### Private Sector Jobs by Worksite Size 2012- Q2

- In the Quarterly Census of Employment and Wages program, the Research and Analysis Bureau collects and compiles employment and wage data using the unemployment insurance administrative files from the employers' quarterly contribution reports. In addition, the employers' quarterly report provides employment and worksite statistics by business size classification.
- The pie chart shows Nevada's private sector jobs categorized by employment size for the second quarter of 2012.
- In this time period, the total number of jobs in the private sector totals almost 995,000.
- Employers with 1000+ employees have the most private sector jobs (178,080).
- Employers with fewer than five employees have the smallest share of jobs (59,846).
- Small businesses with between zero and 100 employees account for more than half of the total private sector jobs.
