards may not be used at inappropriate vendors/types of businesses.

(Added 5/07, A. 6/11, 12/14)

## **Section 10. Payment Card Industry (PCI) Compliance Procedures**

1. Payment Card Industry (PCI) compliance must be completed on a consistent, System-wide basis. Annually, System staff will review transaction data with NSHE's merchant service providers and determine which compliance level is applicable to the System. System controllers will be notified of any changes in classification or compliance procedures.
  - a. Scans are required from institutions that accept, transmit and/or store any cardholder data. The scans must be performed by a certified Qualified Security Assessor and/or a PCI approved scanning vendor. Institutions that are in scope for scan, as determined by the PCI, must upload a quarterly scan within five business days after the end of the quarter using the portal provided by the merchant services provider. A copy of the scan in PDF format must be submitted to the Banking & Investment Department at the time of upload.
  - b. All institutions must complete the appropriate Self-Assessment Questionnaire (SAQ) form annually for the prior calendar year. The completed form must be signed by the campus business officer and submitted to the Banking & Investment Department by January 25<sup>th</sup>. As NSHE functions under one tax ID number, the System will complete and submit one consolidated SAQ form for NSHE to the merchant service providers.
2. Gateways: Incorrect gateway selection or set-up can impact institutional compliance with the PCI. Prior to acquiring gateway, institutions shall provide vendor information to System staff who will verify with the merchant bank that the gateway is PCI compliant.

(Added 12/13)

## **Section 11. Travel**

### **Employee Travel**

1. NSHE follows the travel regulations for employee travel established by the State of Nevada Board of Examiners, unless otherwise stated below. Documentation is required to be attached to the travel claim when exceptions are granted to the standard hotel rates as stated in *State Administrative Manual* Sections 0212.0 and 0214.0. When flying on Southwest Airlines, the additional fees to upgrade to the Business Select level will not be reimbursed to the traveler. TSA pre-check or similar fees will not be reimbursed.

2. The State Board of Examiners requires each agency to establish regulations controlling the hours and conditions during which an employee will be allowed to claim meals. Time limitations for meal reimbursements when in travel status (both in-state and out-of-state travel) for NSHE employees, students, volunteers, and candidates are as follows:

	Meal Time Frames
Breakfast:	12:01 a.m. – 10:00 a.m.
Lunch:	10:01 a.m. – 3:00 p.m.
Dinner:	3:01 p.m. – 12:00 a.m.

(formerly CM 02-02)

Breakfast per diem will not be reimbursed for travelers who depart their home city after 9:00 a.m. Dinner per diem will not be reimbursed for travelers who return to their home city before 5:00 p.m.

3. When an employee travels 75 miles or less (one way), for a period of less than 24 hours, the employee is not entitled to receive reimbursement for meals for the day. The employee is entitled to reimbursement for mileage at the rates stated in the *State Administrative Manual*.
4. Unless specifically authorized in writing by the employee's supervisor for the employer's convenience, an employee who makes a single trip greater than 200 miles shall use a State Motor Pool vehicle or a rental car instead of a personal vehicle for such travel if either option is less expensive than use of a personal vehicle. If a personal vehicle is used for the employee's convenience, the employee will be reimbursed at the convenience rate as established by the State of Nevada.
5. An employee whose travel is funded by a federal grant or contract shall comply with the provisions of the Fly America Act, 49 U.S.C. § 40118, and the requirements of 41 CFR Part 301-10.

#### Employee Lodging:

NSHE institutions may make exceptions to the rate of reimbursement for lodging when one or more of the following applies:

1. Lodging is procured at a prearranged place such as a hotel when a meeting, conference or training session is held or;
2. Costs have escalated because of special events; lodging within prescribed allowances cannot be obtained nearby; and costs to commute to/from the nearby location exceed the cost savings from occupying less expensive lodging. If the condition(s) above exist, employee may apply the following rules to the rate of reimbursement for travel:
  - a. 150% of the standard CONUS federal per diem rate for non-surveyed in-state sites.
  - b. 175% of the federal per diem rate for surveyed out-of-state sites or;
  - c. 300% of the standard CONUS federal per diem rate for non-surveyed out-of-state sites.
3. As otherwise approved by the chancellor, a vice chancellor, institution president or a person(s) delegated by him/her, or the chief of staff to the Board of Regents for BoR staff travel.

A request for exemption must be noted on the travel claim.

## **Section 12. Allocation Principles for Applied Research Initiatives**

The following principles must be followed in the allocation of state funds for applied research initiatives (ARIs):

1. All funds must be used to generate research and to promote economic development and economic diversity of the State of Nevada.
2. Funds shall be used to stimulate research by allowing faculty to a) leverage industrial investment in research, or b) match federal and state funds where a match is mandatory. At least a 1:1 match is required, and a higher match is desired.
3. The use of ARI funds as matching for Small Business Innovation Research and Small Business Technology Transfer Programs (SBIR/STTR) is highly encouraged. These programs stimulate technological innovation and encourage participation by the socially and economically disadvantaged and women-owned small businesses.

4. The ARI funds are restricted to research projects. They may not be used for support service or training projects.
5. Cooperative efforts involving the use of ARI funds among the Desert Research Institute, the University of Nevada, Las Vegas, and the University of Nevada, Reno are encouraged.
6. Each chief research officer or vice president for research must establish a campus process that will encourage research activities, evaluate matching proposals, and ensure the administration of these funds. The campuses may establish additional guidelines for these funds in order to meet particular goals and objectives as long as the intent of all other principles is met.
7. A uniform reporting method applicable to each NSHE institution for each awarded grant must be developed by the Research Affairs Council.

(Added 1/08)

### **Section 13. Intangible Asset Policy**

1. An asset must possess all of the following characteristics before it is considered an intangible asset for financial reporting purposes:
  - Lacks physical substance;
  - Be nonfinancial in nature;
  - Has a useful life extending beyond a single reporting period; and
  - Has not been created or acquired primarily for the purpose of directly obtaining income or profit.

Goodwill, although intangible in nature, is not considered an intangible asset.

2. The threshold for capitalization for purchased intangible assets will be \$250,000 and the threshold for capitalization for internally generated assets will be \$500,000
3. For internally generated intangible assets other than software, only outlays incurred subsequent to meeting the criteria below will be capitalized:
  - The specific objective of the project and the nature of the service capacity that is expected to be provided by the intangible asset must be known;
  - The technical or technological feasibility for completing the project must be demonstrated so that the intangible asset will provide its expected service capacity;
  - Evidence that the current intention, ability and effort will result in the completion or continuation of the development of the intangible asset.

Outlays prior to meeting all three of the above criteria will be expensed.

4. Internally generated software can include software that was developed in-house by the entity's personnel or by a third-party contractor on behalf of the entity. However, commercially generated software will be considered internally generated if it is modified using more than incremental effort before it is made operational.

5. Only outlays that meet the threshold and meet both of the following criteria will be capitalized:
  - The preliminary project stage is complete; and
  - Management implicitly or explicitly authorizes and commits to funding, at least currently, in the event of a multi-year project.
6. Costs that should not be capitalized:
  - Preliminary costs such as conceptual formulation and evaluation of alternatives and final selection of alternatives for the development of software
  - Post implementation/operational costs such as application training and software maintenance
7. Modifications of computer software must meet one of the following to be added to the cost of the original software as a betterment:
  - Increase functionality of the software which allows software to do tasks it couldn't do before
  - Increase efficiency which allows the software to increase the level of service provided by the software without the ability to perform additional tasks
  - Extend its estimated useful life

If the modification doesn't meet one of the above – then the outlay should be expensed as maintenance.

8. Land use rights assets such as easements, water rights, timber rights and mineral rights will not be reported as a separate intangible asset if the rights were purchased with the associated land.

Intellectual rights assets if acquired primarily to earn income are not intangible assets and will be reported as investments.

9. Intangible assets will be amortized over the useful life of the asset. The life should not exceed the period to which the service capacity is limited by contractual or legal provisions. Software and trademarks may have their lives limited by obsolescence.

Renewal periods may be considered when determining the useful life if there is evidence the entity will seek and be able to renew the current contract. Renewal fees must be nominal in relation to the level of service capacity expected to be obtained through the renewal.

An intangible asset will be considered to possess an indefinite useful life if there are no legal, contractual, regulative or technical factors that limit its useful life. Indefinite useful life intangible assets are not amortized. An example of an indefinite life asset is a permanent right-of-way easement.

10. Intangible assets are subject to the same impairment indicators as other capital assets and follow GASB Statement 42: Accounting Financial Reporting for the Impairment of Capital Assets and for Insurance Recoveries. In addition to those indicators, a common indicator of impairment for internally generated intangible assets is development stoppage. Internally generated assets impaired from development stoppage will be reported at the lower of carrying value or fair value.

## Section 14. Capital Improvement Policy

1. NSHE capitalizes all expenditures for constructing a new building. For the purposes of this policy, capitalization is defined as the act of recording an expenditure or contribution that may benefit a future period as an asset rather than treating the expenditure as an expense of the period in which it occurs. Additionally, major improvements, additions, or major building alterations that involve an expenditure of at least \$250,000 for System institutions with net capital assets valued at \$50,000,000 or greater or \$100,000 for all other System institutions, that are not recurring in nature, and that usually increase the use value (efficiency, productivity, or use utility) or the useful life of the building beyond what it was before the alterations, are also treated as capital improvements. If any of these expenditures do not meet the definition of a capital improvement or do not reach the minimum capitalization threshold, they should be expensed.
2. For construction of new buildings or major improvements or alterations to existing buildings, the amounts to be capitalized include (1) the contract price of construction, including any contract changes; (2) architectural fees and services; (3) expenditures incurred in remodeling, reconditioning, and making the building suitable for the intended purpose; and (4) interest incurred during the period of time required to complete and prepare the asset for its intended use.
3. Major improvements should be distinguished from ordinary repairs that maintain the existing asset in normal operating condition and are expensed immediately. Ordinary repairs are recurring in nature and are normally small relative to the value of the asset; they do not materially add to the use value of the asset, and do not substantially extend its operational life.
4. Additions are new construction, acquisitions and extensions, enlargements, or expansions made to an existing asset. Additions are capitalized because they are considered to be extraordinary or major alterations. Also, work done on the existing asset to accommodate the addition should be regarded as part of the cost of the addition and capitalized.
5. Replacements and improvements are substitutions of a part of an asset for another. While replacement is the substitution of an asset of basically the same type and performance capabilities, improvement is the substitution of a better asset with superior performance capabilities. Replacements are considered as ordinary repairs and maintenance and are expensed when incurred.
6. Reinstallation and rearrangement costs are usually incurred to increase efficiency in production or reduce production costs and if their benefit extends beyond the current accounting period, they should be capitalized; otherwise they should be expensed as incurred.
7. Ancillary costs associated with preparing the property for its intended use should be capitalized.
8. A building's shell may be segregated from each building component and each item depreciated over its estimated useful life or the entire building may be treated as a single asset and depreciated over a single useful life. The component life for the shell shall be 40 years, fixed equipment shall be 15 years, systems/services shall be 15 years, finishes/fixtures shall be 10 years and the roof shall be 15 years.
9. Salvage or residual value is an estimate of the amount that will be realized at the end of the useful life of a depreciable asset through sale or other disposal. Salvage value should generally not be utilized in calculating depreciation.

**CHAPTER 6**

**ACADEMIC PROCEDURES**

**Section 1. Academic Year**

1. Campus academic calendars and proposed dates of commencements must be submitted to the chancellor's Office no later than two years prior to the year in question.

Presidents are responsible for specifying the academic-year obligation for their academic-year faculty. The academic-year obligation defines the dates within which academic-year faculty should be available for assignment on-campus or off-campus. Presidents must submit to the chancellor the academic-year obligation for their faculty no later than May 1<sup>st</sup> two years prior to the year in question. The chancellor shall compile these data and make them available across the System.

2. For contractual and other appropriate purposes, the academic year is defined as the twelve-month period coinciding with the fiscal year from July 1 to June 30, inclusive. Such period contemplates observance of officially recognized national and state holidays and such other recesses of official on-campus and off-campus duty as may be established at any time by the Board of Regents.

(B/R 4/72, 3/98, 6/00; Added 6/05)

**Section 2. Enrollment and Taxonomy Reporting Procedures  
(effective Fall 2013)**

1. **Enrollment Reporting Timelines:** The enrollment counts for each institution will consist of a preliminary and final count of enrollment each semester. The preliminary count in the Fall and Spring semesters will be reported as of October 15 and March 15 respectively for the community colleges and as of the last day to drop/add at the universities and state college. The end-of-semester count for the fall semester must be taken on or before January 10 and reported to the Chancellor's Office no later than January 15. The end-of-semester count for the Spring semester must be taken on or before June 15 and reported to the Chancellor's Office no later than June 20. Enrollment counts will include unduplicated student headcount and student FTE for all state-supported courses.
2. **State-Supported FTE:** Student enrollments in NSHE courses are counted as state-supported FTE in all academic credit courses that can be used to fulfill the requirements of a degree or certificate and where student fee revenue<sup>1</sup> is collected in support of the state operating budget.

---

<sup>1</sup> student fee revenue – registration fees & tuition are established by the Board of Regents. In order to meet the criteria for state support, institutions are required to charge Board approved tuition and fees per credit (Title 4, Ch. 17, Sec. 5). Special fees may be created to cover additional costs of instruction (lab fees, etc.). Fees can also be waived under special circumstances (see BOR policy Title 4, Chapter 17).

- Except at the universities, enrollment in credit-bearing<sup>2</sup> remedial/developmental courses<sup>3</sup> and vocational training courses may also be counted as state-supported FTE as long as student fee revenue is collected in support of the state operating budget.
  - In cases where additional fees are required to cover special costs and are placed in a class fee account or a self-supporting budget, FTE enrollment may still be counted as long as the normal class revenues from students are collected in support of the state operating budget.
3. **Headcount:** Unduplicated headcount will be reported for all state-supported courses using the same reporting criteria as student FTE. The universities will also report a separate unduplicated headcount for professional schools (i.e. medical, law, and dental).
  4. **Summer Term:** Courses ending after June 10 and prior to August 21 will be considered summer term courses. Summer term FTE is not state-supported, except for nursing courses and science-based nursing prerequisites and major requirements (see additional information provided under Summer Nursing Enrollment).
  5. **Summer Nursing Enrollment:** Unduplicated headcount is reported to the Chancellor's Office for nursing and science-based prerequisite courses included in the state-supported budget. The following criteria will be followed in calculating and reporting these enrollments:
    - Institutions will report the enrollment of nursing students and pre-nursing students enrolled in undergraduate nursing courses, as well as science-based nursing prerequisites and major requirements<sup>4</sup>. Nursing courses included in enrollment counts must be requirements<sup>4</sup> for an associate or baccalaureate degree. A record of educational intent or declaration of major must be auditable and stored within the student information system.
    - Student FTE from undergraduate nursing courses and science-based nursing prerequisites/requirements will be added to the FTE totals from the Fall semester of the subsequent academic year. (i.e. Summer 2004 FTE from nursing courses and prerequisites/requirements will be added to Fall 2004 FTE) for the purposes of computing annual average FTE.
    - The official enrollment reporting date for Summer nursing enrollment will be an end-of-semester count occurring no later than August 25. Institutions must submit their enrollment to the System Office no later than August 31.
  6. **Enrollment Between Semesters:** Enrollments in courses with an end date occurring after December 31 will be recorded in the following spring. Enrollments in courses with an end date occurring after August 20 will be recorded in the following fall.

---

<sup>2</sup> credit-bearing (*def.*) Courses possessing at least one *unit of credit* (1 or more) signifying a quantification of student academic learning. One unit of credit typically represents fifteen hours of lecture or seat time (as defined by the Northwest Commission on Colleges and Universities).

<sup>3</sup> remedial/development courses – English or math classes with course numbers less than 100.

<sup>4</sup> science-based nursing prerequisites and major requirements refer to all courses belonging to the physical or biological sciences that are either prerequisites for entry into a nursing program or required courses within a nursing program (i.e. biology, chemistry, nutrition)

7. **FTE Calculations:** The following equations must be utilized when calculating state-supported FTE:
- Undergraduate level FTE - semester student credit hours generated in undergraduate level courses (course numbers 000 to 499) --regardless of student level -- divided by 15.
  - Master's level FTE - semester student credit hours in graduate-level courses (course numbers 500 and above) generated by non-doctoral students, divided by 12.
  - Doctoral level FTE - semester student credit hours in graduate-level courses (course numbers 500 and above) generated by doctoral students, divided by 9.
8. **Deferments & Refunds:** Students who have not paid in full or complied with the institution's formal deferment policy must be deleted from end-of-semester enrollment counts. Those students receiving 100 percent refunds for course enrollments are subtracted from the FTE enrollment count, while refunds of less than 100 percent are not subtracted.
9. **Course Taxonomy Data:** On the official enrollment reporting date of each term, institutions will submit a file composed of individual student records, one record per student per course. Records should be created for all students enrolled in at least one credit-bearing course that qualifies as state-supported FTE. The total student FTE reported in the file must equal the institution's official enrollment recorded for that term. System Administration is responsible for identifying all new course prefixes and applying initial coding.
- The file must include the corresponding end of semester grade for each student record. A last date of attendance based on the last academically related activity for all "F" grades must be included. The last date of attendance shall be determined based on the guidelines established in the Federal Student Aid Return to Title IV regulations (34 Code of Federal Regulations 668.22).
10. **Institutional Documentation:** Each institution must establish and maintain documentation delineating institutional procedures and processes for calculating state-supported FTE. The documentation should include formalized steps and responsibilities of staff in the process of calculating student FTE, as well as detailed procedures for downloading data from the mainframe, processing and computing information to reach state-supported FTE totals, and reviewing data for validity and reliability. Also, institutions should develop a schedule and process for conducting periodic reviews of the courses included in FTE calculations in order to ensure only appropriate ones are included in official state-supported FTE counts.
11. **Audit:** The end-of-term student credit hour enrollment and grades reported in the taxonomy files created pursuant to Subsection 9 will be audited each semester.
- a. System Administration will run an extract from each institution's live data to obtain a file for audit purposes on the end-of-semester count day established in Subsection 1. The extract file will be compared to the institutional taxonomy files for the purpose of this audit. Those institutions which use an end-of-semester count day other than that described in Subsection 1 shall notify System Administration at least one week prior to the selected date.

- b. Two exception reports will be produced based on this audit:
    - i. Differences in student credit hours (SCH) by course-level and CIP; and
    - ii. Differences in grades (including but not limited to W, blank or not reported grades, I, IP, and F grades with the last date of attendance).
  - c. Exception reports will be provided to the president and chancellor and will require an institutional response to explain differences that exceed five percent of SCH reported in an institution's taxonomy file.
- (Added 6/05; A. 8/05, 3/06, 4/11, 10/12, 11/12, 9/13)

### **Section 3. Identification of Distance Education Courses**

For the purposes of the NSHE Taxonomy these guidelines are intended to characterize the subset of distance education instruction that should be identified for placement at the "high" support level.

Distance education course sections should be identified for placement at the "high" support level if they meet all of the following conditions:

1. The instructor and the members of the class are physically separated resulting in no contact in a traditional classroom setting.
2. The "at-a-distance" instruction is provided using technologies generally recognized as distance education technologies.
3. If a distance education course section is totally web-based, it should be identified for "high" support. Hybrid instruction, using various methods of instruction in addition to the traditional classroom, does not count for "high" support.
4. Other than any required meetings for organizational purposes, there are no regularly scheduled class meetings with the instructor except in the case where the delivery of the distance education course is synchronous, for example, interactive video.
5. In some cases, a distance education section includes students in a traditional classroom while simultaneously providing the instruction to other students who are not in that classroom. In this instance, instruction in the traditional classroom does not qualify for "high" support. However, the instruction received at a site other than the traditional classroom does qualify for "high" support.

(Added 8/07)

## **Section 4. Identification of Students with Documented Disabilities**

For the purposes of state funding, each student enrolled at an NSHE institution with a documented disability must be identified in the institutional integrated data system. Periodically, institutions will be required to report to the vice chancellor for finance and administration aggregate figures on the number of disabled students enrolled for the purposes of receiving state funds. An NSHE institution may maintain alternative counts of disabled students for institutional uses.

(Added 1/08)

## **Section 5. Race and Ethnicity Identification – Collection Purposes**

1. Each NSHE institution shall collect student and employee race and ethnicity information in compliance with federal reporting requirements of the U.S. Department of Education. Institutions must use a two-question format to collect race and ethnicity data on all written and online applications for admission and employment as follows:

Question 1: Are you Hispanic or Latino? (A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.)      Yes   No

Question 2: Please select the racial category or categories with which you most closely identify by placing an “x” in the appropriate box. Check as many as apply.

- American Indian or Alaska Native
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White

2. This format is required to meet the U.S. Department of Education requirements for collection of all student and employee race and ethnicity information and is effective Fall 2009. Admission and employment applications may include definitions for each racial category as defined by the U.S. Department of Education. This does not preclude an institution from collecting additional information.

(Added 3/08; A. 12/08)

## **Section 6. Nevada High School Data Elements – Collection Purposes**

1. Each NSHE institution shall collect the following data elements at the time of application for any student who attended a Nevada high school within five years of applying to an NSHE institution in compliance with the Board policy for uniform data collection necessary for establishing and maintaining the NSHE Data Warehouse (Title 4, Chapter 21):

- a. High school student identification number;
  - i. The collection format for high school student identification number shall be a hyphenated numeric made up of the county code followed by the high school student identification number (e.g. 01-987654321).
  - ii. The following county codes shall be utilized:

Code	County	Code	County
01	Churchill	11	Mineral
02	Clark	12	Nye
03	Douglas	13	Carson
04	Elko	14	Pershing
05	Esmeralda	15	Storey
06	Eureka	16	Washoe
07	Humboldt	17	White Pine
08	Lander	18	State Charter Schools
09	Lincoln	25	Bureau of Indian Affairs
10	Lyon	26	Private Schools
		99	Home School

- b. High school last attended;
  - c. High school completion date in a month and year format (mm/dd/yyyy) when applicable; and
  - d. High school completion type as defined by Chapter 389 of the *Nevada Administrative Code* to include type of certificate or diploma, including the General Educational Development test, when applicable.
2. The collection of data defined in subsection 1 does not preclude an institution from collecting additional information related to the Nevada high school attended.  
(Added 12/08)

**Section 7. Universal Identification (UID)/NSHE ID – Procedure for Updating Student Information**

- 1. The universal identification (UID), also known as the NSHE ID, is a set of data that will be synchronized across all NSHE institutions and will include the following data, as available:
  - a. Birthdate;
  - b. Birthplace (city, state, and country);
  - c. Social security number (SSN) or individual taxpayer identification number (ITIN);
  - d. Name (primary, preferred, diploma, human resources);
  - e. Address (home, mailing, billing, diploma, local, and address maintained by the international student office);
  - f. Phone (mobile, home, fax);
  - g. FERPA directory release;
  - h. Gender;
  - i. Race/Ethnicity; and

- j. Place and date of death and death certificate number.
2. Except as otherwise provided in this subsection, all requests to change student data related to the UID must be accompanied by the NSHE Personal Identification Data change form. Documentation may be submitted in person, by mail or fax, or electronically. Documentation submitted by mail, fax, or electronically must be accompanied by a copy of a government issued photo ID.

Requests to add a student's social security number (SSN) or individual taxpayer identification number (ITIN) to a previously blank field may be submitted in person, by mail or fax, or electronically without the required NSHE Personal Identification Data change form if the student submits a completed and signed IRS W9 Form (Request for Taxpayer Identification Number and Certification).

3. Any change of student data related to the UID must be appropriately documented by the institution initiating the change. All such documentation must be stored by the initiating institution.
- a. An institution may update a student's birth date with at least one of the following documents:
    - i. State or government issued photo ID;
    - ii. Birth certificate;
    - iii. Valid Passport; or
    - iv. Institutional Student Information Record (ISIR) data load (from the FAFSA).
  - b. An institution may update a student's social security number with each of the following documents:
    - i. Social security card; and
    - ii. Government issued photo identification.
  - c. An institution may update a student's name with at least one of the following documents:
    - i. Marriage license;
    - ii. Divorce decree;
    - iii. Court order;
    - iv. Valid Nevada driver's license or identification card;
    - v. Military identification card;
    - vi. Valid passport; or

  - d. An institution may update the date and place of death according to institutional business practices if the death certificate is not available. The death certificate number will be updated with a certified death certificate.
  - e. An institution may update a student's gender information with at least one of the following:

- i. Valid driver's license or state issued identification card;
  - ii. Federal government issued identification card; or
  - iii. Institutional Student Information Record (ISIR) data load (from the FAFSA).
4. Applications received for a student with a definite match to a record at another institution(s) that contain UID data different from that already on record will follow the same procedures as in subsection 2. Until the required documentation is received by the new institution the student record will continue to display the existing UID data. The application will be processed and the student will receive a checklist item in self service for the required documentation.
5. Electronic (scanned) documents used in verifying student data changes will be retained permanently at the initiating institution and will be available to any NSHE institution at which the student enrolls.
6. For current employees, the Human Resources Management System (HRMS) is the system of record for both their employee and student records.
7. The chancellor's Office will oversee and maintain UID fields for the purpose of determining which data fields may be synchronized across the System.  
(Added 12/09; A. 6/10, 9/10, 3/14)

## **Section 8. Universal Identification – Required Application Statement for Students and Employees**

The following statement must appear on all student application forms and employee personal data forms:

You are applying to an institution that is a member of the Nevada System of Higher Education (NSHE) and will be issued one identification number to be used at all NSHE institutions. Limited personal information is shared among NSHE institutions in accordance with NSHE policies governing the security and privacy of student and employee information.

(Added 12/09)

## **Section 9. Condensed Format for Consideration of Existing Program Changes**

The format for consideration of 1) changes in existing academic programs such as changes in degree titles, administrative structure, or major objectives; 2) reorganization of existing departments, schools or colleges; or 3) the creation of a new organization from existing units shall be as follows:

1. Title of proposed program or organizational unit;
2. Date of initiation;
3. Complete description and objectives of program or organizational unit (include justification for new organization or rationale for change in existing program);

4. Relationship to other programs or units within the institution and the system;
  5. Resource analysis; and
  6. Indicate the estimated annual financial impact. (Include operating costs, personnel, equipment, library requirements, other; and source of funds.)
- (B/R 5/92; Added 6/05; A. 8/07)

## **Section 10. Evaluation Criteria for Baccalaureate Degree Program Proposals at NSHE Community Colleges (formerly CM 03-01)**

The NSHE *Master Plan for Higher Education in Nevada* provides for “selected niche baccalaureate degrees” at community colleges. For purposes of this policy, such degrees can be defined as baccalaureate degrees that meet one or more of the following criteria:

- Promote the goals of the *Master Plan for Higher Education in Nevada*;
- Address a unique educational need of an identifiable population; and
- Enhance access to populations which otherwise would not be served due to geographic isolation or other barriers.

The proposal development and review process for the offering of potential baccalaureate degrees at NSHE community colleges is governed by Board of Regents’ policy found in Title 4, Chapter 14, of the Board of Regents *Handbook*.

To determine which baccalaureate programs will best meet the needs of the students and the state, proposed programs will be evaluated based on standard criteria as stated in this chancellor’s Memorandum.

Community colleges interested in implementing new four-year degree programs must provide information on the feasibility of the program by submitting a written program proposal with supporting data and evidence that responds to the following topics or questions.

Since it is not the intention of the NSHE for community colleges to abandon their community college mission, each proposal must address this issue in both a cultural and organizational context.

### Criteria for Proposals

#### NEED AND DEMAND

1. Describe the new program proposal and discuss its structure and content.
2. Is the program in an area of critical concern, and is there a significant shortage of similar programs?
3. Workforce needs:
  - a. Is there proven student demand for the program?
  - b. Is there similar employer demand for the program?
  - c. Does the projected demand exceed supply for the foreseeable future?

4. Append a feasibility evaluation of the program proposal, to include its relationship to current student and employer demand. This evaluation should be done by someone from outside the institution who is a member of the field being proposed.

#### INSTITUTIONAL READINESS

5. Are there qualified faculty members currently on staff? List faculty names, degrees, and areas of specialization. If other faculty need to be hired, include your plan for doing so.
6. Discuss how you will address faculty salary and workload policies.
7. Describe existing facilities and equipment, and provide a detailed plan, if applicable, on how you will complete necessary renovations of facilities and equipment enhancements to support the program.
8. Describe how you will continue to foster a cultural and organizational environment that ensures adherence to the community college mission.
9. Will new services be required to support students in a four-year degree program (new assessment procedures, career advisement and placement services, testing, etc.)?
  - a. Provide a plan that addresses how student services will be revised or enhanced to support this proposed four-year program.
  - b. Provide the plan/policy on eligibility and awarding of financial aid.
  - c. Discuss how student recruitment will be handled.
10. Specifically, how will general education requirements be addressed?

#### BUDGET REQUIREMENTS AND IMPACTS

11. Will additional state funding be required to implement the program? Include a five-year projected budget, reflecting anticipated enrollments, staffing needs, revenues, and expenditures.
12. Is the cost to the state less than other available options?
13. Is the cost to the student less than other available options?

#### OTHER RESOURCE ISSUES

14. Is there a similar existing program at a nearby institution which has unused capacity?
15. Can a cooperative program between the institution and a nearby four-year institution be offered more efficiently? If not, explain.
16. Are there duplicate programs offered by other institutions through distance education?
17. How will library acquisitions and information resources be expanded and enhanced to accommodate the four-year degree program? Please provide the proposed budget for all enhancements.

#### IMPACT

18. What impact will this new program have on other programs at the institution?
19. What impact will this program have on the faculty, facilities, or other students?
20. Will this program have an adverse impact on other institutions?
21. Describe the impact of the accreditation process (the specialized program accreditation, if applicable, and institutional accreditation). Please provide a proposed budget for these processes.
22. Address other internal impacts that you anticipate of introducing a four-year program at a two-year institution.

## COMPLIANCE

23. Does the program comply with current statutory requirements of the institution?
24. Would the increase in program length require any change to current institutional requirements?
25. Would any changes to admission requirements be needed?

## IMPLEMENTATION

26. Is there an existing associate degree base for the degree?
27. Will policy require that admission into the baccalaureate track be dependent upon first earning the associate degree? Please provide the policy.
28. Will the new program be eligible for a specialized program accreditation (i.e., ABET or NCATE)?
29. Will it need to be accredited either to interface with other programs within the NSHE or for graduates to have optimal employment opportunities?
30. What is the plan for preparing and submitting a Substantive Change Proposal to the Commission on Colleges of the Northwest Association of Schools and Colleges?
31. What is the timeline for implementing the program?
32. Is the implementation schedule dependent upon receiving additional funding, hiring new faculty, remodeling facilities, or acquiring equipment? If so, are there alternative plans if some or all of that funding is not forthcoming?

(Added 6/05; A. 8/07)

## **Section 11. Review of New Study Abroad Student Programs**

Formal Study Abroad programs, International Programs, affiliations or consortiums which involve students or faculty in another country for educational purposes in which academic credit is granted, shall be submitted to the NSHE Academic Affairs Council for a recommendation to the chancellor for approval. (Faculty or student exchanges which involve a limited number of people for a period of less than one semester and international arrangements for the purposes of research are excluded from this policy.)

The format for consideration of such programs shall be as follows:

1. Title of proposed program, affiliation, or consortium;
2. Brief description of campus administration and oversight of the program, including rationale for conducting the program abroad;
3. Brief description of program and its faculty, including whether the program is to be developed by the campus or initiated through cooperative arrangements with other institutions;
4. Curriculum, including number of academic credits to be awarded, and their applicability to a degree in Nevada. Indicate if any courses are not part of a previously established program, or if it is anticipated the program will lead to a separate degree in the future;
5. Student selection criteria (GPA, language proficiency, specific majors);

6. Description of provisions for student health insurance coverage;
7. Effect on home campus: Faculty/staff replacements required;
8. Projected annual enrollment;
9. Facilities and equipment available for research and teaching at the study abroad location;
10. Resource Analysis: Indicate the estimated annual financial impact of the program to the campus.

Definitions:

Affiliation: Two institutions of higher education working cooperatively to provide educational experiences for students and/or faculty. This term should indicate a formal agreement between the two institutions, which includes a basic outline of the goals of the cooperative arrangement.

Consortium: Three or more institutions working cooperatively on one or more educational programs.

Exchange: Student exchanges generally offer opportunities to study at a foreign institution without paying non-resident fees. This agreement allows two institutions to provide a specific number or an equal number of students the opportunity to study abroad at reduced costs. Some countries do not maintain hard currency. Therefore, exchange agreements would require a complete waiver of fees at both participating institutions.

Faculty Exchange: Faculty from participating institutions can arrange to teach at the affiliated campus for a specific period of time. Arrangements for salary compensation vary widely.

International Program: A formal agreement between two or more institutions to provide an organized educational opportunity for students and/or faculty to study abroad. Programs must include a supervised academic curriculum, which fulfills the requirements for course work at the credit-granting institution.

## **Section 12. Basic Agreement for Inter-Institutional Cooperation in Sponsored Programs**

The basic agreement, by and between the participating institutions of the Nevada System of Higher Education (NSHE), is entered into for the purposes of facilitating inter-institutional cooperation in the funding and performance of sponsored programs.

- 1) NSHE institutions, in support of their individual missions, regularly enter into sponsored agreements (grants and contracts) with agencies of both the public and private sectors for projects of research, teaching, and public service.
- 2) An institution of NSHE will on occasion find it necessary and/or desirable to solicit the services and efforts of one or more other NSHE institutions in the performance of the work required under a particular agreement.
- 3) It is the responsibility of the institution which holds the prime agreement to maintain the highest possible standards of programmatic and fiscal accountability and to administer all subagreements in a timely, efficient, and equitable manner.
- 4) It is the responsibility of the institutions receiving subagreements to conform to certain provisions required by the prime agreement and provide full oversight, accountability and responsibility for the programmatic effort and funding under the subaward.

The parties of this basic agreement do mutually agree to the following:

#### **SUBSECTION 1.     DEFINITIONS**

- 1) "Proposal" shall mean a formal, written request for funding to a sponsoring agency that has been reviewed by all participating institutions, approved by authorizing officials of the participating institutions, and submitted for agency review.
- 2) "Recipient" shall mean the institution (not an individual, department, or other organizational unit) that receives and administers the prime agreement.
- 3) "Subrecipient" shall mean the institution that receives a subaward from the recipient.
- 4) "Subaward" shall mean the proposed work and funding that is provided to the subrecipient by the recipient as approved under the recipient's prime agreement.
- 5) "Authorizing Official" shall mean an official authorized on behalf of the institution to approve the submission of proposals and accept any resulting sponsored project grants or contracts. NSHE policy designates institutional presidents or their designees as Authorizing Officials for most sponsored projects.
- 6) "Negotiation" shall mean verbal or written communication between two or more parties concerning any proposed or pending agreement. Provisions agreed upon by the negotiating parties shall not become binding until approval of authorizing officials representing the participating institutions is secured.
- 7) "Prime agreement" shall mean the prime award grant or contract document.
- 8) "Prime sponsor" shall mean the sponsoring agency of the prime agreement.
- 9) "Subagreement" shall mean the written subaward agreement between the recipient and the subrecipient.

- 10) "Standard Form Agreement (SFA)" shall mean the Standard Form Agreement template developed by the Federal Demonstration Partnership (FDP) to which NSHE belongs. The template shall be the principal instrument for all federal and federal pass-through subagreements between NSHE institutions. In general, Standard Form Contracts include all federal contracts, State of Nevada Inter-local contracts, subawards that use federally approved templates, and the NSHE SFA.

## **SUBSECTION 2: ADMINISTRATIVE COORDINATION**

Each participating institution agrees to designate administrative, financial, and programmatic points of contact for each subaward.

## **SUBSECTION 3: PRE-AWARD COORDINATION**

- 1) Proposal Preparation: Institutions submitting proposals for external sponsorship which include proposed work with one or more other NSHE institutions agree to include the proposed subrecipient's statement of work and budget as separate items in the proposal. Prior to submitting the proposal, the submitting institution shall obtain approval of the subrecipient's proposal and budgets from the subrecipient Sponsored Programs/Grants Office or other appropriate official.
- 2) Facilities & Administrative Costs (F&A) (formerly Indirect Cost): The submitting institution agrees to include F&A costs in the proposed subagreement budget at the subrecipient's federally approved audited rate otherwise negotiated. The submitting institution will apply the appropriate F&A rate to the first \$25,000 of each subagreement if the rate is based on modified total direct costs.
- 3) Subawards Resulting from Existing Projects or Informal Contracts with Funding Agencies: Not all sponsored projects are the result of formal proposals and occasionally unanticipated requirements necessitate subcontracting from ongoing projects. The recipient institutions agree to work closely with Principal Investigators and appropriate contacts at the subrecipient institutions to negotiate mutually beneficial agreements for these types of awards and situations.
- 4) Consulting Arrangements: All potential consulting arrangements with individual NSHE employees must be in accordance with NSHE personnel policies and procedures. NSHE employees of one institution may not be appointed or paid as independent contractors at another NSHE institution. Payments to these employees must be subawarded to the employee's respective institution and paid as salary. Subawarded salaries shall include applicable fringe benefits and F&A costs.

## **SUBSECTION 4: APPROVAL AND ADMINISTRATION OF SUBAGREEMENTS**

- 1) Preaward Costs: The majority of federal grants and cooperative agreements allow reimbursement of project related costs incurred up to 90 days prior to the effective date of the award. Prime recipients may approve such costs. Subrecipients anticipating a need for preaward costs shall coordinate with the prime recipient to avoid financial risk.

- 2) NSHE Standard Form Agreement (SFA): The agreement template is included in Appendix A. The template is periodically modified, but current versions of all templates can be found at <http://sites.nationalacademies.org>.

The FDP SFA cover page contains basic information regarding the subaward and its wording may not be modified. Information relating to project performance, invoicing, and other requirements is to be included in the following standard form SFA attachments:

Attachment 1 - Certifications and Assurances.

These include Certification Regarding Lobbying; Debarment, Suspension, and other Responsibility Matters; and OMB Circular A-133 Assurance.

Attachment 2 - Prime Agreement & Other Special Provisions.

All flow-through provisions from the prime agreement are included or referenced in the attachment, as well as any special provisions that are required or have been negotiated. Versions of Attachment 2 specific to FDP member agencies may be downloaded from the site referenced above. For NSHE subawards, the following certification shall be added to all versions of Attachment 2.

This agreement is entered into and administered in accordance with the provisions of NSHE *Procedures and Guidelines Manual*, Chapter 6, Section 12: "Basic Agreement for Inter-Institutional Cooperation in Sponsored Programs." Both parties agree to the terms and conditions of this policy document agreed to by all NSHE institutions.

Attachment 3A - Prime Recipient Contacts.

Attachment 3B - Subrecipient Contacts.

Attachment 4 - Reporting Requirements.

Attachment 5 - Statement of Work & Budget (if applicable).

The Basic Agreement sets forth the general and special provisions that apply to all subagreements, the SFA shall include the essential elements of information which apply to the specific subagreement. The most current SFA template can be accessed on the FDP Subaward Agreement Forms web site (<http://sites.nationalacademies.org>) and is included as Appendix A and becomes a part of the Basic Agreement. Subsequent to the approval of the Basic Agreement by the chancellor, the SFA shall henceforth be considered as a Standard Form Contract.

Modifications and amendments to the NSHE SFA shall use the Modification Template from the FDP Subagreement Forms web site.

- 3) Processing and Approval of SFAs: Approval of the SFA shall be authorized at institutional level by the institutions' presidents or their designee. For transactions of an administrative nature, not requiring formal agreement by both parties, the recipient may sign the document and enter "Signature of subrecipient not required" in the subrecipient's signature block.

SFA agreements, modifications, and related documents will be considered signed when a xerographically or electronically reproduced copy bearing the signature of one party's authorized official is transmitted to the other party. Such signatures shall be treated in all respects as having the same effect as an original signature.

Electronic transmission of SFA documents is the preferred method, and the PDF format is the preferred media for these documents. Scanning of documents should be done in a manner that minimizes file size. To expedite the processing of documents, the recipient should sign the documents prior to sending them to the subrecipient.

- 4) Contractual Relationships: The NSHE institutions which are parties to this agreement shall act as independent contractors. No party shall act as agent for or partner of another for any purpose whatsoever in the absence of prior contractual agreements. The recipient institution has total responsibility for successful performance of a prime agreement, and unless otherwise stipulated in the SFA, shall be the only party to deal directly with the prime sponsor. The recipient institution acts as a sponsoring agency to the subrecipient institution. It shall be understood by the subrecipient that standard references in any general and special provisions to prior approval by the prime sponsor include submission and preliminary approval by the recipient institution. Exceptions to this relationship shall be stipulated in Attachment 2 of the SFA.

#### **SUBSECTION 5: BASIC AGREEMENT GENERAL CONSIDERATIONS**

THE PARTIES TO THIS BASIC AGREEMENT agree to develop and negotiate in good faith subagreements that incorporate terms and conditions conforming to the intent of the following general considerations. Any of the following considerations not addressed or superseded by terms and conditions of the prime agreement and passed through to the subagreement shall be automatically incorporated into the subagreement as basic general provisions.

- 1) Rights in Publication: Unless otherwise restricted by the terms of the prime agreement, no agreement shall be entered into between NSHE institutions that restricts or forbids free publication of the results or research or other scholarly activity.
- 2) Intellectual Property Rights: Unless otherwise restricted by the terms of the prime agreement, ownership of intellectual property shall remain with the originating institution in accordance with the intellectual property provisions of the *Board of Regents Handbook*. If originated jointly, the parties agree to negotiate in good faith to establish their respective rights.
- 3) Publicity: Unless otherwise restricted by the terms of the prime agreement, any party desiring to issue any form of publicity in connection with its efforts on a mutual project shall inform the other party before any publicity release and give full consideration to the role and contributions of the other party.
- 4) Title to Permanent Equipment: Unless otherwise restricted by the terms of the prime agreement, title to equipment funded and purchased under a subagreement shall be vested in the subrecipient upon acquisition.

- 5) Termination: Unless otherwise stipulated by the terms of the prime agreement, or specifically stipulated in the subagreement, either party to a subagreement shall have the right to terminate the agreement upon at least 30 days written notice to the other party. All work accomplished through the date of termination shall be delivered to the recipient, and all allowable project reimbursed to the subrecipient.

## **Section 13. Program & Organizational Unit Proposals**

### **GUIDELINES**

Board policy dictates the creation of degrees, majors, programs, departments, or structural organizations must be approved by the Board of Regents. Flexibility is given to the institutions to implement minor changes without Board approval. In cases where there is an absence of significant programmatic change, minimal impact to other NSHE institutions and clear adherence to approved institutional mission, institutions may seek approval through the Academic Affairs Council. Furthermore, Board policy establishes an accountability system whereby institutions are directed to provide periodic follow-up information on budget estimates and enrollment projections provided through the program proposal process.

### **Items Requiring Academic Affairs Council Approval Only**

1. Primary field of study within an associate of arts and associate of science (AA and AS) if the primary field of study is designed for transfer;
2. Certificates of at least 30 credit hours except for post baccalaureate certificates;
3. Certificates of at least 9 and less than 30 credit hours that provide preparation necessary to take state, national and/or industry recognized certification or licensing examinations (all other certificates of less than 30 credit hours, including post baccalaureate certificates, do not require AAC approval);
4. Study abroad programs;
5. Name change to a degree, major or primary field of study that is cosmetic in nature and does not result in a change in curriculum; and
6. Name change to an organizational unit that is cosmetic in nature.
7. Reactivation of a previously approved degree, major or primary field of study that was placed on hold (or deactivated) by the institution for less than five years since the deactivation was approved by the Board. The institution must provide appropriate written notice to the Board indicating the reactivation of the program. A deactivated program will be considered formally eliminated after five years.

### **Items Requiring Board of Regents Approval**

The following items must be approved by the Academic Affairs Councils prior to being presented to the Board for approval:

1. Degree, major or primary field of study for baccalaureate, master's, and doctoral level programs (BA, BS, MA, MS, Ph.D, and named degrees);
2. Emphases, major or primary field of study within the bachelor of applied science (BAS);

3. Primary field of study within an associates of arts and associate of science (AA and AS) if the primary field of study is developed for employment in a particular field or is not intended for transfer to a four-year institution;
4. Primary field of study within an associate of applied science (AAS);
5. Emphases, concentration, or options that are converted into a major;
6. Department, school, or college;
7. Organization unit, center, or institute;
8. Name change to a degree, major or primary field of study accompanied by a significant change in curriculum;
9. Name change to a department, school, or college that is the result of a significant reorganization of existing units, consolidation, or change in mission;
10. Name change to an organizational unit, center, or institute that is the result of a significant reorganization of existing units, consolidation, or change in mission;
11. Deletion of any degree, major, primary field of study, department, school or college, center, institute or other structural organization; and
12. Deactivation of a previously approved degree, major or primary field of study that an institution wishes to place on hold.

### **Items Not Requiring Academic Affairs or Board Approval**

1. Emphases, concentrations and/or options within a degree (except for the emphases within a BAS that require Board approval); and
2. Post baccalaureate certificates of any duration.

### **Inventory of Approved Degrees and Certificates**

The vice chancellor for academic and student affairs shall maintain an inventory of all degrees and certificates approved by the Academic Affairs Council or the Board of Regents, including certificates that provide preparation necessary to take state, national and/or industry recognized certification or licensing examinations.

### **DEFINITIONS**

**Center** – an organizational unit focusing primarily on research and scholarly activity where services are typically unrelated to internal administrative operations (for the purposes of new unit proposals this definition is the same as “institute”).

**Certificate** – an award granted certifying that certain training or educational requirements have been achieved.

**College** – collection of departments, can include schools, that grant degrees in particular fields (may also be known as a division).

**Degree** – the award given to graduates based on educational level. The basic levels include associate’s degree, bachelor’s degree, master’s degree, and doctorate. (AA, AS, AAS, BA, BS, BAS, MA, MS, Ph.D).

**Department** – division of a school or college focused in a particular academic area - reports to a unit other than another department, usually a college.

**Diploma Requirements** – diplomas can only recognize Board approved degrees and majors. This means that emphases/concentration/options that have not been approved by the Board cannot appear on a diploma. Transcripts, however, may include emphases/concentration/options.

**Discipline** – a distinct area of study, branch of instruction, or academic field.

**Emphasis, Concentration, Option** – a specific area or branch of study within a student's major. For example: a student majoring in Animal Science may choose to pursue an emphasis (i.e. option or concentration) in Equine Sciences or Rangeland Livestock Production.

**Institute** – an organizational unit focusing primarily on research and scholarly activity where services are typically unrelated to internal administrative operations (this definition is the same as “center” and is intended only to be used for the purposes of new organizational unit proposals, primarily to distinguish between internal administrative “institutes” or “centers” occurring at the community college versus research oriented units occurring at the universities).

**Major** – the primary field of study within a degree characterizing the body of knowledge gained within a discipline.

**Named Degree** – the integration of a major title into a degree title. For example, a Master of Science in Nursing (MSN) is a named degree. Academic Affairs Council agreed in December 2004 that named degrees are only permitted in cases where accreditation, professional, or national recognition require it.

**New Program Follow-up** –Board policy establishes an accountability system whereby institutions are directed to provide periodic follow-up information on cost estimates and enrollment projections provided in the program proposal process (Title 4, Chapter 14, Section 5). Reports must be submitted following the third and fifth year of a program's existence.

**Organizational Unit** – a department, school, college, division, center, or institute

**Primary Field of Study** – a term used to describe the equivalent of a major within an associate degree or bachelor of applied science degree

**School** – generally associated with professional degrees, can be within colleges, depends upon discipline and national context, generally similar to a department but larger and usually has multiple areas representing different academic programs

**Study Abroad** – formal affiliation or consortium involving students or faculty in another country for educational purposes in which academic credit is granted. Faculty or student exchanges which involve a limited number of people for a period of less than one semester and international arrangements for the purposes of research are excluded from this definition.

**Transfer Degrees** – the primary basis for admission to upper-division study with full junior status of transfer students for the community colleges to state college or the universities in Nevada are the associate of arts, associate of science, and the associate of business degrees. When the primary field of study in these degrees is dedicated to transfer-related studies, Board approval is not required. In the rare instance when the primary field of study is not transfer-related, Board approval is required.

(Added 6/05; A. 3/06, 8/07, 4/09, 12/10, 9/11, 3/13, 9/14)

## **Section 14. Student Military Mobilization/Activation for NSHE Institutions**

The Board of Regents recognizes that many of its students serve our country in the reserve forces of the U.S. Armed Services and in the Nevada National Guard. These students are subject to unforeseen mobilization or activation in response to local, regional, national, or international emergency situations. Emergency mobilization and activation will seriously disrupt these students' academic careers. It is the policy of the Board of Regents to minimize the effects of this disruption as much as possible. These procedures are established in accordance with Board policy (Title 4, Chapter 16), whereby the chancellor shall develop procedures concerning the awarding of academic credit and grades, enrollment, scholarships, loans, and other appropriate matters intended to minimize the disruption of studies for a student and the student's spouse and dependents resulting from a call to active duty.

In order to qualify under the provisions of these policies, a student must present official military orders indicating his/her mobilization or activation to the Registrar, Dean of Students, Vice president for Student Life, or other appropriate university/college official. The student will be informed of the procedures to be followed. If, due to time constraints between the time of notification and the time of actual mobilization or activation, the student cannot present his/her orders as required, the parents, guardians, or spouse of the student may do so.

### **I. Awarding of Academic Credit/Grades**

- A. Mobilization or activation during a regular semester or during summer sessions will result in the complete withdrawal of the student from the college or university without penalty and without a punitive grade. Course fees that have been paid will be refunded 100 percent exclusive of student insurance fees and other non-refundable fees. Room and board payments will be refunded on a pro-rated basis.
- B. Mobilization or activation within the last four weeks of the end of a regular semester (three to six class days for a summer session), will result in the student:
  - 1. Choosing to withdraw from all courses in which the student is officially enrolled. In this case, course fees that have been paid will be refunded 100 percent exclusive of student insurance fees and other non-refundable fees. Room and board payments will be refunded on a pro-rated basis;
  - 2. Requesting, with the concurrence of the faculty of the affected courses in which the student is officially enrolled, to take an incomplete grade in some or all of these courses. Students are cautioned that prolonged absence may affect their ability to complete the coursework required for removal of incomplete grades. The student may choose to withdraw from some courses and request the grade of incomplete (with the course faculty's concurrence), in other courses. This option will result in a refund of that portion of course fees paid for those courses in which the student chooses to withdraw (other non-course fees will not be refunded).<sup>5</sup> Room and board payments will be refunded on a pro-rated basis;

---

<sup>5</sup> The amount that will not be refunded will be determined by the number of credit hours for which the student chooses to receive an incomplete (with concurrence of the faculty member).

3. Requesting, with the concurrence of the faculty of the affected courses in which the student is officially enrolled, to receive a final grade in some or all of the student's courses based upon the student's work in the course up to the date of mobilization or activation.<sup>6</sup> With the concurrence of course faculty, the student may request incomplete grades in some courses, choose to withdraw from some courses, and request final grades based on coursework completed in some courses. This option will result in a refund of that portion of course fees paid for those courses the student chooses to withdraw from (other non-course fees are not refunded).<sup>7</sup> Room and board payments will be refunded on a pro-rated basis; or
4. Requesting, with concurrence of the faculty of the affected courses in which the student is officially enrolled, to take an early final examination in some courses in order that the faculty can determine a final course grade for the student. With the concurrence of course faculty, the student may request to receive a final grade based upon course work prior to the date of mobilization or activation in some courses<sup>8</sup>, request incomplete grades in some courses, choose to withdraw from some courses, and request early final exams in some courses. This option will result in a refund of that portion of course fees paid for those courses in which the student chooses to withdraw from (other non-course fees are not refunded).<sup>9</sup> Room and board payments will be refunded on a pro-rated basis.

## II. Time Limit for Removing Incomplete Grades

If the mobilized or activated student requests (with the concurrence of the course faculty involved) incomplete grades in all or some of the courses in which he/she is officially registered, the student shall have no longer than one year after conclusion of the term of active duty, to meet with university/college officials and establish a timetable for removing the incomplete grade(s).

## III. Student Re-enrollment

When students whose higher education academic careers are interrupted by mobilization or activation re-enroll in the same institution within one year of completion of their term of active service, the college or university will make every possible effort to place these students back into their academic studies track as close as possible to the same place the student occupied when mobilized or activated. Any readmission application fee will be waived for those students. This will allow students to continue their academic studies with as little interruption as possible.

---

<sup>6</sup> In some courses where the grade is based entirely upon a final exam or final project (e.g. law courses), this option would not be available.

<sup>7</sup> The amount that will not be refunded will be determined by the number of credit hours for which the student chooses to receive an incomplete or a final grade (with the concurrence of the faculty member).

<sup>8</sup> In some courses where the grade is based entirely upon a final exam or final project (e.g. law courses), this option would not be available.

<sup>9</sup> The amount that will not be refunded will be determined by the number of credit hours for which the student chooses to receive an incomplete or a final grade (with the concurrence of the faculty member).

1. For students re-enrolling under circumstances as described above, every reasonable attempt should be made to give preferential enrollment into high demand courses necessary for them to continue their studies with as little interruption as possible. This is particularly necessary for students who are enrolled in curricula that require sequenced courses of study. Limited Entry Program administrators and faculty will strive to accommodate the needs of students on mobilization or activation within the criteria established through accreditation.
2. Time spent on mobilized or active duty should not be counted in determining the institution catalogs under which the student may meet curricular or degree requirements. That is, where an institution allows the student to choose the catalog in effect upon first entering the institution, as long as the student's attendance was continuous, or any subsequent catalog for a given period, the time while on active duty will not be counted. A person who, upon being offered separation from active duty, re-enlists or otherwise voluntarily extends active duty, retains the right of catalog choice only for the period of initial involuntary mobilization or involuntary active duty.
3. The time spent by graduate students on mobilized or active duty will be suspended from the "time-to-completion" requirements of the respective graduate programs.
4. If certain courses required in a student's curriculum are no longer taught at the time of re-enrollment, the institution shall make reasonable accommodations with substitute courses, independent study or other appropriate options.
5. In instances of substantial curriculum change during the period of mobilization or activation, the student's academic dean or department chair may work with the student and prescribe a special curriculum, not necessarily following any given catalog, which will assure proper preparation of the student for his/her respective profession.
6. If a student's curriculum no longer exists at the time of re-enrollment, the institution shall reasonably assist the student in changing to a new curriculum or transferring to an institution where the desired curriculum is available.

#### IV. Scholarships

If a student is mobilized or activated while holding a scholarship under the control of the college or university in which the student is enrolled, he/she should be aware that the scholarship check may have to be returned to the appropriate scholarship account from which it was drawn. Then, every effort shall be made to award the student this scholarship, an equivalent scholarship, or an alternative grant or grant-in-aid, upon re-enrolling after the student's period of active duty, so long as the student remains otherwise eligible. This provision is contingent upon funding availability and shall lapse if the student does not re-enroll in the college or university he/she was attending at the time of mobilization or activation within a one-year period from the time of separation from his/her active duty period.

#### V. Books

Since course textbooks change regularly, students who are mobilized or activated are strongly urged to sell those course textbooks they do not intend to keep for their personal collection at the time they leave the college or university. Colleges and universities should facilitate the purchase of these textbooks by the campus bookstore vendors.

## VI. Student Grants and Loans

- A. If students who have received grants or loans for attending a college or university are mobilized or activated before the end of the semester, any course fees and other fees refunds, as well as room and board refunds, may have to be returned to the granting agency or applied toward retirement of the loan. Students should consult with the Financial Aid Officer of the college or university they are attending in order to obtain clarification and/or further information on this matter.
- B. If students on grants/loans are mobilized or activated early in the academic term, before they receive their grant/loan checks, they should be aware that when received, their grant/loan check may have to be returned to the grantor or lender and, therefore, may not be applied to their college/university debts. Hence, students so affected may find that they owe some debts to the college or university (e.g., room and board expenses) when they return from active service and may be required to satisfy these debts before being allowed to re-enroll. Students should consult the Financial Aid Office of the college or university for clarification.

## VII. Spouses and Dependents of Mobilized or Activated Students

### **Insurance Coverage**

When necessary, colleges and universities should work closely with the spouses of students who are mobilized or activated to ensure maximum medical insurance coverage to the extent allowed by the insurer for the spouse and dependents of the student. This is particularly important during the time period between the date of mobilization or activation and the date on which the student's military medical coverage takes effect.

### **Housing**

The spouse and dependents of students who are mobilized or activated and who live in college/university married student housing shall be allowed to continue renting or leasing these quarters. If the student does not re-enroll in his/her former college or university within six (6) months after the completion of his/her mobilization or activation period, then the spouse and dependents of this student may be required to vacate the married student housing.

### **Enrolled Dependents**

Institutions should inaugurate policies to assist negatively impacted students who are the dependents of spouses, parents, and guardians who are mobilized or activated.

(Added 11/06; A. 8/07)

## **Section 15. Student Directory Information – Non-Disclosure Statement**

The following statement must appear in boldface type in a box on the form used by students for requesting non-disclosure of student directory information:

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

(1) The right to inspect and review the student's education records within 45 days of the day the institution receives a request for access.

A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The institution official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the institution official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student's education records that the student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the institution to amend a record should write the institution official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the institution decides not to amend the record as requested, the institution will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to provide written consent before the institution discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The institution discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the institution in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the institution has contracted as its agent to provide a service instead of using institutional employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the institution.

Upon request, the institution also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The Nevada System of Higher Education has designated the following information as directory information:

- a. Name;
- b. Participation in officially recognized activities and sports;
- c. Address;

- d. Telephone number;
- e. Weight and height of members of athletic teams;
- f. E-mail address;
- g. Degrees, honors, and awards received;
- h. Major field of study;
- i. College;
- j. Dates of attendance;
- k. Date of graduation;
- l. Undergraduate or graduate status;
- m. Most recent educational agency or institution attended; and
- n. Enrollment status (full-time or part-time).

Students have the right to refuse to let NSHE designate this information as directory information and have until the end of the first six weeks of the fall or spring semester to submit a request for non-disclosure of the above items. A request for non-disclosure submitted at one NSHE institution will apply to all NSHE institutions.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the institution to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202-5901

(Added 6/09)

## **Section 16. Audits of Residency Determinations**

Institutions shall determine procedures to ensure that residency determinations are accurate on the basis of information reported on the application for admission pursuant to Board policy. If documentation is not required for each student during the admission process, every fall and spring the institution shall conduct random audits by selecting at least 10 percent of the matriculated applicant population and collecting the appropriate documentation from each student confirming residency status as originally reported on the student's application for admission.

(Added 6/10; A. 1/15)

## **Section 17. Audits of Community College Admissions**

Institutions shall determine procedures to ensure that high school graduation documentation is accurate on the basis of information reported on the application for admission pursuant to Board policy. If documentation is not required for each student during the admission process, every fall and spring the institution shall conduct random audits by selecting at least 10 percent of the matriculated applicant population and collecting the appropriate documentation from each student confirming graduation status as originally reported on the student's application for admission.

(Added 6/12; A. 1/15)

## Section 18. Residency Determinations: Nonimmigrant Aliens – Visa Classifications

Under Title 4, Chapter 15, of the *Handbook*, an alien who has become a Nevada resident by establishing bona fide residence in Nevada and who is a nonimmigrant alien admitted to the U.S. with a visa classification under which the holder is eligible to establish domicile in the U.S. may be classified or reclassified as a resident student for tuition purposes if supported by clear and convincing evidence.

The chart below sets forth the visa classifications under which the holder is eligible to establish domicile in the U.S. pursuant to federal law, including but not limited to INA Section 101(a)(15) and 8 CFR 214.2 through 8 CFR 214.15. A student holding an eligible visa must still meet the requirements under subsection 9 of Title 4, Chapter 15, Section 4 to be deemed or reclassified as a resident student for tuition purposes. All nonimmigrant visas must be verified via visa stamp in the applicant's passport or on an I-94 Card. It is not possible to include every nuance of the immigration process in this section. For the domicile eligibility status of any other alien classification, visa, or documentation not covered by this section, contact the System Office for guidance.

## **Section 19. Common Course Numbering: General Guidelines**

1. Except as otherwise provided, common course numbering identifies equivalent NSHE courses and labels them with the same course prefix, number, title, and credits. Common courses are defined as those that have the same course prefix and number and have comparable content with essentially common expectations regarding student performance upon completion of the course. In limited circumstances, common courses may have a variable number of credits assigned, including but not limited to internships and labs.
2. A transferring student will not be required to retake a successfully completed common course unless a higher standard for performance in the course is a published degree requirement.
3. Common course numbers will not require faculty to change or standardize their course to be equivalent with another institution's beyond the requirement for 80 percent content nor will it impact course delivery methods.
4. If an institution develops a course that is already common course numbered, its content must be 80 percent common to the existing course.
5. All undergraduate courses must be common course numbered or receive a unique course number. Courses that are not assigned a common course number will be considered "unique" courses. If a course is unique, the institution offering the course assigns the course prefix, number, title, credits, and description.
6. All courses must have a generic course description that will be part of the review in determining whether or not a course is common or unique. Institutions may develop a course description that varies from the generic description, but the description must not differ significantly in substance from the generic description.
7. All prefixes should be between two and four letters. The department name and prefix need not be the same (e.g. the department of Philosophical and Regional Studies [PRS] may offer courses with prefixes such as HIST, ECON, PHIL, etc.).
8. Common courses shall be appropriately numbered as upper or lower division and will be assigned a common course prefix, number, title, and credits.

(Added 6/14)

## **Section 20. Common Course Numbering: Assignment of Prefix, Number and Title**

1. In order for a course to be assigned a common or unique course number, all institutions that offer the discipline in which the proposed course resides must agree that at least 80 percent of the content of the proposed course is common. Every institution must be contacted to review the content of the proposed course.
2. The applicable common course numbering form developed by the Department of Academic and Student Affairs must be completed for all additions, changes and deletions of undergraduate courses. In addition, the applicable form must be completed for any changes to existing course prefixes, numbers, titles or credits.

- a. Every institution must be contacted to review the course. The point of contact for course review must be the academic administrator over the discipline or the registrar or institutional designee if there is no academic administrator. In circulating the form for review, it will be determined if the course is common or unique, and a title and number will be agreed upon for inclusion on the form.
  - b. The course information provided by the originating institution for review must include a copy of the syllabus or course outline and a course description.
  - c. The originating institution will submit the completed form to System Administration, Department of Academic and Student Affairs.
  - d. If a common course prefix, number, title, or credits cannot be agreed upon, the course will be reviewed by the appropriate System-Wide Discipline Committee. If the System-Wide Discipline Committee does not reach agreement, the course will be referred for review to the Common Course Numbering Committee. If agreement is not reached through the Common Course Numbering Committee, the matter will be referred to the Academic Affairs Council for resolution.
3. The Department of Academic and Student Affairs shall:
- a. Develop and maintain a common course numbering form for additions, changes and deletions.
  - b. Maintain a common course numbering master file that will include all NSHE undergraduate courses, both common and unique.
  - c. Review common course numbering form submissions to determine if all criteria have been met.
    - i. If all criteria have not been met, the contact person for the originating institution must be notified within 14 business days.
    - ii. If all criteria have been met, the contact person listed on the form for each institution must be notified within 14 business days and the common course numbering file must be updated. If the contact person is not the registrar, the Department will also notify the registrar at the institution and any other designee for whom the institution has requested notification.
4. Institutions shall:
- a. Establish procedures reviewing new courses; proposed changes to courses, course number, prefix, or credits; and proposed deletion of courses, and for participation in the common course numbering system-wide review process.
  - b. Respond within 10 business days to a notification received from another institution regarding proposed additions, changes or deletions to common course numbering. If a response is not received from an institution within 10 business days of submitting a request, it will be assumed that the response is affirmative.
  - c. Not include any additions or changes to undergraduate course prefixes, numbers, titles, and/or credits in class schedules or catalogs until written approval is received from the NSHE Department of Academic and Student Affairs.

## 5. System-Wide Common Course Numbering Committee and Discipline Committees

Each institution must appoint one representative to the Common Course Numbering Committee to oversee the common course numbering system. The vice chancellor for Academic Affairs is a member of, and serves as chair of, the Committee.

As required, System-Wide Discipline Committees will be established that include institutional representatives of the disciplines. The System-Wide Discipline Committees must review the course offerings within their respective disciplines system-wide periodically or at least once every 10 years to determine common versus unique courses and make the appropriate changes to ensure that students are able to readily transfer from one institution to another. In addition to any scheduled review, an institution may request a System-Wide Discipline Committee at any time.

The NSHE Department of Academic and Student Affairs shall provide staff assistance to the Common Course Numbering Committee and the System-Wide Discipline Committees.

## Section 2. Excess Credit Fee Procedures

1. As required by Board policy (Title 4, Chapter 17), a 50 percent Excess Credit Fee on the per-credit registration fee shall be charged to a student who has accrued attempted credits equal to 150 percent of the credits required for the student's program of study. The Excess Credit Fee shall be imposed on the per-credit registration fee charged:
  - a. To degree-seeking undergraduate resident and non-resident students; and

- b. At the beginning of any semester that follows an institution's determination that the Excess Credit Fee applies to a student. For example, a student whose program of study requires 120 credits (a bachelor's degree) who has accumulated 175 attempted credits prior to the Fall semester and then enrolls in six credits in the Fall semester will reach the 180 credit threshold in the Fall semester. The Excess Credit Fee must be imposed on the student starting in the following Spring semester or in any subsequent semesters.
2. For a student seeking:
  - a. A first bachelor's degree who has previously earned a certificate or associate's degree, attempted credits from those previously earned awards will be included in the Excess Credit Fee threshold calculation.
  - b. A bachelor's degree who has previously earned a bachelor's degree or a higher award, attempted credits from those previously earned awards will not be included in the Excess Credit Fee threshold calculation.
  - c. An associate's degree or a certificate who has previously earned an associate's degree, a certificate, or a higher award, attempted credits from those previously earned awards will not be included in the Excess Credit Fee threshold calculation.
3. When attempted credits are reported or transferred after the beginning of the semester, these additional credits will not be considered in determining whether a student meets the Excess Credit Fee threshold until the following semester.
4. The refund procedures governing per-credit registration fees pursuant to this Chapter apply to the refund of any Excess Credit Fees.
5. The procedures established by the institutions for notifying students who are approaching the 150 percent credit threshold shall also include procedures for notifying students who shall be charged the Excess Credit Fee prior to the start of each semester for which the Excess Credit Fee will be charged.
6. As required by Board policy, institutions shall publicize the Excess Credit Fee policy and must include the following statement in appropriate institutional materials, including course catalogs and websites:

An Excess Credit Fee shall be charged to a student who has attempted credits equal to 150 percent of the credits required for the student's program of study. The amount of this additional fee is equal to 50 percent of the per credit registration fee. Attempted credits include all graded courses on a student's transcript, including but not limited to the grades of F and W (withdrawal) and repeated courses. The fee will be charged, for example, after 90 credits have been attempted towards a 60-credit associate's degree or 180 credits towards a 120-credit bachelor's degree. Exceptions may apply on a case-by-case basis. The fee will be charged in all terms after passing the threshold number of credits until a degree is awarded to the student. Appeal procedures and other exceptions to this fee are outlined in the catalog.

B. INTERNATIONAL STUDENT FEE

The recruitment, admission and advising of international students represents a tremendous cost to the University of Nevada, Reno, and University of Nevada, Las Vegas. The logistical and administrative burdens of international students on the university are complex and expensive. Increased costs of international mailing, phone, facsimile, recruitment, specialized printing, translations and highly trained personnel forces the university to make difficult budgetary choices. These choices often leave international students short of receiving the proper levels of attention.

Because of the limited resources of the Admissions and International Student Office, the need for funding aimed directly at the international students is essential. These funds will be directly used to support programs pertaining to international students. Additionally, it is not proper to use funds dedicated to benefit university student as a whole, to support activities that benefit only international students.

International students will pay a semester International Student Fee. The revenue from this fee will be used to sustain enrollment functions in the Admissions, Graduate, and International Student offices, supporting only international students.

<u>Distribution of Revenue</u>	<u>Amount</u>
UNR	
Admissions Office	\$12.50 per student per semester
Graduate School	\$12.50 per student per semester

### NOTES:

- CSN (domestic), GBC, TMCC, WNC students have available health services on a voluntary basis through a third party entity. These institutions facilitate the availability of student health services; however, students who contract for these services pay the third party entity directly.
- CSN International Students purchase mandatory health coverage through a third party entity designated by CSN. Proof of equivalent coverage will be accepted on a limited basis. No fees are paid to CSN.
- Amounts represent total charges and include insurance premium, ACA taxes and fees, broker commission and fees, and institution fees.
- Some NSHE Allied Health and Nursing programs require students provide evidence of coverage. The coverages indicated above may be used to satisfy this programmatic requirement.

### H. LATE FEES

- a. Late Registration Fee: A late registration fee of up to \$50 per course may be assessed to students who don't meet the course registration deadline. Late registration fee exceptions may be granted by the institution when registration was delayed due to circumstances beyond the student's control.
- b. Late Payment Fee: A late payment fee of up to \$25 may be assessed for payments received after the payment deadline. An additional fee of up to \$25 may be assessed daily after the payment deadline up to \$250 for past due balances greater than \$100.

## Section 11. Special Course Fees

It is the policy of the Board of Regents that the registration fee be the only fee assessed for taking a course except as outlined in this section. The reasons for these exceptions are extraordinary instruction costs due to: (a) individual instruction (e.g., private music lessons), (b) class supplies, course-specific software, and specialized equipment (e.g., welding equipment and materials), (c) third party charges for use of a facility (e.g., golf), (d) special transportation requirements, or (e) extraordinary instructional costs (e.g., intensive supervision, support or additional technical expertise required for the delivery of the course), (f) some combination of these reasons. Responsibility for implementing this policy is delegated to the presidents up to a maximum of \$50.00 per course. Courses requiring fees higher than \$50.00 require Board of Regents approval and are as follows (institutions may charge up to the amount approved):

**REGENT GUIDELINES**

**Section 1. Regent Request for Information**

There has always been a clear understanding that a Regent, as a member of the governing board of NSHE, is entitled to see any records of both system administration and the various colleges and universities. Likewise, when requests for information are made, it is expected staff will gather the data in as timely a fashion as possible. A Regent's right to any information about any part of NSHE is a principle that is supported and honored.

Guidelines for Information Requests:

1. Responses to requests for information by a Regent will be viewed as a high priority and responded to completely and professionally.
2. Responses to requests for specific information or data made by one Regent will be sent to all Regents, with a copy to the president of the institution referenced and the chancellor. This will ensure that all information that one Regent has that might be the basis of a decision will be seen by all Regents.
3. Requests for information should be presented to the chancellor or vice chancellors. Institutional requests must be made to the President of the institution with a copy to the chancellor. Request should not be made of vice-presidents, institutional staff members or faculty.
4. Request for written information on specific students or related to specific personnel will be provided at the system office or campus site only. Such information with personal identification will not be released to a Regent to be removed from the NSHE site.
5. Requests for investigations by System or institutional staff should be directed to the Board Chair and the chancellor who will make a joint decision on the necessity and appropriateness of the investigation. Audit requests should be directed to the Audit Committee Chair and the Audit Committee who will determine the necessity and appropriateness of the audit. The chancellor and the Board Chair must be notified.
6. Since staff have many demands on their time, a reasonable response time to any request should be understood. Unless an emergency is clear, no Regent should expect an instantaneous response, but every effort will be made to respond as quickly as possible. If there is a conflict concerning the response time requested, the Board Chair and the chancellor will make a joint decision on the appropriateness.

1. Risk Management is a part of System Administration with responsibility to provide sound risk management programs and services to the NSHE.

2. Objective and Scope. While the primary responsibility for risk management functions is maintained at the institutional level, the System through the Vice Chancellor of Finance and Administration is responsible to ensure adherence by the institutions to national standards for risk management programs. The goals of risk management are to: 1) protect the health and provide for the safety of the NSHE students and employees, 2) protect the public from injury or damage incidental to the operations of the NSHE, 3) protect the NSHE's assets and its environment, and 4) protect the reputation of the NSHE. This risk assessment shall include an assessment of the importance to the NSHE of the objectives of the program or action creating the risk, as well as whether risks are minimized through contract, private insurance or coverage from the State of Nevada Tort Claims Fund.
  - c. Risks shall be insured whenever the potential loss would pose a significant financial risk to NSHE and insurance is available at a cost that compared to the risk is financially sound, or where insurance is required by law or contract.

- d. Programs, contracts and services shall be implemented based on the best interests of the NSHE as a whole, after giving appropriate consideration to the interests of all institutions and departments that will be affected.
  - e. Funding for self-insured retentions, deductibles and self-insured exposures between different types of exposures may be pooled when it is in the financial interest of NSHE to do so. Deductibles and self insured retentions shall be fully funded.

  - b. Effective FY 12, projected annual program revenues from the Enterprise Fund and institution expenditures associated with those funds will be submitted to the chancellor's Office as part of the annual fiscal-year self-supporting budget process, regardless of the level of projected activity. ## **Section 4. Police Officer Wellness Program**

1. The provisions of this section are applicable to a member of the police department of the Nevada System of Higher Education.
2. NSHE's Police Officer Wellness Program is governed by NRS 617.455 and 617.457 and *Nevada Administrative Code* Chapter 617. These laws and regulations entitle police officers, correctional officers, firemen and other positions identified under NRS 617.135, who develop heart or lung disease after 5 years of continuous uninterrupted service to a conclusive presumption that the disease is work related, provided that the employee submits to required physical exams and takes documented action to correct pre-disposing conditions that lead to these diseases when ordered to do so by the examining physician. Except as otherwise provided by law, eligible NSHE employees who have claims accepted are entitled to lifetime treatment benefits and the opportunity to elect permanent total disability if they cannot continue to work as a police officer. This is a worker' compensation benefit specific to this group of employees and is completely separate from regular employee or retiree health plan benefits.
3. Program Objectives. The overall objectives of this program are to:
  - a. Ensure that the NSHE and its institutions meet the obligations of an employer, as required by NAC 617.080 and the applicable state law.

- b. Because there are certain conditions that may result in the loss of benefits, ensure that communication is made with the employee so that he or she understands the significance of any orders from examining physicians to correct pre-disposing risk factors, and the need to take actions to correct the identified risk factors in order to preserve their eligibility for benefits under the workers' compensation Police Officer Program.
  - c. Prevent claims and minimize unnecessary workers' compensation costs.
4. Responsibility. The chancellor has overall responsibility for NSHE compliance with the statutory directive. NSHE Risk Management will oversee the implementation of a wellness and loss prevention plan at each institution to minimize injuries to and contraction of disease by employees and to minimize workers' compensation costs related to claims for eligible employees. NSHE Risk Management shall delegate the following responsibilities to the institutions through the BCN/BCS Risk Management Offices:
- a. Ensure scheduling and completion of routine physical examinations, as required by the relevant statutes and regulations, including the test of the functioning of the hearing of an employee, which is required pursuant to NRS 617.454, 617.455, 617.457 and NAC 617.050, 617.070 and 617.075.
  - b. Ensure NSHE institutions or our contractors comply with the duties in NAC 617.080, and that examining physicians comply with the requirements of NAC 671.100. Physicals (including hearing exams) must meet the provisions identified in NRS 617.454, 617.455 and 617.457. Documentation on the physical reports will be maintained at the respective Risk Management Office.
  - c. Review the results of the physical exams to ensure that the contracted vendors are consistently identifying and reporting risk factors and orders to the officers to correct risk factors, and to evaluate and report on the general level of risk that officers have of developing cardiac or lung diseases (low, medium or high), based on the information in the physical exams. This review can be completed internally by a designated qualified individual or contracted to a third party vendor. Documentation of the review will be maintained at the respective Risk Management Office.
  - d. Follow up with the police officers. When physician warnings and orders to correct risk factors are identified, a letter must be forwarded from the BCN/BCS Risk Manager or designee to the police officer. The letter is in addition to and is not a substitute for the information that is required to be given to the officer pursuant to NAC 617.100; and it is not a substitute for the discussion requirement under NAC 617.080(3). The Police Chief will be notified that the letter was sent. The letter will summarize and reiterate the physician's findings indicating that the police officer has a predisposition to the contraction of a disease of the heart or lungs and that failure to take actions to correct the predisposing risk factors that are within the officer's control to correct, can jeopardize the officer's eligibility for benefits under the heart and lung program. The letter must also offer the officer the opportunity to enroll and participate in the NSHE supported cardiac wellness program identified in section (h). BCN/BCS Risk Manager will ensure the officer has complied with NAC 617.090, and will obtain a "confirmation of receipt form" from the officer within 60 days, and forward a copy to the designated police department representative.

- e. Provide education to police officers on the goals and requirements of the program, including required action necessary to maintain coverage under Chapter 617 of NRS. If the police officer can correct any predisposing physical condition of which the police officer has been warned pursuant to subsection (b), inform the officer that failure to correct the condition may exclude them from benefits under chapter 617 of NRS and Chapter 617 of NAC.
- f. Contract with one or more local medical providers/clinics for the physicals. The contracted Medical Provider/Clinic must be required to forward results of physical exams directly to the employer (BCN/BCS Risk Management office) for review. If an employee chooses to go to his or her own physician, in lieu of the contracted provider for their physical, the following must occur:
  - i. The police officer's physician must complete the required paperwork and forms, and perform the same diagnostic tests that are required of the contracted medical providers/clinic. The completed forms must then be provided by the physician to the police department designated representative, who will forward the packet to the Risk Management office. It is the responsibility of the Risk Management office to forward the physical to the contracted medical provider to determine if all components have been completed. The annual physical is not considered complete until it has been reviewed by the contracted vendor.
  - ii. The police officer will be informed that the physical exam will be considered incomplete if the officer's personal physician has not completed all of the proper tests and paperwork.
  - iii. The employing Police Department will pay for the cost of the annual physical with the contracted vendor. If the officer chooses to pay for the officer's own physical with a provider other than the contracted vendor, the cost will be the responsibility of the officer, unless specific arrangements are made and agreed upon prior to the date of the physical and is approved by the respective Risk Manager. In this circumstance, the Police Department may, but is not required to, reimburse the employee.
- g. Ensure each institution follows the guidelines established by NSHE Risk Management for the types and frequency of exams, screening tests, inoculations and for personnel who are determined to be unfit for duty by the evaluating physician.
- h. Implement a Police Officer Wellness and Loss Prevention Plan at each institution; or oversee a wellness & loss prevention plan of a contracted vendor. NSHE Risk Management will reimburse up to \$2,500 per officer per fiscal year, for out-of-pocket costs related to the wellness and loss prevention programs established through and approved by the BCN and BCS Risk Management offices.
- i. Monitor workers' compensation claims to identify adherence to an officer's responsibility to correct pre-disposing risk factors and their impact on claim acceptance or denial and to monitor consistency and quality of medical services provided to officers with accepted claims.
- j. Maintain and ensure the confidentiality of all physical exam results, including the test of the functioning of the hearing of an officer completed pursuant to NRS 617.454, 617.455 and 617.457 for at least 2 years after the death of the police officer.

- k. Provide to the NSHE Risk Management, no later than 90 days after the close of the fiscal year, a program report that includes the following information:
  - i. By institution, number of physicals required and number completed.
  - ii. Of the physicals completed the number that had identified risk factors.
  - iii. For each officer with an identified risk factor, the employee ID number and recommended corrective action.

**Section 1. Regents' Service Program**

Title 4, Chapter 18 of the Board of Regents' *Handbook* establishes the Regents' Service Program so that NSHE students can make a contribution to the critical needs of the community. The following procedures outline the program's structure.

1. Intent

Institutional models previously entitled Regents' Award Program shall be renamed to Regents' Service Program. Programs must include:

- a. An overall focus that will make a contribution to the State of Nevada, the surrounding community, or the institution.
- b. Literacy programs that meet the needs of students in K-12 shall receive first priority. Recipients may be placed as off-campus tutors or coordinators for these programs.
- c. All awards must have an on- or off-campus service/work obligation that provides the student clear responsibility and an opportunity to develop a record of accomplishment.
- d. Institutions shall have the flexibility to design work, stipend, scholarship or graduate assistantship programs that meet the needs of their students.
- e. Positions may not be used to supplant personnel needs on campus, or used in the same general way as work-study positions.
- f. Positions may not provide class instruction.
- g. If graduate assistantships are funded, the function of these positions must be different from other state-funded graduate assistants, and recipients of this program may not be employed as teaching assistants.
- h. Non-resident graduate assistants under this program shall not be charged tuition in accordance with NSHE Board of Regents' *Handbook* Title 4, Chapter 15, Section 3, Number 3.

2. Eligibility

Awards must be made pursuant to the Board-established guidelines for student access (Title 4, Chapter 18) providing that at least 80 percent of funds shall be used for need-based programs. The remaining funds will go toward access-oriented programs. For the purposes of this program, federal government methodology criteria for determining need shall be replaced with the following:

- a. Enrolled in a degree or certificate program, in at least six credits of academic work at the institution for which they will participate in the Regents' Service Program.

- b. Meet at least one of the following criteria:
  - i. Head of Household;
  - ii. Single Parent;
  - iii. Age 22 or over and have never attended college or have had a break in enrollment of two or more years;
  - iv. No support from parents or family;
  - v. Unusual family or financial circumstances; or
  - vi. First generation college-bound.
- c. Students who meet multiple criteria shall be given priority in the program.
- d. Priority shall be given to eligible Nevada residents.
- e. International students may be employed under this program provided they meet other institutional and federal employment requirements.
- f. If and when an institution meets all demonstrated eligibility based on these criteria for its student population and for those students who apply for the Regents' Service Program, this ratio may be relaxed. Remaining funds from the 80percent category may be applied to "access-oriented" student financial assistance.
- g. For the remaining access-oriented programs (no more than 20 percent), students must demonstrate an ability and willingness to work in a service program approved by the institution.
- h. Each institution must establish a minimum grade point average (GPA) or good standing requirement to be applied to all students participating in the program. This requirement cannot be less stringent than current practice for other student employment programs, although it may be more restrictive if the institution deems it appropriate.

### 3. Program Development

Each institution must develop a plan for use of the positions.

- a. At least one individual must have oversight over the program.
- b. Summer programs are allowed in which students may work as much as full-time without being enrolled; however, this is limited to continuing students who were enrolled at the institution in six credits either the prior spring or are enrolled in six credits the following fall.
- c. Positions must:
  - i. Be consistent with the student's career objective, service objective, or academic area of interest.
  - ii. Make a contribution to the state of Nevada, the community, and/or the institution.
  - iii. Be designated as on- or off-campus. Off-campus employers must sign a participation agreement or contract, as determined by the institution.
  - iv. Reflect a high level of skill or knowledge needed for service programs. Examples include: tutor, mentor, literacy programs assistant, public policy research assistant, graduate intern, peer advisor.

#### 4. Payment

Institutions are appropriated Regents' Service Program funds as a line item in the state budget.

- a. 100 percent of the funding for each position will be from state funds including benefits (workers' compensation, alternative retirement, etc).
- b. At no time may the institution require an employer match, even for off-campus positions.
- c. These positions should not supplant work-study funds that do require a match.
- d. Fringe benefits for student employment positions in literacy programs may be paid from these funds.
- e. Work schedules and rate of pay will be determined by the nature of the service required, and may be established as a separate category in the institution's student employment wage classification document.
- f. Funds may be used for tuition assistance.
- g. The institution may choose to pay resident fees for assistantships from these funds if it is deemed appropriate.

#### 5. Administrative Costs

Each institution may allocate a portion of the funds from the Regents' Service Program to fund personnel, associated fringe, travel, and operating expenses incurred in the administration of the program.

- a. Institutions may allocate up to 9percent of the total budgeted funds for administrative costs.
- b. The administrative cost allowance must be used to administer the Regents' Service Program and may not be allocated elsewhere in the institution.

#### 6. Reporting

A report will be submitted no less than annually by each institution to the NSHE System Administration Office. Reports will be collected as part of the annual financial aid report, as well as an individual Regents' Service Program report.

On an annual basis, the Board of Regents' Academic and Student Affairs Committee (ASA) will review these reports and may provide recommendations if deemed appropriate.

## **Section 2. Silver State Opportunity Grant Program**

Title 4, Chapter 18 of the Board of Regents' *Handbook* and Chapter 396 of NRS establish the Silver State Opportunity Grant Program (SSOG Program) for the purpose of awarding need-based grants to eligible low-income students who are college-ready in order to pay for a portion of the cost of education at a community college or state college within the Nevada System of Higher Education. To ensure a consistent methodology for the distribution of funds to students of need, the colleges shall adhere to the following procedures:

1. Apportionment of Funds between Eligible Institutions. State funding for the SSOG program will be allocated to each community college and state college annually, and shall be based on the proportion of undergraduate FTE during the prior Fall term. Institutional allocations shall be approved by the Chancellor.
2. Student Eligibility Requirements. Initial eligibility requirements are outlined in Title 4, Chapter 18. In addition:
  - a. To qualify for an SSOG award in subsequent semesters a student must:
    - i. Complete 15 credits during the prior term in which an SSOG disbursement was received;
    - ii. Maintain at least a 2.0 cumulative institutional GPA; and
    - iii. Meet institutional financial aid satisfactory academic progress requirements.
  - b. A student placed into remedial math or English pursuant to Title 4, Chapter 16, Section 1 is not eligible for SSOG until all such remedial coursework is completed. However, co-requisite coursework where academic support is provided to students while enrolled in college gateway courses shall be considered college level courses for purposes of SSOG eligibility.
3. Guidelines for Awarding and Disbursing SSOG funds
  - a. For purposes of calculating SSOG awards, the student contribution shall be set at \$8,000 for Academic Years 2015-16 and 2016-17.
  - b. Only students who are enrolled in 15 or more credits that count toward their program of study are eligible to receive an SSOG disbursement.
  - c. Subject to the limits of funds available, institutions shall award the maximum SSOG award for which a student is eligible on a first come, first served basis as determined by the date of submission of the FAFSA. In addition, the following order of priority shall apply each time awards are processed until available funds are exhausted:
    - i. First, eligible students enrolled in 15 or more credits with an EFC between 0 and 8500; and

- ii. Second, institutions shall communicate individually with students who are enrolled in 12 credits but otherwise meet eligibility requirements to encourage them to enroll in 15 credits and qualify for SSOG.
  - d. Dollars that are in jeopardy of not being awarded and disbursed at the institution where originally allocated shall be divided proportionally between the remaining eligible institutions.
  - e. The Chancellor will request funds, on a reimbursement basis, from the State Budget Director upon review and verification of disbursements by the vice chancellor for Academic and Student Affairs.
4. Reporting Requirements. On an annual basis, the vice chancellor for Academic and Student Affairs shall request from institutions student record level data necessary to evaluate the success of the SSOG program.
5. Definitions. The following definitions apply for purposes of this Section:
- a. Award – The SSOG amount offered to a student on their Financial Aid Award letter. In order to receive the funds offered, a student must meet all eligibility requirements at time of disbursement.
  - b. Disbursement – The SSOG amount actually paid by the institution to a student account.

- Sierra Nevada College
- Truckee Meadows Community College
- University of Nevada, Las Vegas
- University of Nevada, Reno
- Roseman University of Health Sciences
- Western Nevada College

(Added 2/07; A. 10/09, 9/11)

**Section 2. Eligibility Requirements**

Eligibility requirements correspond with the year the student graduated from high school.

The GPA required is the cumulative GPA and includes all high school courses and semesters. The GPA is not rounded. If a student graduates from a Nevada high school with a standard diploma the GPA is final and cannot be modified by coursework taken subsequent to high school graduation. Only coursework calculated in the grade point average on the high school transcript is considered for initial eligibility.

College coursework attempted by students prior to initializing the Millennium Scholarship will not be counted towards the student's initial eligibility. However, grades from college coursework completed during high school will be included in the cumulative college GPA.

A dependent student can be a "resident" for scholarship purposes if the student's parent or legal guardian has been a resident of Nevada for the required two-year period. Documentation verifying the parent or guardian residency must be submitted to the State Treasurer's Office.

High schools have established a grace period at the beginning of each semester during which a student may enroll and receive credit for that semester (usually 18 school days). For purposes of establishing eligibility for Millennium Scholarship, the same grace period will apply to the residency of the parent/guardian.

If a military or diplomatic service parent's official state of residency is not Nevada, and the student meets all other eligibility requirements, they are exempt from the two-year residency requirement.

Students who graduate with a diploma from a program for adult learners are eligible for the Millennium Scholarship if they 1) were enrolled in a private or public high school in Nevada with a class regularly scheduled to graduate after May 1, 2000, and 2) received their high school diploma within four years of the regularly scheduled graduation date of their class and 3) meet all other eligibility requirements. All lifetime limits apply effective following the regularly scheduled graduation date.

For appeals of initial eligibility, see Section 11.  
(Added 2/07; A. 4/09, 9/14)

### **Section 3. Certification of Eligibility by High Schools**

The following procedures have been established in order to clarify the process for identifying new Millennium Scholars each academic year. The Key Date Calendar (Appendix A) identifies student eligibility, funds disbursement, and data reporting guidelines.

1. Nevada school districts, and private high schools send lists of students who meet eligibility criteria to the State Treasurer's Millennium Scholarship Office.
2. Non-high school graduates or otherwise qualified students who graduate from high schools out of state apply directly to the Millennium Scholarship Office on forms supplied by the Millennium Scholarship Office by mail or on the Internet. Students who graduate early are eligible for the Millennium Scholarship upon graduation and confirmation of eligibility.
3. The Millennium Scholarship Office places the students identified in (1) and (2) above who have met all eligibility criteria on a list of eligible students, stored by MSID (Millennium Student ID) # in a data system monitored by the State Treasurer's Office.
4. The Millennium Scholarship Office sends follow-up letters to all students identified in (1) or (2) above with unverified residency or questionable eligibility and requests further information. Based on the additional information provided, a decision will be made by the Millennium Scholarship Office on whether to add the student to the list of eligible students. Students will be notified if they are ineligible.

5. The Millennium Scholarship Office notifies all eligible students by sending them an "Award Packet" and requests signed acknowledgment forms, which outline the eligibility requirements and give the opportunity to grant permission for the Millennium Scholarship Office to publicize their names. The Millennium Scholarship Office also notifies students who were reviewed under (1) or (2), if they are ineligible.
6. The Millennium Scholarship Office sends electronic lists of eligible students to NSHE Administration for certification by the Board of Regents or its designee.
7. NSHE Administration shares the eligibility lists with campuses through the Student Information System, by populating the MSID screen. MSID is updated nightly via a file provided by the State Treasurer's Office.

#### PROCEDURES FOR NAMES SUBMITTED IN ERROR

The general policy is that the award is to be rescinded. When student names are submitted in error the following steps are taken by the Director of the Millennium Scholarship Program.

1. The superintendent of the appropriate school district is contacted. School district personnel will notify the student of the error in writing.
2. A model letter and supporting Board of Regents policy and procedures language is provided to the school district personnel.
3. Assistance is offered to the school district personnel in the preparation of the letter to the student.
4. After receiving a copy of the district's letter the Millennium Scholarship Program sends a certified letter to the student as follow-up.
5. The student is noted as ineligible in INSTEP.
6. If funds have been expended:
  - a. Confirm that the student signed or submitted online the Acknowledgment of Award form (Forms Appendix). (Establishes that the student was aware of the following: "I understand and have met all eligibility requirements. I understand that if I have not met all requirements and funds have been disbursed, I may be responsible for repayment of these funds to the State Treasurer's Office.")
  - b. Prepare a certified letter requesting repayment of funds.
7. A "memo of record" is prepared for the State Treasurer's office files containing the following information:
  - a. Name of district/superintendent.
  - b. Name of high school.
  - c. Student's name/address.
  - d. Dates/log of contact with district personnel.
  - e. Copies of district/Millennium Scholarship Program letters.

(Added 2/07)

## **Section 4. Enrollment Requirements for Receipt of a Scholarship**

Colleges should ensure that Millennium scholars declare an eligible program of study, leading to a certificate, associate or bachelor's degree, upon admission to the institution. Millennium scholar recipients must be enrolled in a degree-seeking program. FOCUS report MILLMAJR should be run weekly to catch any Millennium recipients who are not enrolled in an eligible program of study. If a student fails to enroll in an eligible program of study by the end of the term for which they are seeking funding, they may not receive funding for that term. In the case of a student who is co-enrolled, the student must be enrolled in a degree-seeking program at the home institution. A co-enrolled student is not required to be enrolled in a degree-seeking program at the host institution.

Students may continue to utilize their Millennium Scholarship after graduation with a certificate, associate's or bachelor's degree, provided they re-enroll in a new eligible program of study as a degree-seeking student and have not exceeded their scholarship balance or years of eligibility. The Millennium Scholarship may not be awarded to students enrolled in graduate degree programs (see below for definition regarding graduate credits, not to be confused with graduate programs).

Eligible programs of study include all those leading towards a recognized bachelor's or associate's degree, or a certificate program.

Credit hours associated with remedial/developmental courses can be applied toward semester credit hour eligibility requirements (i.e. six credits at the community colleges and 12 credits at universities or state college).

Repeat/retake courses are eligible for Millennium Scholarship funds and will be included in the institutions' enrollment reports. All campuses will ensure that repeat/retake courses are included in the end-of-term credit reporting.

National Student Exchange and Studies Abroad participants may receive Millennium Scholarship funds if their credits are registered at an eligible institution as defined in Section 1. The students must register for credits, pay and be counted as an FTE at the institution.

Correspondence courses, Credit-by-Exam and audited courses are excluded from Millennium Scholarship payment.

Undergraduate students enrolled in graduate level courses are approved for payment only if the course is required for the student's program of study as published in the institution's catalog (in other words, not as approved by an advisor for course substitution). Institutions must maintain documentation (it is suggested to use the NOTE screen) of payment for graduate credits.

### Non-term Academic Calendars

In some instances, institutions use non-term academic calendars to accommodate specialized training programs, such as police academies and accelerated vocational training.

The Federal Student Aid Handbook identifies non-term program as:

- programs that measure progress in clock hours;
- courses that do not begin and end within a set period of time;
- courses that overlap terms;
- self-paced and independent study courses that overlap terms; or
- sequential courses that do not begin and end within a term.

For the purposes of funding millennium scholars enrolled in non-term programs it is acceptable to fund students in multiple payment periods as long as federal financial aid guidelines are followed with respect to meeting the definition of a non-term program and assessing successful completion (see 3-10 FSA Handbook Vol. 3 – Calculating Awards and Packaging, 2005-06).  
(Added 2/07; A. 4/09, 10/09)

## **Section 5. Lifetime Limits**

The maximum total Millennium Scholarship award is \$10,000. The remaining balance is updated on the MSID screen in SIS, at the end of fall and spring. Summer disbursements are recorded on MSID from October through December.

Students may receive the Millennium during the eight or six (defined by their graduation year) academic years following their high school graduation date. If a student does not use his/her Millennium Scholarship immediately after high school, he/she will remain eligible as long as he/she meets continuation requirements and activates his/her scholarship during the eight or six year limit. The expiration date occurs immediately after the Spring term in the eighth or sixth year, with the exception of the class of 2000.

An exception to the limitations of section 5 is made for time served on active duty as a member of the United States Armed Forces, or for participation in a charitable, religious or public service assignment or mission. Eligible students must complete the Application for Extension (Forms Appendix) and return it to the NSHE Administration Northern Office – Academic and Student Affairs. Extensions not to exceed six years will extend to May 31 of the extension year.  
(Added 2/07; A. 4/09, 10/09, 9/13)

## **Section 6. Students with Disabilities**

Students who have a documented temporary or permanent physical or mental disability or who were previously subject to an individualized education program under the Individuals with Disabilities Education Act, 20 U.S.C. §§ 1400 et seq., or a plan under Title V of the Rehabilitation Act of 1973, 29 U.S.C. §§ 791 et seq. are to be determined by the institution to be exempt from the following Millennium Scholarship eligibility criteria:

- a) Six year application limitation following high school graduation set forth in Section 5;
- b) Minimum semester credit hour enrollment levels set forth in Sections 4 and 12; and
- c) Time limits for expending funds set forth in Section 5.

To receive funding under a reduced credit load, students must submit to the institution's disability services office the Millennium Students with Documented Disabilities form (Forms Appendix) by the end of the term for which they are seeking funding. The completed form will be faxed by the Financial Aid Office to the Treasurer's Office.

Students may regain eligibility under a reduced credit load, noted on the Millennium Students with Documented Disabilities form each semester (Forms Appendix), to be faxed to the Treasurer's Office. The completed form may be submitted anytime before the end of the semester for which funding is requested. Should the student begin the term under regular funding criteria and then submit the form after receiving a Millennium Scholarship, funding may be reduced and the student's full refund (if approved by the institution) will be returned to the Treasurer's Office. If it is determined that circumstances leading to changes in a student's documented disability require that they reduce their credit load after the Documented Disabilities form is submitted for the current term, the student may request a revision to be done on a case-by-case basis.

(Added 2/07; A. 3/07, 8/07, 4/09)

## **Section 7. Summer School**

Millennium Scholarship recipients may enroll in and receive the scholarship for summer term as long as they meet all continuation requirements.

To receive funding for summer, students must have either received the Millennium Scholarship at an eligible institution the spring prior, or are already enrolled in the minimum number of credits required for the institution for the following fall term. Students may be funded from .5-12 credits (this exception to the minimum number of credits applies to summer enrollment only).

Students must pre-pay for summer courses and then are reimbursed the same per credit amount as for fall and spring terms (up to 12 credits systemwide), for courses passed with a grade of "D minus" or better, regardless of term or overall GPA. There are no minimum enrollment requirements for Summer funding. Further, students cannot lose eligibility based upon summer term work. Students are reimbursed beginning August 1 but no later than October 1.

Institutions must use MSDS to determine whether the student has already received a Millennium Scholarship disbursement for the current term at another institution.

The summer funding request occurs at the same time as the fall request, and summer student information is sent to the Millennium Scholarship Office from October 1 through December 31.

For summer reimbursements institutions need to request the exact number of credits enrolled by students and amount of funding, and should not request any amount other than that identified by FOCUS Report MILLFUND. This is the report that should be used to identify and package (manually) summer Millennium Scholars.

(Added 2/07; A. 4/09)

## **Section 8. Enrollment at Multiple Institutions**

Millennium Scholars may be funded to a maximum of 12 credits per semester across all eligible institutions. Millennium students must enroll in and complete at least six credits at a community college or 12 credits at a university, state college, Sierra Nevada College, or the Roseman University of Health Sciences to maintain scholarship eligibility, in addition to applicable GPA requirements.

Millennium recipients who co-enroll between two institutions must enroll in 12 credits per semester. Co-enrollment may take place between only two eligible institutions. Credits taken at another eligible institution must meet degree requirements at the student's home institution. This does not preclude a Millennium Scholar from enrollment in more than 12 credits, however only 12 credits are considered for eligibility purposes and funding.

"Home institution" means the institution at which the student is enrolled in a program of study leading to a recognized degree or certificate.

An exception to the procedure above may occur when Millennium recipients are co-enrolled between two community colleges and they meet the minimum six credit minimum requirement at each institution. In this case, a student may be funded for six credits at each institution, up to a maximum of 12 credits per term.

Institutions will receive report ASISMLL2P (Mill Students Co-Enrolled in Spring 2006 or Later With > 12 Credits) in their print queue daily, to identify students who are co-enrolled at NSHE institutions, and also those who were funded for 12 or more credits. These reports should be processed immediately to reconcile students who are attending more than one institution. Institutions may also wish to develop FOCUS reports based on the Millennium Disbursement (MSDS) screen in SIS.

If the student who is not previously approved for co-enrollment is enrolled in 12 credits at a state college or university and also at a community college, the community college must retract the student's Millennium Scholarship. If the student is enrolled at two community colleges, the colleges must work together to cooperatively fund the student, for 6 credits per institution. The student may not be funded more than six, or less than six credits per institution.

The student must enroll at a host institution for the coursework specified by the student's co-enrollment form and transfer the credits back to the home institution.

Remedial coursework that is part of the aforementioned regular course of study may also constitute a co-enrollment situation for the purpose of determining eligibility by considering the total enrollment of the student at the two schools with the approval of the home institution. However, Millennium Scholarship funds may not be used for payment of remedial courses. Regular coursework only may be considered for payment of the scholarship.

Like the financial aid consortium agreement, the student must be in good standing and maintain satisfactory academic progress at the home institution while enrolled for coursework at the host institution.

Unlike the financial aid consortium agreement, co-enrollment is an agreement for an individual student. There is no blanket agreement between schools. The centralized database of the Millennium Scholarship Program monitors payments by individual students. Each student who meets the co-enrollment criteria submits the required form to the home institution by the end of the term for which the student is requesting funding. That institution verifies the student's enrollment at its school and also enrollment at the host institution. If the student meets the requirements, the home institution pays only for the credits in which the student is enrolled for at its campus. Millennium students must be enrolled in a degree-seeking program at the home institution, however they do not need to be enrolled in a degree-seeking program at the host institution. The form is faxed to the host institution for payment for the credits the student is enrolled at that campus. Both approvals are sent to the Millennium Scholarship Office to monitor the total enrollment and completion of credits and GPA earned by the student at the two schools. It is a completely manual process that falls outside the automated procedure for Millennium Scholarship eligibility, disbursement, and reconciliation.

The co-enrollment agreement may not be used to allow students to regain eligibility, only for funding.

(Added 2/07; A. 12/07, 4/09, 10/09, 9/11)

## **Section 9. Amount of the Scholarship**

Total semester disbursements may not exceed the cost of 12 credits per semester across the NSHE and other eligible institutions, based on dollar-per-credit rates set by the State of Nevada for the Millennium Scholarship.

Effective Fall 2005, Millennium funds cannot be used to pay for remedial/developmental courses defined as any course with a course number less than 100. However, remedial course enrollment may be used towards the six or twelve credit enrollment requirements. Millennium-eligible units are displayed on the SENR screen in SIS. A field on CLFG identifies a course as remedial. Institutions should not assign a course number less than 100 for a non-remedial course.

Students are required to pay for any costs above the amount of the scholarship received. It is the responsibility of the student to notify the institution if the student chooses not to use the Millennium Scholarship for a given term. This must be done each term, and prior to the end of the 100percent refund period. Students may not "refuse" their Millennium Scholarship after the end of the 100percent refund period. Institutions must document that the student has refused their Millennium Scholarship (it is suggested to use the NOTE screen).

### **NSHE/SIS Packaging**

Initial Packaging: Approximately June 15, after the Treasurer's Office has confirmed eligibility data for continuing students, institutions may begin packaging for the next award year.

Initial funding will be paid to the student each Fall and Spring semester before the start of the semester. All institutions may pay students for credits in which they are enrolled and are eligible for funding, before the start of the semester, up to 12 credits per term, across all eligible institutions. As needed, additional funding will be paid to the student based upon SIS FOCUS data reported the day after the last day of the add/drop period, up to 12 credits per term, across all eligible institutions.

Institutions must use MSDS to determine whether the student has already received a Millennium Scholarship disbursement for the current term at another institution.

A student is eligible for Millennium during the 50percent, 75percent or 90percent refund period, with the award being reduced according to the refund percentage.

The packaging process is as follows:

1. Package students who do not have FAAP screens. Change parms in Job Submittal (J\*FE) for UCMMILLR (report mode) and UCMMILLB (update mode). Run UCMMILLR first, to analyze results and adjust parms accordingly. Run UCMMILLB, which will create initial awards for students. This batch job should be run at least weekly. Process error reports that are generated immediately.
2. Package students who DO have FAAP screens. Change parms in Job Submittal for UCMMIL2R (report mode) and UCMMIL2B (update mode). Change the same parms as in step 1, but also add your institutions DCMT code for a received FAFSA. Again, run report batch job first, analyze, and run update job. Run at least weekly and process error reports immediately.
3. Run FOCUS report MILLFAAP to pick up any students who did not package in steps 1 or 2. Run at least weekly. Manually package these students.
4. Run FOCUS report MILLFAAP, but change the eligibility flag to "N", to check for students who are packaged but are not eligible.

There are students for whom their MSID data (DOB and SSN) do not agree with SIS data, or match another student's information. These students' SSN is changed to zeros on MSID. Institutions must run the FOCUS report MILZSSN (for SSN issues) and MILDOB (for date of birth issues) at least once per month, to clean up data. (See also instructions for ASISMILLP below).

UCMMSDNX is a report that is usually run nightly and may be delivered to either Admissions and Records or the Financial Aid Office. This report indicates students who have conflicting information (date of birth and/or social security number do not match between MSID and NAME). It should be worked on a daily basis. This report is also stored in XNET for two years. In cases where a discrepancy exists between the date of birth on MSID and SIS, the student's application for admission shall be the official record.

### NSHE/SIS Disbursements

Institutions may choose to disburse Millennium funds to student accounts earlier than Title IV funds, if the institution is willing to "float" the disbursements. Residual checks to students should not be sent out, however, until other financial aid funds have been applied to students' accounts.

1. If you elect to disburse early, create a Millennium disbursement job in Job Submittal for batch job SFADISBB. Run at least weekly. The error report prints to XNET. Institutions should analyze the report to determine why students did not disburse and resolve errors immediately.
2. If you elect to disburse with other financial aid, add your Millennium fund code to batch job SFADISBB in Job Submittal.
3. Run FOCUS report DISBMILL to pick up any students that did not disburse automatically in steps 1 or 2. Manually disburse these students. Do NOT use DSBO to disburse, as it is based on actual units and not Mill units. Use AJST to disburse Millennium funds, taking care to notice the Mill units on the FOCUS report. Make sure that staff have adequate training on AJST to ensure that SIS “leafing” problem (student is not always carried over to AJST) is noted. To disburse using AJST:
  - a. Check SENR Mill units.
  - b. Check SDSB to ensure student has not been disbursed.
  - c. Check SASH for correct amount to disburse.
  - d. Go to AJST. Ensure that the student you are working on appears on the screen. Sometimes, if another staff member is also disbursing funds, your student will not appear on AJST. If this happens, go back to SASH, pull up your student, and then go back to AJST.
  - e. Disburse funds on AJST as usual.

Note: Institutions are not required to disburse funds to students if they have not yet received their Millennium, and they would be ineligible at time of payment (i.e. originally in the correct enrollment and dropped classes below that level).

Institutions will receive the ASISMILLP report in their print queue weekly, on Friday morning. This consists of two reports: 1) Mill Amounts With Total on SDSB For All Terms or Total Bal > 10000 and 2) SDSB Records for (institution name) Without Matching SSN on MSID. These reports are used, to identify students who have been disbursed Millennium funds without a corresponding MSID, and Millennium scholars who have received disbursements in excess of \$10,000. Process reports no later than the following Thursday. To process:

1. No MSID – look for the student by last name (MSLX) and/or SSN (MSIX). If you find a match, work with the Admissions and Records staff to add the person ID to MSID. (Institutions may establish their own policy as to verification of SSN/DOB.) This person should drop off the report the following week. If you do not find a match, you have disbursed Millennium in error and should withdraw the funds.
2. Payments in excess of \$10,000 – check SDSB to see if you have an irregular disbursement (disbursement type of “s”, etc.). Correct if necessary. If disbursements appear accurate, contact the Treasurer’s Office to research disbursements. If you have over-disbursed the student past the student’s eligibility, withdraw the funds. If you believe that the student has been disbursed at multiple institutions, work with the other institution to resolve. The MSDS screen can be used to assist in resolving these issues.

Disbursements should not be made on weekends. The batch job runs Monday through Friday only, therefore disbursements that are made on Saturday, Sunday or holidays will not be selected for transmission to the Treasurer's Office. If institutions choose to disburse on a weekend or holiday, adjustments to the parms for UCMMSDNX must be made. Change the "from" date (LMOD FROM DATE TO SELECT) for UCMMSNX to include the weekend/holiday date, then change back to \$CYMD the next day.

## **Section 10. Cost of Attendance**

Students receive a predetermined amount of money per credit per semester based on the type of eligible institution they attend. Funds that exceed the cost of fees may be used for registration fees, class fees, laboratory fees and expenses; required textbooks and course materials; and other costs related to attendance. Costs of attendance shall be defined by the institution and shall include, but not be limited to all costs defined under federal financial aid guidelines.

In no case may the total of all financial aid and scholarships exceed the cost of attendance at the eligible institution the student attends.

The scholarship is first applied to the student's account at the attending institution. Any amount left after fees have been paid can be used for other costs related to the student's attendance, such as books, room and board, etc. in accordance with NRS 396.934 (6).

At the time of filing income tax forms, students are encouraged to consult with a qualified tax advisor.  
(Added 2/07)

## **Section 11. Appeals of Initial Eligibility**

See section 2 for eligibility requirements.

### Appeal Procedures

If a student is not on the eligibility list provided by the Millennium Scholarship Office to NSHE and wants to appeal the decision that the student is ineligible, the student shall complete an Initial Eligibility Appeal Form (Forms Appendix) and return it to the NSHE Administration Northern Office – Academic and Student Affairs. The NSHE Administration staff will track and review appeals.

- For problems related to GPA, Proficiency Examination Scores, or ACT/SAT scores, documentation must be submitted to the NSHE Administration – Academic and Student Affairs by the official agency providing the scores.
  - GPA - high school/school district
  - Proficiency Examination Scores - high school or State Department of Education, as appropriate

- ACT/SAT (for non-high school graduates) - the testing agency
- For problems concerning residency or other criteria resulting in ineligibility, the student and parents/guardians provide evidence of eligibility.
- If a determination can be made for eligibility based on clear and convincing facts, NSHE Administration notifies the student and the Millennium Scholarship Office that he/she will be recommended for approval to the Board of Regents or its designee.
- If a positive determination cannot be made based on the facts of the case, NSHE Administration forwards the appeal packet to the Appeals Committee for review and decision (see next page, Appeals Committee Hearing Procedures) and notifies the student of the date and time of the appeal hearing.
- NSHE Administration notifies the student and the Millennium Scholarship Office of the Appeals Committee decision.
- If the student becomes eligible, the Millennium Scholarship Office adds the student to the list of Millennium Scholarship recipients.

#### Hearing Procedures

1. Notice of Appeal. The student, parent or legal guardian must submit the Initial Eligibility Appeal Form (Forms Appendix) to the Nevada System of Higher Education (NSHE). The NSHE will review the appeal and place the student on the list of eligible students if, based upon all the information provided, the student meets all eligibility criteria. If the student does not meet all eligibility criteria, the NSHE shall give notice of the appeal hearing as provided in paragraphs 2 and 3 below.
2. Time of Hearing. The appeal shall be placed on the meeting agenda of the Millennium Scholarship Appeals Committee, as soon as legally possible, in accordance with the requirements of the Nevada Open Meeting Law, after receipt of the appeal. In accordance with the Nevada Open Meeting Law, NRS 241.033, the student must receive notice of the hearing by certified mail 21 working days before the meeting or by personal delivery five working days before the meeting. In order to expedite the hearing process, the student and parent or legal guardian shall be requested to sign and return a waiver of the 21 working day notice requirement. The waiver will be included on the Appeal Form for Initial Eligibility. If the waiver is not signed and returned, the hearing must not take place until 21 working days after the student has been sent notice of the hearing by certified mail.
3. Notice of Hearing. The student and parent or legal guardian shall be notified by certified mail of the following:
  - a. The date, time and place of the hearing, if the waiver is signed. If the waiver is not signed, the subsequent date, time and place of the hearing.
  - b. The appearance of the student, parent or legal guardian at the hearing is not compulsory and a nonappearance will not prejudice the appeal.

- c. If the student, parent or legal guardian appears at the hearing, any presentation before the Committee is limited to the factual claim of error listed on the Initial Eligibility Appeal Form. The hearing is informal and shall be limited to the time allowed on the Committee's agenda.
  - d. Documentary evidence in support of the appeal may be submitted at the hearing, or if submitted by mail, must be received before the date set for the hearing.
  - e. In accordance with the Nevada Open Meeting Law, NRS 241.030 and 241.033, the appeal will be heard by the Committee in closed session. The appeal is heard in closed session in order to protect the privacy of the student.
4. Decision is Final. The decision of the Millennium Scholarship Appeals Committee is final, and is not subject to appeal.  
(Added 2/07)

## **Section 12. Maintaining Scholarship Eligibility**

Students must maintain minimum eligibility and continuation requirements, based upon their high school graduation year. See Section 14 for regaining eligibility.

Students enrolling in a mixture of remedial and non-remedial courses must satisfactorily complete credit hour and GPA requirements on all of their semester enrollments (including remedial credit hours).

Beginning January 1, 2006, all students with initial Millennium Scholarship eligibility occurring after May 1, 2003 must maintain a 2.60 semester grade point average for each semester during their first year of enrollment (first year is defined as less than 30 credit hours earned, counting coursework at all eligible institutions); and maintain a 2.75 semester grade point average for each semester thereafter.

GPA eligibility criteria for students with initial Millennium Scholarship eligibility occurring before May 1, 2003 have not changed. These students are still required to maintain a cumulative 2.00 GPA.

Approximately two to three weeks after the end of each term, the batch job UCMMSDNX is updated by each institution to begin sending data for that term. The job continues to run each night, Monday through Friday (excluding holidays), and picks up any data that has been changed for a student. After the new term has been updated, if institutions make any disbursements on the previous term, they must also complete an Authorization to Correct Student Record (Forms Appendix) and fax it to the Treasurer's Office. The Treasurer's Office staff will send an e-mail to the institution confirming the correction.

Institutions may continue to make adjustments via this form until the end of the annual reconciliation for that term, after which no further adjustments may be made until such a time as a "one-time" clean up is approved by the State Treasurer and the NSHE Chancellor or their designees.

(Added 2/07)

## Section 13. Core Curriculum

The Board recognizes the importance of a rigorous high school curriculum in adequately preparing students to succeed in college-level courses. Therefore, a student who graduates from a Nevada high school in Spring 2009 and thereafter must successfully complete the following curriculum in high school to be eligible for the Millennium Scholarship:

High School Course	Units
English	4
Math (including Algebra II*)	4
Natural Science	3
Social Science and History	3
<b>TOTAL</b>	<b>14</b>

\*Algebra II completed in middle or junior high school fulfills this requirement, but 4 units of math must be denoted on the high school transcript to meet the 4 unit requirement.  
(Added 2/07; A. 9/12, 3/13)

## Section 14. Regaining Scholarship Eligibility

If a Millennium Scholarship recipient fails to maintain the conditions of continuing eligibility as required in Section 12 eligibility may be regained under the following conditions:

Eligibility will be reinstated if the student subsequently enrolls without Millennium Scholarship support at an eligible institution for the credit hours and grade point average required in Section 12 for the semester enrolled. The student must thereafter maintain the grade point average required in Section 12.

Beginning in Fall 2005, all entering and continuing students who lose eligibility more than once (from Fall 2005 forward) will no longer be eligible for a Millennium Scholarship.

Effective Fall 2006, if a student (1) informs either the institution or the Treasurer's Office that the student is enrolled in pass/no-pass course(s); and 2) has subsequently become ineligible due to GPA and 3) the coursework completed by the student for a semester in which the student has received funding included pass/no-pass courses, then the letter grade the student would have received for the pass/no-pass course(s) may be considered for GPA calculations in order to reinstate or maintain eligibility. Institutions will be asked to contact the student's instructor(s) to obtain the student's letter grade for each completed course(s). The grade(s) will be averaged with the student's regular coursework. If the average is equivalent to the appropriate required GPA, the student will be considered eligible, assuming all other criteria are satisfied. The financial aid director must submit this information in writing via the Authorization to Correct Student Records form to the Treasurer's Office, and data will be manually entered into MiSL. Documentation will be included under "Notes" in the MiSL system.

The co-enrollment agreement may not be used to allow students to regain eligibility with the following exception:

Effective Spring 2007, if a student (1) informs either the institution or the Treasurer's Office that s/he is enrolled under a co-enrollment agreement; and 2) has subsequently become ineligible due to GPA at either the home or the host institution, the semester GPA may be re-calculated to include coursework from both institutions in order to reinstate eligibility. Institutions will be asked to calculate the combined semester GPA. If the result is equivalent to the appropriate required GPA, the student will be considered eligible, assuming all other criteria are satisfied. The financial aid director at the home institution must submit this information in writing via the Authorization to Correct Student Record form to the Treasurer's Office, and data will be manually entered into MiSL. Documentation will be included under "Notes" in the MiSL system.

In the case of irregular terms, credits for the irregular term are reported with the next sending term, as follows:

<u>Class Ends</u>	<u>Reporting Term</u>
Prior to end of fall	fall
Between end of fall and end of spring	spring
Prior to end of summer	summer
Between end of summer and end of fall	fall

(Added 2/07; A. 3/07, 12/07, 10/09)

## **Section 15. Transferring within Eligible Institutions**

A student receiving a Millennium Scholarship who transfers to another eligible institution shall continue the Millennium Scholarship provided that the student has maintained eligibility as defined in Section 12. After transferring, a student must meet all the conditions of Section 12 at the new institution in order to remain eligible for the Millennium Scholarship.

Students transferring from non-eligible institutions to an eligible institution will receive the Millennium Scholarship if they are eligible under Section 2. After transferring and activating the scholarship, students must meet all conditions of Section 12 at the eligible institution in order to remain eligible.

(Added 2/07)

## **Section 16. Refunds**

Any refund that would normally be given to a student who has withdrawn from courses for which Millennium Scholarship support has been given, shall be transferred to the Millennium Scholarship Trust Fund, administered by the State Treasurer.

If the student has not paid the student's portion of the fees and has been assessed late fees, the late fees must be removed from the student's refund calculation. In other words, the Millennium Scholarship may not be used to "pay" late fees during the refund procedure.

A student is eligible for the Millennium Scholarship during the 50 percent, 75 percent or 90 percent refund period, with the award being reduced according to the refund percentage.

## Refund Procedures

1. Initial funding will be paid to the student each Fall and Spring semester before the start of the semester. All institutions may pay students for credits in which they are enrolled and are eligible for funding, before the start of the semester, up to 12 credits per term, across all eligible institutions. As needed, additional funding will be paid to the student based upon SIS FOCUS data:
  - a. Reported for the refund period, with the award reduced according to the refund period, up to 12 credits per term, across eligible institutions. For example, during the 50percent refund period at a community college, students would be funded at \$20 per credit.
  - b. Reported the day after the last day of the add/drop period, up to 12 credits per term, across all eligible institutions.
2. If the only funding sources are the student's actual contribution and the Millennium Scholarship contribution and the student receives a refund due to dropping classes, the total amount of the resulting refund is transferred to the Millennium Scholarship trust, administered by the State Treasurer, up to the amount of the actual disbursement/contribution. A payment made by any outside source, including the student's prepaid tuition plan, dependent grant-in-aid or a sponsored-payment is treated as a regular payment by the student toward their contribution. Examples:
  - a. Student enrolls in 13 credits at a community college, and drops three credits during the 50percent refund period. If the institution chose to fund the student initially at the six credit level, the student would receive an initial disbursement of \$240 prior to the start of the term. The student would then receive the additional disbursement of \$160 (to fund them for 10 credits for the term) as well as 50percent of two of the credits (\$40) for a total term disbursement of \$440. The student does not receive 50percent of the 13<sup>th</sup> credit, due to the 12 credit funding limitation. In this case there is no refund to send to the State Treasurer.
  - b. Student enrolls in six credits at a community college, and drops all classes during the 100percent refund period. If the refund is \$400 (as an example), the \$240 Millennium disbursement is pulled back and returned to the Treasurer.
  - c. Student enrolls in six credits at a community college and drops all classes during the 50percent refund period. If the refund is \$150 (as an example), the entire refund is pulled back and \$150 is returned to the Treasurer.
  - d. Student receives a waiver of tuition and/or fees as well as the Millennium Scholarship, and drops all courses during the 100percent refund period. The refund on the student's account will not include the waived amount. The refund is retracted, up to the amount disbursed and returned to the Treasurer.
3. In the case of a student who has received a 100 percent refund after the "Annual Reconciliation" deadline, documentation is submitted to the State Treasurer's Office to restore eligibility for the student. The institution will retain the Millennium portion of the student's refund and the student will receive only the non-Millennium portion of the refund. The Millennium portion of the refund is transferred to the institution's fee distribution account. In such cases, the student's MiSL account would continue to show funds expended for the term and therefore, in keeping with the intent of the campus appeal committee, the student's account would be manually adjusted to indicate that the student is currently eligible.

4. An exception to the refund procedures above occurs when the funding sources are Pell Grant or other Title IV aid and the Millennium Scholarship contribution, and the student receives a refund due to dropping classes. As a Pell Grant recipient for the same semester, all financial aid funds are reverted to the federal government, per federal guidelines, in lieu of providing the refund to the Millennium Scholarship Trust Fund. In such cases, the student's MiSL account would continue to show the Millennium payment for that term, the student would be classified ineligible for the Millennium Scholarship, and a strike would be applied. If the federal Return to Title IV Funds calculation results in a refund to the student, the total amount of the resulting refund is transferred to the Millennium Scholarship Trust Fund, administered by the State Treasurer, up to the amount of the actual disbursement/contribution. In this case, the student's MiSL account would show the Millennium payment for that term, minus the refund, the student would be classified ineligible for the Millennium Scholarship, and a strike would be applied.
5. Further, an additional exception to the refund procedures noted above may occur in the case of a student who is also receiving a Pell Grant or other Title IV aid, and has been granted campus committee approval for an exception to the 100percent refund deadline. As a Pell Grant recipient for the same semester, all financial aid funds are reverted to the federal government, per federal guidelines, in lieu of providing the refund to the Millennium Scholarship Trust Fund. In such cases, the student's MiSL account would continue to show funds expended for the term and therefore, in keeping with the intent of the campus appeal committee, the student's account would be manually adjusted to indicate that the student is currently eligible. Institutions complete the 100percent Refund and Incomplete Grades form (Forms Appendix) and fax to the State Treasurer's Office. State Treasurer's staff must enter a reference in "NOTES".
6. Another exception to the refund procedures noted above may occur in the case of a student for whom a residual check was mailed and returned by the Post Office, or if the check is stale dated and has not been cashed. The institution must make every attempt to return the check to the student, and maintain documentation of its due diligence efforts.
  - a. If the institution is not able to contact the student and the Millennium fiscal year has not yet closed, then the check may be redeposited, and the Millennium disbursement may be pulled back for the student (up to the amount disbursed) and the dollars returned to the Treasurer.
  - b. If the Millennium fiscal year has closed, and the institution has been unsuccessful in contacting the student, then the check falls under the NSHE "Escheatment" policy and the monies may be retained by the institution. No adjustment is made to the student's Millennium disbursement.
7. Under no circumstances may a student be allowed to repay the Millennium Scholarship after the 100percent refund period in order to regain eligibility. If the student has not yet cashed the check and still has possession of the check, the student must cash the check – it may not be returned to the institution.

## Section 17. Office of the State Treasurer

### Distribution of funds:

1. According to the Key Date Calendar (Appendix A), each institution will generate FOCUS report MILLFUND on the day after the last day of the add/drop period, summarizing the total Millennium enrollment credits, and communicate this to the NSHE System Administration office. Summer school attendance is submitted at the same time as fall (see Section 7).
2. Each institution has an individual add/drop period. One business day after the last applicable individual add/drop period, NSHE System Administration will verify the funding requests against FOCUS report MILLFUND. NSHE System Administration will submit an invoice to the State Treasurer's Millennium Scholarship Program Director.

The Sierra Nevada College and Roseman University of Health Sciences Financial Aid Directors submit the "Initial Request" form to the Millennium Scholarship office according to the Key Date Calendar. The Millennium Scholarship office will confirm student eligibility and balance remaining in student account prior to funding, and will process the payment.

These estimates will be the basis for an initial advancement of funds. Late funding requests will be processed with the next funding request according to the Key Date Calendar.

3. The Millennium Scholarship program Director and staff will review and submit the invoice for approval. The payment voucher will be processed and, according to State of Nevada procedure, the funding will settle in the NSHE account within three to five days. NSHE System Administration and other eligible institutions receive the initial advance from the Treasurer. These funds cover:
  - a. Total estimated NSHE community college eligible students x number of credits (\$40 lower division );
  - b. Total estimated NSHE community college eligible students x number of credits (\$60 upper division);
  - c. Total estimated NSHE state college eligible students x number of credits (\$60); and
  - d. Total estimated eligible students at other eligible institutions x number of credits (\$80).
4. The NSHE System Administration Office transfers the funds to each NSHE institution.
5. For additional funding, according to the Key Date Calendar, System Administration and other eligible institutions will be provided with a MiSL disbursements report, which will be forwarded to the institutions for comparison with SIS disbursements. Errors/discrepancies must be reported to the State Treasurer's Office on the sixth business day, after which the NSHE invoice will be submitted.

These estimates will be the basis for an additional advancement of funds (based on the term reconciliation). Late funding requests will be processed with the next funding request according to the Key Date Calendar.

6. On January 31, following the end of the Annual Reconciliation Process, a final funding request will be made based on the MiSL disbursement report. System Administration will provide each institution with SIS disbursements.

Error/discrepancies/adjustments must be reported to the State Treasurer's office on or before the last working day of January. The Financial Aid Directors of other eligible institutions will work directly with the State Treasurer's office staff.

These estimates will be the basis for a final advancement of funds based on the annual reconciliation. Late funding requests will be processed with the next funding request according to the Key Date Calendar.

7. After the "Annual Reconciliation" has been completed on January 31, no funding adjustments will be made regardless of the circumstances. The only exception is the occurrence of a "one-time" clean up approved by the State Treasurer and NSHE Chancellor or their designees.

### NSHE Reconciliation Procedures

NSHE procedures will require all institutions to reconcile Millennium Scholarship funds every term. In addition, the NSHE System Administration will complete an annual reconciliation for the Millennium fiscal year, beginning with summer, fall, spring. Reconciliations will take place according to the Key Date Calendar (Appendix A).

#### A. Term reconciliation

It is required that each institution reconcile the Millennium Scholarship funds every term. This reconciliation is due six weeks after the end of each semester. Institutions will also receive prior term reconciliation reports for the active fiscal year, every two months throughout the year, to spot check.

- a. Payment will be made based upon data from the State Treasurer's MiSL system. MiSL data is sent to NSHE System Administration according to the "Key Date Calendar". Comparing the MiSL report to SIS disbursement data for that term, institutions will work with the State Treasurer's office to resolve discrepancies. Analysis of MiSL and SIS payments posted in the State's accounting system (BSR) shall be made on an annual basis.
- b. The State Treasurer's Office staff will approve the Term Reconciliation data. A "Request for Payment Explanation" form will be completed as needed by Treasurer's office staff.
- c. MiSL accounting reports will include:
  - i. Institution detail disbursement report lists by term: MSID, name, total disbursement, credits earned, cumulative GPA, term GPA, eligibility status and reasons.
  - ii. Institution Disbursement Summary by term, including: number of students who utilized funds, did not utilize funds, and total amount disbursed.

B. Annual reconciliation

NSHE procedures require all institutions to reconcile Millennium Scholarship funds every term. In addition, the NSHE System Administration will complete term reconciliations as listed above. Reconciliations will take place according to the Key Date Calendar (Appendix A).

- a. The State Treasurer's Office will submit the "Annual Reconciliation" form to NSHE System Administration according to the "Key Date Calendar". The reconciliation will include the summer, fall, and spring semester of the same school year (for example, summer 2004, fall 2004, spring 2005). No manual adjustments may be made after the designated deadline for the annual reconciliation with the exception of an approved "one-time" clean up.
- b. Reconciliation of MiSL and SIS with payments posted in the State's accounting system (BSR) shall be made in December. A final check will be made just prior to January 31. MiSL accounting reports will include:
  - i. Institution detail disbursement report lists by term: MSID, name, total disbursement, credits earned, cumulative GPA, term GPA, eligibility status and reasons.
  - ii. Institution Disbursement Summary by term, including: number of students who utilized funds, did not utilize funds, and total amount disbursed.

C. Submitting request for payment

Based upon a cooperative review (between NSHE System Administration and the State Treasurer's office) of the term reconciliation data and the annual reconciliation data, the NSHE System Administration will submit an invoice to the Executive Director in the State Treasurer's office via e-mail or facsimile. The State Treasurer's Office will fund the invoice within five business days via electronic funds transfer.

Joint Procedures for Handling Balance Irregularities

The financial aid director at each institution is the primary contact for balance irregularity issues. This is an on-going process to be conducted throughout the academic year. The State Treasurer's Office prepares an annual response in its "Record Check Summary Report".

1. Report #1 and Report #2:

- a. Campus designee reviews report to identify potential irregularities regarding its students.
- b. Campus designee contacts State Treasurer's office.
- c. Steps to resolve discrepancies:
  - i. Investigate attendance, number of credits, term.
  - ii. Download appropriate form from NevadaTreasurer.gov; submit to State Treasurer's staff by FAX; accuracy is confirmed with designee.
  - iii. Adjustments made in MiSL and transmitted to SIS.
- d. State Treasurer's staff reviews Report #1 at the end of each term.
- e. Information regarding individual student accounts will be entered in MiSL.

## 2. Report #3

- a. Report alerts campus designee of potential over-funding:
  - i. State Treasurer's staff will format the report into a spreadsheet noting the names of students at the beginning of the semester who are potentially over-funded.
  - ii. Spreadsheet will be updated 12 weeks of each semester by State Treasurer's staff to highlight new names.
  - iii. Campus designee is asked to indicate whether student is currently attending and name of institution – information should be added to the State Treasurer's spreadsheet so it can subsequently be provided to other campuses in next update.
- b. Campus designees consult one another and adjust funding immediately if over-award situation is confirmed.
- c. According to NRS, no student may be awarded more than \$10,000. Therefore, it will be the responsibility of each institution to ensure compliance after being notified of a potential over-funding situation by the State Treasurer's Office.
- d. The State Treasurer's Office will notify all students with a current balance of \$2,000 or less each term, in order to remind the student that if he/she attends more than one institution in his/her last term, and if over-funding inadvertently occurs, he/she will be responsible to repay any over-funding to the State Treasurer's Office. Official notification will take place in January and June of each academic year.
- e. Non-NSHE institutions – in order to assist in identifying potential over-funded cases, each initial request for payment will be reviewed by the State Treasurer's Office to identify any student with a balance of \$2,000 or less.

## 3. Report # 4

- a. Students who cannot be resolved at this time due to the following reasons will be adjusted annually at a balance irregularity meeting:
  - i. No prior MiSL record.
  - ii. Specified action required of student.

## 4. Report # 5

- a. SIS Report SDSB Record for Institutions-Funds disbursed without matching SSN or MSID.

### Informal Record Check

Millennium Scholarship Program Review – conducted by NSHE System Administration Banking & Investment staff. The State Treasurer's Office prepares an annual response in its "Record Check Summary Report".

1. The scope of the review is limited to the financial aspect of the program. It includes a review by NSHE of sets of randomly selected student records and financial documentation for a specified annual reconciliation period.

2. After the review is conducted, NSHE drafts a findings document and discusses the results with the institutions. A copy of the document is also provided to NSHE Director of Financial Aid.
3. If errors are identified, every effort is made to review them with campus personnel and to correct the error. If errors are detected that are of special concern, NSHE will plan an additional review of this area for the next cycle.
4. The final report is transmitted to the State Treasurer's Office by March 31 of each year.

## **Section 18. Institutional Certification of Enrollment**

Procedures for sending enrollment data:

1. Data is transmitted from NSHE System Computing Services to the State Treasurer's Office after each institution's UCMMSDNXB job has run. This data includes: MSID, Address, Phone, Term, Cumulative and Term GPA, Term Units, Institution, Student ID, Deceased Flag, Progress, Degree, and scholarship amount disbursed.
2. Institutions should review the extract report generated from UCMMSDNXB on at least a weekly basis. Some error messages appear only once, and if not corrected at the time they appear, will create student eligibility problems at the end of the term.
3. If additions/changes are made on a weekend/holiday to a Millennium Scholar's student record in SIS on the SGPA, MSID, APRG, PGRM, STUD or TSTA screens, adjustments to the parms for UCMMSDNX must be done. Change the "from" date (LMOD FROM DATE TO SELECT) for UCMMSDNX to include the weekend/holiday date, then change it back to \$CYMD the next day.

Exceptions to automatically transmitted data: Student data is automatically transmitted by term until data for the following term begins to be transmitted. Any data relevant to the student's record or funds disbursed after the "automated" time period will be submitted by institutions to the State Treasurer's office using the Authorization to Correct Student Record form (Forms Appendix). The Treasurer's Office staff will notify the institution that the correction has been made via e-mail. The FOCUS report MLLATADJ should be run after the "automated" time period, to identify students who have received late disbursements, to verify that the Authorization to Correct Student Record form has been completed and sent to the Treasurer's Office.

## **Section 19. Limitations**

The standards set forth in this section are subject to amendment, and are not intended to and do not create any right or interest in liberty or property or establish a basis for any cause of action against the state, its political subdivisions, agencies, boards, commissions, departments, officers or employees.

**IDENTITY THEFT PREVENTION PROGRAM  
(RED FLAG RULES)**

**Section 1. NSHE**

**I. POLICY AND PURPOSE**

This policy is intended to meet the requirements of the FTC “Red Flag Rule.” The Nevada System of Higher Education and its institutions have adopted this policy, except where separately approved institution specific policies have been approved. This policy, and any other approved institution specific policies, shall be included in the NSHE *Procedures and Guidelines Manual*. Oversight of this policy is through the chancellor’s Office and institution presidents. After the initial approval of policies by the Board of Regents in June 2009, amendments may be approved by the chancellor. Institutions may also develop additional procedures with the approval of the institution president.

Identity theft is a fraud committed or attempted using the identifying information of another person without authority. It is the policy of NSHE to undertake reasonable measures to detect, prevent, and mitigate identity theft in connection with the opening of a “covered account” or any existing “covered account,” and to establish a system for reporting a security incident.

**II. BACKGROUND**

Red Flag Rules

In 2003, the U.S. Congress enacted the Fair and Accurate Credit Transaction Act of 2003 (FACT Act) which required the Federal Trade Commission (FTC) to issue regulations requiring “creditors” to adopt policies and procedures to prevent identify theft.

In 2007, the Federal Trade Commission (FTC) issued a regulation known as the Red Flag Rule. The rule requires “financial institutions” and “creditors” holding “covered accounts” to develop and implement a written identity theft prevention program designed to identify, detect and respond to “Red Flags.” That regulation is scheduled to be enforceable on August 1, 2009.

**III. DEFINITIONS**

Covered Account – A covered account is a consumer account designed to permit multiple payments or transactions. These are accounts where payments are deferred and made by a borrower periodically over time such as a tuition or fee installment payment plan.

Creditor – A creditor is a person or entity that regularly extends, renews, or continues credit and any person or entity that regularly arranges for the extension, renewal, or continuation of credit. Examples of activities that indicate a college or university is a “creditor” are:

- Participation in the Federal Perkins Loan program;
- Participation as a school lender in the Federal Family Education Loan Program;
- Offering institutional loans to students, faculty or staff;
- Offering a plan for payment of tuition or fees throughout the semester, rather than requiring full payment at the beginning of the semester.

Identifying Information – Any name or number that may be used, alone or in conjunction with any other information, to identify a specific person, including: name, address, telephone number, social security number, date of birth, government issued driver’s license or identification number, alien registration number, government passport number, employer or taxpayer identification number, student identification number, computer’s Internet Protocol address, routing code or financial account number such as credit card number, in combination with any required security code, access code, or password that would permit access to an individual’s financial account.

Red Flag – A red flag is a pattern, practice or specific activity that indicates the possible existence of identity theft.

Security Incident – A collection of related activities or events which provide evidence that personal information could have been acquired by an unauthorized person.

#### IV. IDENTIFICATION OF RED FLAGS

Broad categories of “Red Flags” include the following:

- **Alerts** – alerts, notifications, or warnings from a consumer reporting agency including fraud alerts, credit freezes, or official notice of address discrepancies.
- **Suspicious Documents** – such as those appearing to be forged or altered, or where the photo ID does not resemble its owner, or an application which appears to have been cut up, re-assembled and photocopied.
- **Suspicious Personal Identifying Information** – such as discrepancies in address, Social Security Number, or other information on file; an address that is a mail-drop, a prison, or is invalid; a phone number that is likely to be a pager or answering service; personal information of others already on file; and/or failure to provide all required information.
- **Unusual Use or Suspicious Account Activity** –such as material changes in payment patterns, notification that the account holder is not receiving mailed statement, or that the account has unauthorized charges;
- **Notice from Others Indicating Possible Identify Theft** –such as the institution receiving notice from a victim of identity theft, law enforcement, or another account holder reports that a fraudulent account was opened.

## **V. DETECTION OF RED FLAGS**

Employees shall undertake reasonable diligence to identify Red Flags in connection with the opening of covered accounts as well as existing covered accounts through such methods as:

- Obtaining and verifying identity;
- Authenticating customers; and
- Monitoring transactions.

A data security incident that results in unauthorized access to a customer's account record or a notice that a customer has provided information related to a covered account to someone fraudulently claiming to represent the university or to a fraudulent web site may heighten the risk of identity theft and should be considered Red Flags.

## **VI. RESPONSE TO RED FLAGS**

Unless otherwise directed by the college or university, the detection of a Red Flag by an employee shall be reported to chief security officer for the institution. Based on the type of Red Flag, the appropriate administrator and the chief security officer will determine the appropriate response

## **VII. SECURITY INCIDENT REPORTING**

An employee who believes that a security incident has occurred shall immediately notify their appropriate administrator and, unless otherwise directed by the institution, the chief security officer. After normal business hours, notification shall be made to the institution police or other responsible after hours administrator. Upon review of the incident, the responsible administrator shall determine what steps may be required to mitigate any issues that arise in the review. In addition, referral to law enforcement may be required.

## **VIII. TRAINING AND PROGRAM REVIEW**

All employees who process any information related to a covered account shall receive training following appointment on the procedures outlined in this document. Refresher training may be provided annually.

Periodically the policy, procedure and training shall be reviewed to assess the need for changes or improvements.

(Added 6/09)

## **Section 2. UNR**

In recognition that some university activities are subject to the provisions of the Fair and Accurate Credit Transactions Act (FACT Act) and its "Red Flag" rules as promulgated by the U.S. Federal Trade Commission, the university outlines the following program. This program complements existing policies, which can be found in various sections of the university's *Information Technology Policy Manual*.

2. Institutional information security plans shall include appropriate risk assessment provisions to identify vulnerabilities and threats to institutional information resources and major enterprise systems, including but not limited to scheduled network and system vulnerability scans. Identified vulnerabilities must be remediated as appropriate to the level of risk.
3. Institutional information security plans shall include an incident response procedure for identifying, containing, and mitigating an incident that includes but is not limited to a breach of security or other threats to institutional systems and information.
4. Institutional information security plans must include guidelines for security awareness training intended to educate students and employees on appropriate security-conscious behavior and also the security best practices they need to incorporate in their daily activities.
5. Any unauthorized or unintentional disclosure or breach of sensitive data must be reported to the Vice Chancellor for Information Technology.

(B/R 12/09)

**Section 2. Information Security Plans – Administrative Controls**

1. Least Privileges. Administrative controls must include the appropriate assignment of responsibility within the institution to determine individual access to system and network resources, including information and data as is appropriate for an individual's job duties and responsibilities.
2. De-Provisioning Privileges. Administrative controls must include procedures for the decommissioning of privileges and accounts upon separation from employment with the institution and upon a change in job duties to ensure system and network resources reflect only privileges necessary for an employee's current job responsibilities. Accounts that have not been used for a defined and documented period of time appropriate to the account type must be identified and de-provisioned.

(B/R 12/09)

### **Section 3. Information Security Plans – Operational and Technical Controls**

1. Encryption Technology. Institutions must employ in transit and in storage, encryption technology that is appropriate to protect personally identifiable information and other sensitive data. Personally identifiable information stored on removable media, including, but not limited to, laptops, personal digital assistants (PDAs), thumb drives, and CD/DVDs, must be encrypted before the device is taken beyond the physical controls of the campus or control of a data storage contractor.
2. Audit Logs. All systems that handle sensitive information or make access control (authentication and authorization) decisions shall record and retain audit-logging information sufficient to identify events that may impact the confidentiality, integrity or availability of sensitive information, including, but not limited to, security and administrative access. The information security officer or his designee must establish retention periods for logs and review audit logs periodically to ensure that appropriate events are consistently logged and abnormal events are identified and investigated.
3. Network Security. Technical controls must include appropriate network security devices configured to detect and prevent network traffic that threatens network and system resources, including sensitive data (e.g. firewalls, intrusion detection systems). Configurations are subject to periodic audits.

(B/R 12/09)
