

# REPORT.

*To the Honorable the Board of Commissioners for the Care of the Indigent Insane of the State of Nevada :*

GENTLEMEN—Following will be found a detailed report of the Nevada State Insane Asylum for the biennial term of 1889-90.

The following table represents the medical history of the Asylum for the term just closed :

*General Statistics for the Term of 1889-90.*

	Male.	Female.	Total.
Patients in Asylum December 20, 1888_	131	36	167
Admitted during the term_	50	14	64
Whole number treated within the term_	181	50	231
Discharged within the year_	43	7	50
Patients remaining December 20, 1890_	138	43	181
<i>Discharged as follows :</i>			
Recovered_	17	3	20
Much improved_	-----	1	1
Improved_	-----	1	1
Died_	25	2	27
Eloped_	1	-----	1
Total discharged_	43	7	50
Daily average number of patients during the term_	134 $\frac{84}{100}$	39 $\frac{24}{100}$	174 $\frac{08}{100}$

Percentage of cures to admissions_	31 $\frac{25}{100}$
Percentage of deaths to whole number treated in 1889_	7 $\frac{96}{100}$
Percentage of deaths to whole number treated in 1890_	5 $\frac{58}{100}$
Annual deaths, taken bennially, to whole number treated_	5 $\frac{90}{100}$

## DISCHARGES.

Of the twenty-two patients discharged, twenty were sent out as cured and two were permitted to go with friends, in an improved condition. The per cent. of cures to number received is  $31\frac{25}{100}$  per cent., as will be seen by the tables.

## DEATHS.

Twenty-seven deaths occurred during the term, being an annual percentage of  $5\frac{85}{100}$  on the whole number treated. When the broken down condition of chronic patients is taken into consideration, this is a low death rate. During the term no patient has died of acute disease, with the exception of one, who was brought to the Asylum with cerebral congestion, far advanced, and who died soon after admission. Of the remainder, five died of brain softening, three of phthisis pulmonalis, two of apoplexy, of cancer one, diabetes one, epilepsy two, general paralysis three, marasmus one, excessive use of morphine one, senile gangrene one, alcoholism one, and one of ulceration of the stomach.

## INCREASE.

There were 167 patients in the Asylum at the date of our last report. At this time we have 181 patients, being an increase during the term of 14. This is an increase below the average in many other States, and while those in charge of most asylums are asking for more room, this Asylum will not be greatly crowded at the end of ten years, should the former rate of increase continue.

For per cent. of increase, cures, discharges, deaths, cost of maintenance and all things in which the public have an interest, see tabulated statements.

## IMPROVEMENTS.

The most important improvement during the term was the erection of an electric light plant, which is, in all respects, a great improvement over the former mode of lighting the institution.

It is perfectly safe, brilliant, and so inexpensive that it is difficult to estimate the exact cost. An occasional lamp and a gallon or two of lubricating oil per month is about all that can be charged against it.

## WATER SUPPLY.

The supply of water is abundant and pure, and is furnished at a trifling cost by the same power which generates the lights.

## EXPENSES.

Of the expenses of this biennial term's work, no reasonable complaint can be made. It will be seen, that although over six thousand dollars were used for permanent improvements, the expenses were kept within the appropriation of eighty-five thousand dollars. All friends of the institution will be pleased at this showing, which was brought about by economy in all things, where economy could be used without in the slightest degree infringing on the comfort of the patients by economizing in quantity or in quality of their clothing or food supply.

Sagebrush and drift-wood have been used, almost exclusively, for fuel, thereby saving to the State many thousands of dollars.

An ornamental gardener has been dispensed with, and the grounds kept in good condition by the patients, under the direction of one of the attendants.

The vegetable garden this term was very productive, and produced nearly all of the vegetables required at the institution, and of potatoes and hay we had several tons for exchange.

The saving to the State in this biennial term, over and above what the cost would have been had the patients been kept in California, at the same rate as formerly, was over seventy-five thousand dollars, being an amount greater than was expended in the erection of the Asylum buildings in this State.

## ACKNOWLEDGMENTS.

Before closing my report I desire most cordially to thank your Honorable Body for the interest manifested by you in the Asylum and its inmates, and for the steadfast support rendered the present management.

My thanks are also due to Mr. W. L. Bechtel, our Clerk and Supervisor, who has performed his arduous duties with great zeal and efficiency. Much of the success of the present management is due to his watchfulness and ability.

Thanks are also extended to Mr. Edwin Barlow, both for faithfully discharging his duties and for the fine music furnished for the entertainments; also to Mrs. Barlow, Matron, and to all employes of the institution.

S. BISHOP, M. D.,  
Superintendent.
