Welcome!

As I look at all of the hunts available to sportsmen in Nevada, I can't help but think about some of the words that we use to describe our activities. Hunt, pursue, harvest, opportunity, kill, and conservation: what does our word choice tell us about our actions?

The terms hunt and harvest are not synonymous. Hunting is an activity that we engage in so that we might reap the harvest of our natural resources. Harvest is designed to either take from a surplus portion of the population that does not reduce the overall population, or, in some cases limits the population at levels which do not harm the habitats upon which the wildlife depends. As hunters know, the opportunity to participate in a hunt is no guarantee of a harvest.

The Nevada Department of Wildlife formulates recommendations for hunting opportunities based on scientific surveys and analyses that are carefully considered by the Nevada Board of Wildlife Commissioners, County Advisory Boards to Manage Wildlife, wildlife conservation organizations, and the general public through public meetings before the Commission ultimately renders the final decisions. It is a public process with honest debate worthy of the public trust.

Opportunity to get in the field and enjoy a connection with our natural resources not only provides the funding critical for conservation but also helps maintain the relevancy of conservation. Opportunity means different things to different people. It can mean a long-awaited chance to pursue an older age class buck, bull, or ram for which you may have been applying, sometimes for more than a decade. For others, opportunity can simply be a chance to hunt so that they might harvest free-range, additive-free, locally-grown, healthy lean protein for their freezer and family. Others yet may simply seek a reason to spend time in the outdoors with family and friends, or taking a solitary hike, watching and enjoying the sights, sounds, and smells of our natural resources.

If you hunt, you cannot do so without contemplating the possibility that as you hunt you may ultimately kill an animal. The hunters I know don't hunt for the kill, however, that kill is an inseparable part of this activity. Not every hunt results in a kill and not every hunter kills. When we do, we have a responsibility to ensure that we do so cleanly, effectively, and ethically. Hunters are judged by our behavior, our treatment of the animal, how we treat those that might disagree with us about our decision to hunt, and our ability to prepare and share the food that our harvest and kill provides. It is important that we treat our harvest and each other with the respect that reflects positively on us all!

This opportunity and activity is what connects us with conservation. Hunters share a deep connection with wildlife. Hunting connects us with the conservation of wildlife resources, as does wildlife viewing and photography. The more people are connected with wildlife, the more stable and certain the future of our wildlife becomes. If others are not connected with wildlife, conservation becomes less relevant and we all lose our cherished opportunities in the outdoor world that means so much to us. Efforts to recruit, retain, and reactivate those who value wild animals in wild places are essential to the future of conservation.

Enjoy your opportunities to connect with conservation this year. Take a friend with you. Share your harvest. Treat others and your hunt with respect, and be an ethical hunter. In the words of Aldo Leopold, "Ethical behavior is doing the right thing when no one else is watching — even when doing the wrong thing is legal."

Sincerely,

Tony Wasley, Director

Under Armour® Barren Camo

Under Armour® Barren Camo is built with a color palette that works best in locations absent of abundant foliage and deciduous forests. These environments would include, but are not limited to, high desert, rocky, mountainous terrain, sage fields, and vast desert. In the colder months this pattern has also proven to be effective in deciduous forests, after the leaves have dropped for the season.

Many of the members devote countless hours providing the manpower necessary to carry out work projects and to plan and execute the annual banquet and other social activities. WHIN is an organization that your whole family can enjoy and become active in. We encourage everyone to participate. Unlike many other worthwhile groups who work on behalf of wildlife, WHIN is a NEVADA organization, and retains 100% of the money it raises for projects and activities within the state. Funds are raised through membership fees, donations, and by auctions and raffles at the Annual Banquet, and other times throughout the year.

Bighorn Populations Reach Historic Milestone

By Aaron Meier

Mike Cox, game biologist for the Nevada Department of Wildlife, was in his office after hours working on the statewide desert bighorn population estimate for 2017. As he finished inputting all of the herd estimates, he glanced at the total. The number was over 10,000. He checked his numbers again and even made sure his formulas were correct, but the number stayed the same.

"There was this moment where I was all alone in my office and I paused and thought, 'Wow. This is not a little thing that we just accomplished,'" said Cox. "I took a minute and thought about all of the biologists through the years, all of the NGOs (non-governmental organization) that partnered with us, the countless projects...everything that went into this success and it was a little overwhelming. This really was a team effort by everyone."

Nevada's bighorn population was estimated at over 30,000 in 1860 based on historic accounts, archeological evidence, mapping of bighorn habitat, and a conservative bighorn density. Tragically, many of these bighorn herds were wiped out by the early 1900s due to livestock diseases, over-hunting, human disturbance, and a host of other causes. For example, the last sighting of bighorns in the Ruby Mountains was in 1921.

"Nevada was somewhere between 2,000 and 3,000 bighorn in the late 1940s," said Cox. "It has taken years of hard work but

our estimate for desert bighorn sheep is over 10,000 this year, and for all bighorn subspecies (Rocky Mountain, California and Desert), the population is over 12,000. That is more wild sheep than any other state except for Alaska."

As part of the bighorn restoration program that began in the 1960s but truly took off and intensified in the 1980s, biologists and sportsmen together have released over 3,300 bighorn sheep in Nevada and built over 180 water developments.

Cox points to a long list of conservation groups and agencies who were instrumental in this recovery process including Nevada Bighorns Unlimited Reno and Fallon Chapters (NBU), Fraternity of the Desert Bighorn, Safari Club International, Bureau of Land Management, U.S. Forest Service, Lake Mead National Recreation Area, Desert and Sheldon National Wildlife Refuges. Additional groups that have greatly contributed to continued bighorn restoration in the recent decades are: Elko Bighorns Unlimited, NBU-Midas Chapter, Nevada Muleys, Wild Sheep Foundation (National and chapter affiliates: Eastern, Midwest and Iowa), and the Nevada Wildlife Heritage Program.

"There were definitely years where our NGOs carried the day," said Cox. "This success has been an absolute team effort. This is just proof of what you can accomplish when everyone is pulling for the same thing."

The recreational opportunities from this great success are also pretty astonishing. Almost 6,800 bighorn rams have been harvested since the first hunting season in 1952. This includes 5,690 deserts, 974 California, and 115 Rocky Mountain bighorn rams. The unique opportunity to spot, stalk and harvest a bighorn ram in the rugged and steep Nevada mountains, who some consider an original "extreme" sport, has grown from 139 tags in 1990 to 397 tags in 2017. Hunting opportunities from reintroduced herds make up 58% of the total bighorn tags statewide.

"All those people and organizations that made bighorn restoration a huge success should be proud that bighorns are back where they belong," said Cox. "All those that hike and play in our mountains now have the opportunity to view bighorn, Nevada's true natural heritage symbol, in more wild places."

The Silver State seems to have been made for the bighorn sheep. During his travels through Nevada's Lake Range north of Reno in 1843, explorer John C. Fremont wrote, "On our road down, the next day, we saw herds of mountain sheep".

Based on archeological evidence, bighorn sheep distribution was virtually across the entire state prior to European settlement in the early 1800s. Nevada has 314 mountain ranges, more than any other lower 48 state. In addition to being so mountainous, a lack of natural barriers also aided in the broad distribution of bighorn sheep. Bighorn could cross "land bridges" and narrow valleys in their nomadic movements among the various mountain ranges.

GET INVOLVED

If you are interested in getting more involved with Nevada's wildlife, NDOW recommends attending your local County Advisory Board to Manage Wildlife. The County Advisory Boards job is to advise the Wildlife Commission about local perceptions about wildlife management and hunting recommendations for their counties. Learn more on the NDOW website at ndow.org.

Demerits and License Revocations

Hunting, fishing and trapping license privileges are revoked when a person accumulates 12 demerit points within a 60-month period. When a person is convicted of a wildlife violation, a certain number of demerits are assessed for that crime. The more serious the crime, the greater the number of demerits that are assessed.

Demerit-based revocations may last up to three years. Under some circumstances a person's tag privileges may be revoked for up to 10 years.

(Refer to NRS 501.105, 501.181, 501.1818, NAC 501.200 and NAC 501.210)

Criminal Penalty Provisions

Can be prosecuted as a **FELONY** for a person who intentionally kill or aid and abet another person to kill a bighorn sheep, mountain goat, elk, deer, pronghorn antelope, mountain lion or black bear if you:

1. Hunt outside the prescribed season;
2. Use an aircraft or helicopter;
3. Use a method other than what is listed on the tag;
4. Outside the prescribed time;
5. Without a valid tag;
6. Use a tag of another;
7. Outside the prescribed unit(s); or
8. The tag was obtained by a false or fraudulent representation.

Exceptions:

1. The killing of the animal is necessary to protect the life or property of any person in imminent danger of being attacked by the animal; or
2. The animal killed was not the intended target of the person who killed the animal if you notify the Department as soon as possible about the accidental kill.

If you know or should have known an above animal was killed unlawfully and you possess said animal it is a **GROSS MISDEMEANOR OFFENSE**.

(Refer to NRS 501.376)

Unlawful acts; criminal penalties

Except as otherwise provided by specific statute:

1. Any person who:
 - (a) Performs an act or attempts to perform an act made unlawful or prohibited by a provision of this title;
 - (b) Willfully fails to perform an act required of him by a provision of this title;

COMMON VIOLATIONS

The vast majority of hunters, trappers and anglers do their best to abide by the wildlife laws and regulations. For those people who fail to follow the law, convictions of wildlife law may carry serious penalties, including criminal fines up to \$5,000, jail, civil penalties up to \$30,000, loss of equipment and lost license privileges.

The following are a list of the eight most common violations in the field. Check twice, take due care, and you can avoid unnecessary citations, costly fines and loss of equipment and hunting privileges.

If you make a mistake — for example shooting a spike, or small forked-horn deer instead of an antlerless deer — report it immediately to the local game warden or *Operation Game Thief (OGT)* at 1-800-992-3030. Follow any instructions that are provided to you and wait for the warden to arrive. Taking the opposite approach, such as hiding or wasting game, will carry much more serious consequences.

1. Hunting Outside Unit Area Designated on Tag

Double-check the hunt area/unit designated on your tag, and review the boundary unit descriptions on the reverse of the Department's Big Game Boundary Unit Reference Map. Purchase detailed reference maps. Know where you are. **This is a misdemeanor offense, but if an animal is killed, it can escalate to a felony.**

2. Loaded Rifle or Shotgun In/On Vehicle

Nevada law prohibits carrying loaded rifles and shotguns in or on vehicles, including ATVs, motorcycles, snowmobiles, etc. After hunting on foot, unload the gun before placing it in or on the vehicle. **This is a misdemeanor offense.**

- (c) Obstructs, hinders, delays or otherwise interferes with any officer, employee or agent of the Department in the performance of any duty while enforcing or attempting to enforce any provision of this title;
- (d) Violates any order issued or regulation adopted by the Commission under the provisions of this title; or
- (e) Having been granted a privilege or been licensed or permitted to do any act under the provisions of this title, exercises the grant, license or permit in a manner other than as specified, is guilty of a misdemeanor. An officer, employee or agent of the Department may not obtain or attempt to obtain biological samples of wildlife, hunting, fishing or trapping data, or any other biological data or information relating to wildlife on private property without the consent of the owner of the property.

2. Every person who is guilty of a misdemeanor or under this title shall be punished by a fine of not less than \$50 nor more than \$500, or by imprisonment in county jail for not more than 6 months, or by both fine and imprisonment.

(Refer to NRS 501.385)

Forfeitures

Any gun, ammunition, trap, snare, vessel, vehicle, aircraft or other device or equipment used, or intended for use:

1. To facilitate the unlawful and intentional killing or possession of any big game mammal; or
2. To hunt or kill a big game mammal by using information obtained as a result of the commission of an act prohibited by NRS 503.010 or a regulation of the Commission which prohibits the location of big game mammals for the purpose of hunting or killing by the use of:
 - (a) An aircraft, including, without limitation, any device that is used for navigation of, or flight in, the air;
 - (b) A hot air balloon or any other device that is lighter than air; or
 - (c) A satellite or any other device that orbits the earth and is equipped to produce images, or other similar devices; or
3. Knowingly transport, sell, receive, acquire or purchase any big game mammal which is unlawfully killed or possessed, is subject to forfeiture pursuant to NRS179.1156 to 179.119 inclusive.

(Refer to NRS 501.3857)

3. Using Tag of Another

This is a surprisingly common violation. Only the person named on the tag may use or possess the tag. This violation is considered a felony offense if an animal is harvested.

4. License and Tag Fraud

Providing false information (for example, claiming to be a Nevada resident, using a false date of birth, or fictitious name, etc.) to obtain a license is a **misdemeanor**. Providing false information to obtain a big game tag is a **gross misdemeanor**, and killing a big game mammal with such a tag is a felony. This activity steals tags from lawful sportsmen.

5. Early/Late Shooting

Do not shoot at game before or after the designated legal hunting hours. Check the sunset/sunrise and hunts by species table. Sunset does not mean dark! (Refer to legal hunting hours by species on page 68. Also see sunrise/sunset tables pages 68–72. This is a misdemeanor offense.

6. Failure to Properly Punch Tag or Permit Immediately After Taking Game

Upon reaching game, **immediately** validate (punch) the tag or permit with a knife or other sharp object. Marking it with a pencil or pen is not acceptable. **This is a misdemeanor offense.**

VALIDATION INSTRUCTIONS: Immediately upon reaching the animal the tag holder has killed:

- CLEARLY PUNCH** MONTH and YEAR on kill.
- CLEARLY PUNCH** POINTS LEFT AND RIGHT – If killed animal is deer or elk, an author is the annually laid and regenerated bone growth originating from the skull of a big game animal as part of its life cycle. "Antler point" means a projection off an antler must be seen which is at least 2 inch in length with the length exceeding the width of the base. For mule deer exclude the first point on the main beam near the skull, commonly known as the eye guard.
- CLEARLY PUNCH** SEX of kill – except for Swan.
- Write the unit where kill occurred. Refer to regulation brochure map in the NV Hunt Guide.

Filling or marking blocks with pencil or ink is NOT acceptable. Clearly punch the appropriate blocks.

AFTER PUNCHING: The tag must be firmly attached to the carcass of the animal, by the hunter, at or before the time he first reaches his means of transportation or camp and stay remain with the major portion of the meat until consumed; in the case of mountain lion or bear, the tag shall be firmly attached to the base of the animal and the tag shall remain with the raw hide while in transportation from the field. Mountain lion and bear trophies must be inspected and sealed by a NDOH employee. Check your NV Hunt Guide for details.

MONTH		DAY							ANTLER POINTS		SEX	
JUN	JUL	1	2	3	4	5	6	7	8	Left	Right	Male
SEP	OCT	9	10	11	12	13	14	15	16	1	2	Female

MAR	APR	25	26	27	28	29	30	31		5	6	

Unit of Kill Location: 072

If a tag is used to kill more than one animal, the crime is punishable as a category E felony and all equipment used in the crime is subject to forfeiture, including guns and vehicles.

7. Possessing an Over Limit of a Species

Possession Limit is the maximum number of a species that one person can legally take and control at any one time—this includes animals held in the freezer and ice chest. Daily Limit is the maximum number of a species that is allowed to be harvested in any given day.

8. Unplugged Shotgun

Waterfowl and dove hunters may not use shotguns capable of holding more than three shells. Shotguns must be plugged and rendered incapable of holding more than three shells. Shotguns must also be plugged in all Wildlife Management Areas regardless of species. This is a misdemeanor offense.

Civil Penalties

In addition to the criminal penalties, every person who unlawfully kills or possesses wildlife is liable for civil penalties:

- a TROPHY big game mammal – \$5000-\$30,000
- big game mammal, bobcat, swan or eagle – \$250-\$5000
- fish or wildlife not included above – \$25-\$1000
- hunting, fishing or trapping without a valid license, tag or permit – not less than \$50

Failure to pay a penalty within 90 days may result in license suspension or revocation and denial of privileges.

HUNT SHED ANTLERS RESPONSIBLY

Shed hunting has grown in visibility and popularity in recent years. Scouring the winter ranges of mule deer and elk in search of naturally shed antlers is a social and family activity that draws people out to enjoy nature, but shed hunters must have respect for the habitat and the animals they covet.

Shed hunting too early in the year can stress wildlife. High stress can cause pregnant deer and cow elk to lose their young and poor body conditioning and nutrition can stunt future antler growth. Many people may not realize that harassing wildlife is a crime.

Some tips for doing it right include:

- Tread lightly on animal habitat, respect the animal's space
- Do not chase animals with snowmobiles, four wheelers or any vehicle
- Wait for antlers to shed naturally. If you wait and watch from afar the chances of finding a match set go way up.

If you witness wildlife harassment or any other activity that is harmful or dangerous to wildlife, report the incident to Operation Game Thief at 1-800-992-3030.

Mountain Lion

Mountain lion harvest limits are established annually. When the harvest limit has been met for a given region, the lion season is closed in that region. Prior to hunting, tagholders must call the Mountain Lion Harvest Information Hotline at any time to determine if a unit or unit group has been closed due to the harvest objective being reached. The hotline number is 1-800-800-1667, and is accessible 24 hours a day. Mountain lion tags are available for residents and nonresidents to purchase over the counter (two per year) at NDOW offices, license agents and online at www.ndowlicensing.com. Harvested mountain lions must be inspected and sealed by a NDOW representative.

6th Annual Wounded Hero Hunt

The Nevada Outfitters and Guides Association (NOGA) provided a U.S. military person with a free elk tag and guided week-long Nevada hunting trip during the 2016 fall hunting season.

This Year's Wounded Hero: Gilbert Hernandez

A Vietnam vet from Elko, NV who graduated from Wells High School and joined the Marines in 1967. He attended boot camp in San Diego and was deployed in January of 1968. He was assigned upon arrival in Vietnam as a rifleman of the 2nd Battalion 3rd Marine Division, Golf Company. On the night of April 25, 1968, in the middle of combat, his tank, which he and several Marines were riding on top of, was hit by satchel charges and grenades. Hernandez was critically wounded in the back, both legs, his liver and his arm. He received a punctured lung, had six feet of his small intestines removed and pulled shrapnel from his skin for years following the attack. His story of survival is even more miraculous as he was pronounced dead following the attack. His body was taken to an area called Graves Registration, where fallen soldiers are ultimately taken and prepared to be sent home. The soldiers are first fingerprinted and then put in a body bag. It was then that a gentleman named Charles "Graves" Roth saw a twitch from the body of Hernandez who was to be fingerprinted next. Roth immediately sent him to surgery, where the doctor pronounced him dead. When he arrived back again at Graves Registration, Roth began hollering "this Marine is alive." For a second time he sent him back to a surgeon, where they pronounced him dead again. Finally, for fear of the Marines, they continued to work on him and finally found a faint pulse. "They pronounced me dead three times," Hernandez said.

Resident Junior Mule Deer Hunts

RESIDENT JUNIOR MULE DEER—ANTLERED-OR-ANTLERLESS—ARCHERY, MUZZLELOADER, OR ANY LEGAL WEAPON HUNT 1107

The junior youth hunt is an either sex hunt; tag holders can harvest a buck or a doe. This tag allows the junior hunter to hunt during the archery season when the unit is open for archery only; to hunt with a muzzleloader when the unit is open for muzzleloader only; and to hunt with any legal weapon (including crossbow) when the unit is open for any legal weapon. If a junior hunt applicant is unsuccessful in drawing a tag, bonus points will be awarded for the junior hunt.

Note: Any bonus points accrued in the junior hunt will automatically transfer to the antlered deer category at the time the junior hunter becomes ineligible for the junior hunt by either age, or after 5 years of application for the junior hunt.

Youth must be 12 prior to the opening of each hunt choice applied for (usually archery), and will not attain their 18th birthday until after the last day of the last season applied for (usually Any Legal Weapon). A person who is otherwise eligible to apply for a junior hunt may apply for a junior hunt for not more than 5 years.

Partnership in Wildlife (PIW) Hunts (CR 17-08)

Partnership in Wildlife (PIW) is a voluntary and optional participation program that offers unique hunting opportunities to hunters for a few statewide big game tags. A person with a PIW tag may hunt in any unit with an open season for the species listed on the tag, during the season dates when that unit is open for that species, and only with the weapon authorized to be used during that open season.

Application Instructions

Applicants who are eligible and apply for hunts in the first big game drawing of the year can apply for PIW hunts at the same time. Marking the PIW box for the same species you applied for in the first drawing will let us know that you want to participate in the PIW drawing for some very special tags. (Doe, antlerless elk, depredation and junior hunt applicants are not eligible for PIW hunts.) The PIW tag fee is \$10 for each species applied for. If successful for a PIW hunt tag, the entire tag fee the participant submitted with their main draw application will pay for the PIW tag. If unsuccessful in the PIW draw, \$10 will be placed in the Wildlife Heritage Trust Account. The remainder of the tag fee received from an unsuccessful applicant for a big game tag will be refunded to the applicant.

Funds Benefit Wildlife Heritage Trust

The funds donated through PIW are placed in the Wildlife Heritage Trust Account. According to NRS 501.3575, 75 percent of the money deposited in this account in the previous year and the total interest earned on the account during the previous year, may be used by the Department annually for the protection, propagation, restoration, translocation, introduction and management of any game fish, mammal, bird or furbearing mammal and the management and control of predatory wildlife in the state. The Board of Wildlife Commissioners is responsible for reviewing and approving expenditures from the account.

Every year wildlife management projects are funded through this account. PIW promises to benefit both Nevada's wildlife and the sportsmen by providing additional financial support for game management programs and providing a hunting opportunity that would not otherwise be available to most sportsmen in Nevada.

Use of an Unlicensed Guide in Nevada is Illegal

By Aaron Meier

While some people might not realize it, when it comes to using a hunting or fishing guide in the state of Nevada the facts are clear. If you use an unlicensed guide in the state of Nevada you are breaking the law.

“It comes down to a safety issue,” said Tyler Turnipseed, chief game warden with the Nevada Department of Wildlife (NDOW). “An unlicensed guide creates a risk to the safety of sportsmen as well as a challenge to ethical hunting.”

Turnipseed points to the extensive requirements a guide must meet in order to be licensed in Nevada. “It is a rigorous process that includes insurance coverage and certification in first aid,” he said. “The safety of the recreating public is always our biggest concern.”

He also points out that it is the sportsman’s responsibility to make sure he or she hires a licensed guide. Nevada law states that a person shall not knowingly compensate a person who holds himself or herself out as providing guide service or engaging in business as a master guide or subguide unless the person provides proof that he or she has a master guide subguide license.

If you’re paying anyone for a guide service, you should request to see a copy of the Nevada Master Guide license, Bureau of Land Management, US Forest Service or other federal special use permits from other agen-

cies (if applicable). A master guide is required to provide a written contract agreement for services to be provided so the sportsmen are protected. Master guides and subguides may be licensed only for particular services and areas of operation.

“We require our guides and subguides to be licensed for the protection of the public,” said Turnipseed. “We want to ensure that anyone who uses an outfitter or guide service has a safe and enjoyable experience in the field.”

For the illegal guide, the penalties can be steep. Providing services without a license is a serious crime. Anyone caught and found guilty of guiding without a license is subject to a fine, up to two years in jail and forfeiture of all equipment used during the hunting or fishing trip.

“To be honest, I just don’t see any reason to even consider using an unlicensed guide,” he said.

For more information and a current list of licensed guides, visit the Nevada Department of Wildlife website at ndow.org or call (775) 688-1549. Sportsmen can also report illegal guiding to Operation Game Thief at 1-800-992-3030.

Nonresident Guided Hunt Deer Tags

There are 100 licensed master guides in Nevada that provide guide services for big game, game birds, game fish and unprotected wildlife. Different hunters often desire to hire a guide for different reasons, ranging from a novice hunter who is a little uncomfortable with trekking into the remote Nevada outback, to an experienced hunter, who draws the tag of a lifetime, like a desert bighorn or bull elk tag.

When booking a guided hunt be sure that the master guide you hire is licensed to provide guide service in Nevada and be sure that you are provided with a contract before services are provided. If you are a nonresident of Nevada you may participate in the nonresident restricted guided deer draw, a program that allots a number of tags specifically for a guided deer hunt.

Please Note: Nonresident applicants who apply in the Restricted Nonresident Guided Deer Hunt will not be able to apply for deer tags in the big game main draw in the same year.

Restricted nonresident deer tags: Definitions (NRS 502.146)

1. "Restricted nonresident deer hunt" means a deer hunt in which a restricted nonresident deer hunter hunts with a licensed master guide or licensed subguide.
2. "Restricted nonresident deer hunter" means a person who is not a resident of this State and is issued a restricted nonresident deer tag.
3. "Restricted nonresident deer tag" means a tag which is issued to a nonresident for a restricted nonresident deer hunt.

Restricted nonresident deer tags: Issuance (NRS 502.147)

1. The Department shall make available restricted nonresident deer tags in an amount not to exceed the amount set forth in this section. If the number of persons who apply for restricted nonresident deer tags is greater than the number of tags to be issued, the Department shall conduct a drawing to determine the persons to whom to issue the tags.

2. The number of restricted nonresident deer tags must:
 - (a) Be subtracted from the quota of rifle deer tags for nonresidents; and
 - (b) Not exceed 16 percent of the deer tags issued to nonresidents during the previous year or 400 tags, whichever is greater.
3. The number of restricted nonresident deer tags issued for any management area or unit must not exceed 37.5 percent, rounded to the nearest whole number, of the rifle deer tags issued to nonresidents during the previous year for that management area or unit.
4. The Department shall mail the tags to the successful applicants.

Restricted Nonresident Deer Tags: Guide to accompany hunter during hunt (NRS 502.149)

A restricted nonresident deer hunter must be accompanied at all times during the restricted nonresident deer hunt by the licensed master guide who cosigned the application or one of his licensed subguides.

Hunters Must Respect Private Property

Every year the Nevada Department of Wildlife (NDOW) receives reports of hunters trespassing, damaging private property and even releasing livestock from fences. Nevada is more than eighty percent public land, almost all of it open to hunting, but some sportsmen still mistakenly enter private property and should be more careful about trespassing.

“Most sportsmen are ethical and respect private property, but when we receive reports of trespassing or private property damage we take them seriously,” said Tyler Turnipseed, chief game warden for NDOW. “We find that nearly all of these problems can be avoided if people use a little common sense while hunting or recreating outdoors.”

The Nevada Department of Wildlife wants to remind everyone that hunting on someone else’s land is a privilege, not a right. Remember common courtesy can go a long way toward establishing good hunter-landowner relations in the future.

Tips to use when hunting on private property:

- Access to and across private lands is a privilege granted by the landowner. Not all roads are public roads. Traveling on private roads without permission to access other lands is akin to someone walking through your house to reach a neighbor’s home.
- Bring a good map showing private and public land ownership. Know where you are. Internet map sources may not be very accurate and there may be no cell service in rural areas.
- Build good relationships with land owners by asking permission.
- Leave gates the way you find them and make sure everyone in your party knows that. If a rancher wants a gate left open, it will be hung back on the fence, not lying on the ground.
- Leave the land better than you find it – pick up all trash you find and take it with you.
- Camp away from water sources for the benefit of wildlife and livestock.
- Report hunter misconduct. Misbehaving hunters jeopardize the use of resources for all hunters.
- Stay on existing roads.
- When granted access, bring only the number of hunters expected by your host.
- Respect locked gates, no trespassing signs and orange-painted gate posts. They all mean stay out.
- Send a thank you note.
- When in doubt, knock on the door.

Wildlife Heritage Tags (CR 16-03)

Wildlife Heritage Tags are auction tags that help raise funds for the 'protection, propagation, restoration, transplanting, introduction, and management of any game fish, game mammal, game bird, or fur-bearing mammal and the management and control of predatory wildlife in this state.' The Board of Wildlife Commissioners designates the number of Wildlife Heritage game tags to be auctioned each year.

The successful bidder may hunt statewide during the 2017 season, except those areas closed to hunting in NAC 504.340 and units for Nelson (desert) bighorn sheep and California bighorn sheep where previous year's harvest previous year's harvest for Heritage occurred. A list of auction tags is on the agency website at www.ndow.org.

NDOW WILDLIFE MANAGEMENT AREAS

The State of Nevada through the Department of Wildlife owns or has long-term leases on more than 155,000 acres of land incorporated into wildlife management areas (WMAs) across the state. The primary management emphasis on WMAs is the protection of wetlands and waterfowl including the use of the areas as public hunting grounds. Hunting opportunities for sportsmen on WMAs include migratory game bird, upland game bird, furbearer and big game hunting. Below is a table of restrictions associated with each of the wildlife management areas. ILLEGAL OUTDOOR MARIJUANA

The past year has shown an increase in illegal outdoor marijuana grow gardens in the Nevada outback. Sportsmen should be aware of their surroundings while utilizing the outdoors. If you observe remote camp sites/ irrigation equipment/marijuana plants leave the area immediately.

Note the location of suspicious activity and contact law enforcement officials. Game wardens work in conjunction with other law enforcement agencies when these grow gardens are found to apprehend the growers, eradicate the plants and rehabilitate the damaged environment.

or DPS 1-866-2REPORT.

BLM INFORMATION

The Bureau of Land Management (BLM) in Nevada encourages hunters to call in advance of hunting season to find out if land management practices will be conducted during the hunting season. While BLM field offices are aware of hunting seasons, some management activities, such as prescribed burns, wild horse gathers, road closures or fire restrictions may temporarily disrupt hunting activities.

Call Before You Hunt

If possible, call the appropriate BLM office before you send in your hunt area requests. That way you may avoid an area that may have some access restrictions or other changes because of management activities. It's a good idea to call BLM just before the hunt to find out if any unplanned restrictions from fire or emergency wild horse gathers are in effect.

Responsible Hunting in Wilderness and Wilderness Study Areas (WSAs)

Some units contain BLM lands designated as wilderness or wilderness study areas. Motor vehicle use—trucks, ATVs and motorcycles—is not allowed unless signs are placed to indicate a designated route. The motorized vehicle rule extends to mechanized vehicles such as game carriers, which are also not allowed in these areas. Hand-held GPS units are allowed.

Responsible Off-Highway Vehicle Use

There has been a big increase in the use of OHVs by hunters. While most areas of the public lands are designated as open to OHV use, cross-country travel on OHVs is causing unnecessary damage to habitat that wildlife depend on. OHV riders are asked to stay on existing roads and trails. If it is necessary to drive off roads to retrieve and pack out harvested game, hunters are asked to use care and avoid creating new routes.

NEVADA WILD HARVEST INITIATIVE

- Wild harvest is sustainable, healthy, and environmentally friendly. Nearly 50 million American citizens hunt and/or fish.
- Wild foods are shared throughout families and social circles. Benefits extend to many millions more.
- There are significant ecological and financial costs of replacing wild meat and fish with agricultural equivalents.
- Since 1939, excise taxes collected from hunters and anglers have contributed more than \$18 billion in real funding for state-based conservation work.
- American hunters and anglers contribute more than an estimated \$400 million dollars per year to wildlife conservation solely through membership fees and donations to conservation based Non-Governmental Organizations.
- The total value of ecosystem services provided by natural habitat in the 48 contiguous states is estimated at \$1.6 trillion, annually, which is equivalent to more than 10% of the U.S. GDP.

The following authorized NDOW license agents listed below have been issued a supply of transportation permits. Please call the one closest to your hunting area to verify that they still have a supply on hand before you go in. Transportation permits are also available at all NDOW offices statewide (see page 4). Transportation permit regulations can be found on pages 12–13.

INFORMATION RESOURCES

Elk Incentive Tags

Special elk incentive tags are awarded to landowner applicants as an incentive to support an increase in the elk populations in Nevada. Any owner, lessee or manager of private land who wishes to participate in the program may enter into an agreement with the Department that specifies how the landowner will support increases in the local elk herds, and provides that the landowner will agree to provide reasonable public access to adjacent public lands.

Landowners or hunters who are interested in the elk incentive tag program may contact the Nevada Department of Wildlife Headquarters at (775) 688-1507 for more information.

Landowner Damage Compensation Tags

An owner, lessee or manager of private land in this state may apply to the Department for the issuance of deer or antelope tags for compensation for damage caused by these animals. These tags can be used by the owner, lessee or manager if he holds a valid Nevada hunting license or the tag(s) can be sold to any holder of a valid Nevada Hunting license at any price mutually agreed upon. Any landowner, lessee or manager of private land or any hunter wanting more information on this program should call (775) 688-1507. Please visit the "Incentive and Compensation Maps" page on the NDOW website (ndow.org) for more information.

Weed-Free Hay

The National Forest System requires weed-free hay on all National Forest Systems lands within the state of Nevada. A list of weed-free hay producers and vendors is available on the Nevada Department of Agriculture's website at: <http://agri.nv.gov>. Click on the "noxious weeds" section under the "plant" heading.

HOW TO USE THESE TABLES

Many Nevada hunting regulations restrict the activities to specific times. The laws and regulations may specify sunrise to sunset, one half hour before sunrise to sunset, one hour before sunrise to two hours before sunset, etc.

Consult the specific regulation pamphlet for the activity you are interested in. These are available at all NDOW offices and most license agents. Then use the sunrise/sunset table for the location nearest where you are going to carry on the activity to determine the legally authorized time to start and/or stop your activity. These tables are accurate in the vicinity specified with less than a two (2) minute error. **These tables are Pacific Standard Time, so do not forget to add one hour for daylight savings time from March 12 - November 5.**

Please Note: A more complete listing of sunrise/sunset tables is available at www.ndow.org.

LEGAL HUNTING HOURS BY SPECIES

Big Game	1/2 hour before sunrise to sunset
Mountain Lion	Anytime of day or night
Migratory Birds	1/2 hour before sunrise to sunset
Small Game and Upland Game	Sunrise to sunset, EXCEPT for quail in Pahrump Valley of Nye County (8 a.m. to sunset)
