1.01 2-1-1 Partnership

Program:

Established by Executive Order in February 2006, Nevada 2-1-1 was created to implement a multi-tiered response and information plan in the state of Nevada. 2-1-1 is an easy to remember telephone number that, where available, connects people with important community services and volunteer opportunities. Available information on essential health and human services includes: basic human services, physical and mental health resources, employment support services, programs for children, youth and families, support for seniors and persons with disabilities, volunteer opportunities and donations and support for community crisis and disaster recovery.

Hours of Service: 2-

2-1-1 is available 24 hours per day, seven days per week. Service is provided statewide by the Financial Guidance Center.

Comments:

- In Fiscal Year 2016 the total call volume of 126,484 exceeded 2015 by 57.06% and 2014 by 100%.
- The call volume for the first quarter of 2017 continues at a level of more than 10,000 calls per month, with a high of 12,221.
- 94.18% of calls were answered in under two minutes; 84% in less than 30 seconds.
- An average call lasted 4:26.
- There were 285 unique clients that contacted Nevada 2-1-1 via text messaging in the first quarter.
- The Nevada 2-1-1 website was visited by 9,511 visitors.
- There are currently 815 agencies listing 3,214 services active in the Nevada 2-1-1 database.

Website: http://Nevada211.org

1.02 Office of Consumer Health Assistance (OCHA)

Program:

Established by the Nevada Legislature in 1999, the Office for Consumer Health Assistance (OCHA) is a vital point of contact for healthcare consumers and providers in Nevada. OCHA's mission is to provide the opportunity for all Nevadans to access information regarding patient rights and responsibilities, and to advocate for and educate consumers and injured workers concerning their rights and responsibilities under various health care plans and policies. This education and advocacy is provided to those who have insurance through an employer, managed care, individual health policies, ERISA, Worker's Compensation, Medicare, or Medicaid. Assistance is also provided to the uninsured and underinsured. OCHA collaborates routinely with state and federal agencies, and non-profit organizations. OCHA has expanded operations since its inception, and as of July 2011, has been operating through the Director's Office of DHHS. OCHA serves as an umbrella agency for multiple consumer health related programs, including:

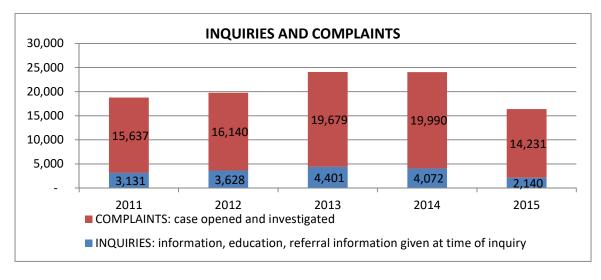

- Bureau for Hospital Patients
- External Review Organization
- Small Business Insurance Education Program
- RxHelp4NV
- Canadian Prescriptions

- Worker's Compensation Consumer Assistance
- Office of Minority Health
- Nevada 2-1-1
- Affordable Care Act Consumer Assistance Program
- Affordable Care Act Silver State Exchange
 Consumer Assistance

 Service Area:
 OCHA serves consumers statewide out of our main office in Las Vegas, and one satellite operation in Elko, Nevada to provide additional support to Northern/Rural Nevadans. The Office of Minority Health is also based in the Las Vegas Office for Consumer Health Assistance.

Hours: OCHA office hours are 8am – 5pm Monday through Friday, inquiries are accepted after hours by voicemail and email, and are returned as soon as possible.

Workload History: OCHA currently has six full-time Ombudsmen managing caseloads of 125 to 240. OCHA has continued to receive a significant volume of calls related to the Affordable Care Act (ACA), and now has four temporary full-time Navigators funded by a grant from the Nevada Silver State Health Insurance Exchange, to assist consumers with applying for insurance coverage. OCHA also continues to respond to an increased number of cases related to Medicaid. In addition to managing cases ranging in context from access to care, billing disputes, hospital bills, provider/insurance grievances and appeals, OCHA has increased its level of knowledge to resolve ACA-related cases by having staff members become Certified Application Counselors who are registered with the Nevada Division of Insurance, and can assist consumers with selecting a Qualified Health Plan or apply for Medicaid.

Comments:

Full details of OCHA's programs, notable accomplishments, and history is published annually in our 2013 Executive Report, which is available on our website.

Website: http://dhhs.nv.gov/Programs/CHA

1.03 Office of Minority Health

Program:

The Office of Minority Health (OMH) was established under NRS 232.467. The mission of OMH is to improve the quality of health care services for members of minority groups, to increase access to health care services, to seek ways to provide education, address, treat and prevent diseases and conditions that are prevalent among minority populations, increase access to health care services, and disseminate information to and educate the public on matters concerning health care issues of interest to members of minority groups. AB519 placed the Office of Minority Health under the Office of Consumer Health Assistance within the Department of Health and Human Services, Director's Office. AB519 was approved by the Governor in June 2011.

OMH provides a central source of information concerning healthcare services and issues for racial and ethnic minorities. The current focus of OMH is providing Education and Outreach about the Affordable Care Act to minority communities within Nevada, and encouraging individuals and families to enroll in Nevada Health Link or Nevada Medicaid. OMH endeavors to engage in outreach activities and fosters partnerships with stakeholder groups including: community and faith-based organizations; schools and universities; medical centers, health care systems, and health departments; tribal, state, and federal government offices; policymakers and community residents; advisory committees and task forces; and corporations, foundations, and the media. OMH continues to provide information regarding minority health care issues and helps ensure that both public and private entities have access to culturally competent and linguistically appropriate health information.

Funding:As of August 31, 2015, Nevada's State Partnership Grant Program to Improve Minority Health funding
through the federal Office of Minority Health ended. The Nevada OMH did apply for two additionally
grant opportunities; however, was not selected as one of the few funded agencies nationwide, as
there were only 17 funded states, as opposed to the 42, which had been funded in previous grant
cycles. Due to the lack of funding, the Nevada OMH currently has no staff dedicated solely to its
activities; however, OCHA administrative staff continues to seek other funding opportunities, while
remaining engaged with community partners and statewide minority health coalitions.

1.04 Office of Community Partnerships and Grants (OCPG)

Program: OCPG is housed within the Department of Health and Human Services. Originally created to administer grants to local, regional, and statewide programs serving Nevadans, the unit has matured to include program development as one of its principal roles. The unit builds and supports networks that help families and individuals assess their needs and work toward holistic solutions; and shares responsibility for program accountability, growth and success with its community partners.

• Children's Trust Fund (CTF) grants prevent child abuse and neglect.

- Community Service Block Grant (CSBG) promotes self-sufficiency, family stability, and community revitalization.
- Family Resource Centers (FRC) provide information and referral services, and various support services to families.

• Differential Response (DR) addresses child safety through partnerships between child welfare agencies and designated FRCs.

• Fund for a Healthy Nevada (FHN) grants (1) improve the health and well-being of Nevada residents including programs that improve health services for children and (2) improve the health and well-being of persons with disabilities.

• Social Service Block Grant (SSBG-TXX) assists persons in achieving or maintaining self-sufficiency and/or prevents or remedies neglect, abuse, or exploitation of children and adults.

• **Revolving Account for Problem Gambling Treatment and Prevention** provides funding for problem gambling treatment, prevention, research and related services.

• The Contingency Account for Victims of Human Trafficking was created by the 2013 Legislature and revised by the 2015 Legislature. Funding may be awarded in a competitive grant process or through an emergency fund to provide direct victim assistance in crisis situations. No funds have been utilized to date.

<u>Eligibility:</u> Most OCPG funding sources target at-risk populations. CTF focuses on primary and secondary prevention of child abuse and neglect. CSBG targets people at 125 percent of the Federal Poverty Level. FRC must conduct outreach to at-risk populations. Some FHN funds are targeted to people with disabilities.

	Func	ling by Pro	gram Categ	gory and Fi	iscal Year	
\$14,000,000		(Title XX State not included)				
\$12,000,000	(
\$10,000,000						
\$8,000,000						
\$6,000,000						
\$4,000,000						
\$2,000,000						
\$0						
	Wellness:	Wellness:	Wellness:	Family	Disability	Problem
	Health Only	Food Security	Nevada 2-1-1	Support	Services	Gambling
FY13	\$879,927	\$1,161,388		\$8,224,082	\$1,326,465	\$731,271
FY14	\$1,272,562	\$2,316,681	\$512,000	\$7,294,293	\$1,179,475	\$1,316,094
FY15	\$1,264,399	\$2,586,087	\$625,771	\$7,944,824	\$1,440,086	\$1,463,420
FY16	\$795,685	\$2,522,798	\$700,000	\$7,793,430	\$1,305,687	\$1,128,951
FY17	\$700,000	\$2,536,567	\$700,000	\$8,083,753	\$1,594,658	\$1,210,183

<u>Comments:</u> Food Security: In FY13, a statewide community needs assessment indicated a need to shift resources to a new service category -- Food Security. Projects are intended to provide direct services to reduce hunger, help food insecure individuals and families become more self-sufficient, build capacity within the food safety network, and maximize federal benefits. Funding is drawn primarily from FHN Wellness with a small assist from SSBG-TXX.

Information and Referral (I&R): The same needs assessment indicated a need for stable support and development of information and referral (I&R). In FY14, the GMU began supporting Nevada 2-1-1 from a single source rather than piecing together small grants that were then reported across multiple funding streams.

Health: In FY16, the amount allocated from FHN Wellness to health projects declined significantly to avoid duplication of benefits available as a result of the Affordable Care Act and Medicaid Expansion.

Website: http://dhhs.nv.gov/Programs/Grants/GMU/

2.01 Advocate for Elders

Program:The Aging and Disability Services Division (ADSD) Advocate for Elders program provides advocacy and
assistance to frail, older adults (age 60 and older) and their family members to enable older adults to
maintain their independence and make informed decisions.

Eligibility: Seniors age 60 or older, primarily homebound residing in communities throughout Nevada.

Workload History:

Fiscal Year	Client Contacts	Average Monthly Contacts
FY12	10,370	864
FY13	7,981	665
FY14	9,232	769
FY15	9,562	797
FY16	9,710	809
FY17*	7,936	661

* FY17 data is annualized.

Other:"Client contacts" includes: phone calls, walk-ins, e-mail, postal mail, and contacts made on behalf of a
client. Please note the program has 2.5 staff positions; one fulltime Advocate for Elders in Northern
Nevada, one in Southern Nevada, and a half-time position in Elko to serve Elko area seniors.

Funding Stream: General Fund

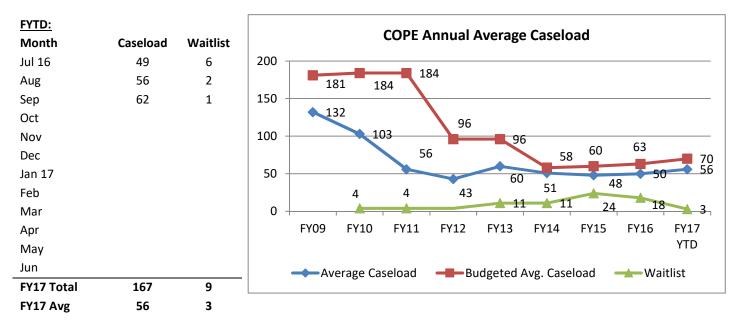

Comment:Historically, program contacts increase related to the Open Enrollment Period of the State Health
Insurance Assistance Program (SHIP) which occurs during Quarter (Q)2 of each State Fiscal Year. Q1
SFY12 and SFY 13 are stable. SFY 12 dips reflected are a result of a turnover in staff. SFY 14 Q1, Q2 and
Q3 remain stable, but with a slightly upward trend in Q3 and Q4. SFY 15 remains stable. SFY 16 remains
stable.

 Web Link:
 http://adsd.nv.gov/Programs/Seniors/AdvocateElders/AdvocateForElders/

2.02 Community Options Program for the Elderly (COPE)

- Program:The Aging and Disability Services Division (ADSD) Community Options Program for the Elderly (COPE)
provides services to seniors to help them maintain independence in their own homes as an alternative
to nursing home placement. COPE services can include the following non-medical services: Case
Management, Homemaker, Adult Day Care, Adult Companion, Attendant Care, Personal Emergency
Response System, Chore and Respite.
- Eligibility:Must be 65 years old or older; financially eligible (for 2016 income up to \$3,099; assets below \$10,000
for an individual and \$30,000 for a couple); at risk of nursing home placement without COPE services to
keep them in their home and community. Priority given to those meeting criteria of NRS 426 unable
to bathe, toilet and feed self without assistance.

Fiscal Year	Average Caseload	Budgeted Avg	Average Waitlist	Total Expenditures
		Caseload		
FY10	103	184	4	\$760,522
FY11	56	184	4	\$413,487
FY12	43	96	4	\$372,824
FY13	60	96	11	\$548,775
FY14	51	58	12	\$623,315
FY15	48	60	24	\$609,812
FY16	50	63	18	\$576,496
FY17	56	70	3	Not Yet Available

Funding Stream: General Fund

Workload History:

<u>Comment:</u> Caseload and waitlist trends remain relatively stable.

Web Link: http://adsd.nv.gov/Programs/Seniors/COPE/COPE_Prog/

2.03 Elder Protective Services

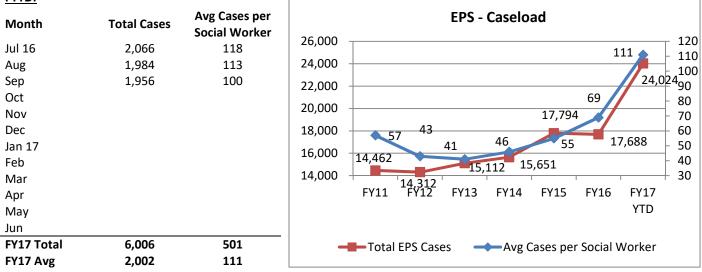

- Program:Nevada Revised Statutes mandates that Aging and Disability Services Division receive and investigate
reports of abuse, neglect, exploitation, isolation and abandonment of older persons, defined as 60
years or older. The Elder Protective Services (EPS) program utilizes licensed social workers to
investigate elder abuse reports. Social workers provide interventions to remedy abusive, neglectful and
exploitive situations. The investigation commences within three working days of the report. EPS may
contact local law enforcement or emergency responders for situations needing immediate intervention.
The Crisis Call Center handles after-hour calls for EPS. EPS refers cases where a crime may have been
committed to law enforcement agencies for criminal investigation and possible prosecution. Self-
neglect is the single largest problem reported. EPS social workers provide training to various
organizations regarding elder abuse and mandated reporting laws.
- **<u>Eligibility:</u>** Any older person, defined by NRS as 60 years or older, is eligible. EPS investigates elder abuse reports in all counties of Nevada in both community and long-term care settings.

Workload History:

Fiscal Year	Total Cases	Average Cases per Social Worker	Total Expenditures
FY12	14,312	43	\$3,437,968
FY13	15,112	41	\$3,812,582
FY14	15,651	46	\$3,063,232
FY15	17,794	52	\$3,559,875
FY16	17,688	69	\$3,797,753
FY17*	24,024	111	Not Yet Available

*FY17 data is annualized

FYTD:

Funding Stream: TITLE XX - Title XX funds through the Nevada Department of Health and Human Services; General Fund

Comment:TOTAL CASES - Total cases represent Total New Cases Received, Total Cases Investigated and Closed and
Cases Carried Over from the Previous Months. The Average Cases per Social Worker represents the
Total Cases divided by the actual number of Social Workers. As of July 1, 2010, ADSD assumed full
responsibility for all elder abuse investigations in Clark County making ADSD and law enforcement
agencies the sole responders to reports of elder abuse statewide.

 Web Link:
 http://adsd.nv.gov/Programs/Seniors/EPS/EPS_Prog/

2.04 Homemaker Program

- Program:The Aging and Disability Services Division (ADSD) Homemaker Program provides in-home supportive
services for seniors and persons with disabilities who require assistance with activities such as
housekeeping, shopping, errands, meal preparation and laundry to prevent or delay placement in a
long-term care facility.
- **<u>Eligibility:</u>** Seniors and person with disabilities throughout Nevada in need of supportive services; financially eligible (110 percent of Federal Poverty income below \$1,079 monthly).

Fiscal Year	Average Caseload	Budgeted Avg Caseload	Average Waitlist	Total Expenditures
FY10	328	637	34	\$910,353
FY11	170	637	21	\$860,423
FY12	262	320	42	\$530,446
FY13	286	320	74	\$567,943
FY14	302	320	14	\$714,506
FY15	310	320	38	\$1,084,817
FY16	303	343	20	\$1,058,277
FY17	319	367	8	Not Yet Available

Workload History:

Analysis ofThe waitlist has been reduced as additional case managers have been hired. This has had a positiveTrendsimpact on the number of cases that can be processed.

Funding Stream: Title XX/General Fund

Web Link: http://adsd.nv.gov/Programs/Seniors/HomemakerProg/Homemaker

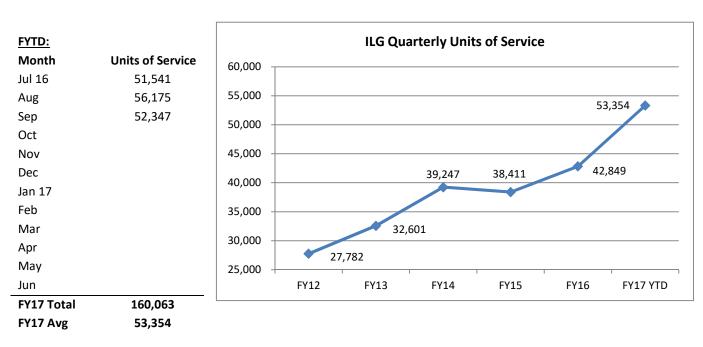

2.05 Independent Living Grants

Program:Independent Living Grants (ILG): The Nevada State Legislature passed legislation in 1999, which
enacted the Governor's plan for utilizing part of Nevada's proceeds from the Master Tobacco
Settlement to support "independent living" among Nevada seniors. This program funds a number of
vital services for seniors, such as respite care, transportation and supportive services. Supportive
services include: adult day care; case management; caregiver support services; information, assistance
and advocacy; companion services; geriatric health and wellness; homemaker services; home services;
legal services; medical nutrition therapy; volunteer care; emergency food pantry; Personal Emergency
Response System (PERS); and representative payee.

Eligibility: Seniors throughout Nevada, age 60 or older, in need of assistance to live independently.

Fiscal Year	Units of Service	Monthly Average Units
FY12	333,382	27,782
FY13	391,214	32,601
FY14	470,967	39,247
FY15	460,926	38,411
FY16	514,190	42,849
FY17	160,063	53,354

Workload History:

Funding Stream: Healthy Nevada Fund from the Tobacco Settlement Fund

Analysis of
TrendsThe SFY 2012 trend is generally stable with expected program fluctuations. One year can differ from
another for clients served due to the types of programs funded and the movement of programs
between OAA Title III-B and Independent Living Grant funding. For SFY 13 Q1 the trend shows a slight
increase due to a change in funded services between funding sources. The same remains true for SFY
2014. Q3 and Q4 remain stable. SFY 2015 is stable as well. SFY 2016 is missing data from Washoe
County, but otherwise remains within a stable range.

Web Link: http://adsd.nv.gov/Programs/Grant/Resources/

2.06 Long Term Care Ombudsman Program (Elder Rights Specialists)

|--|

The Long Term Care (LTC) Ombudsman program is authorized by the federal Older American's Act. The Act requires that a statewide Ombudsman program investigate and resolve complaints made by or on behalf of individuals who are residents of long term care facilities. The Act also requires numerous activities related to the promotion of quality care in LTC facilities. Elder Rights Specialists, also known as Ombudsmen, provide residents with regular and timely access to Ombudsman advocacy services by conducting routine visits to assigned facilities. They advocate for residents and provide information regarding services to assist residents in protecting their health, safety, welfare and rights. The Ombudsman Program is comprised of two basic components – a "case" or an "activity". A case includes the investigation and resolution of particular complaints made by or on behalf of residents. Activities include duties such as consultation and training for facility staff, working with resident and family councils, and participating in facility surveys.

Eligibility:

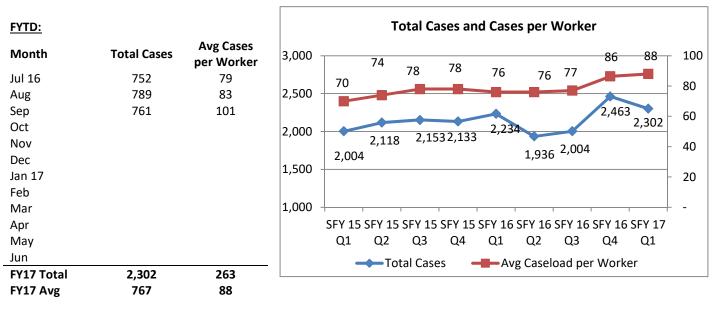

Eligibility includes every individual living in a long term care facility including:

- Homes for Individual Residential Care
- Residential Facilities for Groups including Assisted Living Facilities
- Skilled Nursing Facilities

Workload History:

Fiscal Year	Total Cases	Avg Cases per Worker	Total Expenditures
FY14	6,934	61	\$1,442,861
FY15	8,408	74	\$1,345,054
FY16	8,633	79	\$1,647,076
FY17*	9,208	88	Not Yet Available

*FY17 data is annualized.

Funding Stream: Funding stream includes: Older Americans Act Funds through the Administration on Aging; Medicaid Funds through the Division of Health Care Financing and Policy; and General Fund.

Comment:Total cases represent Total New Cases, Total Closed Cases, Cases Ongoing from the previous months and
total activities weighted at 5 activities (5 activities = 1 case). The Average Cases per Elder Rights Specialists
represents the Total Cases divided by the actual number of Elder Rights Specialists. This caseload definition
was approved in 2015. Please contact Jennifer Williams-Wood at (775) 687-0823 or jlwilliams@adsd.nv.gov
for more information.

Web Link: http://adsd.nv.gov/Programs/Seniors/LTCOmbudsman/LTCOmbudsProg/

2.07 Senior Support Services

Program: Supportive Services and Senior Center Programs (funded by the Older American's Act Title III-B) are intended to maximize the informal support provided to older Americans, to enable them to remain living independently in their homes and communities. Services funded under Supportive Services and Senior Center Programs include: senior companion; transportation; adult day care; homemaker; information, assistance and advocacy; representative payee; caregiver support, education and training; legal services; telephone reassurance; volunteer services; Personal Emergency Response System (PERS); case management; respite; and transitional housing.

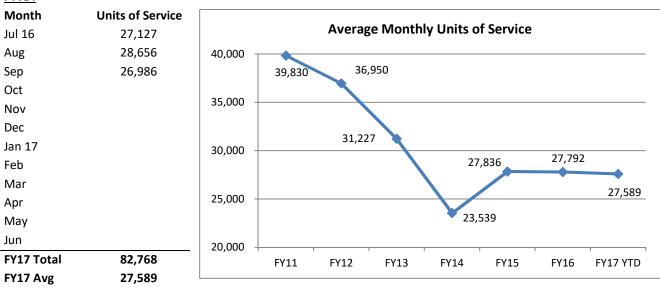

```
Eligibility:Individuals throughout Nevada age 60 or older with particular attention to low-income older<br/>individuals, including low-income minority individuals, older individuals with limited English proficiency,<br/>and older individuals residing in rural areas.
```

Workload History:

Fiscal Year	Units of Service	Average Units of Service
FY11	477,956	39,830
FY12	443,398	36,950
FY13	374,727	31,227
FY14	282,462	23,539
FY15	334,033	27,836
FY16	333,508	27,792
FY17*	331,072	27,589

*FY17 data is annualized.

Funding Stream: Title III - Older Americans Act (OAA) Funds through the Administration on Aging (AoA); General Fund

Analysis of
Trends:For SFY 2012 the downward trend is caused by programs reporting fewer services delivered. For SFY 13
the downward trend is due to a change in funded services between funding sources. SFY 14 decrease is
due to a change in funded services between funding sources. The SFY 14 Q2, Q3 and Q4 trend is stable.
SFY '15 reflects an overall increase in services. SFY 16 Q3 is missing data from Washoe County, but also
shows a downward trend due to the shifting of programs between funding sources.

 Web Link:
 http://adsd.nv.gov/Programs/Grant/ServSpecs/Documents/

2.08 Senior Nutrition – Meals in Congregate Settings

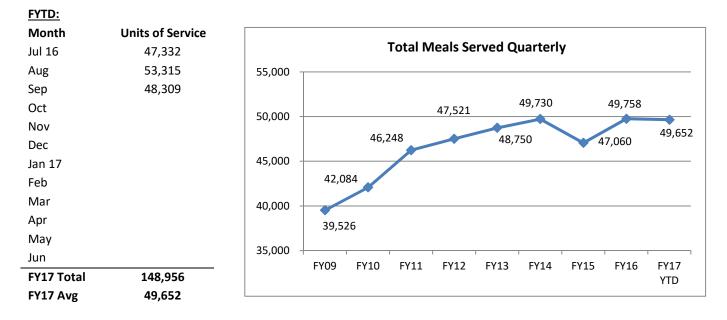

<u>Program:</u>	Senior Nutrition - Meals in Congregate Settings (funded by the Older Americans Act Title III - C1) are allocated to provide meals to seniors in congregate settings, usually at senior centers. The purposes of this part are to reduce hunger and food insecurity; to promote socialization of older individuals; and to promote the health and well-being of older individuals by assisting such individuals to gain access to nutrition and other disease prevention and health promotion services to delay the onset of adverse health conditions resulting from poor nutritional health or sedentary behavior.

Eligibility: Individuals age 60 or older and their spouses; individuals with disabilities who have not attained the age of 60, but reside in housing facilities occupied primarily by older individuals at which a congregate meal site has been established; individuals providing essential volunteer service during meal hours at a congregate setting; adults with disabilities who reside at home with an eligible older individual, who come into the congregate setting without that individual.

Workload History:

Fiscal Year	Units of Service	Average Units of Service
FY13	584,997	48,750
FY14	596,757	49,730
FY15	564,715	47,060
FY16	605,543	50,462
FY17*	595,824	49,652

*FY17 data is annualized.

Funding Stream: Title III - Older Americans Act Funds through the Administration on Aging; General Fund

Comment: Meal service can decline in Q4 and Q1, during summer months, due to return of "snow bird" seniors returning to northern climates during these warmer months. For SFY 2013 the trend is stable. SFY 2014 Q1 and Q2 are stable. Q3 remains stable; however, Q4 shows a decrease. While Q4 and Q1 numbers often decrease due to "snowbirds" heading north for the warmer months, this Q4 dip is greater due to a "senior center boycott" at the City of Henderson over an increase in suggested donation price. Seniors have been boycotting the senior center activities due to the City's decisions addressing a budget shortfall.

 Web Link:
 http://adsd.nv.gov/Programs/Grant/Nutrition/Resources/

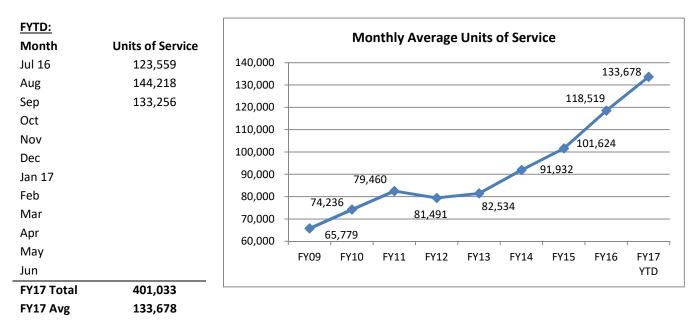

2.09 Senior Nutrition – Home Delivered Meals

- **Program:** Senior Nutrition Home Delivered Meals (funded by the Older Americans Act Title III C2) funds are allocated to furnish meals to homebound seniors, who are too ill or frail to attend a congregate meal site.
- **Eligibility:** Individuals age 60 or older and their spouses and disabled individuals, who reside with individuals over age 60.

Workload History:

Units of Service	Monthly Average Units of Service
FY12 953,525 79,460	
977,890	81,491
1,103,179	91,932
1,219,485	101,624
1,433,390	119,449
1,604,132	133,678
	953,525 977,890 1,103,179 1,219,485 1,433,390

*FY17 data is annualized.

Funding Stream: Title III - Older Americans Act Funds through the Administration on Aging; General Fund

Analysis of
Trends:Numbers are reflected for State Fiscal Year and represent the number of meals served to participants of
the program. Overall, comparing each quarter with the previous year's quarter, the number of meals
served has slightly increased. The slight increase is a result of the slowing economic conditions
nationwide and in Nevada. The overall trend is stable. SFY 2013 shows a slight increase. SFY 2014 is
showing an increase compared to the same time periods in the previous fiscal year. the Q2 service
increase is primarily due to a large Home Delivered Meal program being awarded nonfederal funding to
help reduce waitlist for services. Q3 and Q4 are stable. FY 2015 and FY 16 Q3 remain stable.

Web Link: http://adsd.nv.gov/Programs/Grant/Nutrition/Resources/

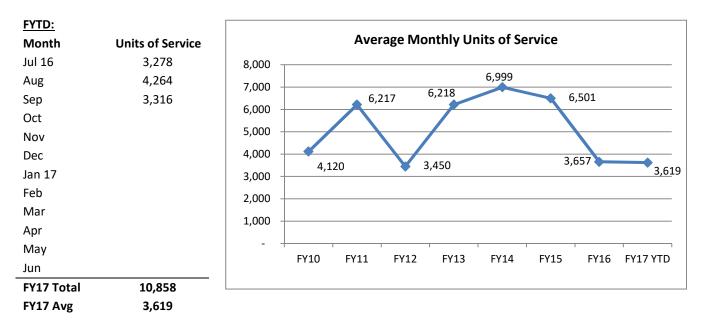

2.10 National Family Caregiver Program

- Program:The National Family Caregiver Support Program (funded by the Older Americans Act Title III E)
addresses the needs of family caregivers by increasing the availability and efficiency of caregiver
support services and of long-term care planning resources.
- Eligibility:Family caregivers of adults age 60 or older; grandparents and caregivers, age 55 or older, of children
not more than 18 years of age, who are related by blood, marriage or adoption; parents, age 55 years
or older, caring for an adult child with a disability.

Workload History:

Year Units of Service Average Monthly Units of Servi

*FY17 data is annualized.

FundingTitle III - Older Americans Act Funds through the Administration on Aging; Healthy Nevada Fund from theStream:Tobacco Settlement Fund

- **Comment:** SFY 2013 reflect an increase due to changes in reporting requirements. SFY 2014 Q1 and Q2 show and upward trend due to the funding of new ADRC serving the rural areas. Q3 and Q4 remain stable. In SFY14 and SFY15 the ADRC program began focusing efforts on Options Counseling which is a more holistic approach to service delivery, versus information and referral. Additionally, in SFY16 ADRCs stopped tracking contacts and are only tracking ¼ hour units due to the upcoming implementation of the SAMS I&R module. In addition, in SFY16 we have reduced the number of providers from 7 to 4 to encourage broader service areas and achieve statewide coverage of the program.

2.12 Senior Rx and Disability Rx

Program:Nevada Senior/Disability Rx helps eligible applicants obtain essential prescription medications. Some
members may also receive help with the monthly premium (if applicable) for their Part-D plan. Eligible
members may use the program as a secondary payer during the Medicare Part-D coverage gap.

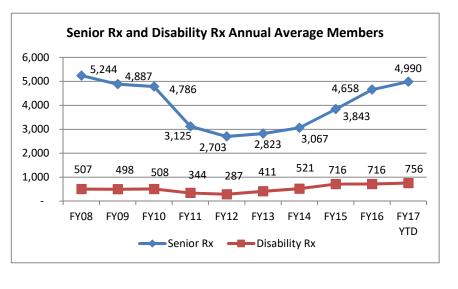

Eligibility:Residency -- Continuous Nevada resident for the 12 months prior to application. Annual HouseholdIncome Limit -- Effective 7/1/2016 = \$28,119 for singles, \$37,483 for couples. Age -- For Senior Rx, age62 or older. For Disability Rx, age 18 through 61 with a verifiable disability.

<u>Comment:</u> Beginning in FY-15 funding for this program was reduced, so program and fiscal staff monitors caseload growth and its impact on direct services expenditures to ensure program costs stay within authority going into FY16 and FY17, including discussions of any actions necessary to stay within budget.

 Web Link:
 http://adsd.nv.gov/Programs/Physical/DisabilityRx/DisabilityRx/

2.13 State Health Insurance Assistance Program (SHIP)

Program: Provides information, counseling, and assistance services to Medicare beneficiaries, their families and others. These services are provided relevant to: Medicare Part D Prescription Drug Coverage; Medicare Part A-Hospital; Medicare Part B-Medicare; Medicare supplemental insurance; long-term care insurance; Medicare Part C-Advantage Plans; Extra Help Part D drug program; beneficiary rights and grievance appeal procedures. Referrals to other community resources are made as needed.

Eligibility: Medicare Beneficiaries; Seniors age 65 or older and/or persons with a verified disability of any age and their caregivers.

*FY 17 data is annualized.

Other:

SHIP utilizes trained volunteers, contract staff and partners for outreach and Medicare beneficiary navigation enrollment assistance. Services are advertised through outreach events, websites, referrals and training. Medicare beneficiaries call a statewide, toll-free phone number and are referred to a trained volunteer to assist with explanation and access of health benefits. SHIP contacts/encounters are entered into the Centers for Medicare and Medicaid Services (CMS) database and reported periodically as required to CMS and ACL.

Funding Stream: The Administration for Community Living (ACL) & ILG State Funds.

- Due to complexities associated with Medicare assistance, counseling sessions are more time Analysis of Trends: consuming and sometimes involve case management related duties, and require providing beneficiaries with a number of referrals and assistance with social needs. Volunteers are reluctant to do counseling because of the complexity of the job and the time commitment for training and counseling. As of September 30, 2016, there are 77 volunteers statewide, 39 of whom are SHP Certified Counselors and some currently in certification training to continue the efforts of SHIP and increase the workforce behind Medicare counseling.
- Web Links: http://adsd.nv.gov/Programs/Seniors/SHIP/SHIP Prog www.NevadaSHIP.com

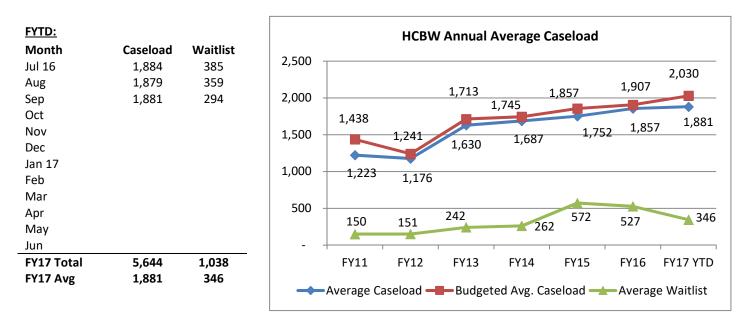

2.14 Home and Community Based Waiver (HCBW) - Frail Elderly

Program:	The Aging and Disability Services Division (ADSD) Home and Community Based Waiver (HCBW) for the Frail Elderly provides waiver services to seniors to help them maintain independence in their own
	homes and communities as an alternative to nursing home placement. HCBW services can include the following: Case Management, Homemaker, Adult Day Care, Adult Companion, Personal Emergency Response System, Chore, Respite, and Augmented Personal Care and access to State Plan Personal Care Services.

<u>Eligibility:</u> Must be 65 years old or older; at risk of nursing home placement within 30 days without services; financially eligible (300% of SSI income up to \$2,199.00); need assistance with one or more of the following: bathing, dressing, eating, toileting, ambulating, transferring. Applies for and is determined eligible for full Medicaid benefits through the Division of Welfare and Supportive Services (DWSS).

Workload History:

Fiscal Year	Average Caseload	Budgeted Avg Caseload	Average Waitlist	Total Expenditures
FY11	1,223	1,438	150	\$4,016,041
FY12	1,176	1,241	151	\$4,563,023
FY13	1,630	1,713	242	\$6,222,738
FY14	1,687	1,745	262	\$5,856,376
FY15	1,752	1,857	572	\$5,904,555
FY16	1,857	1,907	527	\$4,704,476
FY17 YTD	1,881	2,030	346	Not Yet Available

Funding Stream: Medicaid/General Fund

Analysis of
Trends:Staff turnover has been quite severe. Requirements for eligible hiring of case managers has now
changed within the newly approved FE Waiver which will provide a wider range of eligible candidates
resulting in faster processing of cases to minimize waitlist.

Note: Reporting structure starting July 1, 2014, combined the HCBW for the Frail Elderly Waiver with the Assisted Living Waiver.

Web Link: http://adsd.nv.gov/Programs/Seniors/HCBW/HCBW_Prog/

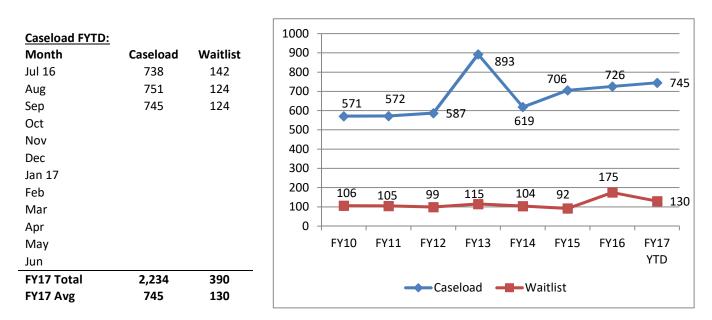

2.15 Home and Community Based Waiver (HCBW) - Physically Disabled

<u>Program:</u>	The State of Nevada Waiver for the Physically Disabled is now operated by ADSD as it was merged July 2015 from the Nevada Division of Health Care Financing and Policy (DHCFP). The goals of this waiver are to provide the option of home and community-based services as an alternative to nursing facility placement and to allow maximum independence for persons with physical disabilities who would otherwise need nursing facility services.
<u>Eligibility:</u>	Interest in waiver services initiates a screening process to determine if the individual appears to meet the following eligibility requirements: *Without the waiver services, would require institutional care provided in a skilled nursing facility

or intermediate care facility for the intellectually disabled (ICF/ID); *Applies for and is determined eligible for full Medicaid benefits through the Division of Welfare

and Supportive Services (DWSS); *Is certified as physically disabled by DHCFP's Central Office Disability Determination Team.

orkload History:				
State Fiscal Year	Average Caseload	Budgeted Average	Average Waitlist	Total Expenditures
		Caseload		
FY11	572	579	105	\$3,860,025
FY12	587	579	99	\$3,434,462
FY 13	563	579	115	\$3,487,297
FY 14	619	630	104	\$3,744,300
FY 15	706	714	92	\$4,635,137
FY 16	726	741	175	\$1,896,495
FY 17 YTD	745	780	130	Not Yet Available

Comments:

The waitlist is growing and caseload decreasing as a result of increased referrals, wait time for eligibility and high staff turnover in the fourth quarter. We anticipate this trend will reverse itself by the end of the fiscal year as cross-training of FE and PD staff continues enabling more efficient processes.

Website: http://adsd.nv.gov/Programs/Seniors/HCBW/HCBW_Prog/

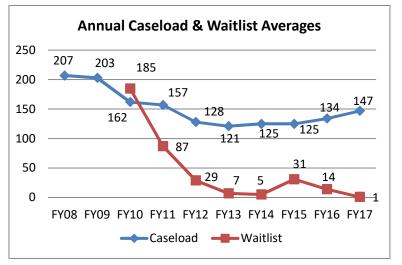

2.16 Personal Assistance Services

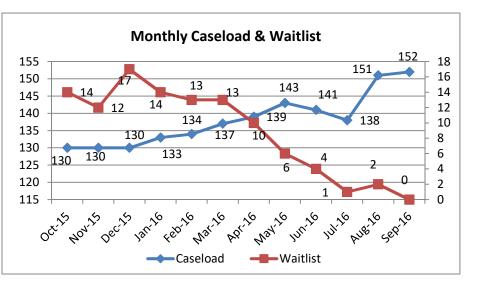

- Program:This program provides in-home assistance with daily tasks like bathing, toileting and eating. Service
recipients share in the cost of their services, based upon a sliding scale formula. Services are typically
provided on an ongoing basis, however some applicants have terminal conditions and are only assisted
for short-term periods.
- **<u>Eligibility:</u>** Applicants must be over age 18, have a severe physical disability, and must have all their care needs addressed when the resources of this program are combined with other resources available to the applicant (family, friends, assistive technology, private-pay care, etc.). Note: PAS Services are for those that do not meet the financial criteria for Nevada Medicaid or are waiting for the Frail Elderly or Physically Disabled Waiver program.

Workload History:

Fiscal Year	Average Caseload	Average Waitlist	Expenditures
FY 10	162	185	\$3,239,720

2.17 Disability Services - Assistive Technology for Independent Living

- **Program:**The Assistive Technology for Independent Living (AT/IL) Program helps individuals to remain living in the
community by making their homes and vehicles more accessible. Some clients share in the cost, on a
sliding scale. The program provides one-time services that are not provided on an ongoing basis.
- **<u>Eligibility:</u>** Applicants must have a severe disability that results in significant limitation in their ability to perform functions of daily living, and there must be an expectation that services will help to improve or maintain their independence.

Workload History:					
Fiscal Year	Applications	Cases Closed	Expenditures		
FY 11	295	321	\$1,528,652		
FY 12	322	244	\$1,586,976		
FY 13	297	199	\$1,045,448		
FY 14	229	283	\$1,606,319		
FY 15	205	242	\$1,833,459		
FY 16	119	181	\$1,718,296		
FY 17*	216	236	Not Yet Available		

Workload History:

*FY 17 data is annualized

- Other:The average household income of program applicants is \$1,781 per month with an average household
size of 1.7 people. The average age of those served is 60. The most commonly provided services are
home that provide access into the home and to bathroom; and vehicle modifications to transport their
mobility devices.
- Funding:Funding for this program is provided through a Federal and State partnership. It is a "resource of last
resort," meaning that applicants must exhaust other public and private resources before receiving
assistance. The program helps Nevadans to avoid institutional placement and to leverage care and
other resources available from family and friends.

Web Links: http://adsd.nv.gov/Programs/Physical/ATforIL/ATforIL/

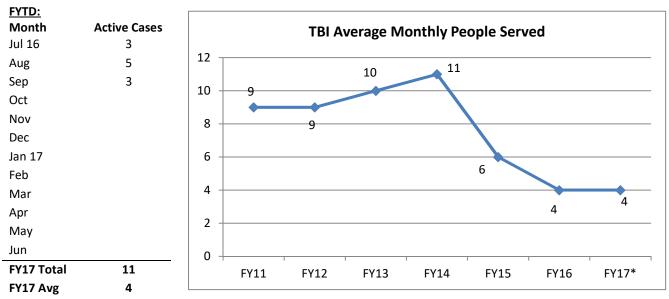

2.18 Disability Services – Traumatic Brain Injury Services

- **Program:** The Traumatic Brain Injury Program provides one-time rehabilitation services that enable recipients to gain or maintain a level of independence, by re-learning how to walk, talk and conduct other routine activities. After a person is injured, there is a short window of opportunity in which they can be effectively rehabilitated.
- **Eligibility:** Applicants are generally between age 18 and 50, must have a recent brain injury, and must present as a good candidate for successful rehabilitation.

Workload History.					
Fiscal Year	Active Cases	Cases Closed	Expenditures		
FY 11	106	40	\$1,538,063		
FY 12	106	42	\$1,510,623		
FY 13	122	59	\$1,498,475		
FY 14	130	93	\$1,359,969		
FY 15	73	96	\$479,426		
FY 16	42	13	\$393,393		
FY 17	11	5	\$78,771		
*					

Workload History:

*Expenditures are thru Mar 2017

*FY17 data is annualized

Other:This program has consistently met its 90-day waiting time target under the US Supreme Court's
Olmstead Decision. Traumatic Brain Injury is six times more common than breast cancer, HIV/AIDS,
spinal cord injuries and Multiple Sclerosis...combined.

Funding:Funding for this program is provided entirely through the State general fund. This program is a
"resource of last resort," meaning that applicants must exhaust other sources of funding before
receiving assistance. The program helps Nevadans to avoid institutional placement and to leverage
care and other resources available from family and friends. The number of persons served shown is for
those applicants who meet the program's criteria for having maximum rehabilitation potential.

Web Links: http://adsd.nv.gov/Programs/Physical/TBIProg/TBI/

2.19 Disability Services – Communication Services

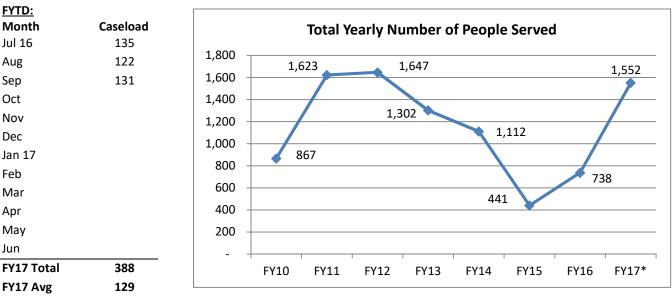

Program: The Communication Services Program provides telecommunications equipment to enable recipients to have access to the Relay System. The Relay system allows persons who are Deaf, Hard of Hearing or persons with speech disabilities to communicate with persons who use a standard telephone.

Eligibility: Recipients must have a documented communication disability.

Workload History:

Fiscal Year	Number Served	Expenditures
FY 10	867	\$1,467,118
FY 11	1,623	\$1,533,604
FY 12	1,647	\$1,612,209
FY 13	1,302	\$1,173,668
FY 14	1,112	\$1,422,824
FY 15	441	\$1,460,186
FY 16	738	\$1,806,039
FY 17*	1,552	Not Yet Available

*FY 17 data is annualized

*FY17 data is annualized

Per Capita/KeyThis program does targeted outreach to rural areas and the following demographic groups: personsDemographics:with communication disabilities, who are minorities, have lower income, are children or are seniors.

Funding:Funding for this program is provided entirely through the telecommunications surcharge assessed on
each phone in Nevada and collected by the Public Utilities Commission (PUC). The Federal
Communications Commission (FCC) mandates state relay programs for telephone access.

Analysis ofThe difference in number of person served this year compared to previous years was anticipated dueTrends:to Public Utilities Commission's change in service delivery.

Web Links: http://adsd.nv.gov/Programs/Physical/ComAccessSvc/CAS/

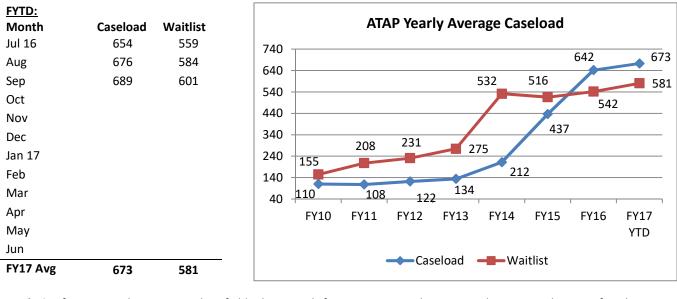

2.20 Autism Treatment Assistance Program (ATAP)

- Program:The Autism Treatment Assistance Program helps families of children ages 0-19, with Autism Spectrum
Disorders, to establish and fund home-based therapy programs. Funds are used to pay clinical
professionals who design the therapy programs and train lay-providers to deliver the therapy, as well as
to pay the lay-providers for the delivery of services.
- Eligibility:Recipients must be under age 19 and have a documented diagnosis of an Autism Spectrum Disorder.Applicants are prioritized based upon a number of factors relating to their need and opportunities for
successful therapy.

Workload History:

Fiscal Year	Average Caseload	Average Waitlist	Expenditures
FY 11	108	208	\$1,885,987
FY 12	122	231	\$1,959,167
FY 13	134	275	\$2,390,915
FY 14	212	532	\$3,493,764
FY 15	437	516	\$6,740,509
FY 16	642	542	\$11,065,626
FY 17	673	581	\$6,176,928

*FY 17 YTD data is annualized

Analysis ofThere are no identifiable data trends for new ATAP applicants. Applications and New Referrals arriveTrends:with no discernable predictability other than thru normal population growth. ATAP received an
increase in funding during the 2013 Legislative Session for FY14-15, causing an increase in caseload.

Funding: Funding for this program was provided entirely through the state general fund during FY 07-12, but transferred to the Fund for a Healthy Nevada in FY 13.

Web Links: http://adsd.nv.gov/Programs/Autism/ATAP/ATAP

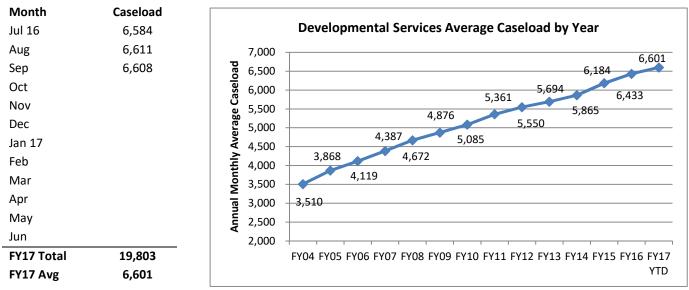

2.21 Developmental Services

- Program:Developmental Services provides a full array of community based services for people with Intellectual
Disabilities and Related Conditions and their families in Nevada. The goal of coordinated services is to
assist persons in achieving maximum independence and self-direction. Service coordinators assist
individuals and families in developing a person centered life plan focused on individual needs and
preferences for the future. They also assist people in selecting and obtaining services and funding to
achieve personal goals, community integration and independence. Major programs provided to
achieve these goals include Community based residential supports, Jobs & Day Training Supports and
Family Supports.
- Eligibility:All individuals who meet Developmental Services eligibility requirements of Intellectual Disability
diagnosis or Related Conditions and three of six major life skill limitations who apply for services receive
basic service coordination. Developmental Services agencies provide many services to Medicaid eligible
clients. Provider based services are given under a Medicaid waiver depending on the level of care the
individual needs. Direct services are provided under the Medicaid State Plan.

Workload History:

Fiscal Year	Total Expenditures	Average Caseload
FY09	\$139,752,916	4,876
FY10	\$126,585,304	5,085
FY11	\$129,468,112	5,361

FY13	\$136,720,966	5,694
FY14	\$149,929,411	5,865
FY15	\$154,288,219	6,184
FY16	\$162,607,543	6,433
FY17	Not Yet Available	6,601

Caseload FYTD:

Website: http://adsd.nv.gov/Programs/Intellectual/Intellectual/

2.22 Early Intervention Services (Part C, Individuals with Disabilities Education Act)

Program: Early Intervention is a system of services and supports individually designed to help families meet the specific needs of their children. Early Intervention programs provide services based on the regulations provided by Part C of the Individuals with Disabilities Act (IDEA).

The mission of Nevada's Early Intervention Services is to identify infants and toddlers (ages 0-3) who are at-risk for, or who have developmental delays; provide services and supports to families to meet the individualized developmental needs of their child; and facilitate the child's learning and participation in family and community life through the partnerships of families, caregivers and service providers.

Early Intervention has regional sites in Las Vegas, Carson City, Reno, and Elko and contracts with community providers to provide services as well. Children ages birth through two years will be determined eligible for early intervention services if they meet the state's defined eligibility criteria through medical diagnosis, test scores from standard evaluation tools or by informed clinical opinion.

Workload History:

Fiscal Year	Monthly Average Cases	Total Expenditures	Total Referrals
FY 12	2,735	\$22,649,687	5,216
FY 13	2,830	\$23,642,678	5,427

FY 17*	3,502	\$29,809,736	7,216

*FY 17 data is annualized

FYTD: Month **New Referrals Total IFSPs*** Waiting for Services Services Waiting **Exiting with IFSPs*** Jul 16 3,490 535 2 4 289 9 16 Aug 631 3,503 237 638 1 2 Sep 3,512 235 Oct Nov Dec Jan. 17 Feb Mar Apr May Jun FY17 Total 1,804 10,505 12 22 761 FY17 Avg 601 3,502 4 7 254

*IFSP – Individualized Family Service Plan

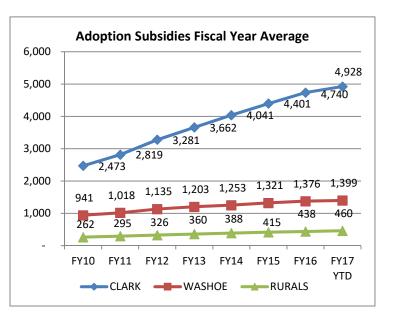

Website: http://adsd.nv.gov/Programs/InfantsToddlers/Infants_Toddlers/

Comments:Referrals include children who are Part C referrals but also children who are CAPTA (Child Abuse Prevention and
Treatment Act), Audio Only and SaM (Screening and Monitoring) referrals. Total IFSPs includes children who were in
"active" status during the month because they were determined eligible and have an active IFSP. It also includes
children who have now exited from the program but would have been eligible with an active IFSP during that month.
Total IFSPs and referral are not mutually exclusive. Children who were referred during the month may be included in the
total IFSP numbers if the child was found eligible for services and has an active IFSP or if the child exited during that time
frame and had an active IFSP. Data may vary from previous months due to methodology, process, and /or data source.
Data from January 2016 to current were provided by Nevada Early Intervention Services and were pulled from TRAC-IV
using Crystal Reports. Waiting for services includes children who have not initiated any services are over
the 30-day timeline. "Waitlist" sheet & ""Wait by Service"" sheet include ANY service that has not met the 30-day
timeline.

3.01 Adoption Subsidies

- **Program:** It is the policy of the agencies providing child welfare services to provide financial, medical, and social services assistance to adoptive parents, thereby encouraging and supporting the adoption of special-needs children from foster care. A statewide collaborative policy outlines the special-needs eligibility criteria, application process, types of assistance available and the necessary elements of a subsidized adoption agreement.
- **<u>Eligibility:</u>** To qualify for assistance, the child must be in the custody of an agency which provides child welfare services, or a Nevada licensed child-placing agency, and an effort must have been made to locate an appropriate adoptive home which could adopt the child without subsidy assistance. The child must also have specific factor(s) or condition(s) that make locating an adoptive placement resource difficult without recruitment, special services, or adoption assistance; such as being over the age of five, having siblings with whom they need to be placed, or having a physical, mental or behavioral condition that results in the need for treatment.
- Other:All three public child welfare agencies, Clark County Department of Family Services (CCDFS); Washoe
County Department of Social Services (WCDSS); and the Division of Child and Family Services (DCFS) Rural
Region, administer the subsidy program with state oversight and in accordance with statewide policy.

FYTD:	<u>Clark</u>	<u>Washoe</u>	<u>Rurals</u>	<u>Total</u>
Jul 16	4,894	1,394	457	6,745
Aug	4,925	1,405	460	6,790
Sep	4,964	1,397	463	6,824

Jun				
FY17 Total	14,783	4,196	1,380	20,359
FY17 Avg	4,928	1,399	460	1,851

Analysis of
Trends:The number of adoption subsidies has increased during the past two years in all public child welfare
agencies. This fluctuation in the number of subsidies for that time period can be attributed to the rate of
finalized adoptions and the number of subsidies that terminated as adopted youth reached the age of 18
years old.

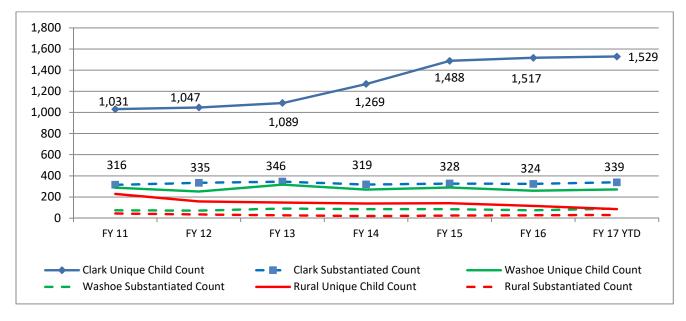

Website: http://dcfs.nv.gov/Programs/CWS/Adoption/Guide/InfantAdoptions/

3.02 Child Protective Services (CPS)

- **Program:** CPS agencies respond to reports of abuse or neglect of children under the age of eighteen. Abuse or neglect complaints are defined in statute, and include mental injury, physical injury, sexual abuse and exploitation, negligent treatment or maltreatment, and excessive corporal punishment. The CPS worker and family develop a plan to address any problems identified through assessment. Families may be referred to community-based services to prevent their entry into the child welfare system.
- Administration: Division of Child and Family Services (DCFS) Family Program's Office has oversight responsibility to monitor compliance with federal/state requirements and provide technical assistance as needed. Federal funding is administered through DCFS to child welfare programs in Clark and Washoe Counties. Rural programs are administered directly by DCFS.

	Clark County		Washoe County		Rural Counties

FY17 Avg	1,529	339	272	92	85	31

*Unduplicated report of maltreatment. Multiple cases may occur in a single household.

<u>Analysis of</u> <u>Trends:</u>

EVTD

The number of child abuse and/or neglect victims and unsubstantiated reports has risen in Clark County within the last two years. Media attention on this subject has heighted public awareness, resulting in a substantial increase of calls to the DCFS hotline. As a result, the number of investigations has also increased as well as the number of alleged victims.

Website: http://dcfs.nv.gov/Programs/CWS/CPS/CPS/

3.03 Differential Response

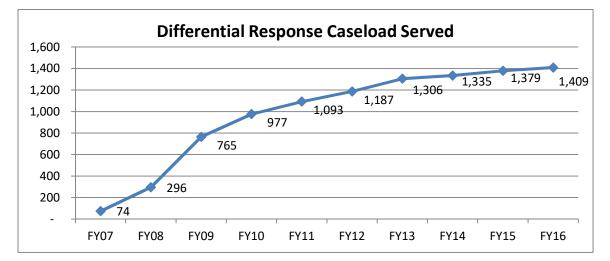

Program:

The Differential Response Program is a joint project between Community Based Service Providers and the three child welfare agencies. Reports of child maltreatment that meet the statutory threshold for a home visit to determine child well-being, where there is not an imminent threat to the child's safety, may be referred to the Differential Response program for assessment and case management. Typically, these reports involve such issues as educational neglect, environmental neglect, medical neglect, and improper supervision. Frequently the Community Based Service Provider is able to assist the family in accessing services that will assist the family in providing positive interactions and a safe environment for their children.

Service Areas: Services are provided in the following counties: Clark, Washoe, Elko, Carson City, Douglas, Storey, Churchill, Lyon, Mineral, Pershing and southern Nye.

Workload History:

Fiscal Year	Referred	Returned	Served	Closed
FY07	90	16	74	33
FY08	362	66	296	247
FY09	912	147	765	665
FY10	1,053	76	977	906
FY11	1,137	44	1,093	1,135
FY12	1,234	47	1,187	1,182
FY13	1,319	13	1,306	1,324
FY14	1,367	32	1,335	1,333
FY15	1,421	42	1,379	1,403
FY16	1,436	27	1,409	1,396

Comments:The chart reflects ongoing caseloads. Reports screened for a DR response typically involved families
with basic needs, followed by educational neglect, lack of supervision, medical neglect, and various
family problems. Currently, DR referrals reflect approximately 9 percent of the child maltreatment
reports in the communities served. If expanded statewide, it is estimated that DR referrals could reach
17 percent of total child maltreatment reports. Nevada is one of 22 states implementing Differential
Response.

Website: http://dcfs.nv.gov/Programs/CWS/DR/DR Program/

3.04 Early Childhood Services

- **Program:** Early Childhood Mental Health Services are available for eligible children from birth to 6 years of age who have significant emotional, mental health, or behavior problems or those who are at high risk for these problems and associated developmental delays. The goal is to strengthen the parent-child relationship, support the family's capacity to care for the child, and to enhance the child's social and emotional well-being. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.
- **<u>Eligibility:</u>** Birth through age six.

Other:Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada Check Up,
and children who are uninsured or underinsured.

FYTD:	<u>North</u>	<u>South</u>]
Jul 16	92	207	Early Childhood Services Average Monthly Caseload

FY17 Total	278	614	North South YTD
FY17 Avg	93	205	1

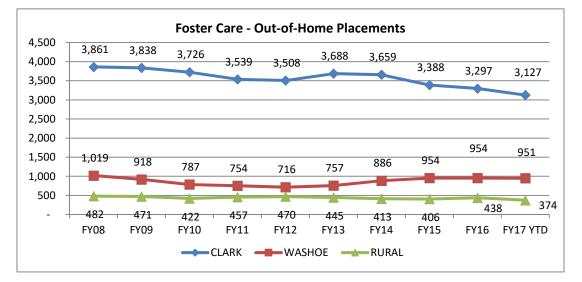

Analysis of
Trends:Early Child Mental Health Services counts continue to decrease primarily due to staff shortages, and also
because of a decrease in the number of youth with fee-for-services Medicaid. Staff typically provide 25
client hours of billable time and additional non-billable services per week. During periods of severe staff
shortages, clients are either transferred to other programs or have their services ended.

Website: http://www.dcfs.state.nv.us/DCFS CommunityBasedOPSvcs.htm

3.05 Foster Care - Out-of-Home Placements

- **Program:** Foster Care services are provided as temporary placement for children who are removed from the home to protect them from harm or risk. Needs assessments are conducted and a caseworker arranges care and services for the child, and also provides counseling to the child, biological parents, and the foster/substitute care provider. Permanency plans developed with the district court may include reunification, kinship placement, adoption or other planned permanent living arrangements.
- Administration:Division of Child and Family Services (DCFS) Family Program's Office has oversight responsibility to
monitor compliance with federal/state requirements and provide technical assistance as needed.
Federal funding is administered through DCFS to child welfare programs in Clark and Washoe Counties.
Rural programs are administered directly by DCFS.

FYTD:	Clark	Washoe	Rurals	Total

FY17 Total	9,382	2,853	1,122	13,357
FY17 Avg	3,127	951	374	4,452

Analysis of Trends:

In November 2013, the Nevada Safety Model was first implemented in Clark County. This model has enhanced the staff's ability to identify appropriate services to reduce safety issues and may have contributed to fewer reports of maltreatment and reduced out-of-home placements.

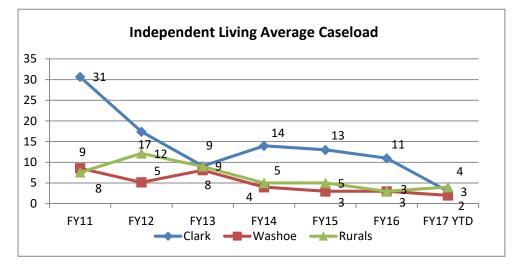

Website: http://www.dcfs.state.nv.us/DCFS_PlaceRes.htm

3.06 Foster Care - Independent Living

- **Program:** The Nevada Independent Living Program is designed to assist and prepare foster and former foster youth in making the transition from foster care to adulthood by providing opportunities to obtain life skills for self-sufficiency and independence. The Independent Living Program does this by offering many learning and training opportunities along with financial assistance. The three major sources of funding to assist foster youth in care and those that have aged out of the foster care system come from the federal and state government.
- **<u>Eligibility:</u>** Services are available to youth aged 14 and above who are currently in foster care and to former foster youth who have aged out of the foster care system at age 18. Youth who were adopted from foster care on or after their 16th birthday is also eligible for services. Those who aged out of care may continue receiving services to age 21, including those who came to Nevada from another state.

Other:Supplemental financial assistance is provided through the Fund to Assist Former Foster Youth (FAFFY).These funds provide assistance with household goods, job training, housing assistance, case
management and medical insurance. Assistance is available up to age 21.

refined.

Website: http://www.dcfs.state.nv.us/DCFS IndependentLiving.htm

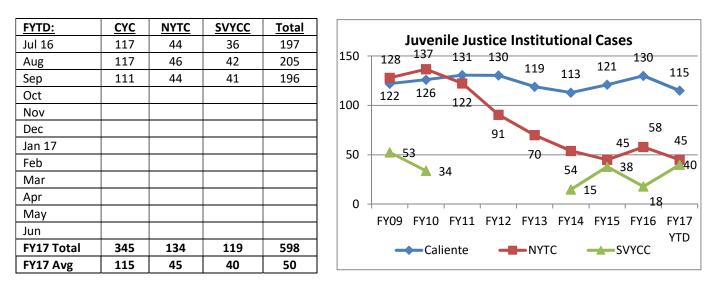

3.07 Juvenile Justice - Facilities

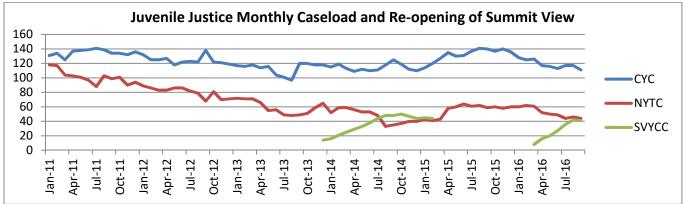

(SVYCC):

Caliente Youth
Center (CYC):Opened in 1962 and renovated in 1977. Juvenile facility/training school. Security: staff-secure.
Programs: academic education, vocational training, substance-abuse education, psychological
counseling, outdoor work crew, behavior/anger management, violence prevention,
prerelease/transitional training, cognitive-skills training, private family visitation.

Nevada Youth
Training Centeropened in 1913 and renovated in 1961. Juvenile facility/training school. Security: staff-secure.Training Center
(NYTC):Programs: academic education, vocational training, substance-abuse counseling, psychological
counseling, behavior/anger management, cognitive-skills training, violence prevention, private family
visitation, NIAA interscholastic sports.

Summit View
YouthRe-opened as State-run facility in February of 2016. Security: Physically-secure. Programs: academic
education, vocational training, substance-abuse counseling, psychological counseling, behavior and anger
management, family visitation, transition planning, positive behavioral interventions and supports.Center

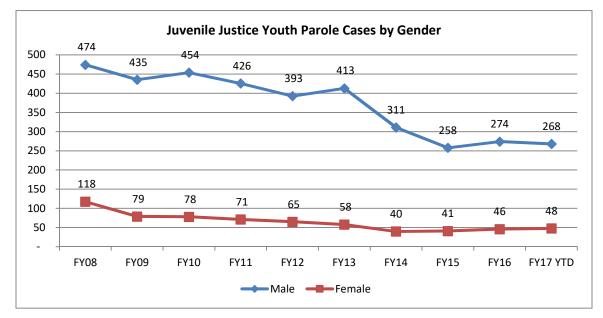

Analysis of
Trends:Initiatives such as the Juvenile Detention Alternatives Initiative (JDAI), state investments in front-end
programs and the targeted focus of the Nevada Supreme Court Commission on Statewide Juvenile Justice
Reform have driven efforts in Juvenile Justice to reduce State commitments. The populations of NYTC
and CYC lowered upon opening of SUYC. The Division is currently working with the Council of State
Governments in an in-depth analysis of our Juvenile Justice System.

Website: http://dcfs.nv.gov/Programs/JJS/

3.08 Juvenile Justice - Youth Parole

- **Program:** The Nevada Youth Parole Bureau has offices in Las Vegas, Reno, Carson City, Fallon and Elko. The staff is committed to public safety, community supervision, and services to youth returning home from juvenile correctional facilities. All youth parole counselors have been trained and certified as peace officers and act in accordance in the performance of their duties. Working closely with families, schools and the community, parole counselors help each youth maintain lawful behavior and encourage positive achievement. The Bureau also supervises all youth released by other states for juvenile parole in the State of Nevada pursuant to interstate compact.
- **<u>Eligibility:</u>** Males and females; Felony and misdemeanor adjudications. Ages 12-21.

Analysis of
Trends:Initiatives such as the Juvenile Detention Alternatives Initiative (JDAI) and the targeted focus of the
Nevada Supreme Court Commission on Statewide Juvenile Justice Reform have driven efforts in Juvenile
Justice to reduce State commitments. Reduced counts at NYTC coincide with the re-opening of the
Summit View academy in December 2013.

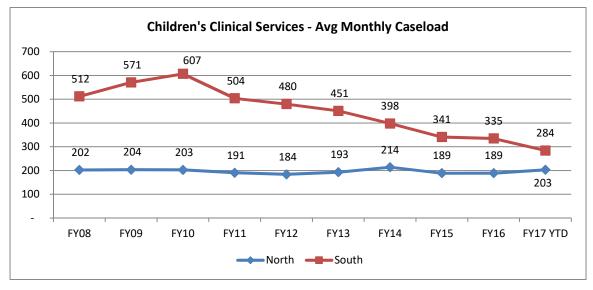

Website: http://www.dcfs.state.nv.us/DCFS_JJS_YouthParole.htm

3.09 Children's Clinical Services

- Program:Outpatient therapy services are available for eligible children and adolescents who have significant
emotional, mental health, or behavior problems. These services work with children and their families to
reduce challenging behaviors, increase emotional and behavioral skills, improve functioning at home, in
school and in the community, and strengthen the parent-child relationship while supporting the family's
capacity to care for their child's needs. Northern Nevada Child & Adolescent Services is located in
Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.
- Eligibility: Ages 6 to 18.

<u>Other:</u> Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada Check Up, and children who are uninsured or underinsured.

FYTD:	<u>North</u>	<u>South</u>

FY17 Total	508	852
FY17 Avg	203	284

Analysis of
TrendsDue to a shortage of staff (including nurses, clinical social workers, and psychiatrists, for example),
several units had to be closed since 2010, resulting in a decrease in children's clinical services.

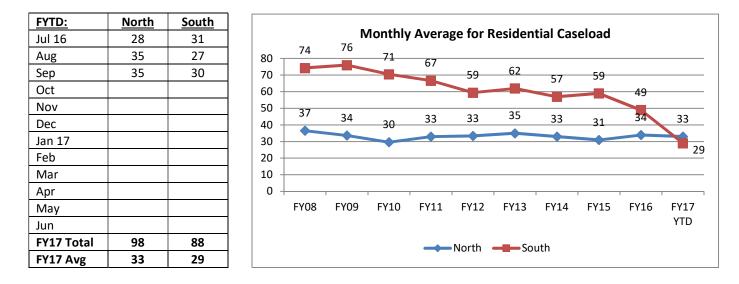

Website: http://dcfs.nv.gov/Programs/CMH/Community-Based-Outpatient-Services/

3.10 Residential Treatment Services

- **Program:** Treatment Center services work in the context of family and community life with children and adolescents whose emotional, mental health, and behavioral needs cannot be met in their own families and who require a higher level of mental health intervention in an out of home setting. Inpatient acute hospital care provides services for eligible children and adolescents ages 6 to 18 years who are at immediate risk of harm to themselves or others due to an emotional crisis and Residential Treatment center care for eligible children and adolescents from age 12 to 18 years with treatment needs that require extended 24-hour secure care. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.
- **<u>Eligibility:</u>** North: Ages 6 to 18 are served through Family Learning Homes; ages 13 to 18 are served through Adolescent Treatment Homes.

South: Ages 6 to 18 are served through Oasis on Campus Treatment Homes and Desert Willow Treatment Center.

Other: Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada CheckUp, and children who are uninsured or underinsured.

<u>Analysis of</u>

Trends:

1. In the North, counts were lower due to staff shortages.

2. In the South, the decline in Residential Treatment Services since SFY08 was due to the following reasons: As of the December 2015 update, DCFS had closed approximately six agencies with two more pending in the last two years. There had been a net decrease of approximately 50 Higher Level of Care (HLOC) beds over the last two years; the implementation of AB348 greatly increased the standards required for HLOC agencies. Many agencies have been unable to meet the requirements and were forced to close. Others voluntarily closed when their parent companies left Nevada. This led to the following:

a. A decrease in the number of agencies providing services.

b. Agencies accepting sibling groups to fill their beds instead of specialized placements. Agencies universally prefer higher-functioning sibling groups that pay nearly the same as the HLOC rate.

c. A change in Medicaid approval of Basic Skills Training/Psychosocial Rehabilitative (BST/PSR) services. The statewide Specialized Foster Care Pilot may have impacted the decrease as well.

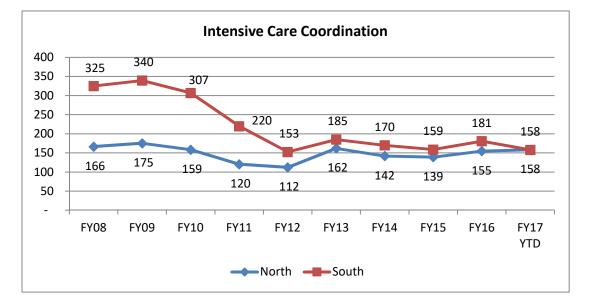

Website: http://dcfs.nv.gov/Programs/CMH/Resident-day-treatment-svcs/

3.11 Intensive Care Coordination Services

- Program:Intensive Care Coordination is provided using a wraparound model for children, ages birth to eighteen
years, with severe emotional disturbance and multiple, complex needs across multiple child serving
systems. Services include assessment, case planning, crisis response, and monitoring. Needs that require
extended 24-hour secure care. Northern Nevada Child & Adolescent Services is located in Washoe
County, and Southern Nevada Child & Adolescent Services is located in Clark County.
- Eligibility: Ages 6 to 18.

Other: Serves children with fee-for-service Medicaid benefits.

Page Left Intentionally Blank

4.01 Medicaid Totals

- Program:Medicaid is a joint Federal-State program that provides medical services to clients of the State public
assistance program and, at the State's option, other needy individuals, as well as augments hospital and
nursing facility services that are mandated under Medicaid. States may decide on the amount, duration,
and scope of additional services, except that care in institutions primarily for the care and treatment of
mental disease may not be included for persons over age 21 and under age 65.
- Eligibility:Eligibility for Medicaid is not easily explained as there are a number of different mandatory and several
optional categories where eligibility can be approved. For more detailed information about the many
different categories of Medicaid eligibility, please access the link below and select "Eligibility &
Payments Information Manual" off the Home page. Next select the "Maps" tab.

Fiscal Year	Average Cases	Total
FISCAI TEAR		Expenditures
FY 13	303,526	\$1,740,345,035
FY 14	380,051	\$2,027,481,858
FY 15	576,442	\$2,964,391,898
FY 16	617,904	\$3,240,369,856
FY 17	636,619	Not Yet Available

Workload History:

All statistics are estimates only and must be qualified as such if used either verbally or in written form.

Analysis of
Trends:Recent trends in caseload growth are due to the expansion of Medicaid enrollment brought on by the
implementation of The Patient Protection and Affordable Care Act (PPACA). All of the significant
changes in caseload prior to the implementation of the PPACA, including the FY 2007 "dip", arose for
macroeconomic reasons. There were no material explanatory changes in other areas (e.g., eligibility
criteria or take-up rate) during the period. The principal causal factors are (1) population/demographic
change, (2) secular trends in returns-to-skills, (3) the cyclic variation in the overall economy, (4) the
cyclic variation in the labor market and (5) the complex lags associated with the aforementioned cycles
and caseloads for means-tested social programs. Select the below link and at the bottom right hand
corner of the Home page, under "State Employees", select "Budget & Caseload Statistics".

4.02 Medicaid Waivers

Program:

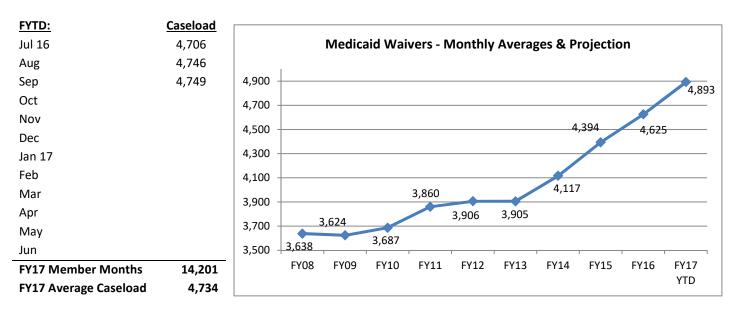

Waiver for the Frail Elderly (FE) - This waiver serves recipients age 65 or older who demonstrate a need of waiver services, as determined by the Division for Health Care Financing and Policy (DHCFP) and the Aging and Disability Services Division (ADSD), and who maintain the required Level of Care (LOC) (admission into a Nursing Facility within 30 days if waiver services or other supports were not available).

Waiver for Individuals with Intellectual Disabilities and Related Conditions (IID) - This waiver serves recipients of all ages who have a documented intellectual disability or related condition, such as Autism or Down Syndrome, as determined by the Division of Health Care Financing and Policy (DHCFP) and the Aging and Disability Division (ADSD), and who maintain the required Level of Care (LOC) (admission into a Nursing Facility within 30 days if waiver services or other supports were not available).

Waiver for Persons with Physical Disabilities (PD) - This waiver serves recipients of all ages who have a documented physical disability, as determined by the Division of Health Care Financing and Policy (DHCFP) and the Aging and Disability Services Division (ADSD), and who maintain the required Level of Care (LOC) (admission into a Nursing Facility within 30 days if waiver services or other supports were not available).

Workload History:

Fiscal Year	Average Cases	Total Expenditures
FY 12	3,906	\$32,148,992
FY 13	3,905	\$33,550,204
FY 14	4,117	\$45,573,096
FY 15	4,394	\$54,565,860
FY 16	4,625	\$57,697,625
FY 17	4,893	Not Yet Available

Analysis of
Trends:Actual caseload data is trending slightly below both budgeted and projected caseloads. Expenditures in
total and in average cost per client are above budgeted amounts most likely because budgeted
expenditures were too conservative. Expenditures for these types of waivers, which are home and
community based, can be difficult to predict due to their nature.

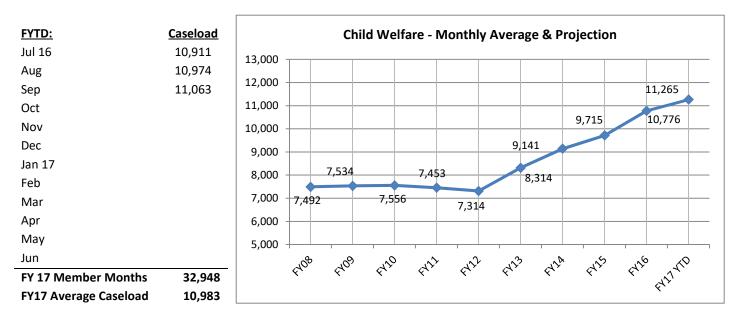

4.03 Child Welfare

- **Program:** This category contains medical costs for child welfare cases involving children for whom a public agency is assuming full or partial financial responsibility.
- **<u>Eligibility:</u>** For recipients who qualify for Medicaid under the child welfare eligibility guidelines, regardless of whether they are in state, county, or parental custody.

Funding: Funding for this program is split 64.74% Federal funds and 35.26 State General Fund.

Work	load	Histo	ory:

Fiscal Year	Average Cases	Total Expenditures
FY 12	7,453	\$81,090,998
FY 13	7,314	\$77,728,952
FY 14	8,314	\$80,223,551
FY 15	9,715	\$85,311,870
FY 16	10,776	\$89,989,893
FY 17	11,265	Not Yet Available

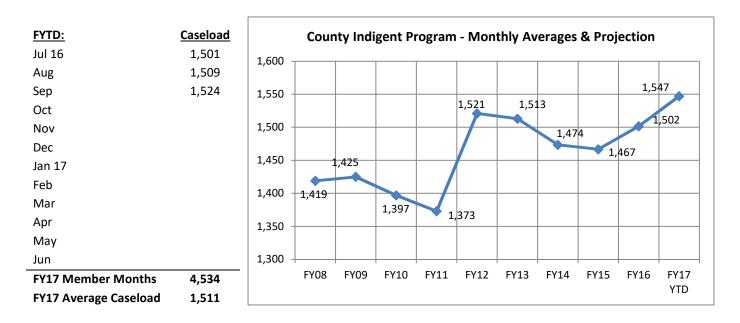

All statistics are estimates only and must be qualified as such if used either verbally or in written form.

Comment:Caseload for this targeted group is significantly above budgeted amounts and currently tracks just
below projections. Overall expenditures for this group is above budgeted amounts due to a larger
population than budgeted. The average cost per client fluctuates above and below budgeted amounts
based on the type and amount of expenditures paid.

4.04 County Indigent Program

- **Program:** This category contains medical costs for the county indigent population. Nevada counties pay the non-federal portion of medical costs for institutionalized individuals and waiver recipients with incomes between 142-300 percent of the FBR. Counties are required to pay up to the proceeds of an eight cent ad valorem assessment determined by the Nevada Department of Taxation. Any costs above that, on an individual county level, is the responsibility of the State and illustrated in category 40, County Match Supplemental Fund.
- **Eligibility:** Institutionalized recipients between 142-300 percent of the Federal Benefit Rate.
- Funding:Nevada counties pay the non-federal portion of medical costs for institutionalized individuals and
waiver recipients with incomes prescribed by the Director annually. Counties are required to pay up to
the proceeds of an eight cent ad valorem assessment. Any costs above that, on an individual county
level, is borne by the State.

Workload History:				
Fiscal Year	Average Cases	Total Expenditures		
FY 12	1,521	\$82,369,562		
FY 13	1,513	\$69,436,551		
FY 14	1,474	\$63,327,976		
FY 15	1,467	\$65,454,612		
FY 16	1,502	\$65,743,842		
FY 17	1,547	Not Yet Available		

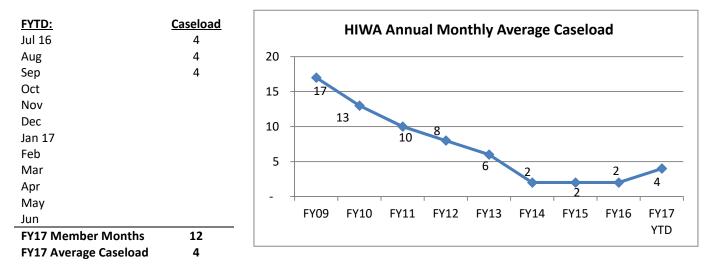

Comment: At the current time actual caseload is in line with budgeted caseload. Projected caseload s are significantly above budgeted caseload numbers. The difference however is only a few participants which may make the chart differences appear larger due to a smaller population. In addition, total expenditures and average cost per client are significantly lower than budgeted amounts most likely due to estimates assuming higher cost care than has been required for this participant category.

4.05 Health Insurance for Work Advancement (HIWA)

- **Program:** HIWA provides necessary health care services and support for competitive employment of persons with disabilities aged 16 through 64. The program is designed so individuals with disabilities who are employed can retain or establish Medicaid eligibility if they meet certain eligibility criteria. Those receiving this coverage pay a monthly premium of between 5 percent and 7.5 percent of their monthly net income.
- **<u>Eligibility:</u>** Citizenship, residency, disability and current employment are requirements of the program. The resource limit is \$15,000. A vehicle, special needs trusts, medical savings accounts and tax refunds are some of the resources which are excluded. There are several work-related expenses which are disregarded such as travel-related costs, employment-related personal care aid costs, service animal costs and other costs related to employment.
- Other:HIWA was implemented in July 2004. Maximum gross unearned income limit, prior to disregard is \$699.
Maximum gross earned income limit, prior to disregards is 450% of the Federal Poverty Level (FPL). The
total net earned and unearned income must be equal to or less than 250% of the FPL. The individual
must be disabled as determined by the Social Security Administration, either through current or prior
receipt of social security disability benefits. A recipient losing employment through no fault of their
own, remains eligible for three additional months provided the monthly premiums continue to be paid.
Retroactive enrollment is permitted with payment of monthly premiums.

Workload History:

Fiscal Year	Average Cases	Total Expenditures
FY 12	8	\$8,649
FY 13	6	\$6,727
FY 14	2	\$6,208
FY 15	2	\$26,881
FY 16	2	\$15,404
FY 17	4	Not Yet Available

Comment: The 2014 American Community Survey of the US Census reported Nevada had an estimate of 1,747,883 persons aged 18-64. Of the 1,231,682 employed, 82,484 people were with a disability and 1,149,198 people were without a disability. Of the 116,906 unemployed, 15,188 people were with a disability and 101,718 people were without a disability.

4.06 Health Information Technology (HIT)

The Health Information Technology for Economic and Clinical Health (HITECH) Act was **Program:** enacted as part of the 2009 American Recovery and Reinvestment Act (ARRA) and authorized outlays for Health IT. It expanded the role of states in fostering a technical infrastructure to facilitate intra-state, interstate and nationwide health information exchange (HIE). Better health care does not come from the adoption of technology itself. It is accomplished through the electronic exchange and use of health information for effective clinical decisions at the time and point of care. Health Information Technology (HIT) was responsible for administering the 4-yr. \$6,133,426 Nevada ARRA HITECH State HIE Cooperative Agreement awarded to DHHS, of which approximately \$4.2 million was actually expended. The funding was used to facilitate creating the core infrastructure and capacity enabling the electronic exchange of health information and coordinating related HIE initiatives, including state economic and workforce development. The State HIE Cooperative Agreement performance period was February 8, 2010 through February 7, 2014. As required by the grant, Nevada's State HIT Strategic and Operational Plan (State Other: Health IT Plan) was approved by federal HHS in May 2011, and the most recent required updated version was approved October 2013. The plan's implementation was enabled and supported by NRS 439.581 through 439.595 (Senate Bill 43 passed in 2011). Comments: In September 2009, Governor Jim Gibbons issued an Executive Order establishing the Nevada Health IT Blue Ribbon Task Force (HIT Task Force), to assist DHHS with the development of the State HIT Plan and to recommend legislative and policy actions. From October 2009 through January 2011, the HIT Task Force met almost monthly, under Open Meeting Law, and its final recommendations were incorporated into both the State Health IT Plan and SB 43. By Executive Order, the HIT Task Force sunset on June 30, 2011, after successfully completing its mission. Per NRS 439.588, the Nevada Health Information Exchange (NV-HIE) was established September 2012 as a Nevada domestic non-profit corporation. Due to an unclear path for financial sustainability and the existence of a competing HIE in the marketplace, the NV-HIE Board voted on January 24, 2014 to cease operations on February 7, 2014. On January 31, 2014, the NV-HIE Board voted to dissolve the corporation, which was done by the Nevada Secretary of State on February 28, 2014. At the end of the grant, Nevada was recognized by federal HHS for having the 2nd highest number of medical laboratory participants out of all 56 State and territory HIE grantees, and was commended for having 97% of its pharmacies

enabled for and actively using e-Prescribing. Also, Nevada took a leadership role in interstate HIE, as a core member of the successful Westerns States Consortium federal grant project, and was a founding member of the National Association for Trusted Exchange (NATE), a non-profit organization made up of state HIE officials seeking to advance interstate HIE through state policy coordination.

<u>Currently:</u> Health Information Technology advancement is underway throughout the Department of Health and Human Services.

5.01 TANF Cash - Single Parent

Program:This program is a cash assistance program with its focus on employment and self-sufficiency. In order to
receive continued monthly benefits, households must meet the conditions of their Personal
Responsibility Plan, which includes work participation requirements. Failure to do so results in a full
family sanction with no cash benefits for three months. Upon reapplication and approval, the household
will be required to meet the conditions of their Personal Responsibility Plan.

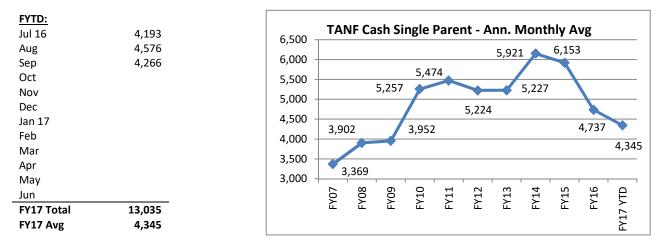

Eligibility:Citizenship, residency, children's immunizations and proof of school-age children in school, living with a
specified relative, social security number for each recipient, less than \$6,000 countable resources per
TANF case (exceptions: 1 automobile, home, household goods and personal items).

Need Standard:

Household Size	Maximum Income Test (130% of FPL)	Need Standard 100%	Payment Allowance 75% of FPL
1	\$1,287	\$990	\$253
2	\$1,736	\$1,335	\$318
3	\$2,184	\$1,680	\$383
4	\$2,633	\$2,025	\$448
5	\$3,081	\$2,370	\$513
6	\$3,530	\$2,715	\$578
7	\$3,979	\$3,061	\$643
8	\$4,430	\$3,408	\$708

Workload History:

Fiscal Year	Average Monthly Cases	Total Expenditures
FY 12	5,224	\$18,044,184
FY 13	5,227	\$18,149,842
FY 14	6,153	\$21,676,920
FY 15	5,921	\$21,049,604
FY 16	4,737	\$16,642,056
FY 17 YTD	4,345	Not Yet Available

<u>Comments:</u> There has been a significant decrease in TANF NEON recipients due to several factors: More clients have exhausted their 60-month lifetime limit and, as a result, are no longer eligible for TANF payments; more stringent pre-eligibility requirements have slowed down approvals for TANF NEON; and NEON caseloads are smaller and more manageable and are therefore being terminated timely.

5.03 Child Only Cash Programs

- These programs are designed for households who do not have a work eligible individual. No adults **Program:** receive assistance due to ineligibility or because the caretaker is a non-needy relative caregiver. Categories of child only households include: Non-Citizen Parent, SSI Parent Household, Non-Needy Caretaker Relative Caregiver (NNRCC), and Kinship Care. The caretakers in these cases have no work participation requirements included in their Personal Responsibility Plan. Non-Needy and Kinship Care caretakers receive a higher payment based on the number of children and for Kinship Care the ages of the children in their care.
- **Eligibility:** Citizenship, residency, children's immunizations and proof of school-age children in school, living with a specified relative, social security number for each recipient, less than \$6,000 countable resources per TANF case (exceptions: 1 automobile, home, household goods and personal items). Total household income must be less than or equal to 275 percent of poverty for Non-Needy and Kinship Care caretakers.

Need Standard:

Household Size	Maximum Income Test (130% of FPL)	Payment Allowance 35%	NNRC* 275% FPL**	NNRC Allowance
1	\$1,287	\$253	\$2,723	\$417
2	\$1,736	\$318	\$3,671	\$476
3	\$2,184	\$383	\$4,620	\$535
4	\$2,633	\$448	\$5,569	\$594
5	\$3,081	\$513	\$6,518	\$654
6	\$3,530	\$578	\$7,466	\$713
7	\$3,979	\$643	\$8,417	\$772
8	\$4,430	\$708	\$9,371	\$831

Note: Kinship Care Allowance: 0-12 year of age = \$400 per child, if there is only one child the payment is \$417; 13 yrs+ = \$462 per child

*NNCT = Non-Needy Relative Caretaker; FPL = Federal Poverty Level

5.04 Temporary Assistance for Needy Families (TANF) - All Cash Programs

- Program:Temporary Assistance for Needy Families (TANF) is a time-limited, federally-funded block grant to
provide assistance to needy families so children may be cared for in their homes or in the homes of
relatives. TANF provides parents/caregivers with job preparation, work opportunities and support
services to enable them to leave the program and become self-sufficient.
- Eligibility:Citizenship, residency, children's immunizations and proof of school-age children in school, living with a
specified relative, social security number for each recipient, less than \$6,000 countable resources per
TANF case (exceptions: one automobile, home, household goods and personal items).

Need Standard:

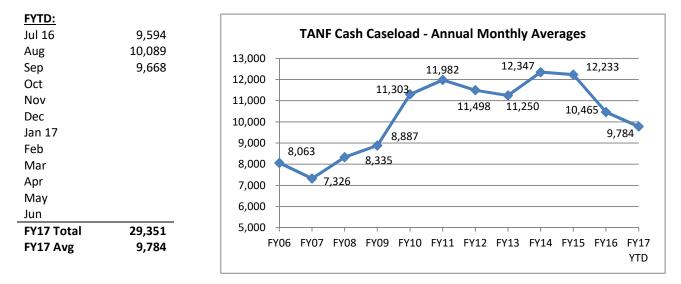

Household Size	100% Need Standard (75% of FPL)	Maximum Payment Allowance	NNCT*/CON 275% FPL*	NNCT*/CON Payment Allowance
1	\$743	\$253	\$2,723	\$417
2	\$1,001	\$318	\$3,671	\$476
3	\$1,260	\$383	\$4,620	\$535
4	\$1,519	\$448	\$5,569	\$594
5	\$1,778	\$513	\$6,518	\$654
6	\$2,036	\$578	\$7,466	\$713
7	\$2,296	\$643	\$8,417	\$772
8	\$2,556	\$708	\$9,371	\$831

Kinship Care Allowance: 0-12 year of age = \$400 per child (unless there is only one child in this age group in the home the amount is \$417); 13 yrs+ = \$462 for each child.

*NNCT = Non-Needy Caretaker; FPL = Federal Poverty Level.

Workload History:

Fiscal Year	Average Cases	Total Expenditures
FY 12	11,498	\$44,664,101
FY 13	11,250	\$43,525,013
FY 14	12,347	\$48,159,450
FY 15	12,233	\$48,367,759
FY 16	10,465	\$41,928,930
FY 17 YTD	9,784	Not Yet Available

<u>Comments:</u> Total of all TANF Cash Cases. For statistical purposes only as each aid code is different and cannot be compared.

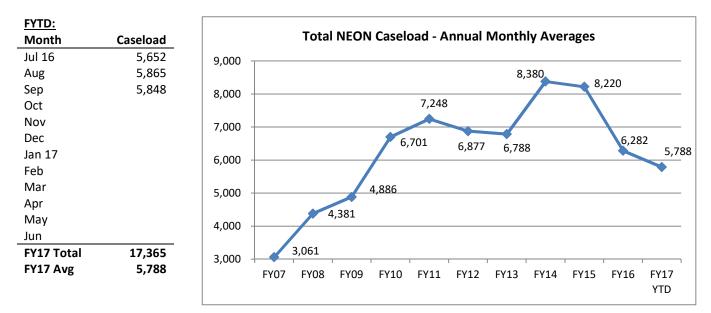

Website: https://dwss.nv.gov/TANF/Financial_Help/

5.05 New Employees of Nevada (NEON)

- **Program:** The Nevada Division of Welfare and Supportive Services' TANF Employment and Training Program is called "New Employees of Nevada (NEON)". The program provides a wide array of services designed to assist TANF households become self-sufficient primarily through training, employment and wage gain; thereby, reducing or eliminating their dependency on public assistance programs. NEON provides support services in the form of child care, transportation, clothing, tools and other special need items necessary for employment.
- **<u>Eligibility:</u>** Individuals who meet the definition of a "work eligible individual" are NEON mandatory. This includes all adults or minor head-of-households (HOH) receiving assistance under TANF-NEON program. This excludes minor parents not HOH or married to the HOH, ineligible non-citizens, SSI recipients, parents caring for disabled family members in the home and tribal TANF recipients.

Workload History:

Fiscal Year	Average Cases
FY 12	6,877
FY 13	6,788
FY 14	8,380
FY 15	8,220
FY 16	6,282
FY 17 YTD	5,788

Comments:

With the slow but steady economic gains of SFY13 continuing to carry forward into the first quarter of SFY14, the recent rise in the NEON caseload is not following its historical correlation to the state's economy. This rise in the caseload is theorized to be a result of the recent implementation of the Affordable Care Act Medicaid expansion and new streamlined eligibility process. New Medicaid applicants are becoming aware of their eligibility for TANF and efficient application business processes are removing barriers and improving program access. If correct, it is anticipated that caseload growth will stabilize by the end of the fiscal year and caseload trends will return to their historical correlation with the economy. In SFY15, the NEON caseload has continued to decrease due to program changes and the continuing economic improvement.

5.06 Adult Medicaid (Original Medicaid Group)

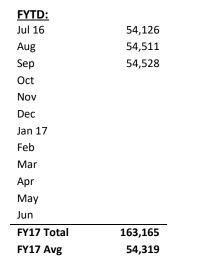

Program Notes: The Adult Medicaid group covers parents and caretaker relatives who meet income guidelines based on the previous adult group known as TANF related medical. This group also includes adults who have aged out of the foster care program, the breast and cervical cancer program and parents and caretakers who lost eligibility for Medicaid due to an increase in earnings. There are still some recipients aged 0-18 in this category; however, they will be moved to the appropriate category at natural opportunity or as redeterminations are complete. Naming this program "Adult Medicaid" best captures the general population. This is a mandatory coverage group and receives the standard Medicaid FMAP.

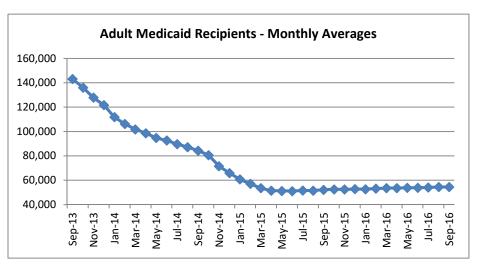

Eligibility Medicaid eligibility is determined using modified adjusted gross income (MAGI) which is based on IRS rules and includes budgeting taxable income. (Except Aged out of Foster Care and the Breast and Cervical programs) Assistance units are determined based on the household tax filing status. Adult Medicaid covers individuals with income below the AM Limit, which is the previous TANF related medical limit.

Household Size	AM Limit
	Parent/Caretakers
1	\$319
2	\$407
3	\$495
4	\$582
5	\$670
6	\$758
7	\$849
8	\$934

Workload History:

Fiscal Year	Average Cases
FY 14	118,214
FY 15	67,082
FY 16	52,843
FY 17 YTD	54,319

<u>Comments:</u> Total of all TANF Cash Cases. For statistical purposes only as each aid code is different and cannot be compared.

Website: https://dwss.nv.gov/TANF/Financial_Help/

5.07 New ACA (Affordable Care Act) Adult Medicaid

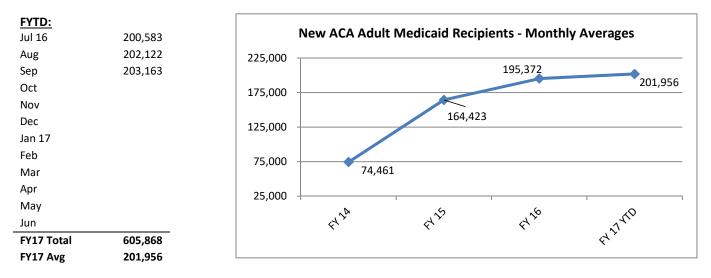

Program Notes: This category covers the expanded eligibility for adults under ACA and includes parents, caretaker relatives and childless adults. This is an optional coverage group and is entitled to the enhanced FMAP.

Eligibility Medicaid eligibility is determined using modified adjusted gross income (MAGI) rules based on IRS rules and includes budgeting taxable income. Assistance units are determined based on the household tax filing status. The new Adult Medicaid group covers individuals with income below 138 percent (which includes a 5 percent disregard) of the federal poverty level (FPL).

Household Size	138% FPL
1	\$1,366
2	\$1,842
3	\$2,318
4	\$2,795
5	\$3,271
6	\$3,747
7	\$4,224
8	\$4,703

Workload History:

Fiscal Year	Average Cases
FY 14	74,461
FY 15	164,423
FY 16	195,372
FY 17	201,956

Comments: The increasing trend is due to adding adults that are newly eligible under ACA. We anticipate this to fluctuate with the business cycle and population growth. In the short term, the enrollment period will influence growth of this caseload.

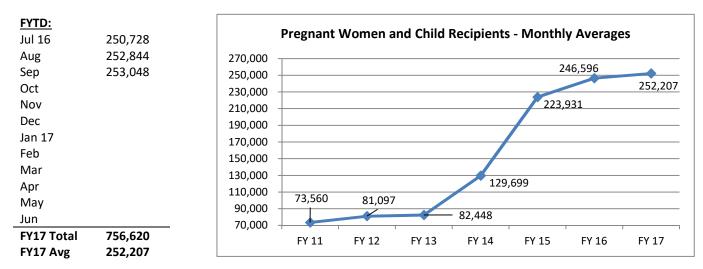

5.08 Pregnant Women and Children Medicaid

- **Program Notes:** This category covers pregnant women and children under 19. This is a mandatory coverage group and receives the standard Medicaid FMAP.
- **<u>Eligibility:</u>** Medicaid eligibility is determined using modified adjusted gross income (MAGI) which is based on IRS rules and includes budgeting taxable income. Assistance units are determined based on the household tax filing status. This category covers pregnant women and children under 6, with income below 165 percent (which includes a 5 percent disregard) of the federal poverty level (FPL) and children 6-18 with income below 122 percent of the FPL.

Household Size	Household Size 122% FPL 1	
	Children 6-18	Pregnant Women & Children 0-5
1	\$1,208	\$1,634
2	\$1,629	\$2,203
3	\$2,050	\$2,772
4	\$2,471	\$3,341
5	\$2,891	\$3,911
6	\$3,312	\$4,480
7	\$3,734	\$5,051
8	\$4,158	\$5,623

Workload History:

Fiscal Year	Average Cases	
FY 11	73,560	
FY 12	81,097	
FY 13	82,448	
FY 14	129,699	
FY 15	223,931	
FY 16	246,596	
FY 17	252,207	

<u>Comments:</u> Children grouped in households under the previous Medicaid criteria are now included in this group and is driving the growth trend. Also, the woodwork affect may be increasing the recipient caseload. It is anticipated this caseload will grow to about 260,000 by mid-2017. Thereafter it will fluctuate with the business cycle and population growth.

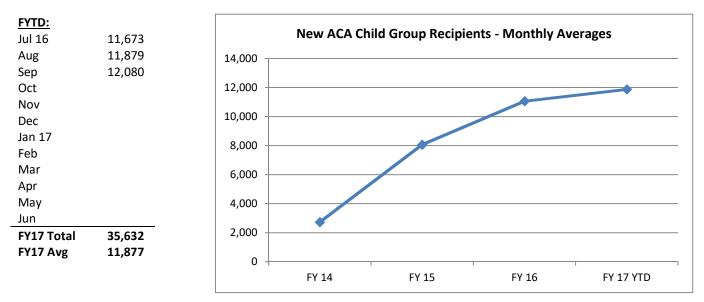

5.09 New ACA Expanded Children's Group

- **Program Notes:** The new ACA Child group covers children 6-18 with income above the CH income limit (previous page) up to 138 percent (which includes a 5 percent disregard) of the federal poverty level (FPL). This is a mandatory coverage group. These children were previously covered under CHIP and continue to receive the CHIP FMAP.
- **Eligibility:** Medicaid eligibility is determined using modified adjusted gross income (MAGI) which is based on IRS rules and includes budgeting taxable income. Assistance units are determined based on the household tax filing status. The ACA mandated the increased income limit for children ages 6-18 to 138 percent (which includes a 5 percent disregard) of the FPL. The New ACA Child group covers children between 122 percent and 138 percent FPL (which includes a 5 percent disregard).

Household Size	122% FPL	138% FPL
1	\$1,208	\$1,366
2	\$1,629	\$1,842
3	\$2,050	\$2,318
4	\$2,471	\$2,795
5	\$2,891	\$3,271
6	\$3,312	\$3,747
7	\$3,734	\$4,224
8	\$4,158	\$4,703

Workload History:

Fiscal Year	Average Cases
FY 14	2,736
FY 15	8,072
FY 16	11,061
FY 17 YTD	11,877

Comments:The New ACA child category increased as children were moved from Nevada Check Up at natural
opportunity or at redetermination which was completed by April 2015. Caseload is expected to
fluctuate with the business cycle and population growth.Website:https://dwss.nv.gov/

5.10 Nevada Check Up

Program:Effective July 1, 2013 (SFY14) the Nevada Check Up (NCU) program was transferred from DHCFP to DWSS as a
result of ACA system requirements. As of October 1, 2013, NCU eligibility is determined by DWSS.
Authorized under Title XXI of the Social Security Act, (NCU) is the State of Nevada's Children's Health
Insurance Program (CHIP). The program provides low cost, comprehensive health care coverage to low
income, uninsured children 0 through 18 years of age who are not covered by private insurance or Medicaid.
The NCU program requires a monthly premium based on household size and income.

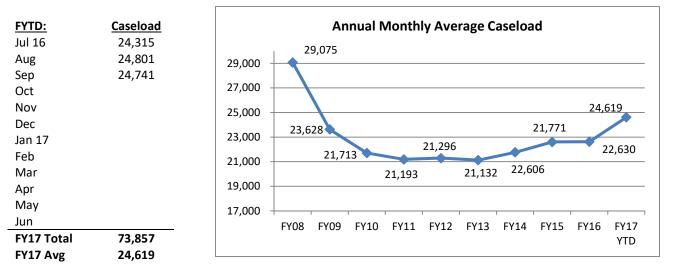

Effective January 1, 2016, DWSS implemented a policy which allows children who have access to Public Employees' Benefits Program (PEBP) to qualify for Nevada Check Up, if they meet all other eligibility criteria.

<u>Eligibility:</u> The family's gross annual income must be below 205 percent FPL (which includes a 5 percent disregard). Pay monthly premiums (if applicable), the child is a U.S. citizen, "qualified alien" or legal resident with 5 years' residency and is under age 19 on the date coverage began.

Income Guidelines			
Household Size 205% FPL			
1	\$2,030		
2	\$2,737		
3	\$3,444		
4	\$4,151		
5	\$4,859		
6	\$5,566		
7	\$6,275		
8	\$6,986		

Workload History:

Fiscal Year	Average Cases	Total Expenditures
FY 13	21,132	\$33,800,728
FY 14	21,771	\$38,321,913
FY 15	22,606	\$45,023,906
FY 16	22,630	\$42,698,920
FY 17 YTD	24,619	Not Yet Available

<u>Comment:</u> Expenditure totals are for benefit costs only and do not include Personnel or other Administrative expenses.

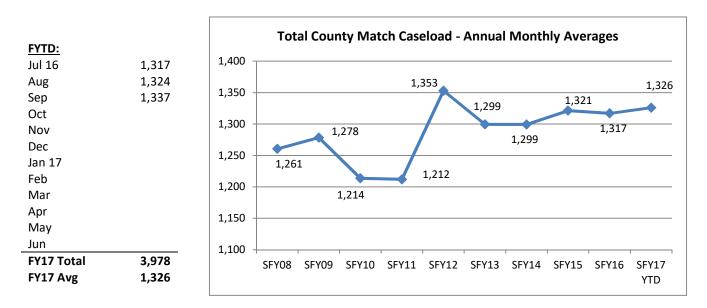

5.11 County Match

- Program:Through an agreement with the Division, Nevada counties pay the non-federal share of costs for
institutionalized persons whose monthly income is between \$1,024.01 and 300 percent of the SSI payment
level.
- **<u>Eligibility:</u>** No age requirement, a citizen of the United States or a non-citizen legally admitted for permanent residence to the U.S. and meets certain criteria, or is in another eligible non-citizen category and meets certain criteria.
- Other: Resource limits are determined by whether a person is considered an individual or a member of a couple. When resources exceed the following limits, the case is ineligible. \$2,000 for an individual or \$3,000 for a couple. Resources are evaluated at market value less encumbrances. Certain types of resources are excluded, such as: Term life insurance policies, and life insurance policies when the total face value is less than \$1,500; vehicles necessary to produce income; transportation for medical treatment on a regular basis (specifically handicapped equipped vehicles), or the value of a vehicle up to \$4,500; burial plots/plans (certain exclusions).

Workload History (with Retros*):

Fiscal Year	Average Cases	
FY 12	1,353	
FY 13	1,299	
FY 14	1,299	
FY 15	1,321	
FY 16	1,317	
FY 17 YTD	1,326	

*Retroactive eligibility can be prior medical care or pending application processing time.

<u>Comments:</u> Money deposited in a QIT is exempt and a potential County Match recipient may never reach the CM income threshold. In SFY12 a change in eligibility requirements increased the caseload.

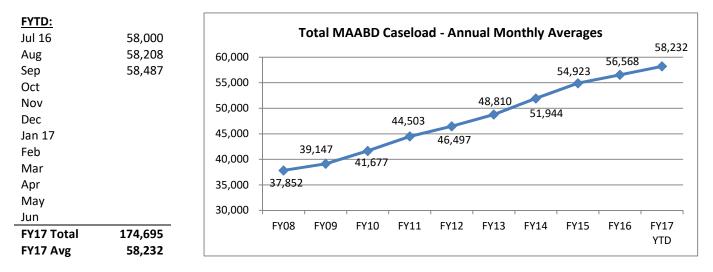

5.12 Medical Assistance to the Aged, Blind, and Disabled

- Program:These are medical service programs only. Many applicants are already on Medicare and Medicaid
supplements their Medicare coverage. Additionally, others are eligible for Medicaid coverage as a result of
being eligible for a means-tested public assistance program such as Supplemental Security Income (SSI).
Categories are: SSI, State Institutional, Non-Institutional, Prior Med, Public Law, Katie Beckett.
- **<u>Eligibility:</u>** No age requirement (except for Aged), a citizen of the United States or a non-citizen legally admitted for permanent residence to the U.S. and meets certain criteria, or is in another eligible non-citizen category and meets certain criteria.
- Other:Resource limits are determined by whether a person is considered an individual or a member of a couple.
When resources exceed the following limits, the case is ineligible. Medicare Savings Program cases:
\$7,280 for an individual or \$10,930 for a couple. Other cases: \$2,000 for an individual or \$3,000 for a
couple. Resources are evaluated at market value less encumbrances. Certain types of resources are
excluded, such as: Life insurance policies, when the total face value is less than \$1,500; vehicles necessary
to produce income; transportation for medical treatment on a regular basis (specifically handicapped
equipped vehicles), or the value of a vehicle up to \$4,500; burial plots/plans.

Workload History (with Ketros J.		
Fiscal Year Average Cases		
FY 11	44,503	
FY 12	46,497	
FY 13	48,810	
FY 14	51,944	
FY 15	54,923	
FY 16	56,568	
FY 17 YTD	58,232	

Workload History (with Retros*):

*Retroactive eligibility can be prior medical care or pending application processing time.

Comments:SSI cases can take up to 3 years for approval/denial. Total of all MAABD Cases. For statistical purposes only
as each aid code is different and cannot be compared. *Retro cases numbers are reported from SFY02
through SFY15. Beginning SFY16, actual cases are reported.

5.13 Supplemental Nutrition Assistance Program (SNAP)

Program:	The purpose of SNAP is to raise the nutritional level among low-income households whose limited food
	purchasing power contributes to hunger and malnutrition among members of these households.
	Application requests may be made verbally, in writing, in person or through another individual. A
	responsible adult household member knowledgeable of the households' circumstances may apply and be
	interviewed. The date of application is the date the application is received in the Division of Welfare and
	Supportive Services office.

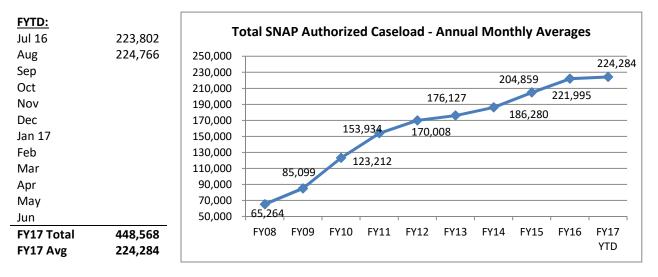

Eligibility: The household's gross income must be less than or equal to 200 percent of poverty; the household's net income must be less than or equal to 100 percent of poverty to be eligible. Households in which all members are elderly or disabled have no gross income test. The resource limit for all households except those with elderly or disabled members is \$2,000; households with elderly or disabled members have a resource limit of \$3,250 (exceptions: one vehicle, home, household goods and personal items).

Need Standard:

Household Size	100% of Poverty	130% of Poverty	200% of Poverty	Maximum Allotment
1	\$990	\$1,287	\$1,980	\$194
2	\$1,335	\$1,736	\$2,670	\$357
3	\$1,680	\$2,184	\$3,360	\$511
4	\$2,025	\$2,633	\$4,050	\$649
5	\$2,370	\$3,081	\$4,740	\$771
6	\$2,715	\$3,529	\$5,430	\$925
7	\$3,061	\$3,980	\$6,122	\$1,022
8	\$3,408	\$4,430	\$6,816	\$1,169

Workload History:

Fiscal Year	Average Cases	Total Expenditures	Total Applications
FY 14	186,280	\$527,560,395	346,314
FY 15	206,787	\$586,737,558	384,921
FY 16	222,203	\$627,536,099	402,976
FY 17	224,284	Not Yet Available	Not Yet Available

Comments:The Food Stamp Program was renamed "Supplemental Nutrition Assistance Program" (SNAP) in October
2008. The SNAP caseload has increased substantially since the start of the recession in December 2007
because of the high unemployment experienced in Nevada. A change in SNAP regulations effective
3/15/2009 made many households categorically eligible based on receiving a benefit that meets Purposes
3 and 4 for TANF and having a gross income limit of 200% of poverty. There is no further income or
resource test.

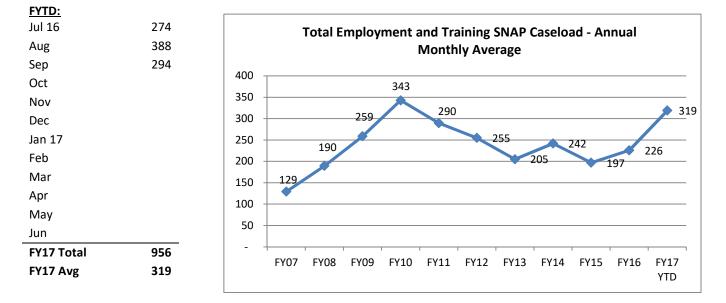

Website: https://dwss.nv.gov/SNAP/Food/

5.14 Supplemental Nutrition Employment and Training Program (SNAPET)

- **Program:** SNAPET promotes the employment of SNAP participants through job search activities and group or individual programs which provide a self-directed placement philosophy, allowing the participant to be responsible for his/her own development by providing job skills and the confidence to obtain employment. SNAPET also provides support services in the form of transportation reimbursement, bus passes and assistance meeting the expenditures required for Job Search (such as interview clothing, health or sheriff's card if it is known that one will be required).
- **Eligibility:** Registration and participation is mandatory and a condition of SNAP eligibility for all non-exempt SNAP participants. Persons who are exempt may volunteer. Persons are exempt when they are under age sixteen (16), age sixty (60) or older, disabled, caring for young children under the age of six (6) or disabled family members, already working, NEON mandatory, participant in drug/alcohol treatment, receiving UIB, age 16/17 attending school or training at least half time or eligible student age 18-49 enrolled at least half time in school or training program.

Workload History:

Fiscal Year	Average Cases	
FY 12	255	
FY 13	205	
FY 14	242	
FY 15	197	
FY 16	226	
FY 17	319	

Comments:The SNAPET caseload parallels the SNAP caseload but on a smaller scale since we only work with clients
who do not meet a work exemption. These clients are classified as work mandatory and are required to
complete an orientation and a two-month job search program or until they have become employed.
FY06 and FY07 saw growth. FY08 started showing the effects of the current deep recession (started in
December 2007), layoffs and high unemployment rates not seen in recent history. In FY09 caseloads
increased an average of 3.2 percent per month. This equals to about 38 percent increase for the year. In
FY10 a higher number of participants (that included exempt clients) were invited to orientation than in
FY09. In FY11 only mandatory clients invited to orientation were counted. In FY12 and FY13 a decrease
in invited participants was seen due to the inconsistent distribution of Federal Funds.

5.15 Child Care and Development Program

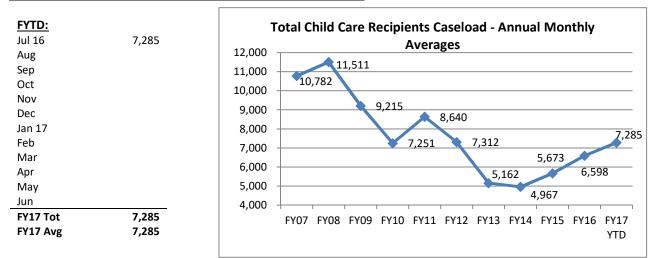

Program:The Child Care Program assists low-income families, families receiving temporary public assistance, families with
children placed by CPS, and Foster families by subsidizing child care costs so they can work. Households are able to
qualify for childcare subsidies based upon their total monthly gross income, household size, and other requirements.
Assistance is provided through 3 programs: Certificate - Provides a Certificate to an eligible household to use for
payment of child care services to an eligible provider; Contracted Slots - serves an approved number of slots for low
income families in Before and After School Programs; and Wrap-Around which also serves an approved number of
slots for low income families for services before and after Early Head Start or Head Start Program.

- **Eligibility:** To qualify for childcare subsidy assistance, the child must be under the age of 13 unless they have a special need in which case they are eligible until they turn 19. Other factors include citizenship, immunizations, relationship, and residency. Additionally, adult household members and minor parents must have a purpose of care such as working or a minor parent attending high school.
- **Fee Scale:** The Sliding Fee Scale provides the income limits for each household size. This is an example for a four-person household. The (P) indicates the federal poverty level. The column on the right designates the percentage of the State approved maximum childcare rate which would be paid by the Child Care & Development Program.

Sliding Fee Scale				
Income Limits for Family of Four	Subsidy Percent			
\$0 - \$2,025(P)	95%-110%			
\$2,026 - \$2,384	90%			
\$2,385 - \$2742	80%			
\$2,743 - \$3101	70%			
\$3,102 - \$3,459	60%			
\$3,460 - \$3818	50%			
\$3,819 - \$4177	40%			
\$4,178 - \$4535	30%			
\$4,536 - \$4886	20%			

Workload History:

Fiscal Year	Average Cases	Total Payments
FY 12	7,312	\$30,247,720
FY 13	5,162	\$21,161,327
FY 14	4,967	\$20,141,474
FY 15	5,673	\$23,217,821
FY 16	6,598	\$30,096,829
FY 17 YTD	7,285	Not Yet Available

Analysis of Trends: Beginning FY12 due to program changes, training was eliminated as a Purpose of Care and Student Purpose of Care was eliminated except for minor parents attending high school. In addition, a waitlist was implemented program wide. In FY 2014, the Program began removing families from the waitlist on a limited basis. Beginning March 2015, six-month eligibility periods were changed to 12 months. In October 2015 initial program eligibility was moved from 90% to 80% and a sliding fee scale was re-implemented, which allows families with higher incomes to continue receiving assistance with an increased copayment, up to 85% of the State Median Income.

Effective 5-23-16, all new applicant households are subject to the wait list with the exception of NEON, Foster Care, and CPS cases.

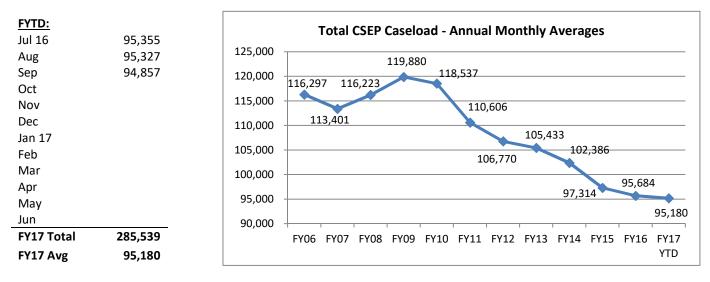

Website: https://dwss.nv.gov/Care/Childcare/

5.16 Child Support Enforcement Program

- Program:The program is a federal, state, and local intergovernmental collaboration functioning in all 50 states, the
District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands. The Office of Child
Support Enforcement in the Administration for Children and Families of the U.S. Department of Health
and Human Services helps states develop, manage and operate child support programs effectively and
according to federal law. The CSEP is administered by DWSS and jointly operated by State Program Area
Offices (PAO) and participating county District Attorney offices through cooperative agreements.
- **<u>Eligibility:</u>** There are no eligibility requirements for child support services, which include locating the non-custodial parent, establishing paternity and support obligations and enforcing the child support order. Non-public assistance custodians complete an application for services. Public assistance custodians must assign support rights to the state and cooperate with the agency regarding Child Support Enforcement (CSE) services.

Workload History:

Fiscal Year	Average Cases	Gross Collections
FY 12	106,770	\$205,934,166
FY 13	105,433	\$207,634,173
FY 14	102,386	\$209,402,698
FY 15	97,314	\$210,726,927
FY 16	95,684	\$214,484,468
FY 17	95,180	Not Yet Available

Comments: As illustrated in the Bureau of Labor Statistics Data, the CSE caseload trend is tied closely to the economy. When the economy is good, fewer customers need child support services; when there is a downward turn in the economy, more customers need child support services. Additional factors contributing to the caseload trend going down include case closure projects and stopping inappropriate referrals (unborn cases). A factor that may contribute to an increase in caseload is an increase in public assistance referrals and non-assistance applications during an economic downturn and high unemployment rate.

Website: https://dwss.nv.gov/Support/1_0_0-Support/

5.17 Energy Assistance Program

- **Program:** The Energy Assistance Program (EAP) assists eligible Nevadans maintain essential heating and cooling in their homes during the winter and summer seasons. The program provides for crisis assistance as well.
- Eligibility:Citizenship, Nevada residency, household composition, Social Security numbers for each household
member, energy usage and income are verified prior to the authorization and issuance of benefits.
Eligible households' income must not exceed 150 percent of poverty level. Priority is given to the most
vulnerable households, such as the elderly, disabled and young children.

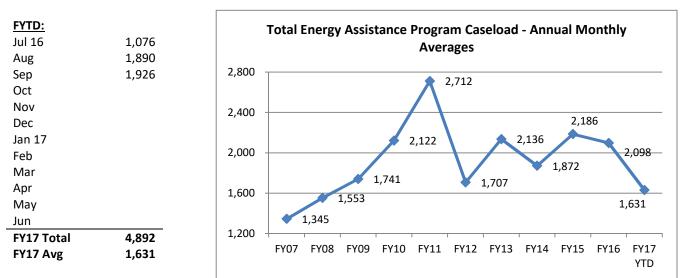

Need Standard:

2015 HHS Poverty Guidelines (100%)		Estimated State Median Income FFY 2016	
Dorcons in Family	48 Contiguous States	60% of Estimated State Median Income	
Persons in Family	and D.C.	for a Four Person Household	
1	\$11,880		
2	\$16,020		
3	\$20,160		
4	\$24,300	\$41,387	
5	\$28,440		
6	\$32,580		
7	\$36,730		
8	\$40,890		

Workload History:

Fiscal year	Average Cases	Total Cases	Total Expenditures	Total Applications
FY 14	1,872	22,463	\$16,086,863	41,190
FY 15	2,186	26,228	\$18,784,915	40,726
FY 16	2,245	26,936	\$18,512,778	41,448
FY 17	1,631	19,572*	Not Yet Available	Not Yet Available

*FY 17 data is annualized.

Comments: In FY12 the eligibility requirements were changed to lower the monthly benefit amount and FPL from 150 percent to 110 percent which has decreased the EAP caseload. FY13 increased benefits to 125 percent FPL (July) and 150 percent FPL (December) which was retroactive to July 2012. In April 2013 the benefit cap was increased for households that fall >75 percent of the poverty level guideline to bring their average energy burden in line with households that fall in the 75-125 percent and the 125-150 percent poverty levels. FY14 thru FY 16 are continuing with the same benefit amounts and poverty level that we ended with in FY13. Based on the projected funding for FY 17 the benefit cap table has been reduced and the poverty levels were left the same.

Website: https://dwss.nv.gov/Energy/1 Energy Assistance/

Page left intentionally blank

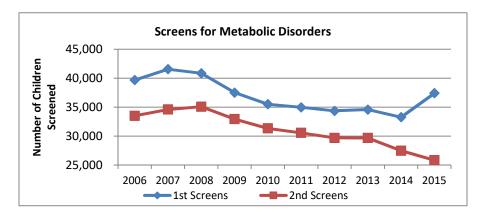

6.01 Newborn Screening (NBS) Program

- Program: Nevada Revised Statute (NRS) 442.008 mandates that all infants born in Nevada receive newborn Dried Blood Spot (DBS) screening for a panel of congenital disorders. A first screen is collected ideally between 24 and 48 hours of age, and the second screen is ideally collected between the 10th and 15th day of life. As of July 1, 2014, the Nevada State Public Health Laboratory, in conjunction with the University of Nevada-Reno (UNR) School of Community Health Sciences, is responsible for testing and following Nevada's newborn babies' blood samples shortly after birth and again at two weeks of age, to screen for approximately 46 disorders each year. The Nevada State Public Health Laboratory is contracted to screen specimens, follow-up on positive screens and provide medical consultants who provide guidance to Nevada's primary care physicians until a confirmation of a diagnosis is reached. Families of infants with identified disorders can access follow-up services through Nevada Early Intervention Services or other community providers. The Newborn Screening Program is funded entirely with birth registration fees.
- **<u>Eligibility:</u>** There are no eligibility requirements for dried blood screening. Newborn screens are required for all infants born in Nevada. Birthing facility staff are required to collect an acceptable sample before the infant is discharged from the facility and to submit the sample for metabolic screening as required in NAC 442.020-050. Infants with conditions identified in the newborn screening process are eligible for Early Intervention and Home Visiting services.

Year	Number of First Screens	Number of Second Screens	Total Number of Screenings	Percent of First Screen Babies that also Received Second Screens
2010	35,510	31,341	66,851	88.3%
2011	34,974	30,570	65,544	87.4%
2012	34,366	29,698	64,064	86.4%
2013	34,594	29,683	64,277	85.8%
2014*	33,276	27,492	60,768	82.6%
2015**	37,420	25,856	63,276	69.1%

Infants Screened by Year:

*2014 Data is annualized. ** The University provided updated numbers in January 2016. UNR projects the drop in the 2nd screen in 2015 may be due to lack of education to the providers and plan to hire additional staff.

Comments: The Nevada Division of Public and Behavioral Health no longer maintain a Newborn Screening Program due to the transition to the Nevada State Lab. There is not currently a reporting mechanism, though the Division does anticipate reports from the University on a biannual basis.

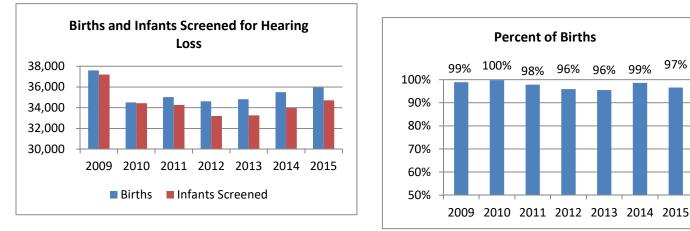

Website: http://medicine.nevada.edu/nsphl/newborn-screening

6.02 Early Hearing Detection and Intervention

- **Program:** The goals of the Nevada Early Hearing Detection and Intervention (EHDI) program are to ensure that: 1) all infants are screened for hearing loss before one month of age, 2) referred infants receive diagnostic evaluation by three months of age, and 3) infants identified with hearing loss receive appropriate early intervention by six months of age. The negative effects of hearing loss can be substantially mitigated through early intervention that may include amplification, speech therapy, cochlear implants, and/or signing. EHDI works with birthing hospitals statewide, pediatric audiologists and with Nevada Early Intervention Services to ensure infants are screened, identified, and enrolled into services within recommended time frames. The program partners with non-profits, hospitals, and audiologists to develop and update best practices and provides parents with education, support, and trained mentors. The program is entirely funded by grants from the Centers for Disease Control and Prevention (CDC) and the Health Resources and Services Administration (HRSA).
- Eligibility:There are no eligibility requirements for newborn hearing screening. NRS 442.450 requires all hospitals
in the state with 500 or more births per year to screen newborn infants' hearing prior to discharge.
However, all birthing hospitals in the state, even those with less than 500 births per year, provide
hearing screenings as a "Best Practice". All infants identified in the newborn hearing screening process
with confirmed hearing loss are eligible for Early Intervention services.

Calendar Year	Births	Infants Screened	Percentage of Births
2010	34,517	34,433	99.8%
2011	35,017	34,263	97.8%
2012	34,623	33,195	95.9%
2013	34,820	33,268	95.5%
2014	35,507	33,969	95.7%
2015*	35,945	34,713	96.6%

*2015 data is subject to revision

Comments:* Calendar Year 2015 January through December data for hearing screenings and number of births are
complete based on current program information but birth numbers are still considered to be preliminary
by the Office of Vital Records. Calendar Year 2016 is considered to preliminary to report.

 Websites:
 http://dpbh.nv.gov/Programs/EHDI/EHDI-Home/

 http://www.infanthearing.org/states/state
 profile.php?state=nevada

 http://www.cdc.gov/ncbddd/ehdi/

6.03 Immunization

Program:	The goal of the program is to decrease vaccine-preventable disease through improved immunization rates among
	children, adolescents and adults. The Program collaborates with providers, schools, pharmacies, immunization
	coalitions and other stakeholders to improve immunization practices by enrolling providers into the State Program,
	ensuring compliance to all regulations, and by educating providers how to record vaccination data and monitor
	coverage rates in the state's immunization registry (NV WebIZ).

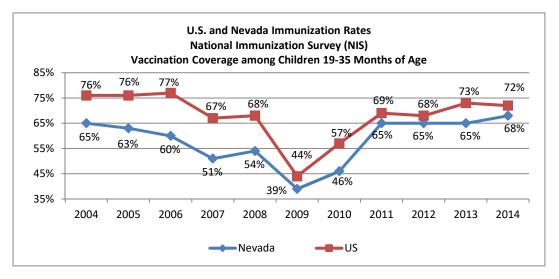

Vaccines for
ChildrenAny provider licensed by the State of Nevada to prescribe and administer vaccines may enroll as a participant in the VFCChildren
Program
(VFC):Program, as long as they serve the eligible population(s). The Program provides federally funded vaccines at no cost to
these participants, who then administer them to eligible children. VFC-eligible children include those who are
uninsured, Medicaid enrolled/eligible, or American Indian/Alaska Native; and, the family is also not charged for the cost
of these vaccines. Additionally, children enrolled in the NV Check-Up insurance plan are provided state-funded vaccines
through a contract with the Division of Health Care Financing and Policy.

NevadaAny provider that administers vaccines and any organization with a need to verify immunizations may enroll as users of
NV WeblZ. Vaccination data collected in the system can be used to identify populations at risk in the event of a disease
outbreak and to locate communities with low coverage to target interventions. On July 1, 2009 NRS 439.265 (and
corresponding regulations) went into effect, requiring all persons vaccinating children in Nevada to enter certain data
about the vaccination event. On January 28, 2010 the NRS corresponding regulation was updated requiring all persons
vaccinating adults in Nevada to also record specific information. The IIS operates as an "opt-out" system.

Program Participation:

Vaccines for	or Children Participation Status	Nevada We	bIZ Statistics
Clark	148	Clinics Using IIS	3,043
Washoe	50	HC Providers Using IIS*	1,459
Carson/Rural	73	Active Users of IIS**	15,028
	" providers (currently receiving vaccine np Leave" providers (vaccine shipments nded)	100 percent of Vaccines for enrolled to enter their immu WeblZ.	

*One HC Provider may have multiple clinics represented in Nevada WebIZ; *WebIZ data is current as of 10/11/2016. **Within one clinic are multiple users of Nevada WebIZ.

<u>Comments:</u> • From 2002 - 2006, the immunization series was 4:3:1:3:3:1 (4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B, 1 Varicella).

• From 2007 - 2011, the immunization series was 4:3:1:3:3:1:4 (4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B, 1 Varicella, 4 pneumo).

• Starting in 2007 and ending in 2009, the United States experienced a Hib shortage, hence the reason behind a significant decrease in immunization rates during that time period.

Website: http://dpbh.nv.gov/Programs/Immunization/

6.04 Women, Infants, and Children (WIC) Supplemental Food Program

Program:	The Special Supplemental Food Program for Women, Infants, and Children, commonly known as WIC, is a 100% federally funded program that provides nutritious foods to supplement the diets of limited
	income pregnant, postpartum and breastfeeding women, infants, and children under age 5 who have been determined to be at nutritional risk. At WIC participants get access to good healthy foods, advice on good nutrition, health screening, information on health care services like immunizations, prenatal care, and family planning, and information about other family support services available in their community.

Eligibility:Applicant must be (1) an infant or child under five years of age, (2) a pregnant woman, (3) a postpartum
woman (up to 6 months after giving birth), or (4) a breastfeeding woman (up to the breastfed infants
first birthday). Must be a Nevada resident and physically live in Nevada at the time of application. Must
be at or below 185% of the federal poverty level. Last, but not least, the applicant must be at
nutritional risk as determined by a Competent Professional Authority (CPA) at the WIC clinic.

Workload History:

Federal Fiscal Year	Total Expenditures	Average Caseload
FFY10	\$14,399,912	72,533
FFY11	\$14,487,881	73,507

Comments:

As one of the fastest growing states in the country, Nevada has experienced a WIC participation growth of 11 percent from FFY09 to FFY13. Further, food dollars expended for the WIC program for the same period has increased 16 percent.

The WIC program has completed its initiative through a contract with JP Morgan for the automation of the issuance of all WIC Benefits using Electronic Benefits Transfer (EBT). All participants can now use their new EBT card at any of WIC's 223 authorized grocery stores.

Website: www.nevadawic.org

6.05 Nevada Home Visiting Program

Program: The Nevada Home Visiting Program (NHV) aims to improve health, social, and academic outcomes for the most vulnerable young families in our state. NHV develops and promotes a statewide coordinated system of evidence-based home visiting supporting healthy child development and ensuring the safety of young children and family members. NHV provides home visiting services in seven (7) Nevada counties through Local Implementing Agencies (LIAs). Home Visiting has proven successful in Nevada and serving the highest need areas is a priority for NHV.

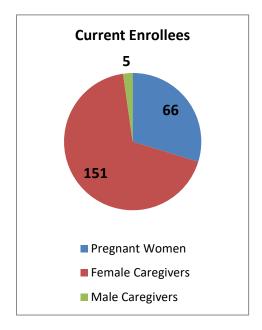

ModelsNurse Family Partnership (NFP) – Implemented in Clark County to address the needs of first time mothers.Implemented:This program utilizes public health nurses to serve pregnant women from 28 weeks' gestation until the
child is two years old.

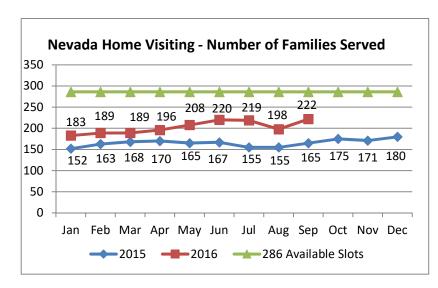

Early Head Start Home Based Option – This model is implemented in Clark, Washoe and Elko Counties and serves very low-income expectant mothers and families with children up to age three.

Home Instruction for Parents of Preschool Youngsters (HIPPY) – This model is implemented in Clark and Elko Counties and is proposed in Washoe County. The model was selected based on school readiness data identified by needs assessment in the areas served.

Parents as Teachers (PATS) – This model is implemented in Lyon, Storey and Mineral Counties. PAT was selected to serve a broad range of ages and needs in low population communities. Models with a narrower opportunity for enrollment do not meet all the needs in low population areas. This model provides service to expectant mothers and families with children up to kindergarten entry.

<u>Authority:</u> The Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) added Section 511 to Title V of the Social Security Act creating a Maternal, Infant, and Early Childhood Home Visiting Program.

Comments: The charts above show the number of enrollees served by the program. The pie chart shows the breakdown of enrollees by category. The line chart shows the enrollment numbers served by NHV program compared to enrollment capacity.

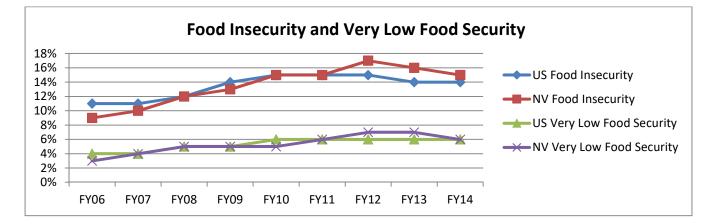

Website: http://dpbh.nv.gov/Programs/MIECHV/Nevada_Home_Visiting_(MIECHV)_-_Home/

6.06 Office of Food Security

<u>Mission:</u> It is incumbent on our society to ensure that each individual has access to healthy nutrition because it contributes to our quality of life, a strong citizenry, resilient communities and a robust economy.

Program: Leaders from government agencies, non-profit organizations and the private sector have joined forces to establish a strategic plan to increase food security in Nevada using the following core principles:

- Incorporate economic development opportunities into food security solutions.
- Use a comprehensive, coordinated approach to ending hunger and promoting health and nutrition, rather than just providing emergency short-term assistance.
- Focus on strategic partnerships among all levels of government, communities, non-profit organizations, including foundations, private industries, universities, and research institutions.
- Use available resources in a more effective and efficient way.
- Implement research-based strategies to achieve measurable results.

Agency

Key Accomplishments:

DHHS Director's Office	 In 2015 established the Office of Food Security in the Department of Health and Human Services Chronic Disease Prevention and Health Promotion Section.
Governor's Office	 In 2014 established the Statewide Food Policy Advisory Council that links to and leverages regional and local community-based efforts.
Governor's Council	 Researched and developed a menu of model policies/regulation options to promote food security in Nevada. Including breakfast after the bell programs and accountability reports for public schools.
NV Department of Agriculture	 In cooperation with a stakeholder group, drafted the Nevada School Wellness Policy to reflect current Federal School Wellness Policy Regulations.
NV Department of Agriculture	 In cooperation with a stakeholder group, conducted a comprehensive benefit analysis study of the current state and nonprofit commodity/food delivery system that includes cost efficiency, frequency of delivery, and recommendations.
NV Department of Agriculture	 In cooperation with a stakeholder group, developed a comprehensive community food supply assessment to determine what organizations, agencies and groups are providing services as well as the frequency and schedule of deliveries to determine efficiencies and opportunities for streamlining food distribution processes.
NV Department of Agriculture	 Implemented SB 503, which mandates that all schools with 70% or greater free and reduced meal eligible students, must serve breakfast after the bell.

Website: http://dhhs.nv.gov/Programs/Grants/Programs/Food Security/Food Security/

6.07 Oral Health Program

Program: The **Community Preventive Services Task Force** recommends school-based sealant delivery programs based on strong evidence of effectiveness in preventing dental caries (tooth decay) among children. This recommendation is based on evidence that shows these programs increase the number of children who receive sealants at school, and that dental sealants result in a large reduction in tooth decay among school-aged children (5 to 16 years of age). Dental (pit and fissure) sealants are clear or opaque plastic resinous materials applied to the chewing surfaces of the back teeth to prevent dental caries (tooth decay). School-based dental sealant delivery programs provide dental sealants to students either onsite at schools or offsite in dental clinics. These programs often target schools in low socioeconomic status (SES) neighborhoods, often identified based on the percentage of children eligible for the federal free or reduced-price meal programs.

Community Health Alliance sealant program is a non-profit school-based sealant program that utilizes a mobile van to provide oral health education, sealants and fluoride varnish to 2nd grade children in underserved schools in Nevada (>50 percent Free and Reduced Lunch [FRL]). They operate during the 9-month academic year.

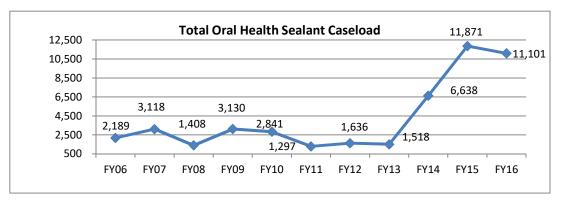

Seal Nevada South is a non-profit school-based sealant program, administered through UNLV School of Dental Medicine (SDM). The program serves uninsured children in second through fifth grade in underserved schools (>50 percent FRL) in Southern Nevada. They operate during the 9-month academic year.

Future Smiles is a non-profit school-based sealant program that provides two types of delivery models: Set locations in School-Based Health Centers for Education and Prevention of Oral Disease (EPODs) and mobile school-based locations utilizing portable equipment. Public Health Endorsed Dental Hygienists provide screenings, oral health education, dental cleanings, sealants, fluoride varnish and case management through a referral system to a local dentist or UNLV SDM. They operate 12-months of the year.

<u>Eligibility</u>: Eligibility is determined by the individual programs. (Please note: These Community-Based Organizations do not receive funding through the Division of Public and Behavioral Health for their sealant programs.)

Program	Number o	f Schools	Childrei	n Served	Sealant	s Placed

Caseload History:

<u>Comments:</u> All programs are reporting individual teeth sealed per CDC recommendations.

 Website:
 http://dpbh.nv.gov/Programs/OH/OH-Home/

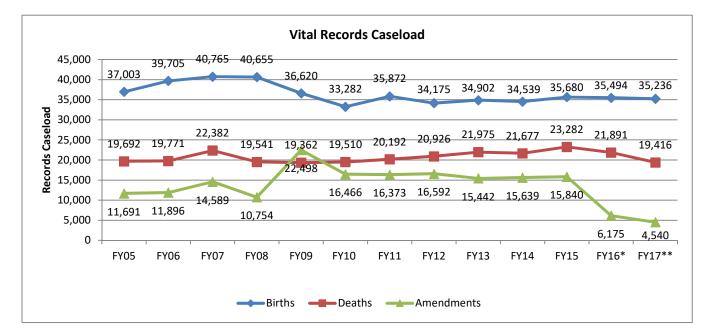

6.08 Vital Records and Statistics

- **Program:** The Office of Vital Records and Statistics administers the statewide system of Vital Records by documenting and certifying the facts of births, deaths and family formation for the legal purposes of the citizens of Nevada, participates in the national vital statistics systems, and responds to the needs of health programs, health care providers, businesses, researchers, educational institutions and the Nevada public for data and statistical information. The Office of Vital Records also amends registered records with required documentation such as court orders, affidavits, declarations and reports of adoptions per NRS and NAC 440. Amendments include corrections, alterations, adoptions and paternities.
- <u>Authority:</u> Any person or organization that can provide personal or legal relationship or need for birth, death or statistical data is eligible for services. NRS 440

Caseload:			
Fiscal Year	Births	Deaths	Amendments
FY 11	35,872	20,192	16,373
FY 12	34,175	20,926	16,592
FY 13	34,902	21,975	15,442

FY 17**	35,236	19,416	4,540

Caseload:

*FY 16 lower number of amendments due to staff shortage. **FY 17 data is annualized and amendments is affected by staff shortage.

Comments: Current processing times for the Office of Vital Records:

- Birth registration Average of 9 days
- Death Registration Average of <7 days

Note: Amendment counts include hospital paternities.

Website: http://dphb.nv.gov/Programs/Office_of_Vital_Statistics/

6.09 Women's Health Connection Program

- Mission: Reduce breast cancer mortality and incidence of cervical cancer thereby enhancing the quality of life for Nevada women and their families through collaborative partnerships, health education, and access to high quality screening and diagnostic services.
- **Program:** The Women's Health Connection (WHC) Program is a federally funded cooperative agreement through the Centers for Disease Control and Prevention (CDC). The cooperative agreement is authorized for 5-year periods, and the current agreement expires on June 29, 2017. Funding is awarded to pay for an office visit for the purpose of having a clinical breast exam, pelvic exam, and Pap test, if needed, for eligible clients. The program will pay for a screening mammogram for women 50 years of age and older. Clients who need diagnostic work-up based on an abnormal screening exam are covered by the program. Women diagnosed with breast or cervical cancer as a result of a program-eligible screening or diagnostic service and who are legal citizens of the U.S. are processed into Medicaid for treatment. The program fiscal year is June 30 to June 29 of each year. NOTE: WHC data has an approximate two-month delay due to billing timelines.
- **Eligibility:** Women must be residents of Nevada, be 40 years of age or above to receive breast cancer screening services and 21 years and above to receive cervical cancer screening services, has no Medicaid or Medicare Part B, is not a member of an HMO, or is underinsured or uninsured, and fall within 250 percent of federal poverty level.

Household Size	Eligible Monthly Income
1	\$2,452
2	\$3,319
3	\$4,185
4	\$5,052
5	\$5,919
6	\$6,785
7	\$7,652
8	\$8,519

Income is based on 250 percent of the Federal Poverty Level with rates adjusted on July 1 of each year.

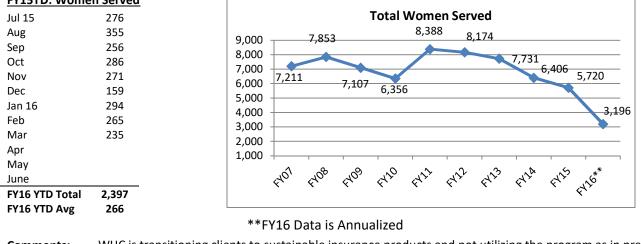

Note: For each additional person, add \$4,060

Workload History:

Fiscal Year	Avg Screening Cases/Month	Total Expenditures	Total New Enrollees
FY13	651	\$2,357,718	3,933
FY14*	539	\$2,216,255	2,377
FY15*	450	\$2,215,020	899
FY16*	284	\$425,162	500

*Data reported as of 1/04/2016

FY15TD: Women Served

<u>Comments</u>: WHC is transitioning clients to sustainable insurance products and not utilizing the program as in previous years. This allows the program to reach a new demographic of women who are at risk for cervical cancer.

Website: http://dpbh.nv.gov/Programs/WHC/Women_s_Health_Connection_-_Home/

6.10 Community Health Nursing

- **Program:** The Community Health Nursing program promotes optimal wellness in frontier and rural Nevada through the delivery of public health nursing, preventive health care, early detection of threats to public health, response to natural and human caused disasters, and education statewide. Essential public health services such as adult and child immunizations, well child examinations, chronic disease education, lead testing, Family Planning/Cancer Screening, identification/treatment of communicable diseases such as Tuberculosis (TB), Sexually Transmitted Diseases (STD) and Human Immunodeficiency Virus (HIV) are offered. Two Community Health Nurses (CHN) function as the school nurse in the rural districts without school nurses. Other nursing services are provided based on the needs of the county served.
- **<u>Eligibility:</u>** All individuals may access the CHN clinics. The targeted populations are: the working poor, under and uninsured, and indigent populations of the fourteen (14) frontier and rural counties in Nevada. PHCS CHN services are based on the federal poverty guidelines using a Sliding Scale Fee structure. Services are not denied due to inability to pay.

<u>Comments:</u> Community Health Nurse caseloads are generally decreasing due to clinics dispensing method controls for nine-month time frames instead of monthly. CHN numbers represent clients served.

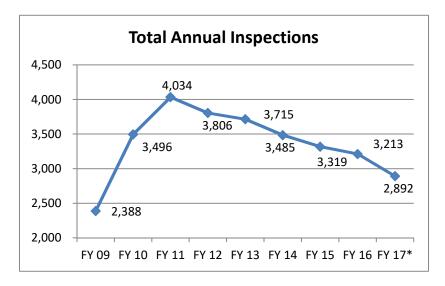

<u>Website</u> <u>http://dpbh.nv.gov/Programs/ClinicalCN/Clinical_Community_Nursing_-_Home/</u>

6.11 Environmental Health Services Program

- **Program:** The Environmental Health Services program promotes optimal wellness in frontier and rural Nevada through the delivery of food safety inspections which provides early detection of threats to public health
- **Other:** Environmental Health Services (EHS) involves those aspects of public health concerned with the factors, circumstances, and conditions in the environment or surroundings of humans that can exert an influence on health and well-being. The majority of workload is associated with food establishments. Effective January 1, 2014, Douglas County partnered with Carson City to provide environmental health services. Effective July 1, 2015, Southern Nevada Health District assumed regulatory responsibility for environmental health services at the campuses of higher learning in Clark County. Regulatory responsibilities for approximately 550 permitted facilities were transferred to Carson City, and 161 establishments were transferred to Southern Nevada Health District resulting in fewer inspections for EHS.

*FY17 data is annualized

Comments:Health inspections decreased in FY14 due to the transfer of approximately 550 Douglas
County permits to Carson City Health and Human Services. Two EHS positions were
eliminated as a result of the decrease in workload. Effective July 1, 2015, Southern Nevada
Health District will provide environmental health services at the campuses of higher
learning in Clark County. This will decrease EHS inventory by approximately 161 food
establishments for FY16.

Website: http://dpbh.nv.gov/Req/Environmental Health/

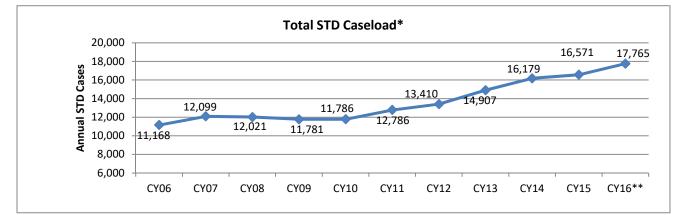

6.12 Sexually Transmitted Disease Program

- Program: The Sexually Transmitted Disease (STD) Prevention and Control Program's major function is to reduce the incidence and prevalence of sexually transmitted diseases in Nevada. The program emphasizes the importance of both education and screening of people who engage in high-risk activities by a comprehensive program of: 1) case identification and locating, 2) testing and treatment, and 3) education. The program's functions are achieved by working through public and private medical providers, local health authorities, and state and local disease intervention specialists.
- Trends:For CY 2015-Q1 through Q4, there were 12,306 reported chlamydia cases, 3,495 reported gonorrhea cases, and 322
reported primary and secondary (P&S) syphilis cases in Nevada, for a total of 16,123 STD cases. Comparing CY 2015 to the
previous reporting year, Chlamydia cases increased by 0.7percent, gonorrhea cases increased by 5.7 percent, and P&S
syphilis cases increased by 4.9 percent. Overall, the total number of reported STDs (chlamydia, gonorrhea, and P&S
syphilis) in Nevada increased by 1.8 percent from 2014 to 2015. Historically, the number of chlamydia and gonorrhea
cases reported in Nevada increase minimally from year-to-year, and the number of reported P&S syphilis cases fluctuates
from year-to-year.

The total number of reported chlamydia cases in Nevada increased from 10,445 in 2011 to 12,306 in 2015, a 17.8 percent increase during this five-year period. The rate of chlamydia in 2015 in Nevada was 428.17 cases per 100,000 population based on 2015 population projections from the Nevada State Demographer-vintage 2015 data. Nevada fell below the national chlamydia rate of 456.1 cases per 100,000 population, as reported by the 2014 CDC STD Surveillance Report. The total number of reported cases of gonorrhea in Nevada has increased from 2,034 in 2011 to 3,495 in 2015, a 71.8 percent increase during this five year reporting period. The gonorrhea rate in Nevada in 2015 was 121.60 cases per 100,000 persons based on 2015 population projections from the Nevada State Demographer-vintage 2015 data. Nevada fell above the national gonorrhea rate of 110.7 cases per 100,000 population, as reported by the 2014 CDC STD Surveillance Report.

The total number of reported cases of P&S syphilis in Nevada has increased from 137 in 2011 to 322 in 2015, a 135.0 percent increase during this five year reporting period. The P&S syphilis rate in Nevada in 2015 was 11.20 cases per 100,000 persons based on 2015 population projections from the Nevada State Demographer-vintage 2015 data. Nevada was higher than the national P&S syphilis rate of 6.3 cases per 100,000 population, as reported by the 2014 CDC STD Surveillance Report.

Previously, Nevada experienced a syphilis outbreak, with 40 P&S syphilis cases reported in 2004 and 109 P&S syphilis cases reported in 2005. The number of cases reported peaked in 2006, with 139 total P&S cases reported in the state (132 cases reported in Clark County). In 2006, Nevada had the highest rate of congenital syphilis in the United States at 42.6 cases per 100,000 live births and 15 total reported cases.

*Includes Chlamydia, Gonorrhea, and Primary and Secondary Syphilis. **CY16 data is annualized.

Analysis of
Trends:From 2011 to 2015 there has been a 34.0 percent increase of reported cases during this five year reporting
period. Compared to a 42.1 percent increase of reported cases for the 2010 - 2014 five year reporting
period. Increased access to care, testing, and preventive screenings through the Affordable Care Act may
account for the increase in reported cases. Increased utilization of electronic lab reporting has reduced
reporting delay.

Website: http://dpbh.nv.gov/Programs/Office_of_Public_Healh_Informatics_and_Epidemiology_%28OPHIE%29/

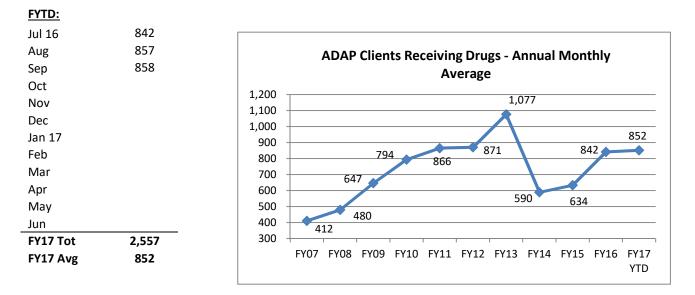

6.13 Ryan White AIDS Drug Assistance Program

- **Program:** The Ryan White Part B program is a federally funded grant that offers many services for People Living with HIV (PLWH) in Nevada who meet the eligibility criteria. The AIDS Drug Assistance Program (ADAP) is the Ryan White CARE Program that combines federal and state funds to supply formulary medications to clients. If a client has existing health coverage, the Ryan White Program will pay monthly premiums and medication copays. Enrollment in the Ryan White Part B programs is handled by Access to Healthcare Network, Southern Nevada Health District, and Aid for AIDS of Nevada. Clients can pick up medications at any pharmacy in Nevada within the OptumRx network.
- **<u>Eligibility:</u>** The Client's household income must not exceed 400 percent of Federal Poverty Level guidelines \$47,080 for a single person. A Ryan White Part B client must live within the State of Nevada and must be recertified every six months.

Workload History:

State Fiscal Year	Avg Cases/Month	Total Expenditures
FY11	866	\$8,509,961
FY12	871	\$8,417,174
FY13	1,077	\$9,748,380
FY14	590	\$9,809,082
FY15	634	\$6,863,624
FY16	842	\$12,552,751
FY17*	852	\$3,750,777

*Total Expenditures are YTD.

<u>Comments</u>: The program has been successful in transitioning Ryan White clients into the Marketplace and Medicaid during each Open Enrollment. The Ryan White Part B program will continue to be the payer of last resort and will continue to provide those services not covered, or partially covered, by public or private health insurance plans.

Website: http://dpbh.nv.gov/Programs/HIV/HIV and AIDS Prevention - Home/

6.14 HIV-AIDS Prevention Program

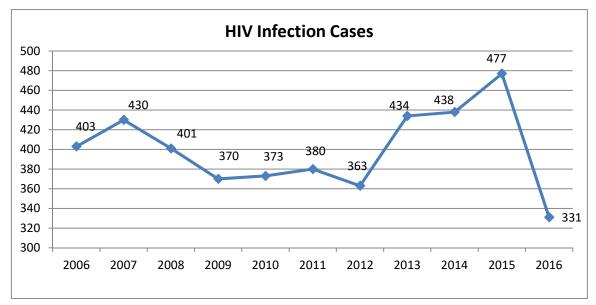

Program:The Human Immunodeficiency Virus (HIV) Prevention Program facilitates a process of jurisdictional planning. At present, the Division of Public and Behavioral Health funds Southern Nevada Health Washoe County Health District (WCHD), and Carson City Health and Human Services (CCHHS) to p prevention core services, such as HIV testing to high-risk populations, Partner Services, and to ens available to populations most at-risk for HIV. Additionally, the HIV Prevention Program provides H supplies and condoms to the Community Health Nursing Program to support HIV testing in the run state. The Division of Public and Behavioral Health's HIV Prevention also provides funding for soci campaigns, HIV prevention information dissemination, and data collection.	District (SNHD), provide CDC HIV sure condoms are IIV testing ral areas of the
--	--

- Eligibility:There are no eligibility requirements. It is our mandate to reduce HIV infections in Nevada, and this is
accomplished by providing services to everyone. Some community based programs do require that participants
meet criteria as outlined in the curriculum, i.e. target population or risk factors.
- Other:Please note that the HIV Prevention Program is funded on a calendar year basis and therefore, data and
expenditures for this report are reported on the calendar year, not fiscal year. The increase in new HIV infections
can be directly attributed to new targeted HIV testing strategies, targeting those most at-risk for acquiring HIV.

Workload History:

Calendar Year	Total HIV Cases	Total Funding
2011	380	\$2,713,662
2012	363	\$2,426,284
2013	434	\$2,294,816
2014	438	\$2,140,521
2015	477	\$2,149,542
2016*	331	\$2,093,114

*2016 data YTD

Comments: 1. The HIV Prevention Program is funded by a grant from the Centers for Disease Control and Prevention on a calendar year basis; therefore, data contained in this document is reported annually and year to date.

2. The increase in data between 2012 and 2013 can be attributed to the drop in overall testing in 2012, due to the closure of Southern Nevada Health District's main testing facility. In 2013 the state implemented High Impact Prevention (HIP) strategies statewide, targeting those most at-risk for HIV and getting them and identified high-risk individuals contained in their social networks tested; therefore, identifying more HIV.

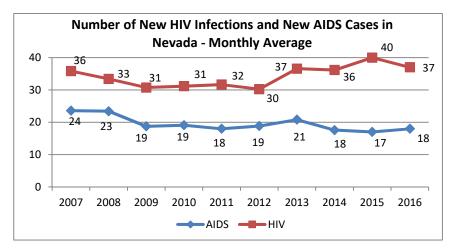

Website: http://dpbh.nv.gov/Programs/HIV-OPHIE/HIV/AIDS_Surveillance_Program_%28HIV-OPHIE%29_-Home/

6.15 HIV Surveillance Program

- **Program:** The mission of the HIV-AIDS Surveillance Program is to work with the local health authorities and the medical community to prevent and control the transmission of the Human Immunodeficiency Virus (HIV) and the development of an annual integrated HIV/AIDS epidemiological profile; the dissemination of HIV/AIDS data to HIV community planning groups and other agencies and the public to help target HIV prevention activities; and training and technical assistance to local health authorities and community-based organizations that assist in HIV/AIDS surveillance activities. The Program's functions are achieved through collaborative relationships with public and community-based organizations, local health authorities, clinical laboratories, community members, and other key stakeholders.
- **<u>Eligibility:</u>** There are no eligibility requirements. The State HIV/AIDS Program tracks all new HIV/AIDS cases reported and persons living with HIV/AIDS including cases from other states and jurisdictions who move to Nevada. Incidence (new cases) and prevalence (old and new cases) are reported separately. Statutory authority – NRS 441A and NRS 439.
- <u>Other:</u> Primary workload indicators for federal funding include the number of new HIV and AIDS cases reported annually and the number of persons living with HIV/AIDS in Nevada (prevalence data). Demographic information of HIV/AIDS cases (county, sex, race/ethnicity, age, exposure category) is reported to track disease trends and to provide information to community planning groups to better allocate local resources and to target HIV/AIDS prevention activities.

Workload History:

Calendar Year	Average AIDS Monthly Caseload	Average HIV Monthly Caseload
2011	18	32
2012	19	30
2013	21	37
2014	18	36
2015	17	40
2016	18	37

- **Comment:** Since 2012, HIV cases have increased, while AIDS cases have decreased. Though it is difficult to accurately identify the reasons for an increase in reported HIV, it is likely a result of: 1. Increased targeted testing; 2. Better HIV case finding; and 3. Access to care. Reasons for a decrease in AIDS may be due to better care, which would have reduced the progression from HIV to AIDS. The Affordable Care Act may account for this, as more access to care keeps HIV patients in-care, meaning they do not progress to AIDS and they do not have high viral loads which could increase transmission to others.
- Website: http://dpbh.nv.gov/Programs/HIV-OPHIE/HIV/AIDS_Surveillance_Program_percent28HIV-OPHIEpercent29_-Home/

6.16 Nevada Central Cancer Registry

<u>Program:</u>	The primary purpose of the Statewide Cancer Registry is to collect and maintain all reportable cancer cases that occur in Nevada. This data is used to evaluate the appropriateness of measures for the prevention and control of cancer and to conduct comprehensive epidemiological surveys of cancer and cancer related deaths. Statutory Authority: NRS 457
<u>Eligibility:</u>	No eligibility required. This is a population-based Registry collecting data for all cancer cases diagnosed in Nevada.
<u>Other:</u>	The figures in this report reflect actual cancer (in-situ and invasive cancer) incidence data submitted annually to the Centers for Disease Control and Prevention/National Program of Cancer Registries. This submission follows a 23-month delay to capture all relevant cases.

6.17 Office of Suicide Prevention

Program

The Nevada Office of Suicide Prevention (NOSP) is the clearinghouse for suicide prevention information in Nevada. The Suicide Prevention Coordinator, Northern Suicide Prevention Training/Outreach Facilitator, Youth Mental Health First Aid Coordinator, along with the Suicide Prevention Assistant are located, in Reno. The Southern Suicide Prevention Training/Outreach Facilitator is located in Las Vegas. This team is responsible for the development, implementation, and evaluation of the Nevada Suicide Prevention Plan (NSPP to be updating in FY 2016). A major initiative is following up on the Veterans' Suicides and collaboration with the Veterans Services Green Zone Initiative to prevent suicides among service members, veterans, and families. Collaboration for awareness/prevention/intervention is occurring in all regions of the state along with strong partnership from local coalitions, school districts, and the Nevada Coalition for Suicide Prevention. Some of our most successful initiatives with our partners have been with Signs of Suicide middle and high school suicide awareness curriculum and screening programs statewide, text messaging crisis intervention, safeTALK and Applied Suicide Intervention Skills Trainings. NOSP is staff to Nevada's first Committee to Review Suicide Fatalities. NOSP is also making great strides toward increasing awareness about addressing access to lethal means through the Suicide-Proof Your Home, Securing Firearms Education and The 11 Commandments of Gun Safety. Collaboration with Nevada School Districts on SB 164 requirements through safeTALK training is occurring in partnership with the Nevada Department of Education. In addition, Youth Mental Health First Aid training is in our communities through NOSP and Project Aware. NOSP will coordinate statewide YMHFA training with all Project Aware grantees and community partners.

Comments/Facts about Suicide:

- Based on 2014 data, Nevada has lowered from 2nd in 2005 to 6th highest suicide rate in the nation.*
- Suicide is the 6th leading cause of death for Nevadans and 10th leading cause of death for the US.***
- Suicide is the 2nd leading cause of death for our youth and young adults ages 10-34.***
- Males make up 79 percent of suicide fatalities in the U.S., 77 percent in Nevada.**
- Historically Nevada has the highest suicide rate (30) for seniors over 65 in the nation, almost double the national average rate (15.33) for the same age group.**
- Historically more Nevadans die by suicide than by all homicides/motor vehicle accidents combined.**
- Proven over time Native Americans have a highest suicide rate among our youth/young adults.**
- Our veterans and military account for 20 percent of our nations suicides and 24.4 percent of Nevada's suicides.****

6.18 Medical Marijuana Cardholders

Program:The Nevada Marijuana Registry is a state registry program within the Nevada Department of Health
and Human Services, Division of Public and Behavioral Health. The role of the program is to
administer the provisions of the Medical Use of Marijuana law as approved by the Nevada
Legislature and adopted in 2001.

Authority:Individuals can apply for the registry and, if found eligible, are approved for issue of an identification
card to show approval, within limitations, for the cultivation and use of the Cannabis plant for
personal use. Eligibility is determined through physician certification of a qualifying medical
condition, acceptable criminal background check, and Nevada residency. NRS 453A.

	Cardholder Processing Tasks Performed by Staff					
Year	Initial Application Requests Received*	Registrations Received**	Renewals Received***			
FY10	4,109	1,970	688			
FY11	4,185	2,231	1,488			
FY12	1,842	1,145	2,083

FY15	9,110	7,507	4,580			
FY16	15,585	13,343	6,218			

Definitions:

*Requests for Initial Applications: Patient submits a request for an application with the required \$25.00 fee.

****Registrations:** Patient submits completed application including attending physician statement and \$75.00 application fee.

*****Renewals:** Patients that are registered are required to renew their enrollment each year and pay a \$75.00 renewal fee.

Website: http://dpbh.nv.gov/Reg/MM-Patient-Cardholder-Registry/MM Patient Cardholder Registry - Home/

6.19 Medical Marijuana Establishments

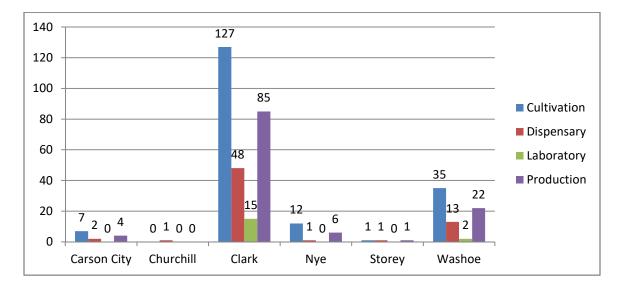

Program:The Nevada Medical Marijuana Program is a state registry and licensing program within the Nevada
Department of Health and Human Services, Division of Public and Behavioral Health. The role of the
program is to administer the provisions of the Medical Use of Marijuana law as defined in NRS and
NAC 453A. The program is to carry out the regulations for all aspect related to medical marijuana
establishments which are defined as independent testing laboratories, cultivation facilities, a facility
for the production of edible marijuana products or marijuana-infused products, and medical
marijuana dispensaries.

Authority:

Statutory Authority: Nevada Constitution, Article 4, Section 38. Use of plant genus Cannabis for medical purposes and NRS 453A, Medical Use of Marijuana.

Туре	Provisional Certificates Issued	Establishment Applications Received

6.20 Substance Abuse Prevention and Treatment Agency (SAPTA)

<u>Program:</u>	The Substance Abuse Prevention and Treatment Agency (SAPTA) provides funding via a competitive process to non-profit and governmental organizations throughout Nevada. It does not provide direct substance abuse prevention or treatment services. The Agency plans and coordinates statewide substance abuse service delivery and provides technical assistance to programs and other state agencies to ensure that resources are used in a manner which best serves the citizens of Nevada.
<u>Eligibility:</u>	All funded programs must not discriminate based on ability to pay, race/ethnicity, gender or disability. Additionally, programs are required to provide services utilizing a sliding fee scale that must meet minimum standards.
<u>Other:</u>	SAPTA is the designated Single State Agency for the purpose of applying for and expending the federal Substance Abuse Prevention and Treatment Block Grant (SAPTBG) issued through the Substance Abuse and Mental Health Services Administration (SAMHSA).

Data is accurate as of 7/21/2015, but some changes may occur until official closing. The expenditures include payments to providers for the following services: Treatment (adult and adolescent), HIV, TB, Women's set-aside, Co-occurring, Marijuana Registry, and Liquor Tax.

Treatment History:

FY 16 Avg	665	→ Detox → Intensive Outpatient → Outpatient → Resident

Comments:

SAPTA funded programs serve a number of clients funded by Medicaid dollars but these numbers are not included in this report. Since 2014, the numbers of clients admitted to SAPTA programs and funded by SAPTA is declining as provider's transition to Medicaid and other third party payers. This primarily impacts outpatient services since these are the services typically reimbursed by Medicaid and the Managed Care Organizations. Detox admissions in the last quarter increased dramatically. This is due to erratic reporting by some providers caused by the change from the NHIPPS electronic health record to other EHRs (i.e. Avatar, Awards, and others). SAPTA is working with the detox providers and other providers to develop a plan of action to collect consistent and reliable data.

6.21 Health Care Quality and Compliance

- **Program:** The mission of the Bureau of Health Care Quality and Compliance (HCQC) is to protect the safety and welfare of the public through regulation, licensing, enforcement and education. The Bureau accomplishes its mission by evaluating the quality of health care provided to residents/patients of medical facilities, medical laboratories and facilities for the dependent, issuing licenses to certain allied health professionals, such as medical laboratory personnel, dietitians and music therapists and conducting kitchen and pool inspections in health facilities. This is accomplished through on-site inspections of facilities and complaint investigations. The Bureau disseminates regulatory information and provides education, for the public, other governmental entities and providers as well as partnering with industry groups.
- <u>Authority:</u> NRS Chapter 449, NRS Chapter 652, NRS Chapter 640D and NRS Chapter 640E addresses licensing, certification, permits, complaint investigations and periodic inspection criteria for Health Facilities (449), Medical Laboratories and Personnel (652), Music Therapists (640D) and Dietitians (640E).
- **Other:** The Bureau of Health Care Quality and Compliance has two offices, one in Carson City and one in Las Vegas and services the entire state including rural areas. The main workload for the Bureau is processing of applications, complaint investigations and periodic inspections.

Treatment History:

Fiscal Year	Health Facility	Allied Health Personnel	Complaints & Entity Self-		
FISCAL TEAR	Applications Received	Applications Received	Reported Incidents Received		
FY 13	2,499	7,240	3,353		
FY 14	2,594	6,340	3,080		
FY 15	2,606	7,543	3,031		
FY 16	2,895	7,406	2,727		

Analysis of

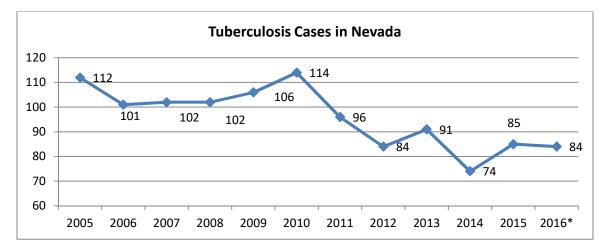

Trends:

The number and types of periodic inspections fluctuate from month to month, based on inspection due dates and available resources. The frequency of inspections is determined by NRS, CMS's mission priority document, and by Division budget policy. Complaint investigations have trended downward for several quarters and have appeared to level off. All complaints are triaged and assigned a priority based on the allegations; investigations are then scheduled based on priority and availability of resources. HCQC has a backlog of lower priority complaints and due to the lack of investigation resources, some of these lower priority complaints are held for investigation during the next scheduled periodic visit at the facility.

Website: http://dhhs.nv.gov/Health/HCQC.htm

6.22 Tuberculosis Prevention, Control and Elimination

- **Program:** Nevada's Tuberculosis (TB) Program is located within the Office of Public Health Informatics and Epidemiology. Statewide, the TB Program is comprised of: the DPBH, three local health authorities (Clark County, Washoe County and Carson City), the state public health laboratory, the DPBH Rural Community Health Services, the Department of Corrections, and all agencies, organizations and health professionals interested in advancing Nevada's progress toward improving our TB elimination and control efforts. These stakeholders provide TB prevention and control services e.g.; testing, treatment, education and surveillance activities for the residents within their jurisdictions. This program manages the federal funding provided to Nevada which helps support the state and local TB programs' infrastructure, operating expenses, testing, prevention, and outreach activities and operates within the Office of Public Health Informatics Epidemiology budget account 3219/14.
- Authority: RS 441A.340 through NRS 441A.400 and NAC 441A.350 through NAC 441A.390 address the responsibilities that the state, county and local health care providers are required to perform in order to promote and protect the well-being of Nevada's citizens and visitors by preventing, controlling, tracking and treating tuberculosis in Nevada. Similar statutes and regulations addressing the public health threat posed by tuberculosis are found throughout the United States and its territories.
- Other:The State of Nevada's Tuberculosis (TB) Program continues to address its mission of "reducing the incidence
of TB by the aggressive management of newly diagnosed cases and extensive preventative treatment of
those infected with TB." In 2015, Nevada had 85 reported active cases of TB which is up from 74 cases in
2014. The prevention and control of TB in Nevada is also dependent upon (in part) meeting the challenges
of controlling TB in the increasing number of foreign-born persons who come to the United States/Nevada
infected with M. tuberculosis or who develop TB disease soon after arriving. In 2015, 59 of the 85 cases
were foreign-born individuals. To assist with the prevention of active Tuberculosis in the high-risk
populations mentioned above, the State of Nevada TB Program will be performing several outreach
activities in 2015.

*2016 data is annualized.

6.23 Civil Behavioral Health Services

- Program:Behavioral Health Services are offered statewide. The urban areas have hospital-based programs for
crisis stabilization at Dini-Townsend & Rawson-Neal Hospitals. Other services include the Mobile
Outreach Safety Team (MOST) in urban Washoe & Clark Counties, & now in Carson City; Justice
Involved Diversion outpatient programs (JID); Medication Clinics; Mental Health Court, Counseling, Care
Coordination; Assessment Services; Program for Assertive Community Treatment (PACT); and
Residential Services. Additionally, provision of outpatient services occurs statewide.
- Eligibility:With expanded Medicaid, services are for those individuals who cannot access care through their
insurance, and/or have other extenuating circumstances. Inpatient services are a short-term safety-net
to stabilize individuals who are acutely-ill and are presenting as a danger to self and/or others, per NRS.
Those with Severe Mental Illness (SMI) are given priority for Outpatient services by all mental health
agencies. All agencies serve primarily indigent clients, and all clients are assisted in applying for
qualified insurance programs while in the program.

FYTD:

Month	State Total	Rawson Neal	Dini Townsend
Jul 16	3,875	3,038	837

FY17 Avg	3,997	3,159	838

Comments: Behavioral Health services are a collaborative effort and an increasing volume is being served outside of the DPBH direct- service providers. This is a positive change with the plan to encourage more capacity in the community and reduce care by DPBH where possible.

Website: http://dpbh.nv.gov/

6.24 Forensic Behavioral Health Services

Program: Lake's Crossing Center (LCC) and now Stein Hospital are the only forensic behavioral health facilities serving clients in the state of Nevada. The program provides treatment for severe mental illness and other disabling conditions that interfere with a person's ability to proceed with their adjudication or return to the community after having been found not guilty by reason of insanity/incompetent without probability of attaining competence. The program provides a broad spectrum of treatment interventions.

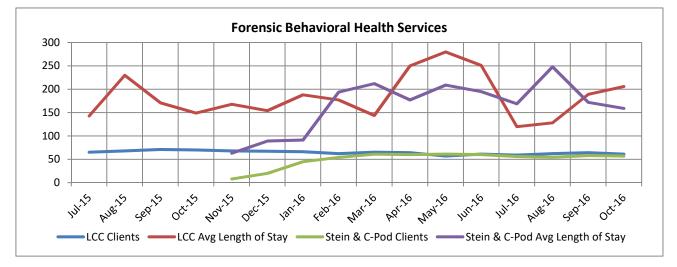

Mental Health Court is a collaboration between the Mental Health and Criminal Justice systems. This program provides opportunity for people with misdemeanor and minor felony criminal charges who would benefit from psychiatric treatment to be diverted from the standard criminal justice system if they participate in treatment. It is a service coordination model. In addition, Assisted Outpatient Treatment (AOT) is a new court-ordered outpatient treatment established in the State and operated by this Division.

<u>Eligibility:</u> Clients are admitted to the inpatient program, at either Lakes Crossing Center or Stein Hospital, primarily by court order after a pre-commitment examiner has found them incompetent to stand trial and recommended treatment to competency. Occasionally a client without charges is administratively transferred to this program because they cannot be treated elsewhere. These services are supported by State General Fund.

Clients are admitted to Mental Health Court services by criminal justice courts.

Workload History:

<u>Comments:</u> The table above represents the trends in number of evaluation and restoration clients and average length of stay for each facility, Lake's Crossing Center in Sparks, and Stein Hospital in Las Vegas.

Nevada Department of Health and Human Services, Public Defender 7.01 Public Defender

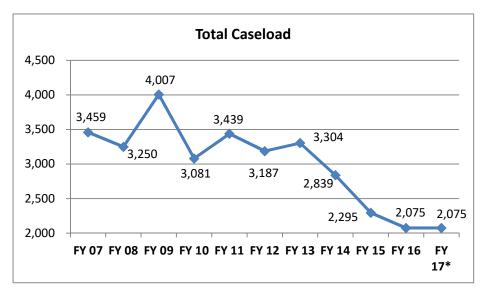

Program:

Representation of indigent adults and juveniles charged with a criminal offense or delinquent acts in a participating county and Attorney General prosecuted criminal matters in those counties. The office also represents parents whose children have been removed from the home by DCFS.

Eligibility: The court determines eligibility considering income, expenses, personal property, and outstanding debt. The potential client must be at risk of receiving a sentence of confinement. If the defendant does not have the liquid assets to retain private counsel for the specific type of case, the court will consider appointing the public defender. The defendant may be required to reimburse the county for the services of the public defender.

Workload History:

FY16	2,075								
FY17*	2,075								

Caseload Fiscal FY17*:

Carson City	1,968
Storey State	80 92
Total FY 14	2,075

*FY17 data is annualized.

The case numbers are declining because the method which we used to count the number of cases to **Comments:** which we were appointed changed. We used to count all of the different crimes charged against one client as separate cases. Now, we only count the most serious charge against one client as one case, with the exception of domestic violence and driving under the influence which is always counted as separate cases.

Nevada Department of Health and Human Services, Public Defender

Page intentionally left blank

NOTE: The data in this document comes from many sources. For the sake of consistency, a uniform ordinal ranking system has been adopted, with 1 indicating the best ranking and 50 indicating the worst. Where relevant, the final column of each table contains an icon to indicate how the ranking has changed from the previous year: improvement (\uparrow), worsening (\neg), or no change (=).

Population/Demographics

- Nevada's July 1, 2015 estimated **population** is 2,890,845. (U.S. Census Population Estimates)
 - By Gender: Males 50.2 percent, Females 49.8 percent. (U.S. Census, American Community Survey)
 - By County: Clark 73 percent, Washoe 15 percent, Carson City 2 percent, and Balance-of-State 10 percent. (*Nevada State Demographer, Estimates by County*)
- Population growth From 2014 to 2015, Nevada's population grew 1.8 percent, which was the 3rd fastest behind Texas and North Dakota. From 2013 to 2014 it was the 2nd fastest growing state. It had been among the top four fastest growing states for each year from 1984-2007. (U.S. Census)

Economy

- In 2015, Nevada's personal income per capita was \$42,185 ranking 34th among states (37th in 2013 and 2014). The per capita income for the U.S. as a whole was \$47,669. The U.S. average is 13 percent higher than Nevada (15 percent in 2014). From 2003 thru 2007 Nevada's personal income per capita exceeded the U.S. average due to our outsized housing boom. (U.S. Bureau of Economic Analysis)
- The Kaiser Family Foundation measures state economic distress by taking into account the number of foreclosures, the change in the unemployment rate, and the change in the number of people receiving food stamps. Nevada's ranking for 2015 is 1st. Nevada ranked 4th highest in foreclosure rate after leading the nation for many years. Nevada ranked 9th in the largest drop in unemployment rate among all 50 states. Even though Nevada ranked high in the unemployment rate change, Nevada has the 4th highest unemployment rate level in the country in 2015. Nevada ranked 1st in change in food stamp participation. (Kaiser Family Foundation, State Health Facts)
- In October 2015, Nevada's **foreclosure rate** was 1 of every 593 homes is currently under foreclosure. This is fourth highest in the nation. Maryland was the worst state with 1 of every 466 homes in foreclosure. The U.S. average was 1 of every 1,147 homes. Nevada has consistently ranked near the worst since the housing crisis began. (*RealtyTrac*)

Health Insurance

In 2015 in Nevada, 53 percent of private sector establishments offered health insurance to employees (rank=4th highest, down from 63 percent in 2008). The national average was 46 percent. (Kaiser Family Foundation, State Health Facts)

In 2015 in Nevada, the average health insurance premium (employer and worker share combined) for an
individual was lower than the national average. Nevada's workers also pay a lower share of the premium than is
typical nationwide. For family coverage, Nevadans pay a lower worker premium and total premiums are lower.
(Kaiser Family Foundation, State Health Facts)

- Historically, Nevada ranked low in providing **Medicaid coverage to pregnant women**; Nevada had the 10th lowest eligibility rate at 165 percent of poverty effective January 2016. (*Kaiser Family Foundation, State Health Facts*)
- Nevada's Medicaid nursing facility spending was \$60 per person in 2009, ranking 50th among all states. The U.S. average is \$168. (AARP Public Policy Institute, Across the States 2012)
- Nevada's Medicaid Home and Community Based Services (HCBS) spending for older people and adults with physical disabilities was 34 percent of Medicaid long-term care expenditures in 2009. Nevada ranked 19th and the US national average is 36 percent. (AARP Public Policy Institute, Across the States 2012)
- In Nevada, the **costs** of many health care services for the elderly are above the national average. (Genworth, Cost of Care Survey 2016)

	evada		Adult Day Care	Assisted Living Facility (private 1 bdrm)	-	Nursing Home (private room)

United States	%	11%	11%	11%	12%	14%	15%	15%	15%	15%	14%	

• The percentage of Nevadans experiencing **very high food insecurity** (at times during the year, the food intake of household members was reduced and their normal eating patterns were disrupted) recently eclipsed the national average. (U.S. Dept. of Agriculture, Economic Research Service)

Very Low F	ood Security	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	
Nevada	%	3%	3%	4%	5%	5%	5%	6%	7%	7%	6%	
	Rank	12	13	27	33	25	28	34	43	43	39	
United States	%	4%	4%	4%	5%	5%	6%	6%	6%	6%	6%	

• Nevada's **food stamp participation rate** (percent of eligible population that receives benefits) has recently increased substantially but remains lower than the national average. (U.S. Dept. of Agriculture, Food and Nutrition Service)

Food Stamp Pa	articipation Rate	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	
Nevada	%	41%	42%	54%	53%	51%	50%	56%	62%	69%	66%	
	Rank	49	50	42	49	38	49	46	48	42	48	•
United States	%	54%	56%	65%	67%	65%	66%	72%	75%	79%	83%	

- Between February 2014 and February 2015, the number of Nevadans receiving **food stamps** increased by 3.1 percent, giving Nevada the fourth fastest growing caseload nationwide. The national average year-over-year increase was -4.7 percent. (U.S. Dept. of Agriculture, Food and Nutrition Service Program Data)
- During 2015, the same percentage of Nevada's **families received food stamps** as the average for the U.S. (U.S. Census, American Community Survey)

Households Receiving Food Stamps During Last 12 Months		2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
Nevada	%	4%	4%	4%	4%	5%	10%	11%	13%	12%	12%	13%
United States	%	8%	8%	8%	8%	8%	12%	13%	14%	13%	13%	13%

[•] For FFY15, Nevada's **average monthly food stamp benefit** per person was \$119.37 and per household was \$235.50. The national averages were \$124.45 and \$254.45 respectively. (U.S. Dept. of Agriculture, Food Stamp Program State Activity Report)

Child Support Enforcement

• The U.S. Dept. of Health and Human Services Office of Child Support Enforcement measures states using five **performance indicators**. Nevada made very slight improvements in most of the five performance indicators for FFY 2014. (U.S. Dept. of Health and Human Services, Administration for Children and Families, Office of Child Support Enforcement)

Paternity	Established	FFY06	FFY07	FFY08	FFY09	FFY10	FFY11	FFY12	FFY13	FFY14	FFY15	
Nevada	%	69%	80%	84%	86%	100%	109%	117%	118%	117%	119%	
	Rank	49	49	49	46	14	3 of 24*	2 of 24*	3 of 26*	3 of 26*	<mark>3 of 26*</mark>	=

Funding

• Nevada's **state and local tax burden per capita** is lower than the national average. Nevada's state and local tax rate (state and local tax burden per capita divided by income per capita) is one of the lowest in the nation. (*Tax Foundation, State/Local Tax Burdens, All States*)

	l Local Per Capita es Paid	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	
	\$ per capita	\$3,406	\$3,694	\$3,801	\$3,900	\$3 <i>,</i> 827	\$3 <i>,</i> 665	\$3 <i>,</i> 449	\$3 <i>,</i> 386	\$3,221	\$3,349	
Nevada	Tax Rate	8.0%	8.1%	7.6%	7.7%	7.6%	7.7%	8.2%	8.6%	8.1%	8.1%	
	Rank	7	7	4	5	4	5	6	9	8	7

United States	Tax Rate	9.8%	9.8%	9.8%	9.9%	10.0%	10.0%	10.1%	10.2%	9.8%	9.9%	

• Note that a rank of one indicates that state has the lowest tax burden.

• Nevada's **state government tax collections** per capita generally run about equal to the average of all other states. (Nevada along with Texas, Washington and Wyoming don't have individual or corporate net income taxes. Alaska, Florida and South Dakota have only corporate net income taxes, but not individual income taxes. All other states have both taxes.) (U.S. Census, American Community Survey)

	ent Tax Collections Capita	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
