INCLINE VILLAGE GOLF COURSES

Championship Course

955 Fairway Blvd • 775-832-1146

A classic 18-hole public Lake Tahoe golf course featuring a Robert Trent Jones Sr. design and lake views. This par-72 course was listed "Best in State" 2012 - 2015 by Golf Digest magazine and ranked #9 in Nevada on Golfweek's "Best Courses You Can Play 2018" list.

Mountain Course

690 Wilson Way • 775-832-1150

Our 18-hole, par-58 course is fun, affordable, & quick to play with special 9-hole and twilight rates. Bring the family out for fun programs and events like golf leagues, Nine & Wine and Sunday Family Fun Days.

Doug Miranda Photography

INCLINE VILLAGE PARKS & RECREATION

980 Incline Way • 775-832-1300

Community members and visitors can enjoy our beautiful parks, athletic fields, trails, and a wide range of outdoor/indoor activities. Our public Recreation Center includes an indoor pool, sauna, group & water fitness classes, a cardiovascular room, gymnasium, childcare and a variety of programs and services.

Skip the line and register for programs online at register.yourtahoeplace.com.

THE GRILLE AT THE CHATEAU

955 Fairway Blvd • 775-832-1178

Located on The Championship Golf Course, The Grille is open to the public and offers a beautiful view of the 18th green, mountains, trees and Lake Tahoe from the dining room and our outdoor seating area. The Grille serves quality, fresh, wholesome ingredients with thoughtful service every day during the golf season (May through October).

The lunch menu features favorites including the Ahi Poketini, Fish Tacos, Classic Cheeseburger and the Sunset Salad. The extended happy hour menu is served 3pm-7pm daily which features drink specials, delicious appetizers, and salads.

INCLINE VILLAGE WEDDINGS & EVENTS

955 Fairway Blvd • 775-832-1240

Create an unforgettable experience for your Lake Tahoe wedding, meeting, celebration or golf event. Our facilities include The Chateau at Incline Village™, Aspen Grove, The Championship and Mountain Golf Courses, and Diamond Peak Ski Resort.

The Chateau features a 5,200 sq. ft. ballroom that can be divided for large or small meetings and events. Aspen Grove is the perfect outdoor venue for up to 150 people.

INCLINE VILLAGE TENNIS CENTER

964 Incline Way • 775-832-1235

The Incline Village Tennis Center is located in a picturesque alpine setting along a year-round creek. Our club-like facilities are open to the public with daily court fees or seasonal memberships. The Tennis Center offers ten courts, eight pickleball courts, and a pro shop with demo rackets. Lessons, socials, tournaments and camps are offered during the summer.

ABOUT YOUR PUBLIC WORKS

The Incline Village General Improvement District Public Works Department provides water and sewer services, as well as management of the solid waste contract, to the residential and commercial users located within Incline Village and Crystal Bay. The Public Works Department takes responsibility of providing clean and safe drinking water and collecting and treating sewage very seriously and is evidenced by our highly skilled staff, well maintained infrastructure, excellent customer service and our secure financial position.

- We provide clean, safe and delicious drinking water. DRINK TAHOE TAP!
- We collect raw sewage, treat it and safely transport it as effluent to the Carson Valley.
- We provide internal services to all District venues for Engineering projects and Fleet maintenance.

IVGID Public Works Water Infrastructure treats and supplies an average of 1 Billion Gallons of water annually. Water Infrastructure includes:

- A UV & Ozone Water Treatment Plant able to treat up to 6 million gallons daily
- 100 Miles of Water Mains between 4” to 24”
- Service connections to over 4,200 Water Meters
- 13 Water Tanks with 6 Million Gallons of Storage
- 14 Water Pumping Stations with 26 Pressure Zones

In order to treat an average of 474 Million Gallons of sewage annually our Sewer Infrastructure Assets include:

- 105 Miles of Gravity Lines and 14 Miles of Sewer Force Main between 6” to 24”
- 1,926 Sewer Manholes

PUBLIC WORKS HISTORY

In 1961, the community of Incline Village was being developed by the Crystal Bay Development Company. In order to pay for improvements, The Incline Village General Improvement District (IVGID) was created by Washoe County on June 1, 1961 authorizing the newly created District to levy taxes to pay for improvements and for five elected Trustees to set up and run the District.

The District’s first job was to construct, maintain and operate the District’s sewer and water systems and to build roads to Washoe County specifications, which were then later dedicated to the County for maintenance and were no longer a District responsibility. The original systems included the Burnt Cedar water intake pump station, which supplied water to 2 one-million gallon reservoirs and water rights totaling 1,250 acre feet for domestic consumption. Today it supplies 4,294 acre feet.

In 1963, the District’s original sewage treatment plant was completed and designed to handle sewage originating from commercial and multi-family residential areas only. The original design of Incline Village was to permit each single-family residential lot to construct individual septic tank systems, therefore, capacity was not designed into the original plant for single-family residential sewage. Treated effluent was stored in the winter and irrigated the golf course during the summer.

In 1969, Incline Village Inc. proposed to develop an additional 4,000 equivalent residential lots in Incline Village. The Incline Village General Improvement District commissioned an engineering study to determine the water and sewer system improvements to serve all of the present and planned development within the District. During the development by

775.580.7600

925 Tahoe Blvd., Suite 105, Incline Village

BARTONORTHOPEDICSANDWELLNESS.COM

Incline Village Inc., the water and sewer system improvements were constructed according to the original plan to serve the developable lots.

A regulation that was passed in the late 1960's necessitated the construction of the effluent export system to pump treated effluent out of the Tahoe Basin. This was necessary because of a state and federal mandate that the use of septic tanks in the Tahoe Basin be discontinued and that all treated effluent be exported out of the Basin. By 1971, The District had complied with the federal mandate and IVGID's treated effluent was being used for irrigation on a ranch in Douglas County in the summer and was being discharged into the Carson River in the winter. New regulations on the disposal of wastewater required IVGID to either upgrade its treatment facility in order to continue disposing of the treated effluent in the Carson River or to have a year-round land-based disposal system. In 1983, IVGID completed the purchase of 900 acres in Douglas County to be used for development of a disposal site for its treated effluent. Construction of the Wetlands Enhancement Facility was completed in 1984 with local and federal funding.

The wastewater treatment plant went through a major

upgrade in 1992. These upgrades included improvements to the aeration system and solids handling facilities, which improved treatment efficiency, redundancy and increased capacity.

Construction of IVGID's Burnt Cedar Water Disinfection Plant was completed in 1995. The plant used ozone to disinfect IVGID's drinking water and allowed IVGID to receive an exemption from the filtration requirements of the federal Surface Water Treatment Rule.

The Federal Government passed the Long Term 2 Enhanced Surface Water Treatment Rule in 2006. This rule required enhanced disinfection for additional protection from disease-causing microorganisms and contaminants that can form during treatment. This rule applies to water systems that use surface water as their raw water supply such as Lake Tahoe. The rule requires that IVGID add a second disinfection process by 2013. The Capital Improvement Project included a UV disinfection system to be added to the water treatment plant and the replacement of the ozone disinfection equipment, which was installed in 1995. This project finished construction in 2012 and is in operation.

An important project in the Capital Improvement Budget is Phase II of the Effluent Export Project. The Effluent Export Project started in 2003 with a planned completion date in 2011 to replace six miles of pipeline, make upgrades to the Spooner Pumping Station, and convert two State Parks wastewater plants into raw wastewater pumping stations with installation of a new forcemain to deliver that wastewater to the District. Through a total of six miles of pipeline have been installed and the work for State Parks has been completed. A total of \$18 million have been spent and the total of all the project phases is expected to cost \$21 million. The remaining \$3 million in project costs was spent upgrading the Spooner Pumping Station which was completed in 2013.

Phase II will replace the remaining six miles of aging pipeline within the Lake Tahoe basin. The six miles of pipeline is comprised of approximately 17,300 lineal feet of welded, cement mortar lined, high pressure pipe and 13,700 lineal feet of bell and spigot, cement mortar lined, low pressure steel pipe. This pipeline experienced significant leaks in 2009, 2014 and 2015. Subsequent investigations confirmed progressive corrosion of this pipeline that necessitates replacement. Work has been completed on the areas which were identified to be the most likely failure points. Design continues on the other areas of the pipeline with construction estimated to take multiple phases over several years to complete.

**HONORING
A LIFETIME
OF SERVICE**

Bob Lochridge, Public Works Superintendent, moved with family to the North Shore of Lake Tahoe in fall of 1965. Bob is one of five children - One older

brother and sister, and one younger brother and sister. He worked summers since the age of 12 at a local sporting goods store while helping work nights and weekends with a family-owned laundromat, his parents owned on top of their day jobs.

Bob started running backhoes, loaders, crawlers at age 16 for Ben Dar Excavating in Incline Village. At age 18, Bob worked for an underground construction company out of San Leandro - installing underground telephone lines on the North Shore and underground steam lines at University of Davis.

Then he worked for Yankton Excavating as an Equipment Operator where he progressed into his current role of Superintendent. In 1978, Bob started working for IVGID as an Operator Specialist for a year. He went back to Yankton Excavating for a period of time and returned back to IVGID in 1983 with Public Works Pipeline Division as an operator. Bob worked his way to lead man - foreman - supervisor and now superintendent. Bob has contributed 36 years + to the District. Bob has been part of Management of Water and Waste Water Treatment; Water Distribution; Waste Water Collection and Utility Maintenance Projects along with managing the Wetlands Hunting Program. Bob and his wife Paula have two children Shawn and Meghan, and three grandchildren Devan, Kole and Levi. Paula works for the Town of Minden.

In Bob's 'younger days,' he was an avid "Motorcycle enthusiast," and now enjoys hunting, fishing, and camping with friends and family. Bob and family moved to Minden in 1995. He loves the opportunity to be in the high desert in one moment and in the mountains a short time later.

Thank you for you 36+ years of dedication to the District.

Every legend begins somewhere. Now yours can begin in the biggest BMW ever built—the BMW X7. It's right at the intersection of luxury, comfort and performance. The X7 has three rows of seats, with the option to seat six or seven. You can even customize the interior trim, gearshift controls and lighting. With all the latest safety features and hands-free assistance, you have more control than ever. And with one look through the panoramic glass roof, it's clear—this level of luxury takes you places.

PUBLIC WORKS WALK & LEARN

Our Director of Public Works, Joe Pomroy, will lead tours at some of our infrastructure sites. Join us for these FREE tours and learn more about Public Works operations while enjoying our beautiful scenery. (Meeting Location Maps are available online: www.ivgidpublicworks.org)

Friday, June 21, 10am – Mill Creek Diversion and Wastewater Treatment Plant; meet at 1220 Sweetwater Road parking lot, Incline Village.

Friday, July 19, 10am – Water Treatment Plant; meet at Burnt Cedar Beach parking lot to the right after the gatehouse, 665 Lakeshore Blvd., Incline Village

Friday, August 16, 10am – Sewer Pumping Station and Creek Restoration; meet at IVGID Rec Center parking lot, 980 Incline Way, Incline Village

IVGID PUBLIC WORKS STAFF AWARDS

The California Water Environment Association (CWEA) announced the recipients of this year’s Sierra Section yearly award. CWEA is the industry organization for wastewater and utility professionals, providing training and certification for the educational development of its members throughout the Sierra and Sacramento area (CWEA Sierra Section). These awards are a result of the professional caliber of the IVGID utilities operations and its dedicated staff.

- Carl Strohschein received Electrical/Instrumentation Person
- Kristine Lebo received Laboratory Person of the Year
- Kirk Panullo received Plant Operator
- Madonna Dunbar received Community Engagement & Outreach Person of the Year
- IVGID received Plant Safety for Small Plant

“I express my sincere gratitude to these outstanding employees on their dedication, commitment, and hard work to our District. I am honored to recognize them for their excellent service and exceptional performance every day to maintain our pristine water,” said Steve Pinkerton, IVGID General Manager. Recipients were acknowledged for their accomplishments on February 23, 2019 during an Installation and Awards Banquet hosted by CWEA.

IVGID PUBLIC WORKS LAUNCHES WATER EFFICIENT APPLIANCE REBATE PROGRAM ON JULY 1, 2019

Incline Village General Improvement District (IVGID) Public Works will be offering the residents of Incline Village and Crystal Bay, Nevada, an inaugural Water Efficient Appliance Rebate beginning July 1, 2019. The rebate will apply to USEPA WaterSense certified toilets and USEPA Energy Star certified clothes washing machines purchased and installed within IVGID's service area between July 1, 2019 and June 30, 2020.

The first 100 applications for high efficiency appliances are eligible for one rebate per parcel, up to \$100 credit towards their IVGID utility bill. High-efficiency appliances eligible for the rebate include WaterSense toilets using 1.28 gallons of water per flush, or Energy Star washing machines that have a water factor of 3.7 or less.

High-Efficiency Toilets: Recent advancement have allowed toilets to use 1.28 gallons per flush or less while still providing equal or superior performance. Replacing older toilets with WaterSense models, the average family can reduce water used for toilets by 20-60%.

High-Efficiency Washers: utilize technological advances to deliver excellent wash performance while saving both water and energy. Resource efficient models use 35-50% less water and approximately 50% less energy. The water efficiency of clothes washers is rated using the term "water factor" to describe and compare its water use.

Program details, including a full list of applicable appliances, can be found on the IVGID Public Works website under Water Conservation. (<https://www.yourtahoeplace.com/public-works/water/water-conservation>). The rebate application will be available on the website June 24, 2019.

Applicants must fill out and submit to IVGID Waste Not:

- 1) the High-Efficiency Appliance application
- 2) a copy of the original receipt (dated on/after July 1, 2019 and before June 30, 2020)
- 3) a photo of the installed appliance with model number.

All applications will be reviewed on a first come, first serve and checked for completeness before rebate is processed. Please contact IVGID Waste Not with any questions via email to WasteNot@IVGID.org or by phone 775-832-1284. Applications will be accepted July 1, 2019 or later, not before. Program will be active until the maximum of 100 rebates are processed, or until June 30, 2020, whichever comes first.

SOLAR PANEL AT WATER TANK

Water tanks in our District are equipped with radio communication in order for us to receive water level information. This system also communicates to the pump stations to let them know when a water tank needs more water.

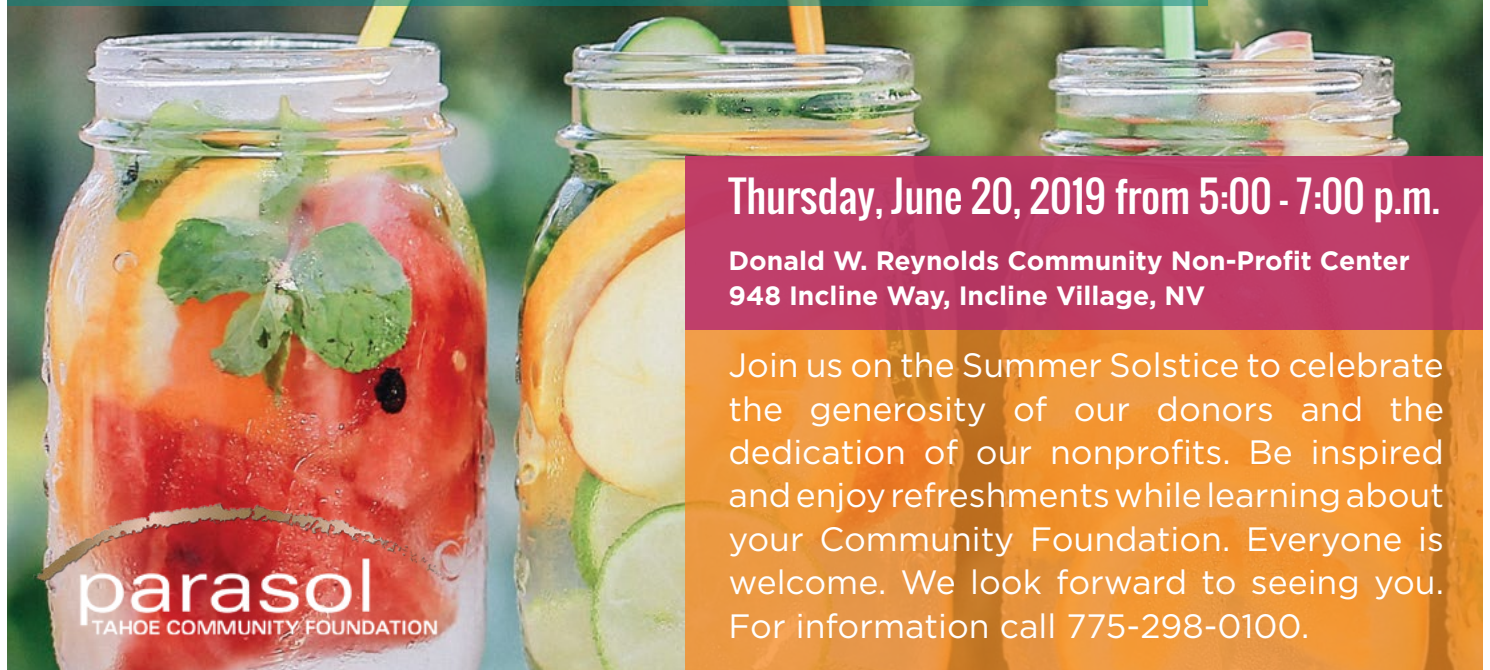

The water tank pictured in the photo above is located at a remote location above the upper Tyner neighborhood. It is

located a good distance from a roadway, so it does not have a power source. The communication system at this tank relies on the solar power generated on site. Therefore, when we lose communication with this tank staff must walk or snowshoe to the tank to check on the water level.

The solar panel and battery upgrade project at this water tank is critical to ensure we are in constant communication for the water demands in this area.

The Heart of Philanthropy

THE 2019 ANNUAL MEETING
OF THE PARASOL TAHOE COMMUNITY FOUNDATION

Thursday, June 20, 2019 from 5:00 - 7:00 p.m.

Donald W. Reynolds Community Non-Profit Center
948 Incline Way, Incline Village, NV

Join us on the Summer Solstice to celebrate the generosity of our donors and the dedication of our nonprofits. Be inspired and enjoy refreshments while learning about your Community Foundation. Everyone is welcome. We look forward to seeing you. For information call 775-298-0100.

COLLABORATING FOR A STRONGER COMMUNITY

Reducing Duplication of Effort, Maximizing Resources, Resulting in Quality Service Delivery

The Incline Village General Improvement District (IVGID), Boys & Girls Club of North Lake Tahoe Duffield Youth Program, Sierra Nevada College and Classical Tahoe have joined together to bring amazing opportunities to the Incline Village / Crystal Bay Community. By partnering, these organizations vow to maximize resources, reduce duplication and deliver sustainable programs that better serve our community.

Boys & Girls Club Of North Lake Tahoe Duffield Youth Program Summer Day Camp in partnership with IVGID

The Boys & Girls Club of North Lake Tahoe Duffield Youth Program and Incline Village Parks & Recreation have teamed up to bring an amazing Summer Camp program to the Boys & Girls Club Incline Village site. Participants must be Boys & Girls Club of North Lake Tahoe members. June 24 through August 9, 2019. For more information or to register for camp visit bgcnlt.org.

North Lake Tahoe Demonstration Garden at Sierra Nevada College

Sierra Nevada College, UC Davis, The Boys and Girls Club of North Lake Tahoe and IVGID are joining together to promote sustainable gardening in Incline Village/Crystal Bay. For more information email sal@ivgid.org.

Classical Tahoe, The Boys & Girls Club of North Lake Tahoe and IVGID Wellness Through The Arts Partnership

Music & Movement Class activities inspired by Classical Tahoe 2019 repertoire and taught by Rita Whitaker-

Haun include: listening, moving, reading, writing and playing simple instruments. Local musicians will demonstrate orchestral instruments. August 7 through August 9, 2019. Children Ages 4-6 from 10am-11am, Ages 7-9 11:15am-12:15pm. This class is FREE! to Boys & Girls Club of North Lake Tahoe members. For more information visit bgcnlt.org or email education@classicaltahoe.org.

Musikgarten Foster development in musical, physical, emotional, social and cognitive growth by introducing your children to Musikgarten, the leader in early childhood music education. Under the guidance of music director Rita Whitaker-Haun culturally curious kids and their parents will make and move to music together. Beginning July 10, 2019. For more information email education@classicaltahoe.org.

FREE! Classical Tahoe Open Rehearsal The community is invited to Experience a Classical Tahoe concert in the making. This unique opportunity offers an insider's view into how Maestro Joel Revzen, guest soloists and the Classical Tahoe Orchestra showcase the best performance repertoire. Visit classicaltahoe.org/music-institute for dates and times.

How Safe Are We? Presented by Classical Tahoe and UC Davis Tahoe Environmental Research Center: Join Janet Napolitano, Former Secretary of the Department of Homeland Security, President of the University of California, and Advisory Board Member of Classical Tahoe as she offers an insightful analysis of American security. Her new book, "How Safe Are We?" is a clear-eyed, rational examination of a government office that plays a key and often misunderstood role in the lives of all Americans. Thursday, July 25 at 7:30pm, \$5 in advance, \$10 day of event.

Family Orchestra Concert and Music Maker Faire This year's

Family Concert theme, "All About the Piano" will explore how the versatility of the piano transcends musical genres, musical styles, and musical periods. It will show how the piano doubles as a "string instrument" and a "percussion instrument". The concert will culminate with a soloist's concerto, featuring teenage winner of the first annual Classical Tahoe Piano Competition, Angela Wang and the Classical Tahoe Orchestra. \$2 adults & \$1 children.

Before and after the Family Concert, music lovers of all ages are invited to us in the pavilion courtyard to enjoy interactive activity stations during the **FREE!** Music Maker Faire. Vendors include Nevada Museum of Art and The Terry Lee Wells Discovery Museum. Sunday, August 4, 10am.

FREE! Distortion Quartet Apprenticeship Performance The String Quartet Apprenticeship program invites young professional musicians to be in residence with Classical Tahoe. This year, Classical Tahoe is pleased to welcome Distortion Quartet. Musicians at the beginning of their professional careers, such as these 4 – all of whom graduated from top music institutions, can bring a wealth of information to young musicians in a community setting; answering questions about what it is like to study in a conservatory and what to expect in the business of classical music. Distortion Quartet Apprenticeship Performance is free and open to the public, Wednesday, August 7, 7pm

FREE! Broadway Classics Community Chorus and Concert Enjoy this relaxed, family-friendly event filled with beloved Broadway classics performed by the Reno Pops Orchestra with Sierra Nevada College and Classical Tahoe Music Institute. Selections, under the discretion of Artist Programmer and Conductor Jane Brown, may include

#1 BROKERAGE INCLINE VILLAGE & CRYSTAL BAY 2018

the market **LEADERS:**

As the preferred real estate company on the Northernmost shores of Lake Tahoe for nearly 25 years, Lakeshore Realty — locally owned and independent — has grown with our small team of agents to serve home buyers and sellers throughout the region. Topping over \$206 million in sales, a benchmark rarely achieved even amongst our franchise competitors, we are proud to announce Lakeshore Realty is the #1 Brokerage in total sales volume for 2018 for Incline Village & Crystal Bay!

the local **EXPERTS:**

The Incline Village & Crystal Bay real estate market is unlike any market in the Lake Tahoe region. The homes here are as varied as the neighborhoods in which they are found, from expansive waterfront estates to cabins steps from the ski resort and everything in between. With so many styles and options available in all price ranges, the only way to truly understand the Incline Village & Crystal Bay real estate market is from one of our experienced agents.

your unique **PARTNER:**

Each of our Realtors is an experienced, proven professional with unprecedented local knowledge, superior connections and exceptional reputations. Let our knowledge guide you through your real estate journey. We specialize in our niche market, no other company can provide you with the vast local knowledge, comprehensive support and services or the indisputable value you experience when working with a Lakeshore Realty agent.

WINS 2019 GOLDEN PINECONE SUSTAINABILITY AWARD FROM GREEN NEVADA

Diamond Peak Ski Resort is proud to be recognized by non-profit GREENevada with the 2019 Golden Pinecone Sustainability Award for its sustainability efforts. The community-owned ski resort in Incline Village, Nevada took top honors in the Government Agency category on Feb. 20, 2019 at the Renaissance Hotel in downtown Reno.

Nevada's Golden Pinecone Awards celebration has a 30-year history of honoring outstanding organizations and individuals for their achievements in improving and sustaining the environment. Originally initiated by

Environmental Leaders in 1991, this year's awards were presented by local Reno-Tahoe non-profits GREENevada and greenUP!.

"Being recognized with a Golden Pinecone award is a great honor," said Mike Bandelin, Diamond Peak general manager. "Our staff has worked diligently over the 34 years I've been here to ensure we're treating the mountain with respect and minimizing any negative impacts our operations might have on the natural environment. And we've been very successful in finding the right partners to ensure that continues."

Diamond Peak, in conjunction with the Incline Village General Improvement District's Waste Not department, was recognized for their industry-leading sustainability initiative with STOKE Certified over the past two years, as well as its ongoing commitment to environmental sustainability.

Diamond Peak Ski Resort became first in the region and second in the nation to be recognized for sustainable operations in 2018 by completing a two-year evaluation and certification process by the independent, third party service STOKE Certified (Sustainable Tourism Operator's Kit for Evaluation). The ski area achieved an overall compliance score of 78% across 110 criteria

works from Wicked, Cats, The King and I, Phantom of the Opera, Carousel and more. Saturday, August 10, 4pm.

Musical Movie Sing-Along

Mamma Mia! Join us at the end of our Family Day to get your teenagers off the couch and interacting with the community by singing along with this topsy turvy movie. The whole family will fall in love with the characters, the story and the music of Mamma Mia! This movie sing-along is the ultimate feel-good musical, based on the pop songs of Abba. Raise your voice in the Classical Tahoe Pavilion. Sunday, August 4, 7:30pm, \$10 Adults and \$5 Youth.

FREE! High School Jazz Workshop Performance with Jazzmeia Horn

Tahoe area high school jazz musicians will receive special instruction on the art of jazz performance from performer, composer, teacher and Grammy nominee, Jazzmeia Horn. Students will perform with Jazzmeia Horn in the Classical Tahoe Pavilion on August 12, 1pm.

For Classical Tahoe event locations and details or to purchase tickets visit: classicaltahoe.org/music-institute.

GOLDEN PINECONE AWARD

Continued from page 18

in four categories of sustainability performance. Top initiatives for the community-owned ski area include: free town shuttles, electric vehicle charging stations, a children's coloring book featuring plants and animals native to the resort, and millions of dollars of investment into local watershed restoration. Refillable water pouches, filling stations, and "Take Care" signage

have aided a 34% reduction in water bottle sales. Diamond Peak's average waste diversion rate of 36% combined with recycling ideas such as molding old maps into terrain features has avoided 446 metric tons of CO₂ (2015-2017) equal to 1 million vehicle miles. 2019 SEASON WRAP-UP —By Paul Raymore, IVGID Marketing Manager

Nobody is going to forget the 2018-19 ski season anytime soon – especially those of us at Diamond Peak who want to thank Mother Nature for the plentiful powder and all of our incredible guests who made it such a special winter.

With decent early-season snow followed by record-setting February snow totals, we were able to extend our season by a week, hitting 130 total days and making it all the way through April 21 (Easter Sunday) this spring.

Thanks to our dedicated snow making team, we were able to open as scheduled on December 13 with a great selection of terrain open – including Freeway for the first time in 10 years – and all four of our main chairlifts spinning: Crystal Express, Lakeview, Lodgepole and School House.

As our snowmaking team and Mother Nature piled up additional snow in January, our terrain park crew was able to build the first iteration of the Village Terrain Park with brand-new features for everyone to enjoy whether you were new to terrain parks or an experienced freestyle skier/rider. From the get go, the response we received from our guests was overwhelmingly positive, with many of our young skiers and riders stoked to find such great terrain park features in their backyard, and even some of our senior skiers excited to find new options to explore with their grandkids.

Throughout the season, the Village Terrain Park continued to grow and evolve as our park crew responded to the storms of February and the progression they were seeing in the park, and we're proud to say that all of their

hard work and effort was recognized by Snowboarder Magazine this spring.

If you lived through the aptly named month of #FebruBURIED in Tahoe this year – 201 inches or 16+ feet at Diamond Peak during the month! – you may still be feeling the aches and pains from a month spent shoveling and clearing snow. Our staff certainly remembers it well, but we're proud to say that throughout that challenging month we were able to maintain full operations for the vast majority of the days, with only minor delays in opening the Crystal Express chairlift during storm days.

And all of the hard work was certainly worth the effort, with huge smiles on our guests' faces being the payoff for the long days. During IVGID Appreciation Week (February 4 – 10) we were able to provide over 2,000 free ski days to IVGID Picture Pass Holders, with seemingly unlimited fresh powder available that week.

Over all this season, we saw a total of 130,922 skier visits, which works out to an average of 1,007 skier visits per day. At the same time, we managed to cut down on the peak day congestion that the resort has experienced during previous seasons.

I know I speak for the entire team when I say... We'd like to personally thank every skier and snowboarder who came up and made some turns with us this season, and especially those community members who took the time to share their feedback with us via our online survey or just by dropping by our offices to chat this past winter. Your support is what makes it all worth it for us, and we look forward to seeing you again next winter!

CURRENT CONSTRUCTION PROJECTS

Incline Park Ballfields Renovations

The project was awarded to Rapid Construction at the March 18, 2019 District Board meeting. The project was reduced in scope to only improvements at Field #3 to include:

- New Baseball specific Turf Infield, Drainage, and Irrigation
- New outfield specific French Drain - New Scoreboard with naming rights panel
- New Modular Batting Cages with retaining/seating wall
- New Foul Poles - Expansion of outfield dimensions, fencing replacement, and renovated outfield warning track
- New Backer Board at Backstop/ Includes padding
- New enclosed custom modular Dugouts with equipment storage - Site Signage Improvements

Burnt Cedar Pool The Burnt Cedar Pool, constructed in the 1970's, features a skimmer type recirculation system. The piping system and turnover times are undersized and problematic for pool clarity. This project will replace the pipes from the Mechanical room at the edge of the Burnt Cedar Pool. During construction when the piping is exposed

at the edge of the pool both visual and camera inspection will be completed on the piping from the edge of the pool to the bottom of the pool in an effort to scope the next phase schedule for the fall of 2019. Piping replacement has been completed.

Mountain Golf Course Clubhouse

On August 11, 2018 a fire occurred in the Mountain Golf Course lodge which completely decimated the kitchen area. Smoke damage was incurred throughout the facility, which in turn affects walls, flooring and mechanical systems. The District's insurance coverage is for replacement. However, the evaluation of what is the best solution long term for the operations indicates a revised allocation of floor space, changes to access and ultimate substantial change to customer flow requires a makeover of

the floor plan. These changes facilitate other objectives including a long-standing issue of ADA accessibility to the lower level for food service. The Smith Design Group has completed design documents which have been submitted to Washoe County for permits. Once we receive comments, bid level documents will be developed. The renovation project will then either be administered through the insurance company or publically bid. Construction is scheduled for fall 2019 with substantial completion prior to the 2020 golf season. To facilitate utilization of the building for the 2019 golf season, the interior was painted and the floors were carpeted. Insurance proceeds covered the cost of the paint and carpet contracts.

Recreation Center Deck & Stairs Repair and Powder Coat all Patio Deck Railings (Recreation Center)

This project will replace the railings and southern stairway on the eastside deck at the Recreation Center. The project was publically bid and received three bids. The lowest responsive bidder was Bruce Purves Construction. The contract was on the April 10, 2019 District Board meeting agenda for award. The Notice to Proceed was issued on or about April 25, 2019. The Project is expected to be substantially complete by June 24, 2019.

Water Reservoir Safety and Security Improvements This project would replace the ladders that access the top of the water reservoirs, install intermediate access platforms, install protective railings and install new fall protection devices. The exterior access to the roof area is required to meet the needs of the District to monitor the water quality in the reservoirs and perform routine repairs to radio communication equipment. The ladders also need to be secured from access by the public. The reservoir ladders, fall protection, platforms, and protective railings will meet the current Occupational Safety and Health Administration (OSHA) safety standards. The project was publicly bid and received two bids. The lowest responsive bidder was Resource Development Company. The Project is expected to be substantially complete by June 30, 2020.

ADA Access to Golf Course Bathrooms (Mountain Course)

The Mountain Golf Course on-course bathrooms at holes #6 and #13, and the site surrounding the restrooms are not in compliance with current American Disabilities Act (ADA) requirements for access due to excessive cross slopes between the golf cart parking and the restrooms entryway. This project will re-construct the cross slopes and pave access from the golf cart parking to the restroom’s entryway. The project was awarded to Colbre Grading and Paving at the January 23, 2019 Board Meeting. This project is expected to be substantially completed in July 2019.

Sewer Pump Station #11 Replacement Sewer Pump Station #11 collects and transports the raw sewage in and around Crystal Drive in Crystal Bay to the wastewater treatment plant on Sweetwater Road. Constructed in the 1970s, this station has provided

reliable service. The station contains the mechanical and electrical equipment to pump sewage to the wastewater treatment plant. The pump station to be replaced is a wet well mounted packaged pump station. The new pump station includes the insulated enclosure, two pumps, high altitude motors, heaters, a sonic start system for priming and a SCADA system. The pump was procured in December 2018 and will be installed when the weather conditions are more favorable in the coming month.

Sewer Pump Station #1 – (Overflow Parking Lot) The District owns 18 sewer pumping stations in Incline Village and Crystal Bay. Sewer Pump Station #1 collects and transports 50% of the raw sewage and transport to the wastewater treatment plant on Sweetwater Road. If something were to happen to Sewer Pump Station #8

there is a direct bypass that would send all of the raw sewage to Sewer Pump Station #1, thus accounting for 75% of the raw sewage in the District. Constructed in the early 1970s this station has provided reliable service. The station contains the mechanical and electrical equipment to pump sewage to the wastewater treatment plant. The equipment in the station to be replaced as a part of this project are the variable frequency drives for the three pumps. Jacobs Engineering is working on the design for the replacement of the three variable frequency drives (VFD’s) and replacement of the motor control center (MCC). Final bid level documents are expected in June 2019. The Engineering staff will then bid the construction project in July 2019, with Construction anticipated for the fall/winter 2019-20.

LUXURY LEADER

Water Pump Station 2-1 Incline (Burnt Cedar Beach)

Water Pump Station 2-1 (WPS 2-1) is located at the Burnt Cedar Water Disinfection Plant (BCWDP) and pumps the disinfected potable water into the water distribution system to serve Incline Village and Crystal Bay. WPS 2-1 was largely constructed in 1972 with minor upgrades in 1995 and 2012. The electric motor control centers (MCCs) and switchgear at WPS 2-1 date to the original 1972 installation. This equipment does not meet modern OSHA requirements for Arc Flash safety and the MCCs and switchgear are at the end of their service life and no longer supported by the respective manufacturers.

Jacobs Engineering is working on the design for the replacement of the three water pump motor soft starts and

replacement of the motor control center (MCC). Construction will begin in June 2019 and substantial completion in April 2020.

WRRF Aeration System Improvements

The aeration process of wastewater treatment supplies oxygen to facilitate the biological activity that converts raw sewage into treated wastewater effluent. The treatment plant has six 200,000 gallon aeration basins with two jet aeration clusters per basin. These clusters utilize pressurized air to mix and recirculate the wastewater and provide the necessary oxygen to the microorganisms. The pressurized air is delivered by multistage centrifugal blowers that are metered by electronically operated valves in order to keep the correct balance of oxygen in the aeration basins at all times. This project funds the design and replacement of the

aeration system equipment at the WRRF. The age of the equipment, the number of hours of operation, and condition assessment indicates the existing centrifugal blowers are at the end of their serviceable life. Additionally, the blowers are no longer supported by the manufacturer and replacement parts are difficult to acquire. Jacobs Engineering is working on the design documents and final bid level documents are scheduled to be completed in the June 2019 to replace aeration blowers and associated piping, valves and control system. The Engineering Staff will then bid the construction project in July 2019, with construction beginning in September 2019 and substantial completion in May 2020.

GoldfishProperties.com
920 Incline Way, Suite A
Incline Village, NV 89451

When it comes to your vacation on the North Shore of the iconic "Jewel of the Sierra Nevada," every guest and homeowner should be treated like gold! That's why you deserve, what we call, the Goldfish Standard!

The premier home and condominium vacation management company in Incline Village, Goldfish Properties has been in business for nearly two decades and has set itself apart from all other rental options by offering guests and homeowners top-notch 24/7 service.

Did you know that most vacation-rental companies aren't even in the area? Let alone in town? Many rely on third-party partners, who may be uninformed and unreliable. With an unrivaled

knowledge of the area and a brick-and-mortar presence, full-service office ideally situated in Incline, we are 100% in-the-know and in-town!

Good things come when you partner with a well-known, experienced company that has been in the vacation business for so long like we have. Not only has our website been around for 16 years, but we have partnerships with all major rental sites, such as VRBO, HomeAway, and Airbnb, so you are assured your home gets maximum exposure.

While we all work to Keep Tahoe Blue, we at Goldfish want to also make sure your next vacation is Gold!

Custom Cutlery &
Whetstone Sharpening
Exclusively sharpening at
Nothing to It!

Knife Maintenance

I think we all get a little giddy using a brand new, out of the box knife with a pristine, sharp edge. The way it glides through food with little to no effort is a thing of beauty. So how do we keep our knives working like new after the honeymoon?

To really understand knife care, we need to understand what breaks down a knife's edge. There are three interactions in which a knife's edge is degraded:

The elements: Acids, water and detergents all react with steel and slowly break down its composition. The longer the steel is in contact with any of those things, the more degradation that occurs in the blade. Keeping a knife clean and dry will add years to its life and help retain a sharp edge.

Heat: Extreme heat can also break down a blade. Varying temperatures can slowly wear on a knife. Different materials expand and contract when exposed to different temperatures. This can easily rip handles away from tangs, and cause the knife to fall apart. Add liquid, and this is amplified even more.

Use: Let's face it— using a knife will dull its blade. How you use a knife has a big impact on how fast the edge degrades. If you're gentle while using it, you'll find the edge lasting longer. Also factor in your cutting board surface. Do not cut on a surface that is harder than steel. Wood is the most gentle on your knives. Glass and tile will dull the knife quickly since both surfaces are harder than your

knife's steel. Regardless, if you know how to sharpen a knife, you can restore the edge once it's gone.

Now that we understand what factors dull your knife, let's talk about what we can do to preserve it.

Dishwasher a no-no: Keeping a clean knife is paramount to making your knife last, though the dishwasher hits all the points in what hurts your knife. It exposes the knife to water, detergent, heat, and with a strong enough spray, hard use. Instead, it's much easier to use warm water, a sponge with mild dish soap, and just gently rubbing the knife, washing off anything that could be stuck to it. Just keep your hand away from the edge, and dry immediately when done.

Sharpening: Sharpening removes worn down, softened steel to create a new edge from the harder steel below. There are different ways to accomplish this, but the best is to sharpen by hand with a series of decreasing grit factor whet stones. Grinding machines also sharpen, but tend to remove more steel than needed to produce a new edge, decreasing the lifespan of your knife. Using a honing steel after each use will lengthen the time needed between sharpening. Not sure how to hone a knife? Feel free to contact me or Nothing to It! for a quick and easy honing lesson. We also offer a full whet stone knife sharpening workshop and whet stone sharpening services.

Invest in a good knife: Knowing how your knife was constructed and the hardness/grade of steel that it is made of is paramount. Essentially, the harder the steel, the better it will hold its edge. Cheap, multi-knife knife sets are alluring at the warehouse club. However, those sets, even from well-known brands, are made with less expensive, softer steels that work great the first use and quickly dull. Make sure to ask questions when buying your knife, as some retailers and manufacturers will give you extra tips on how to keep your knife working like new. When in doubt, ask a professional. We're here to help!

THERE'S A BIG WORLD OUT THERE TO EXPLORE

—By Eric Goldring, Goldring Travel

As I travel the world one of my guilty pleasures is saying to fellow travelers, "When this experience is over, I get to go home to your vacation!" We are lucky to live in Tahoe, the Bay Area and/or Napa. We are also fortunate to have the time and financial ability to travel the world. Ironically, many of us are so comfortable in our "bubble" that enthusiasm for international travel or a desire to carve out time from the seasonal migrations is slight.

Experiencing such wonders as penguins in Antarctica, artistry and history of the Terracotta Warriors, pasta in Italy, wine tasting in Chateaufort-du-pape, museums and flowers in Amsterdam, etc., allows me to better appreciate living in our slice of heaven. I also find that sometimes it is nice to take a break from our nirvana.

We love Lake Tahoe,
but there is a big world
out there to explore!

Goldring Travel will deliver YOUR Luxury whether it be sipping champagne while lounging on the deck of an ultra-luxury, all-suite, boutique Seabourn ship or exploring the wilds of Antarctica, Alaska, Asia or more on one of its Seabourn Ventures zodiacs, kayaks or hikes. Is Your Luxury delving into UNESCO Heritage Sites? Dining at The Grill by Thomas Keller? Extraordinary Spa Treatments? Because it is Seabourn, you can have it all...on the same cruise!

SEVEN CONTINENTS. FIVE SHIPS. ALL SUITES.
OPEN BAR. NO GRATUITIES. AND NEVER MORE
THAN 600 PAMPERED GUESTS.

SEABOURN®

Goldring Travel

(877) 2GO-LUXURY

Be Treated by Your Travel Agent as You Will be Onboard

Call Seabourn's World No. 1 selling agent,
Eric Goldring, at (877) 2GO-LUXURY
or email info@goldringtravel.com.

GOLDRING TRAVEL, LLC, 12177 BUSINESS PARK DRIVE, SUITE 6, TRUCKEE, CALIFORNIA 96161 | CALIFORNIA SELLER OF TRAVEL NO. 2127458-40

I have often said to myself, "Oh, I thought that was different!"; whether it be a historical event, a cuisine, an architectural wonder or, most importantly, the people I have met along the way. And traveling with one's children is especially rewarding as it opens their minds and gives them important perspectives they cannot get at home.

Some people cry when they arrive at The Great Wall of China, others see it as just another day and yet others, like me, contemplate, "Is this a monument to futility because it didn't keep the marauders out? To greatness? To those who died, even buried in the Wall, building it for a tyrannical Emperor?"

But what I truly enjoy is the cultural and nature immersion international travel affords. For me, my fondest and most compelling memories are those of the people, animals and scenery I have taken in...and the stories that are kept as treasures in my memory.

The first time you hear a lion roar and you realize it not the sound that puts you in awe, it is the fact that your entire body resonates so you literally "feel the power".

The time you shopped in Rome buying ingredients, taking them to a real cooking school where you made tagliatelle while

sipping on local wines. Or you made pizza sitting under lemon trees on a farm outside of Amalfi.

Branching out from California wines can be an exciting journey. Many fantastic small quantity wines never make it to the United States, but you can taste and purchase them in quaint chateaus and tasting rooms unlike anything in California. In fact, you can build an entire itinerary around wine tastings!

Speaking of itineraries, there are many ways to experience international travel. For some it is intimidating, others confusing, a challenge or filled with excitement. There are fully inclusive cruises on intimate all-suite ships, typical large cruise ships with many activities, group land tours of various sizes and quality and, of course, independent travel both guided and not.

Eric J. Goldring is the owner of Goldring Travel located in Truckee, California. Eric is an award-winning travel agent and travel writer who has journeyed to over 100 countries from Alaska to Antarctica, England to China, and many places in between. Eric has created luxury travel experiences for his numerous and diverse clients throughout the world, assuring that their individual ideas of luxury are met and exceeded.

LEAVE YOUR LEGACY ON "THE IMPOSSIBLE TRAIL"

What was once deemed “impossible” has come to fruition thanks to the hard work and extensive collaboration of 13 public and private agencies of which the Incline Village General Improvement District was part. This summer, the Tahoe East Shore Trail will make its debut, offering pedestrians and cyclists a safe, scenic route to travel between Incline Village and Sand Harbor.

The 3-mile stretch of trail, starting along the mountainside before tunneling under the highway to follow the rugged, rocky shoreline could arguably be considered one of the world’s most beautiful trails. Designed to improve safety along the narrow stretch of State Route 28 that has historically had an incredibly high crash rate, the trail will help to reduce interactions between drivers and pedestrians.

The Tahoe East Shore Trail also offers improved access to the recreation available in the area, including popular trails, coves and beaches. Parking is available at the trailhead in Incline Village near the Tunnel Creek Cafe, and bikes will be available for rent during the summer months.

The family-friendly Tahoe East Shore Trail includes environmental improvements that will help protect Lake Tahoe’s famed water clarity and features 16 stunning vista points along the paved route. Each area showcases an interpretive panel that offers an opportunity for trail users to learn something interesting about local ecology, animals, history and more.

Funding for the trail came from a combination of federal, state, and local sources, with over one million dollars in private donations raised by the nonprofit Tahoe Fund. Their effort was critical to the project’s success as it helped secure \$12.5 million

in Federal Land Access Program grant dollars. Donors are recognized along the trail at vista points, benches, and on trout and bear shaped plaques. All donations of \$100 or more are recognized on the donor wall.

Benches, bear and trout-shaped plaques are still available through the Tahoe Fund for those interested in leaving their

FIREWORKS FOR INCLINE VILLAGE/CRYSTAL BAY ARE A GO!

To ensure locals and visitors alike continue to enjoy one of the nation’s most spectacular fireworks shows, year-after-year, the annual 4th of July fireworks in Incline Village, NV is now being organized by Incline Village/Crystal Bay Fireworks Coalition, including individuals and organizations who have been involved with the community’s fireworks display for many years.

“Thanks to the efforts of everyone involved in our firework coalition, we are anticipating a magnificent firework show right off the edge of Incline Beach,” said Andy Chapman, President/CEO of the Incline Village Crystal Bay Visitors Bureau and one of several businesses involved in this hometown partnership. “We’re excited to bring our key leaders together to continue the tradition of hosting one of the most spectacular fireworks shows in the country.”

In their own vested interest, the following businesses and organizations will present “Incline Village/Crystal Bay Fireworks” on the 4th of July in Incline Village, NV. The partner

agencies include: Incline Village/Crystal Bay Visitors Bureau, Incline Community Business Association, Hyatt Lake Tahoe, Parasol Tahoe Community Foundation, and the Incline Village General Improvement District. The community group is also receiving positive support from Washoe County, the North Lake Tahoe Fire Protection District, and other key community agencies.

All donations for the Incline Village/Crystal Bay Fireworks Spectacular are stewarded by the Parasol Tahoe Community Foundation, a 501(c)(3) non-profit organization incorporated in the State of Nevada. All donations are tax-deductible to the fullest extent allowed by law (Tax ID#: 88-0362053).

To date, the organization has raised nearly 70% of the monies required to ensure, organize, and produce the show. Fundraising is underway, and donations can be made by visiting IVCBFireworks.org.

For more information, contact Andy Chapman through the Incline Village Crystal Bay Visitors Bureau at 775.832.1606 or Blane Johnson, Sun Bear Realty and Property Management at 888.686.5253.

GROUP RENTAL FACILITIES

Recreation Center, Beach Picnic Areas and Fields

980 Incline Way,
Incline Village, NV 89451
775.832.1310
inclinerecreation.com

If you are looking for a place to hold a social, sporting or special event in Incline Village, we have several venues available. The Recreation Center offers year round facilities for indoor events with amenities that include a lobby for birthday parties, indoor gymnasium and indoor pool. Incline and Burnt Cedar beaches have several Group Picnic areas available to beach access pass holders to reserve for spring or summer events. The designated beach sites include barbecue grills and tables offering you and your friends an area to picnic and enjoy the beach. Two sites are available at Burnt Cedar and two at Incline Beach. These sites can only be reserved with a valid IVGID Picture Pass with beach access. Each guest is still responsible for beach access fees. There is one site available at Preston Park which is perfect for a family gathering or your child's birthday party and can be reserved by both IVGID pass holders & non pass holders

In addition, Village Green, Preston Field and Incline Park offer wide open spaces for activities and have multi-use fields for your soccer, softball and baseball needs. These sites are available to both IVGID pass holders & non pass holders. Reservations for all sites are taken on a first-come, first-served basis at the Parks & Recreation Department Counter. Payment is required with your application.

DISC GOLF COURSE

The North Tahoe Lions Club Disc Golf course includes 18 par 3 holes in a picturesque setting located within Incline Park adjacent to the Tennis Center, Recreation Center, Skateboard Park and the Ball Fields. This is a free multi-use area to be enjoyed by all ages. The Disc Golf Course was created through a partnership between the Incline Village Parks & Recreation Department and the Incline Tahoe Foundation with generous community donations. Parking is available at the Recreation Center at 980 Incline Way. Parking is not permitted at the Tennis Center. The 1st hole is located on the west side of the Recreation Center entrance road. Discs are available for purchase or rent at the Recreation Center.

SKATE PARK

Hwy 28 & Southwood Blvd., Incline Village, NV 89451
775.832.1310

Incline Skate Park, centrally located on the corner of Tahoe Blvd (Hwy 28) and Southwood Blvd. in Incline Park, has something to offer everyone. There is an intermediate/advanced section of the park consisting of two 5-foot side-by-side bowls connected with a spine. In the middle of the park is a 3-foot tall fun box, and the entire right side of the small end is a 2.5-foot tall bowl for beginners. The street course is laid out on top, flowing in a circle with an 8-foot long flat rail, 6-foot long down rail, a set of 4 stairs, and a 10-foot long downward ramp leading into the bowls.

FITNESS TRAIL

The Incline Village Fitness Trail (previously known as the Exercourse) is an 18-station exercise course adjacent to the Village Green. The .8 mile course winds through the forest next to Incline Creek. The course contains accessible walking, running, snowshoeing, biking and exercise trails, and is used by many residents and visitors year-round. The Fitness Trail was updated in partnership with the Incline Tahoe Foundation and community funds.

TENNIS CENTER

964 Incline Way,
Incline Village, NV 89451
775.832.1235 | inclinetennis.com

The Incline Village Tennis Center, located next to the Recreation Center, offers 10 tennis and 8 pickleball courts in a picturesque alpine setting along a year-round creek. Available in the pro shop is a full line of Babolat and Head racquets, pickleball paddles, other tennis products, as well as the newest apparel and shoes from Nike. Racquet stringing is available by our staff. A wide variety of synthetic and natural gut string is available.

CHAMPIONSHIP & MOUNTAIN GOLF COURSES

955 Fairway Blvd. & 690 Wilson Way,
Incline Village, NV 89451
775.832.1146 | golfIncline.com

The Incline Village Golf Courses offer complete facilities to meet your golfing needs. Our facilities include two 18-hole golf courses, driving range, putting and chipping greens, food and beverage and special event facilities. The golf shops are stocked with full lines of men's, ladies' and kids' apparel as well as the top club, golf ball products and shoes. PGA teaching professionals are available for private and group instruction. Incline Village and Crystal Bay Residents with a valid IVGID Picture Pass can receive a discount on green fees, passes and most merchandise at the golf shop.

THE CHATEAU AT INCLINE VILLAGE™

955 Fairway Blvd.,
Incline Village, NV 89451
775.832.1240
InclineWeddings.com

The Chateau at Incline Village™ features classic Tahoe stone and timber construction with a modern edge. This 13,500 square foot venue has vaulted timber ceilings, massive stone pillars, a spacious covered deck and offers expansive views of the mountains, the Championship Golf Course and Lake Tahoe. It is beautiful, multi-functional and flexible. It is the perfect venue for large or small wedding ceremonies, receptions, meetings, golf events, and parties. You dream up the event and we'll make it happen! Our professional Food & Beverage team provides great food, outstanding service and a wonderful experience.

ASPEN GROVE

960 Lakeshore Drive,
Incline Village, NV 89451
775.832.1240
InclineWeddings.com

Named for its beautiful location, Aspen Grove is located across the street from the stunning Lake Tahoe beaches and nestled among the Aspen trees next to tranquil Third Creek. Outdoor amenities include picnic tables and a huge barbeque grill. The outdoor area can accommodate up to 150 guests; inside can comfortably seat up to 50 guests. Catering and bartending services are available through our outstanding professional food service team for your convenience. With its stunning mountain and forest views, Aspen Grove is one of the most affordable venues on the North Shore and perfect location for spring, summer and fall events.

DIAMOND PEAK SKI RESORT

1210 Ski Way,
Incline Village, NV 89451
775.832.1177 | diamondpeak.com

Diamond Peak is the ultimate family and kid-friendly ski resort featuring spectacular Lake Tahoe views, uncrowded terrain and affordable lift tickets with a laid-back atmosphere. Learn to ski or snowboard or improve by taking a group or private lesson. The Child Ski Center (ages 3-6) offers both one-on-one private instruction and small group lessons (ages 4-6) with no more than five children per instructor. The Ski and Snowboard School is known for the popular Sierra Scout All day Adventure Package for ages 7-14 that includes morning and afternoon group lessons, rental equipment, lift ticket and a supervised lunch. Families can also take a Private "Family and Friends" Lesson special if they want to learn together.

Group rates are available for lift tickets and you can rent the Fireside Room or book a private Last Tracks for parties or corporate events.

THE ROBERT & ROBIN HOLMAN FAMILY BIKE PARK

980 Incline Way
Incline Village, NV 89451
inclinerecreation.com

The Incline Village Parks & Recreation, the Incline Tahoe Foundation, and Incline Bike Project collaborate to develop and maintain the Robert & Robin Holman Family Community Bike Park. This park offers a pump track; beginner and intermediate flow lines, and was funded through generous donations by community members and in large part by a grant from the Holman Family Philanthropies Fund held at Parasol Tahoe Community Foundation.

The Incline Bike Park Project's mission is to provide a free-to-use bike park facility that welcomes all ages and skill levels to a safe, outdoor, healthy, family friendly community-gathering venue.

LIKE NO OTHER

It's easy to assume that all real estate brokerages are the same. The truth is we are passionate about being different. We're ambassadors of our community and our industry. We look at each moment as an opportunity to bring irreplaceable value and unmatched integrity to our clients. Luxury isn't tangible. It isn't a price tag. Luxury is an experience and a commitment to going beyond status quo. **Being different isn't for everyone, but to us, it's everything.**
