

## Office of the Governor

January 22, 2007

Members of the Nevada State Legislature  
Seventy-Fourth Legislative Session  
Legislative Building  
401 South Carson Street  
Carson City, NV 89701

Honorable Members of the Senate and Assembly:

Transmitted herewith is the 2007-2009 Executive Budget for the State of Nevada.

The budget I present to you today supports Nevada's continuing commitment to our employees, the education of our youth and reinforces our affirmation to combat methamphetamines.

Our state's revenue streams remain strong, but recent history has demonstrated the wisdom of planning for the future, both good and bad, while experiencing such a vibrant economy. Therefore, I have recommended increasing the rainy day fund to \$304 million to serve as a cushion to provide essential services for all Nevadans.

Currently, the State provides the funding necessary for retiree insurance subsidies on a pay-as-you-go basis, and only the current cash outlay for those subsidies is reported. The new Governmental Accounting Standards Board rules require the state to reflect this financial obligation of \$4 billion as a liability in its financial statements unless sufficient funding to finance the liability is set aside each year. Included in the Executive Budget is a recommendation to partially pre-fund the liability via a payroll assessment for each active employee. The additional \$50 million generated from the assessment will be placed in an irrevocable trust account for the future liability of the employees.

As a result of the dedication of our state employees, they deserve competitive salaries with their counterparts in other governmental agencies. As such, I have included a 2% and 4% annual raise respectively for the biennium.

Today, the institution of public education in Nevada needs bold and decisive leadership to better navigate the tremendous challenges that exist. Our current standings in education on a national scale are simply unacceptable and have grown so dire that we must immediately reinvent the system of public education itself. My budget reflects this need by continuing the \$51 million in funding for full day kindergarten in at-risk schools. In addition, my budget includes funding for new education programs including \$60 million toward an innovative yet proven education plan known as Empowerment. Empowerment will directly address the majority of the long-standing challenges in public education today: falling graduation rates, parental participation, teacher

recruitment, funding inequities and lack of resources in the classroom. This decentralized empowerment approach reallocates existing resources and decision-making to our principals, teachers and parents in exchange for greater accountability for increased student achievement. Through this exciting program, we will empower our educators to be more responsive to their school's individual circumstances and the diversity of their student populations while ensuring that our teachers will be equitably paid for a job well done based on tangible measures and commensurately rewarded for exemplary results in student achievement.

Additionally, I have included \$10 million in the budget for the advancement of the Nevada Plan (formerly the Georgia Plan), which will provide for biotechnology and other high tech programs that will aid in the development of a bioscience framework and will include state government, the University System and the business community as a platform to ensure that Nevada becomes a driving force in biotechnology research across the nation. I have also included \$7 million for Community College workforce development/vocational training programs to enhance our workforce and foster the attraction of lucrative businesses and industries across the state.

Methamphetamine abuse has become the most threatening public health and safety challenge of this era. Nevada is number one in the nation when it comes to individuals who have used or currently use methamphetamines. It is time for Nevada to declare war on meth and that is why I have included \$17.4 million to aid in this fight. In order for a successful attack on meth, we must approach this issue on all fronts and provide resources to law enforcement, educators and recovery programs. Our combined resources of municipal, county and state law enforcement must have the resources to win and eliminate this plague on society. This is truly a nonpartisan issue and an issue upon which citizens are demanding action.

The 2007 Legislative Session is an opportunity for us to work cooperatively and I offer my Administration to that effort. My office, my Cabinet and I look forward to discussion, debate and resolution. We are prepared for your review of this Executive Budget and ready to assist you in any way necessary to ensure Nevada's future success.

Sincerely,

Dear Fellow Nevadans:

On behalf of Governor Jim Gibbons and the Budget and Planning Division, it is my pleasure to present this *Executive Budget in Brief* for the 2007-2009 biennium. We believe it offers users a quick and easy tool to understand the many challenges facing the state. More importantly, it highlights the steps proposed by Governor Gibbons to successfully meet these challenges.

Being one of the fastest growing states in the nation for decades has significant fiscal ramifications. The 1979 limit on state expenditures, the Methamphetamine epidemic, faster than expected growth in inmate populations, increasingly congested roads, the need for excellence in education, and the cost we will bear in the future for retired state employees' health insurance, have all shaped the *Executive Budget*.

The limit on total proposed expenditures provided by NRS 353.213 was added to the budgeting process in 1979. It is designed to limit the growth of spending from the General Fund to the growth in population and inflation. Construction expenditures are exempt from this limit, as are deposits to the Rainy Day Fund. The spending cap limited one-time appropriations recommended for fiscal year 2007 and impacted budget decisions for the 2007-09 biennium. The spending cap will continue to impact General Fund spending proposals in future biennia. This budget:

- ✓ Includes \$60 million for innovative programs in K-12 education designed to improve student achievement and success.
- ✓ Combats Methamphetamine with \$17.4 million from the General Fund to develop and coordinate statewide drug education, treatment, and enforcement programs.
- ✓ Contributes \$170 million from the General Fund to improve Nevada's highway system.
- ✓ Raises reimbursement rates for Medicaid providers with \$57.6 million, of which \$27.7 million is General Fund.
- ✓ Handles unprecedented growth in the number of inmates by adding 337 new positions and funding increased inmate-driven costs using \$40.6 million from the General Fund.
- ✓ Funds 2% and 4% cost of living adjustments for all state, school district, and higher education employees, as well as special adjustments for unclassified employees and hard to recruit positions, with over \$280 million in General Fund appropriations.
- ✓ Starts pre-funding Nevada's future liability for retired state employees' health insurance with \$50 million, with approximately \$30 million coming from the General Fund.
- ✓ Sends \$36 million to the Rainy Day Fund to guard against possible economic slowdowns in the future.
- ✓ Uses \$194 million to augment bond proceeds and other funds in financing a \$912 million Capital Improvement Program, which includes \$157 million for three health sciences buildings for the Nevada System of Higher Education.

This document, as well as a variety of other budget related information, is accessible on the Internet via our website. I hope that you find this to be a useful and valuable resource.

## The Executive Budget

This budget document has a three-part format with revenue and expenditure detail for each of the components of Base, Maintenance, and Enhancements. Comparison information is provided for the past actual year, the current year's work program, and each fiscal year of the upcoming biennium. Agencies' requests and the Governor's recommendations are shown for the upcoming biennium. This section contains brief explanations of certain areas of the budget and brief definitions of common terms employed in the budget.

## The General Fund

The State General Fund receives all revenues and accounts for all expenditures not otherwise provided by law to be accounted for in any other fund. The *Executive Budget* for each fiscal year of a biennium must provide for a General Fund reserve of not less than 5% nor more than 10% of the total of all proposed appropriations from the State General Fund for the operation of all departments, institutions, and agencies of State Government and authorized expenditures from the State General Fund for the regulation of gaming for that fiscal year.

The General Fund balance forecast in the *Executive Budget* for July 1, 2008 is \$3,347,937 higher than required. The July 1, 2009 balance is \$4,476,225 above the requirement.

## The Fund to Stabilize the Operation of State Government

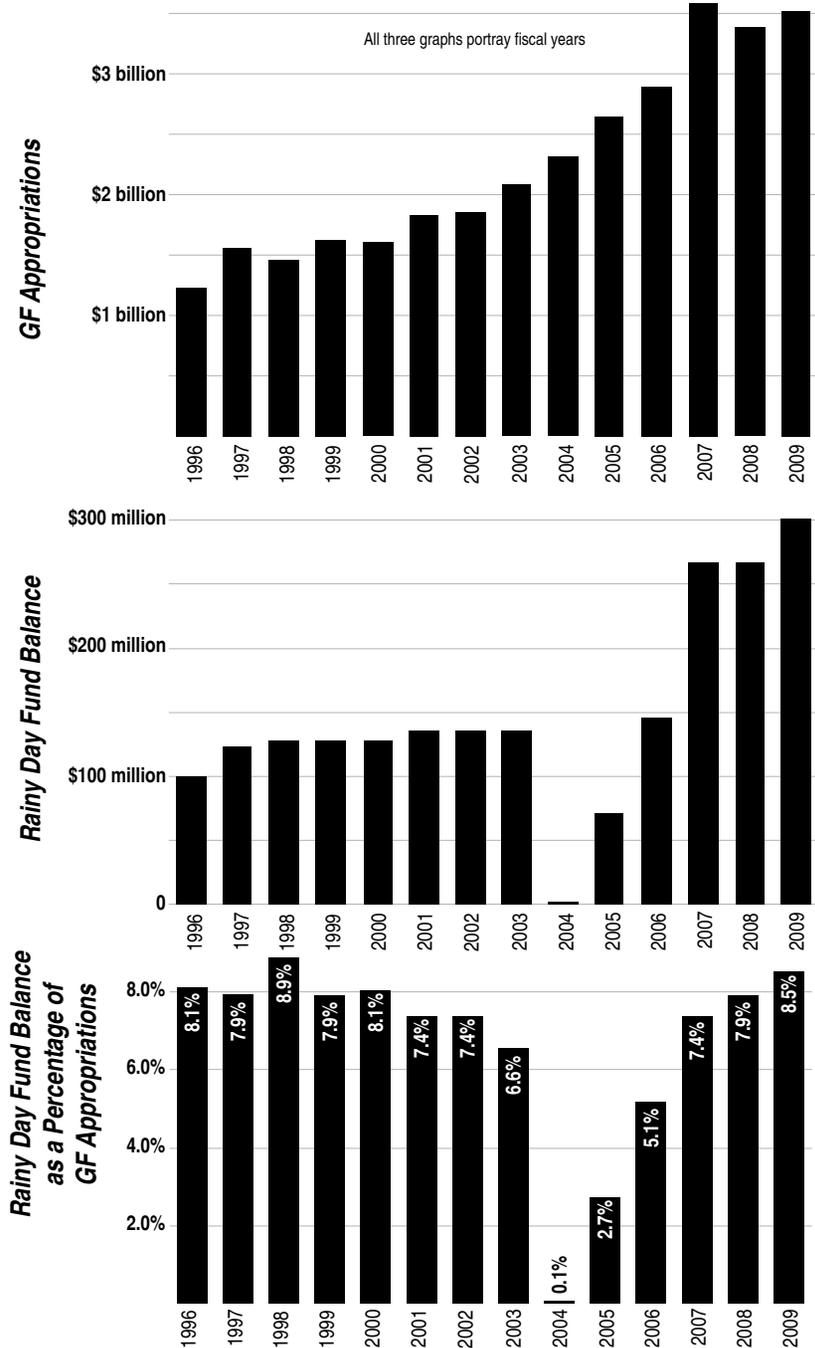

Created by the 1991 Legislature, the rainy day fund, also known as the Fund to Stabilize the Operation of State Government, exists to cover revenue shortfalls or provide a reserve in the event of a fiscal emergency (NRS 353.288).

A direct appropriation to the Fund may be made. In addition, at the close of each fiscal year, the State Controller deposits to the Fund two-fifths of the unrestricted General Fund balance which remains after subtracting an amount equal to 10% of ongoing appropriations. In fiscal year 2007 alone, over \$120 million was added to the fund.

Money from the Fund may be appropriated only if total General Fund revenue for the biennium falls short of the anticipated amount by 5% or more, or if the Legislature and the Governor declare that a fiscal emergency exists.

The Executive Budget allocates another \$36 million to the fund in fiscal year 2009.

**2007 - 2009 Executive Budget General Fund Revenue Summary**

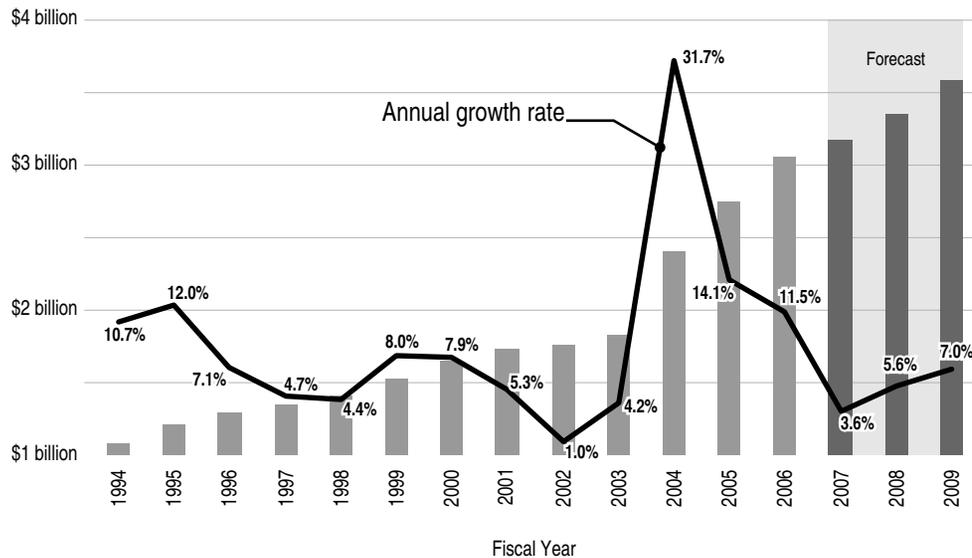

Nevada’s General Fund is the major operating fund of the state. It receives all revenues and accounts for all expenditures not otherwise provided by law to be accounted for in any other fund. The bulk of the General Fund comes from sales tax (32%), gaming taxes (28%), the insurance premium tax (10%), and the modified business tax (9%).

General Fund revenue collections for FY 2006 were \$3.06 billion, surpassing the Economic Forum’s May 2005 forecast by \$188 million. The Forum’s November 30, 2006 forecast for FY 2007 revenue collections is \$3.17 billion, \$139 million more than its May 2005 forecast. For FY 2008, the Forum projects General Fund revenues to approach \$3.35 billion, which represents a 5.6% growth over the previous year. In FY 2009, the Forum calls for General Fund revenues to climb to \$3.58 billion, a 7% increase over ’08. This marks a significantly slower pace than the 11% increase in FY 2006, 14% in 2005, and 31% in FY 2004.

## Expenditure Limitation

NRS 353.213 was added to Nevada's statutory code by the 1979 Legislature. It is designed to limit the growth of spending from the General Fund to the growth in population and inflation. The budget submitted by the Governor cannot exceed the amount appropriated for the 1975-77 biennial budget multiplied by the percentage change in population from July 1974 and the percentage change in the Consumer Price Index (CPI) from the same month. Both road and building construction projects are exempt from this limit, as are deposits to the "Rainy Day" fund.

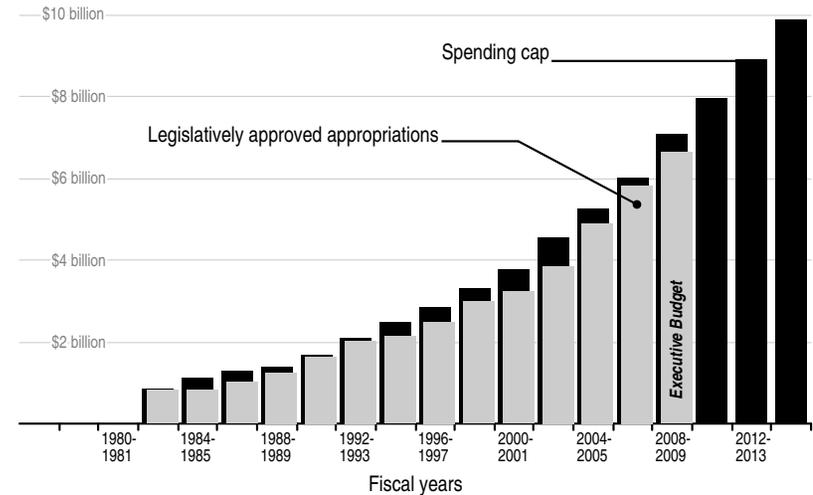

Since 1974, the state's population has grown nearly 341% and the CPI 312%. Starting with a base FY 1976-77 budget of slightly less than \$390 million, the limit calculations place the spending cap for the 2007-2009 biennium at \$7.065 billion.

Although this cap does not apply to the final budget approved by the Legislature, any amounts approved for operations that exceed the cap may be subject to cuts the following biennium as the new executive budget is prepared.

*Appropriations by Decision Unit*

**Comparison of the 2005-2007 and 2007-2009 Executive Budgets**

The Executive Budget is divided into three main components: Base, Maintenance, and Enhancements. Base is the amount spent during the previous biennium after a number of adjustments. Maintenance takes into account increases in costs and in the number of people served by existing state programs. Enhancements are anything else not in Base or Maintenance: any new programs or parts of programs, expansions of existing programs, or changes in what the state does.

## AG - EXTRADITION COORDINATOR

101-1002

### PROGRAM DESCRIPTION

The Uniform Criminal Extradition Act requires the Governor of each state to have any person charged in another state with treason, a felony, or other crimes who has fled from justice and is subsequently apprehended, be returned to the State in which the crime was committed. The Interstate Agreement on Detainers provides for the administrative temporary transfer of inmates who are wanted by jurisdictions outside the state in which they are imprisoned for trial on criminal charges. The Extradition Coordinator, who also serves as Nevada's Agreement Administrator, is responsible for ensuring that the ends of justice are promoted by effectuating the return and/or temporary transfer of fugitives who have taken asylum in this State to the requesting states; effectuating the return and/or temporary transfer to Nevada of fugitives who have taken asylum in other states within the statutorily prescribed methods, procedures and time limits; recover the monetary costs to which the State is entitled by virtue of this undertaking; and provide high quality continuing legal education on all aspects of extradition and detainer laws. Statutory Authority: NRS Chapters 178 and 179.

## AG - VIOLENCE AGAINST WOMEN GRANTS

**101-1040**

### PROGRAM DESCRIPTION

The Violence Against Women Grants account (B/A 1040) was created to allow for the simplification of accounting for domestic violence grants. The Victims of Domestic Violence budget (B/A 1042) encompasses the Office of Ombudsman for Domestic Violence, the Committee on Domestic Violence (formerly known as the Batterers Treatment Certification Committee), and the Nevada Council for the Prevention of Domestic Violence. The Domestic Violence Ombudsman in conjunction with the Committee on Domestic Violence is responsible for standardizing and overseeing the treatment of domestic violence offenders as well as assisting in the statewide coordination of domestic violence services and training.

## BOND INTEREST & REDEMPTION

395-1082

### PROGRAM DESCRIPTION

Bond Interest and Redemption provides the funds necessary to redeem debt instruments issued by the State. The State Constitution, Article 9, Section 3, limits the State's debt to two percent of assessed valuation. Debt incurred for the protection and preservation of property or natural resources is exempt from the limit. The State's estimated assessed valuation for fiscal year 2006 is \$116,979,667,907. The State has \$914,175,000 in outstanding debt subject to the limit, much of it for capital improvement projects, and \$1,367,923,057 in outstanding debt not subject to the limit. In addition, \$284,527,473 in debt is authorized, but unissued. General Obligation bonds are paid with a 15.85 cent property tax, which also acts as a limit on the debt that can be issued by the State. Question 1, a proposal to issue natural resource bonds passed in the 2002 election, increased the rate by an additional 1.15 cent which is dedicated to Question 1 debt service.

### BASE

The base budget continues the funding for principal and interest payments for outstanding debt instruments issued by the State. All anticipated revenues are included in the base budget. Funding requirements for additional projects will translate into a reduction in the budgeted reserve.

## MUNICIPAL BOND BANK REVENUE

745-1086

### PROGRAM DESCRIPTION

The Municipal Bond Bank, administered by the State Treasurer, was created by the 1981 Legislature for support of certain municipal projects through a bond bank. The Bond Bank allows the State to sell its General Obligation bonds to provide funds to purchase local bonds. The State's higher bond rating saves local entities substantial amounts of interest payments. NRS 350A.150 authorizes the State Board of Examiners, at the request of the State Treasurer, to issue up to \$1.8 billion.

### BASE

The base budget continues the funding for principal and interest payments for existing obligations. Work programs will be generated if and when eligible local governments request the issuance of additional debt through the Bond Bank, a refunding takes place, or any other securities activity occurs.

## SENIOR JUSTICE & SENIOR JUDGE PROGRAM

101-1496

### PROGRAM DESCRIPTION

Article 6, Section 19, of the Nevada Constitution authorizes the Chief Justice to recall to active service any justice or judge who consents to such a recall and who has not been removed for cause or defeated for retention in office. Former judges are recalled to expedite judicial business, assist in districts with congested calendars and to act for those who are disqualified or unable to perform. This budget compensates the "senior justices and senior judges" for being recalled and assigned temporary duty, and funds a program coordinator position. The assignment of former judges is a cost-effective method for state and county governments to avoid the costs associated with funding full-time judicial positions and providing additional courtroom facilities and staff.

## LAW LIBRARY

101-2889

### PROGRAM DESCRIPTION

The Supreme Court Library serves as a comprehensive, current and archival resource for legal research performed by the Justices and staff of the Nevada Supreme Court, and supplements the in-house legal resources of the Office of the Attorney General, the Legislature, local area government, and the private bar. The library's resources are also available to the general public. The library provides well-trained staff to assist users in meeting their research needs. It makes its collections widely available through a web-based catalog of its holdings, and cooperates with other libraries in participating in interlibrary loans state-wide. The Library's web page provides needed pro se litigant information and fill-in the blanks standardized forms for divorce, guardianship and landlord/ tenant legal problems. The library's meeting rooms are used by the court for meetings, settlement conferences and training programs and by other state agencies and the community college for meetings, hearings and as a class room. The library is funded largely through state general fund appropriations. Two revenue line items have been established to accept user fees to reimburse the library for non-court use of photocopy equipment and for computer research services. These amounts approximate the actual costs to the library for the services provided.

## JUDICIAL SELECTION

101-1498

### PROGRAM DESCRIPTION

Article 6, Section 20, of the Nevada Constitution created the Commission on Judicial Selection. The commission's role is to select three nominees for any Supreme Court or district judge vacancy that might occur before the expiration of any term of office. The commission's workload depends on the number of mid-term vacancies that occur during the biennium and the number of applicants per vacancy. This budget account funds the costs associated with the commission and the judicial selection process through a general fund appropriation. See NRS 1.380 through 1.410.

PERFORMANCE INDICATORS		PROJECTED FY 2006	ACTUAL FY 2006	PROJECTED FY 2007	PROJECTED FY 2008	PROJECTED FY 2009

### BASE

The base budget provides funding for two judicial selections. Three judicial selections were held in the base year, which is the average number held in the last three years.

## JUDICIAL DISCIPLINE

101-1497

### PROGRAM DESCRIPTION

The Nevada Commission on Judicial Discipline was created by Constitutional Amendment on November 2, 1976, and charged with the responsibility of investigating allegations of misconduct, violations of the code of judicial conduct or disability of judges. On November 8, 1994, the jurisdiction of the Commission was expanded to include censure of Justices of the Peace and Municipal Court Judges. The seven-member Commission receives and investigates complaints against judges and was governed by administrative and procedural rules of the Nevada Supreme Court; however, on February 21, 2003, the Nevada Supreme Court repealed Part VII of its Rules and the Commission has adopted its own procedural rules to govern its proceedings. ADKT No. 346. The Standing Committee was created in 1998 to resolve ethical disputes arising in the course of campaigns for judicial office, and to provide judges and aspirants to judicial office advisory opinions regarding ethical matters that may arise in the ordinary course of judicial service, or in the elective or appointment process.

## INDIGENT ACCIDENT ACCOUNT

628-3245

### PROGRAM DESCRIPTION

The purpose of the Indigent Accident Fund is to reimburse hospitals for care to indigent persons who are injured in motor vehicle accidents in Nevada. A five-member Board of Trustees, consisting of county commissioners appointed by the Governor, administers the fund. Once it is determined that an injured person is indigent, the Board may reimburse the hospital which provided the medical care for a portion of unpaid charges. Within available resources, the Fund participates when the claim exceeds \$3,000. County governments reimburse claims less than \$3,000. Funding involves a transfer to the State Treasurer from each county of an amount equal to 1.5 cents for each \$100 of assessed valuation of all taxable property in the county. Statutory Authority: NRS 428.115 - 428.255.

### BASE

## COMMODITY FOOD PROGRAM

101-1362

### PROGRAM DESCRIPTION

Under the direction of the Department of Administration's Purchasing Division, the Food Distribution Program administers the distribution of food received by the United States Department of Agriculture under Federal Regulation, CFR part 250-253. All food program entitlement and benefits are authorized annually by Congress and are intended to provide aid to the American farmer under a food price support and surplus removal process, along with an objective to reduce hunger and improve the nutritional standards for the recipients of the Program. The distribution of food is carried out under one of five sub-programs. The first program is the distribution of food to schools, child care sites, charitable institutions, senior nutrition programs and summer camps. The second program is the Food Distribution Program on Indian Reservations and involves the distribution of food to needy households residing on rural Indian reservations. The third program is the Emergency Food Assistance Program which distributes food to food banks for redistribution to low income households statewide. The fourth program is the Commodity Supplemental Food Program which distributes food packages to low income seniors, women, infants and children. The fifth program is the Senior Farmers Market Nutrition Program which provides low income seniors with coupons to buy fresh fruits and vegetables from local farmers markets. The Food Distribution Program serves approximately 210 agencies and 10 Indian reservations throughout the State. Statutory Authority: NRS 333.

## B&G - MARLETTE LAKE

712-1366

### PROGRAM DESCRIPTION

The Marlette Lake Water System was authorized for purchase by the 1963 session of the Nevada Legislature from the Curtiss-Wright Corporation at a cost of \$1,650,000. The Buildings and Grounds Division of the Department of Administration administers the system. The adjoining lands are administered and controlled by the Department of Conservation and Natural Resources. The major objectives of this system are to preserve and protect the sources of water, provide adequate supplies of water to the areas served, maintain the system in a condition calculated to assure dependable supplies of water, and sell water under equitable and fiscally sound contractual arrangements. This system is funded from water sales to Carson City and Storey County. Statutory Authority: NRS 331.160.

## DEPARTMENT OF TAXATION

101-2361

### PROGRAM DESCRIPTION

The Department of Taxation is responsible for providing consistent, equitable and effective administration of the tax programs for the state, local government entities and the taxpayers of Nevada. The Department collects and distributes statewide sales and use tax, estate tax, net proceeds of mines tax and the property tax on interstate and inter-county companies as well as excise taxes and fees on liquor, cigarettes, other tobacco products, tire tax, short term lessor fee and the insurance premium tax. The 2003 Legislature added the responsibility of administering and collecting the Modified Business Tax, an expanded and annual business license fee, the real property transfer tax, the live entertainment tax, and the bank excise tax. In addition, the Department establishes statewide assessment standards and revenue limits, and certifies property tax rates for all local entities. ## DOIT - COMMUNICATIONS & NETWORK ENGINEERING

721-1386

### PROGRAM DESCRIPTION

Data Communications and Network Engineering unit is one of three budget accounts used by the Communications Division to provide data communications and a local area network. The Network Engineering Unit is responsible for all tasks related to developing, operating and maintaining statewide data communications infrastructure. Most of this effort is focused on the Wide Area Network termed SilverNet. Also included is maintaining "connectivity with the outside world" such as Internet access for the state, and dedicated purpose circuits (e.g., federal program connections). Staff tasks include installing and troubleshooting data circuits; installing, operating and maintaining routers, wireless bridges, firewalls, event logging and data switches that tie the circuits together; and engineering, analyzing and troubleshooting the complex WAN itself. Staff support over 8,500 network nodes representing personal computers, non-intelligent workstations, servers, and network devices (routers, firewalls and switches) in more than 150 locations throughout the State. Customers include all Executive Branch agencies, Constitutional Offices, the Judicial Branch, and to a limited extent the Legislative Branch. Statutory Authority: NRS 242.

The Executive Budget recommends decentralizing and outsourcing PC technician services.

## DOIT - NETWORK TRANSPORT SERVICES

721-1388

### PROGRAM DESCRIPTION

The Network Transport Services Unit is responsible for basic communication transport circuits and communication facilities, including operation of the State microwave system and remote communication sites. Staff tasks include design and development of backbone communication infrastructure; installation, operation and maintenance of microwave and fiber optic communication equipment; troubleshooting complex transport system problems; and maintaining and developing remote communication sites and facilities. Services provided include: site space rent, channel rent, Digital Signal Level 1 (DS1) circuit, and site power recovery. Staff directly supports public safety agencies including 27 state agencies and various local and federal government agencies such as the Bureau of Land Management, US Forestry Service, FBI, Las Vegas Metro, and county sheriffs, which help pay for the system. Also supported are other DoIT communication units which use large transport circuits for data communications and telephone, thereby indirectly supporting most state agencies. Staff is directly responsible for approximately 2,600 miles of data communication transport equipment, with approximately 92,000 circuit miles operating over the systems and 75 communications sites.

## NDE - DISTRIBUTIVE SCHOOL ACCOUNT

**101-2610**

**PROGRAM DESCRIPTION**

The Distributive School Account (DSA) provides direct state financial aid to school districts and charter schools for K-12 public education in Nevada. The funding formula, identified by NRS 387.121 as the "NEVADA PLAN", provides school districts a guaranteed dollar amount of basic state support per student plus additional funds for programs such as special education, the adult high school diploma program and reimbursement of certain student transportation costs. School districts and charter schools receive quarterly apportionments from the DSA on the basis of student enrollment. Each school district is guaranteed a specific amount per student, which is developed through a formula that considers the demographic, economic, and wealth characteristics of the district. Allotments of licensed employees and related costs are determined from tables that recognize the differences in costs between rural and urban school districts as well as small and large districts. Transportation costs are incorporated into the allocation process.

For purposes of calculating basic support, "enrollment" includes students enrolled in grades 1 to 12, students in ungraded special education classes, and six-tenths of the count of students enrolled in kindergarten and in preschool programs for children with special needs. Additionally, school districts receive support for part-time courses necessary to receive a high school diploma, including programs operated in the Nevada Department of Corrections system by the school districts in Carson City, Clark County, Pershing County, and White Pine County.

Special education is funded on an amount per unit basis as established by each session of the Legislature. School districts and charter schools are partially protected from decreases in enrollment through a two-year "hold harmless" statutory provision, which guarantees a payment based on the highest enrollment in the current or prior two years.

The DSA is funded by a General Fund appropriation, sales taxes on out-of-state sales, income from federal mineral land leases, interest from the Permanent School Fund, and a portion of the state taxes on slot machines. In addition to the state funds received by the school districts through the DSA, the school districts receive the 2.25% local school support sales tax that is part of the DSA guarantee, the abated \$0.75 per \$100 of assessed valuation property/mining tax, one third of which is part of the DSA guarantee, governmental services taxes, franchises taxes and various other local and federal revenues.

The total expenditure per pupil in the Distributive School Account increases from the FY06 actual amount of \$7,131 to \$7,704 in FY08 and \$8,050 in FY09.

**BASE**

The base budget supports the ongoing programs in the Distributive School Account, such as the basic support for public schools, class size reduction, special education, and adult high school diploma programs.

## NDE - SCHOOL REMEDIATION TRUST FUND

101-2615

### PROGRAM DESCRIPTION

NRS 385.357, passed by the 19th special session of the Nevada State Legislature, requires all public schools in Nevada to develop plans to improve the achievement of students. The plans are to identify problem areas that need to be addressed as well as strategies to be used to help students be successful and help schools meet the Adequate Yearly Progress mandated by the No Child Left Behind Act. Many of the strategies require funding in excess of what is now available to the schools. The funding in the School Remediation Trust Fund support the improvement plans each public school and each school district have developed.

### BASE

The adjusted base budget recommends the continuation of the current program. Full day kindergarten has been adjusted for a 2% movement on scale per year and a 4% cost of living adjustment (COLA) approved by the 2005 Legislature for FY07.

**PROGRAM DESCRIPTION**

This budget account is designed to facilitate accounting for the Department of Education's employees who are funded by multiple sources. Previously, employees were required to fill out multiple timesheets per cycle after the implementation of the Integrated Financial System (IFS). While there are multiple workarounds for this issue, it was determined that the creation of this account was the most efficient for the Department of Education. Funds are transferred from other budgets to cover the personnel and other related costs.

**BASE**

Continues funding for 8.50 positions with associated operating costs.

## NDE - EDUCATION SUPPORT SERVICES

101-2720

### PROGRAM DESCRIPTION

This Education Support Services budget funds staff and operating expenditures associated with the shared costs or overhead, allocable to the various programs operated within the Department of Education. The budget account is funded by indirect costs assessments on the administrative expenditures of other Department of Education budget accounts. Two rates are calculated each year and are negotiated with the United States Department of Education. One rate is for the "restricted" programs that are not permitted to pay certain costs through an indirect cost system (most notably rent) and the other rate is for the other accounts that have no such restrictions. For the purposes of the 2008-2009 biennial budget submission, all budget account indirect costs and the revenue of this budget account have been estimated using the FY06 rates. The restricted rate for FY06 is 15.7% and the unrestricted rate is 21.5%.

Statutory Authority: NRS 385.310 & 385.315

### BASE

Continues funding for 22 positions with associated operating costs. One-time expenditures have been eliminated and partial year expenditures have been annualized. The state appropriation is the projected share of the indirect costs attributed to state funded programs and activities.

**E719 REPLACEMENT EQUIPMENT**

Funds edge routers used to connect from the agency's local area network to Silvernet. The current equipment is out dated, no longer supported by Cisco, lacks security, and lacks quality of service to support video conferencing. The replacement of this equipment is critical to the State's backbone. The purchase is being coordinated through the Department of Administration's Information Technology Project budget, B/A 1325. This decision unit transfers the applicable funds to B/A 1325 for replacement of the agency's edge routers.

## NDE - PROFICIENCY TESTING

101-2697

### PROGRAM DESCRIPTION

The Proficiency Testing budget account funds several testing programs, mandated by the Legislature and administered by the Department of Education. Funding is included for norm referenced tests (NRTs) in grades 3 through 8, currently the "Iowa Tests of Basic Skills" and the "Iowa Tests of Educational Development," provided and administered under a contract with Riverside Publishing. The budget also includes necessary resources to oversee the High School Proficiency tests, which students are required to pass before receiving a standard Nevada High School Diploma. This program is currently accomplished through a contract with a national testing company to administer, score, and report the High School Proficiency tests. Funding is also included to support the testing of writing skills of all students in grades 4, 8, 11, & 12. Passing this test in grade 11/12 is also a requisite for a High School diploma.

## NDE - SCHOOL HEALTH EDUCATION - AIDS

101-2611

### PROGRAM DESCRIPTION

The Coordinated School Health Education Program to Prevent the Spread of HIV/AIDS and other Sexually Transmitted Diseases (STDs) is a federally funded program designed to assist school districts to establish, strengthen, or expand HIV/AIDS and STD prevention education. The program is used to integrate HIV/AIDS prevention education into a coordinated school health education framework for Nevada's middle school and high school students. Funds are used to provide K-12 teacher training, curriculum materials, curriculum development and revisions to include up-to-date information to school districts on the status of the spread of HIV/AIDS and other STDs. It also includes the collection of information on the status of HIV/AIDS education in school districts and monitors health risk behaviors of adolescent youth in grades 6-12 through survey administration of the Centers for Disease Control's Youth Risk Behavior Survey. Local school districts are provided with their own raw data on results for comparison with the Nevada State results and national data sets from Centers for Disease Control. Authority: NRS 389.065 and a Cooperative Agreement with Centers for Disease Control

**PROGRAM DESCRIPTION**

The GEAR UP grant is a collaborative effort of the Nevada Office of the Governor, Office of the State Treasurer, Nevada System of Higher Education, the Nevada Department of Education, Wells Fargo Bank, AT&T, ACT and other stakeholders including parents, students, educators, business and agency representatives. Nevada's vision is to change the culture of low achieving students who are economically disadvantaged so they are prepared academically and have the resources to attend and succeed in college. GEAR UP program resources will be used to support the following goals: improve academic achievement and increase high school proficiency exam scores; decrease high school dropout rate; increase high school graduation rate; and increase enrollment in college preparation coursework.

**PROGRAM DESCRIPTION**

This budget account provides federal funds to assist state and local educational agencies in improving elementary and secondary education in areas such as programs to assist in reducing the drop-out rate; increasing student achievement including emphasis in reading, mathematics and science; and the acquisition of instructional materials, training, and professional development. Four of the programs in the No Child Left Behind (NCLB) federal legislation include Educational Technology Grants; Teacher and Principal Training and Recruiting Grants; Innovative Education Programs; and State Assessments and Related Activities. This account includes funding available to the department to administer the programs and the funding to be provided to school districts to implement the objectives of the programs.

## NDE - STUDENT INCENTIVE GRANTS

101-2606

### PROGRAM DESCRIPTION

The Nevada Student Incentive Grant (NSIG) Program assists states in providing grants to eligible students who attend post-secondary schools and have substantial financial need. To qualify, a student must be enrolled at least half-time in an eligible undergraduate or graduate program in an approved Nevada post-secondary institution. The maximum award is \$5,000. The Nevada Department of Education (NDE) approves each award. Nevada receives an annual Leveraging Educational Assistance Partnership (LEAP) and Special Leveraging Educational Assistance Partnership (SLEAP) formula grant from the US Department of Education based on the state's eligible post-secondary education enrollments relative to the total number of such students in all states. The federal LEAP allotment must be matched by funds appropriated by the state, and this match must represent an increase in the state-appropriated grant and work-study expenditure over the amount spent during an established base year. The state match and administrative funds are provided through General Fund appropriations. Federal funds may only be used for disbursement of grants.

## NDE - CAREER AND TECHNICAL EDUCATION

101-2676

### PROGRAM DESCRIPTION

The Department of Education administers occupational education programs that meet the requirements of the Nevada State Plan for Career and Technical Education (CTE). The plan is based on the needs of students within the state and serves as the application for the Federal Carl D. Perkins Vocational and Technical Education Act funds. The primary mission of the federal program is to improve occupational education programs, focusing on the improvement and development of programs meeting the state criteria that defines high-wage, high-skill programs. Revenue received through the Carl D. Perkins Basic Grants to States has funding set-a-sides including 5% or \$250,000, whichever is greater, for state administration; 10% for statewide leadership; and 85% for basic grant aid to school districts and community colleges. Federal funds administration must be matched by state funds. In addition, the maintenance of effort provision requires the state to maintain funding at least at prior year levels.

Authority: NRS 388.340(2a), 388.360(3) and the Carl D. Perkins Vocational and Technical Education Act of 1998, as amended.

**PROGRAM DESCRIPTION**

This Continuing Education account is funded through the federal Adult Education and Family Literacy Act. The purpose of the act is to provide adult basic education and English as a Second Language services (ABE/ESL) in order to assist adults to become literate and obtain the knowledge and skills necessary for employment and self sufficiency; to assist adults in the completion of secondary school education; and to assist adults who are parents to obtain the educational skills necessary to become full partners in the education of their children. Funds are granted to eligible educational and community-based organizations to carry out the purpose of the act. Nevada continues to experience increasing needs for adult education, especially English literacy for the fastest growing Hispanic and Asian populations in the country. The state has the second highest percentage of 18-24 year olds without high school diplomas or equivalent degrees in the nation. The demand for adult education services escalates as the population increases and workplace expectations demand higher levels of literacy.

## NDE - NUTRITION EDUCATION PROGRAMS

101-2691

### PROGRAM DESCRIPTION

The National School Lunch Act of 1946 and the Child Nutrition Act of 1966 allot federal funds to Nevada for the nutrition programs. The federal allotment for each program sponsor is based on a formula, that may consider meal costs or budgets, the number of individuals served and the income level of those individuals. Sponsors are reimbursed monthly at a unit cost for each meal/milk served. The state funding is used to meet the state maintenance of effort (MOE) and match requirements. The required state match of \$588,732 is included in the Distributive School Account, B/A 2610. This budget also provides the funding needed to administer these programs, including the processing of payments, the monitoring of services provided by the program sponsors, and the providing of technical assistance and professional development to the sponsors.

## NDE - INDIVIDUALS WITH DISABILITIES (IDEA)

101-2715

### PROGRAM DESCRIPTION

The Individuals with Disabilities Education Act (IDEA) provides funding to states through the United States Department of Education. Several federal grants are combined in this budget account, which is designed to increase results for students with disabilities with regard to performance on statewide assessments including alternate assessments; transition from early intervention programs; behavioral success; graduation and drop-out rates; post-secondary outcomes; and recruitment and retention of highly qualified special education personnel. Also included in this budget is the NRS 395 Program, which provides funding for the education of special students whose individualized educational programs cannot be met in their home school districts.

Authority: PL106-448, NRS 388.440-520.

## NSHE - SYSTEM ADMINISTRATION

101-2986

### PROGRAM DESCRIPTION

The Board of Regents is established by the Nevada Constitution and statutorily endowed with the powers to provide direction and governance for all activities of the Nevada System of Higher Education (NSHE). The Board of Regents, in conjunction with the employees of the Chancellor's Office, provides direction and coordination for the various activities of the campuses and units of the NSHE. The Chancellor's Office includes functional areas of academic affairs, budget and financial planning/programming and legal counsel. University - The universities provide a wide range of undergraduate and graduate instructional programs, including professional and doctoral work in selected fields; create and maintain library, studio and laboratory services and resources for research; provide cultural opportunities for students and the general public; and also provide public service and continuing education. Community College - The community colleges provide post-secondary educational opportunities that are regionally and financially accessible. This includes teaching occupational skills required by business and industry; upgrading students' skills necessary to compete successfully in college courses; providing community service programs and assistance to students in planning educational goals. State College - The mission of the state college is to meet the needs of students who are interested in bachelor's degrees in much-needed fields such as nursing and education, as well as in other disciplines in the arts and sciences. Course work is fully transferable to both the first tier (universities) and the third tier (community colleges) in Nevada's higher education system. Appropriations in all NSHE budget accounts are recommended in conjunction with Board of Regents approved adjustments for non-appropriation sources of revenue, including tuition adjustments. For campus budgets, the non-appropriation funding sources are primarily from student registration fees and non-resident tuition. However, other available sources of revenue include operating capital investment and certain federal funds. Constitutional authority: Article 11, Section 4 and NRS 396.

### PROGRAM DESCRIPTION

The mission of the Western Interstate Commission for Higher Education (WICHE) is to carry out the goals, objectives, and programs as provided for in the WICHE multi-state regional compact. In keeping with the mission, the agency has continued to reduce the amount of delinquent debt owed the state and the collection methods updated. The WICHE program has taken strides to market and enhance the profile of the program throughout the state by placing emphasis on civic organizations, college fairs, and high school career days. Site relationships have been developed in the underserved portions of the state and training sessions have been implemented. For increased exposure and information, an expanded, interactive web site has been posted. Statutory Authority: NRS 397.

### BASE

Funds one unclassified employee and two classified employees and associated costs. Dues to the regional WICHE are based on current levels set by the regional board of directors for each year of the biennium.

## DCA - NEVADA HUMANITIES

101-2894

### PROGRAM DESCRIPTION

Nevada Humanities is a non-profit, nationally-recognized program that works in partnership with local communities to develop and fund humanities activities and educational programs. Established under provisions contained in the federal legislation creating the National Endowment for the Humanities, Nevada Humanities creates an environment conducive to economic development, heritage tourism, and quality education by fostering humanities activities such as lectures, exhibits, publications, book festivals, historic performances, teacher institutes, documentary films, interpreted art presentations, and a humanities grants program. After four consecutive biennia of legislative provision of one-shot funding to support a southern Nevada office, the 2005 Legislature converted the one-shot funding request to an on-going appropriation. State funds for this program are passed through the Department of Cultural Affairs, Nevada Humanities budget, as Aid to Non-Profit Organizations. Expenditures are paid directly by the organization's fiscal staff.

## DCA - LOST CITY MUSEUM

101-1350

### PROGRAM DESCRIPTION

The Lost City Museum in Overton, Nevada located near the Moapa Paiute Indian Reservation, serves the public by studying, preserving, and protecting prehistoric Anasazi Pueblo sites and artifacts found in the Moapa Valley area, and interpreting these collections through exhibits, public programs and publications. The Lost City Museum facility is itself an artifact, a Civilian Conservation Corps reproduction of an adobe pueblo dwelling complex, and is preserved for future generations. An active archaeological program sponsors pottery workshops and other educational programs as well as occasional archeological digs. Interior and exterior exhibits on the grounds attract numerous tourists interested in topics relating to the Anasazi Pueblo complex, other early Native American cultures of southern Nevada, and the later history of the Moapa Valley including Mormon settlement, mining, and railroads. The museum serves regional audiences of Native Americans, youth, students, families, adults, and a wide-reaching network of scholars and researchers interested in Native American cultures. Statutory Authority: NRS 381.

### PROGRAM DESCRIPTION

The Nevada State Museum and Historical Society in Las Vegas located at Lorenzi Park serves the public through collecting, preserving, and interpreting artifacts, specimens, and historical documents representing southern Nevada, with emphasis on its relationship to the Mojave Desert. Long-term and short-term exhibit galleries feature prehistory, history, and natural history collections of interest to residents and tourists; public library/archives contains premier southern Nevada historical photographs and records for use by regional residents and researchers; and an education program serves schools as well as residents and out-of-state visitors through programs, tours, workshops, and events. The museum is in the process of building a new state funded facility in the Las Vegas Springs Preserve. The new larger museum with considerably expanded visitor hours is scheduled to open in July 2008. Statutory Authority: NRS 381

### PROGRAM DESCRIPTION

The State Archives and Records Management programs administer comprehensive, cost-effective programs for the creation, maintenance, retention, preservation, and disposition of records of the executive branch of State government. Archives and Records program staff offer technical support to the Nevada Supreme Court, Legislative Counsel Bureau, tribal and local governments, and the Nevada System of Higher Education. The State Archives preserves and makes accessible records that document the history, organization and functions of the Nevada state government; its influence and impact on the lives of its people; and protection of their civil rights. The Records Management program prepares records retention schedules and operates the State Records Center, providing high-capacity, low-cost, secure storage for over 48,000 cubic feet of inactive official state records. These records may be accessed on demand by state agencies as needed. Statutory Authority: NRS 378.230 through 378.320.

## DCA - MICROGRAPHICS AND IMAGING

101-1055

### PROGRAM DESCRIPTION

The Micrographics and Imaging program provides high-quality digital imaging and microfilm capture of essential government documents at significant savings to client agencies. The program also provides on-site surveys, consultation on appropriate media storage, the production of CDs, DVDs, fiche and roll film. The program ensures government documents are preserved in accordance with NRS 378.255 and 378.280 and provides services for scanning, printing, and storage of large format maps and plans onto either microfiche or roll film. The program develops and duplicates film produced by larger state agencies with their own microfilming staff and assists these agencies in selecting equipment that may be needed for their operations.

## AGRI - GRADE & CERTIFICATION OF AG PRODUCTS

101-4541

### PROGRAM DESCRIPTION

The Grade and Certification Account supports the registration, inspection and certification activities for a variety of grower and USDA programs. Seed fields, primarily garlic and alfalfa, are inspected and certified to meet specific standards. Potatoes and onions are inspected and assigned a USDA grade at the shipping point. Passengers, cargo and other material arriving on foreign flights are inspected under a contract with the USDA. Hay and other agricultural products are inspected to enable shipment to foreign countries. The weed free forage certification program is also in this account. Shell eggs are inspected and graded, according to USDA standards. The Nevada Certified Organic program is also located in this account. Statutory Authority: NRS 587.015 - 123 and NRS 583

**PROGRAM DESCRIPTION**

The Agricultural Registration and Enforcement Account supports the registration, inspection sampling and laboratory analysis of antifreezes, fertilizers and pesticide products offered for sale. Under an Environmental Protection Agency (EPA) cooperative enforcement agreement, the program also provides pesticide product inspection at the retail level and monitors the application of pesticides. Also enforced under the agreement are the EPA groundwater protection, worker protection and endangered species protection programs. Another grant is received from the EPA for the certification and training of restricted use pesticide applicators. The Department also participated in the Environmental Public Health Tracking System program, which was funded by the Nevada Division of Health. Statutory Authority: NRS 586, 588, and 590.

## GAMING CONTROL BOARD INVESTIGATION FUND

244-4063

### PROGRAM DESCRIPTION

The investigative fund was created in NRS 463.331 as a special revenue fund for the purpose of paying all expenses incurred by the Board and the Commission to investigate a gaming application. Due to the unpredictable and fluctuating nature of the investigations and the subsequent funding to pay for them, it is difficult to predict the amount of money that will pass through this account and the type of expenditures which will occur.

### BASE

This decision unit provides funding for ongoing operations and costs associated with investigative personnel.

## B&I - CAPTIVE INSURERS

101-3818

### PROGRAM DESCRIPTION

A Captive Insurer is an Insurance company established and owned by a parent firm in order to insure its loss exposures while reducing premium costs, providing easier access to a reinsurer, and perhaps easing tax burdens. The Captive Insurers budget was established by the 1999 Legislative session. All fees and assessments received by the Division pursuant to NRS chapter 694C must be credited to the account. In addition, 25% of the premium tax imposed under NRS 694C.450 must be deposited for the regulation and supervision of captive insurers. At the end of each fiscal year, that portion of the balance in the account which exceeds \$500,000 must be transferred to the state general fund. Statutory Authority: NRS 694C.

## B&I - MANUFACTURED HOUSING

271-3814

### PROGRAM DESCRIPTION

The Manufactured Housing Division's principal responsibility is to ensure that manufactured homes, mobile homes, travel trailers, commercial coaches, and manufactured buildings are constructed and/or installed in a manner which provides reasonable safety and protection to owners and users (NRS 489). The Division also provides resolution of landlord/tenant complaints (NRS 118B), and consumer product complaints (NRS 489). The Division tests and issues licenses to manufactured home dealers, salespersons, installers, servicemen, rebuilders, and manufactureres and provides continuing education/training for licensees and inspectors, (NRS 489). The Division maintains title records, issues certificates of ownership, conversions to real property and liens (NRS 489). The Lot Rent Subsidy Program, established in 1993, provides financial assistance to low-income individuals.

Revenue for this budget is generated by user fees including: licensing fees to industry professionals and fees charged for issuance of certificates of ownership, liens, conversions to real property and title searches. The Division also receives revenues from the installation and inspections of manufactured homes and commercial coaches, safety seals, plan review and non-grant federal (H.U.D) funds.

## B&I - MOBILE HOME LOT RENT SUBSIDY

630-3842

### PROGRAM DESCRIPTION

The Lot Rent Subsidy Trust Fund assists eligible low-income mobile home owners through financial supplement of their monthly space rent in mobile home parks. The program pays 20% of the eligible recipient's base rent. Benefits are continual and paid monthly with an annual re-qualification process. The program currently has a waiting list as the demand for assistance exceeds the funds available. Statutory Authority: NRS 118B.211 Funding: The sole source of revenue for this program is the mobile home trust fund fees that the Division collects annually from the manufactured/mobile home communities in Nevada. The fee is set by NRS118B.213 and is \$12 per space, per year, excluding lots with park owned homes. The program has existed for over 13 years with no fee increases.
