## NDOC - PRISON INDUSTRY

525-3719

### PROGRAM DESCRIPTION

The mission of Prison Industries (Silver State Industries) is to reduce government operating costs, provide inmates the skills necessary to successfully re-enter society, and enhance the safe operation of correctional facilities. To fulfill its mission, Prison Industries operates as a self-supporting operation, providing meaningful work and job training for prison inmates in the production of goods and services, at little or no direct cost to the taxpayer. Operations include: furniture and metal fabrication shops at the Northern Nevada Correctional Center (NNCC); mattress, and printing/bindery shops at the Nevada State Prison (NSP); a garment sewing factory at the Lovelock Correctional Center (LCC); a drapery sewing shop at the Ely State Prison (ESP); and automobile refurbishing and stained glass manufacturing shops at the Southern Desert Correctional Center (SDCC). Prison Industries also operates used playing card recycling operations at the Warm Springs Correctional Center (WSCC), High Desert State Prison (HDSP), SDCC, Southern Nevada Women's Correctional Center (SNWCC) and the Jean Conservation Camp. Private businesses such as Vinyl Products, Inc. (NNCC), Shelby, North America, Thomson Equipment of Nevada and M-Truss (SDCC), Jacob's Trading Company (SNWCC), Impact Design and Alpine Steel (HDSP) employ inmates as part of the Prison Industries Program, as do other State agencies such as the Department of Motor Vehicles' license plate plant (NSP). In addition, TREVI, Corp. currently employs inmates as part of Prison Industries' Community Work Program and is scheduled to employ inmates at HDSP. Employment is currently provided for approximately 780 inmates.

## NDOC - PRISON DAIRY

525-3727

### PROGRAM DESCRIPTION

The mission of Prison Industries (Silver State Industries) is to reduce government operating costs, provide inmates the skills necessary to successfully re-enter society, and enhance the safe operation of correctional facilities. To fulfill its mission, Prison Industries operates as a self-supporting operation, providing meaningful work and job training for prison inmates, in the production of goods and services, at little or no direct cost to the taxpayer. One of Prison Industries' operations is the Prison Dairy. The Prison Dairy is self-supporting, operating from revenue derived from processed milk sold to the Department of Corrections and other state agencies, as well as from the sale of cream and surplus raw milk to private vendors. Additional income is generated from the sale of livestock, hay grown on-site, renting unused grazing land to private vendors and boarding of both estray horses (Department of Agriculture) and wild horses (Bureau of Land Management), until they have been adopted or sold to private individuals or moved to another holding facility. The Department of Corrections entered into an agreement with the City of Carson, whereby effluent water is used for the irrigation of prison grounds and farmland.

**DMV - REAL ID**

**201-4746**

**PROGRAM DESCRIPTION**

On May 11, 2005, President Bush signed into law the REAL ID Act of 2005 which was attached to the Emergency Supplemental Appropriation for Defense, the Global War on Terror, and Tsunami Relief, 2005. The REAL ID Act requires certain standards, procedures, and requirements for issuing drivers licenses and identification cards (DL/ID). Under the Act, a federal agency may not accept a drivers license or personal identification card after May 11, 2008, unless the state has been certified by the U.S. Department of Homeland Security in consultation with the U.S. Department of Transportation to meet the requirements of the law. As written, an individual could not board a commercial airline, apply for federal benefits, or enter a federal building unless in possession of a REAL ID compliant driver's license or identification card.

**ENHANCEMENT**

**E276 MAXIMIZE INTERNET AND TECHNOLOGY**

Funds the establishment of a central call center, development of regulations, training of all employees, background checks for all affected employees, public education, and extended hours for re-enrollment. Additionally, the contract for the driver's license will be renegotiated and changed to central issuance with enhanced security features added to all cards. The staff requested for the Implementation Team will have responsibility for coordination of all efforts associated with implementation of the REAL ID Act.

## DMV - COMPLIANCE ENFORCEMENT

201-4740

### PROGRAM DESCRIPTION

The Compliance Enforcement Division is the regulatory arm of the Motor Vehicle Branch. The division serves as the umbrella organization for budget accounts 4690 (Salvage/Wreckers/Body Shops) and 4722 (Emission Control). Administrative and operational oversight is funded through this budget account. The main function of this account is to support the activities of division investigators whose primary purpose is to regulate the automobile industry as it relates to the sale or transfer of ownership of vehicles and to investigate fraudulent issues relating to department documents. By conducting investigations, taking enforcement actions, and providing advice to members of the industry, investigators seek to gain voluntary compliance with the various laws and regulations governing the business practices of vehicle manufacturers, distributors, dealers, lessors, and salesmen, as well as preventing identity and other related fraud. Division activities in this account for the biennium are funded through a direct appropriation from the Highway Fund. Statutory Authority: NRS 481.0473, 481.0475, 481.048, Chapters 108, 482, 483, and 487.

## DMV - MOTOR VEHICLE POLLUTION CONTROL

101-4722

### PROGRAM DESCRIPTION

The Compliance Enforcement Division, through budget account 4722, is responsible for ensuring compliance with Nevada's laws and regulations (Chapter 445B of the Nevada Revised Statutes and Nevada Administrative Code) as they relate to the vehicle emission standards in Clark and Washoe Counties. The Division implements and enforces the on-road vehicle emissions portion of the state's Air Quality Program. The Division carries out its role by: providing training and certification of applicants seeking employment as Emission Inspectors; conducting audits and inspections at licensed emission stations; investigating potential program evaders; and applying appropriate sanctions against program violators. ## DPS - JUSTICE ASSISTANCE ACT

**101-4708**

### PROGRAM DESCRIPTION

The Department of Public Safety, Justice Assistance Act budget is a pass-through account for several grants received from the U.S. Department of Justice. Grant funds are distributed to state and local government agencies which contribute to the efforts of reducing and preventing crime, violence and drug abuse, and improving the functioning of the criminal justice system while maintaining the integrity of the federal funds. Administrative funds are passed through to the Office of Criminal Justice Assistance, Budget Account 4736. The Omnibus Crime Control and Safe Streets Act determines each state's grant amount by formula. Each grant requires matching funds, set-asides or percentages to locals and contains specific guidelines for the use of funds. Created by the Anti-Drug Abuse Act of 1986. Section 1308 of the Act states that the chief executive of each state shall designate a State Administrative Agency. In 1987 the Office of Criminal Justice Assistance was designated by the Governor as the State Administrative Agency (SAA) for Nevada. In November of 2000, the office of Criminal Justice Assistance was designated by the Governor as the State Point of Contact for the 1033 Dept. of Defense Excess Property Program, and the State Coordinator for the 1122 General Services Administration (GSA) Purchasing Program. Statutory Authority: NRS 481.051

## DPS - JUSTICE GRANT

101-4736

### PROGRAM DESCRIPTION

The Department of Public Safety, Office of Criminal Justice Assistance obtains, administers, and sub-grants to state and local government agencies, grant funds from the U.S. Department of Justice for programs that address illegal drug use, trafficking, violent crime, and improvement of the functioning of the criminal justice system. The objective is to coordinate education, prevention, treatment, and law enforcement to achieve a comprehensive solution to the problems of drug abuse and violent crime. In November of 2000, the Office of Criminal Justice Assistance was designated by the Governor as the State Point of Contact for the 1033 Dept. of Defense Excess Property Program, and the State Coordinator for the 1122 General Services Administration (GSA) Purchasing Program. ## DPS - CRIMINAL HISTORY REPOSITORY

### PROGRAM DESCRIPTION

Established by the 1985 Legislature, the Nevada Repository for Records of Criminal History is administered by the Department of Public Safety, Records and Technology Division, Records Bureau under the authority and provisions of NRS 179A, 179B, 179C and 179D. The Records Bureau administers the Nevada Criminal Justice Information System (NCJIS) and is the state's clearinghouse for criminal history records information, crime statistics, and information and activities that support a wide variety of public safety interests. It serves as the Criminal Justice Information System (CJIS) System Agency (CSA) for the Western Identification Network (WIN), the National Crime Information Center (NCIC), the Nevada Law Enforcement Telecommunications System (NLETS), the California Law Enforcement Telecommunications System (CLETS), and Nevada's Uniform Crime Reporting (UCR) program. The Bureau is a participant in the Federal Bureau of Investigation's Interstate Identification Index (Triple I) and in the National Crime Prevention and Privacy Compact for the release of criminal history information for non-criminal justice purposes (Civil Applicant). The Bureau is further designated as the Chief Law Enforcement Official for the purposes of administering the Brady Handgun Violence Prevention Act of 1993.

Services and sub-programs support criminal history record and forensic identification services: Point-of-Sale Firearms Program (Brady), the Nevada Domestic Violence Protection Order Registry, the Dangerous Offender Notification System, the Sex Offender Registry, and the Civil Name Check Program.

**DPS - TRAFFIC SAFETY**

**101-4687**

**PROGRAM DESCRIPTION**

The Governor was given the power to establish the Office of Traffic Safety in order to secure the full benefits available under the Highway Safety Office and programs. Funds are expended on a reimbursement basis to local and state agencies that were awarded grants based upon the merit of their proposals to mitigate traffic safety problems in their jurisdictions. Proposals selected implement public information, awareness and education campaigns, fund innovative traffic enforcement programs and other community based countermeasures to improve traffic safety. Statutory Authority: NRS 223.200

**BASE**

This budget receives funding from federal grants and functions as a pass through account to other state and local government/entities.

## DPS - STATE EMERGENCY RESPONSE COMMISSION

201-4729

### PROGRAM DESCRIPTION

The mission of the State Emergency Response Commission (SERC) is to protect the citizens of the State of Nevada against the negative effects of hazardous materials. The State Emergency Response Commission is the executive agency for Nevada's compliance with the Federal Superfund Amendment Reauthorization Act (SARA), Title III, also known as the Emergency Preparedness and Community Right-to-Know Act (EPCRA). As mandated by this Act, the Commission is responsible for collecting information from fixed facilities regarding the use and storage of hazardous materials. The information is provided to the public and first responders for both planning and reference purposes through a combined database coordinated with the State Fire Marshal's Office. Funds support the Local Emergency Planning Committees (LEPCs) in equipment, training, and planning activities needed to prevent and respond to hazardous material incidents. Statutory Authority: 42 U.S.C. 11001; NRS 459.735

### BASE

Funds ongoing programs and services. Various revenues are received through this budget account. Highway Funds support three positions, related costs and the operations of the SERC. Fees and federal grants fund first responders at the local level to assist them in preparing to respond to hazardous materials events at hazardous material storage facilities. One-time expenditures have been removed and partial year expenditures have been fully annualized.

## CRC - COLORADO RIVER COMMISSION

296-4490

### PROGRAM DESCRIPTION

The Colorado River Commission is empowered to acquire, manage and protect all of Nevada's water and hydropower resources from the Colorado River. In addition, it is to provide electric power resources to certain customers from any available source for needs over and above the hydropower allocations. These resources are primarily centered in and benefit Southern Nevada. In addition, the Commission has acquired certain lands in the Laughlin area, which it is to develop and dispose of in accordance with state and federal laws and regulations. The Colorado River Commission Fund, budget account 4490, acts as the general fund for all Commission activities. All personnel costs for Commission staff are recorded in this fund. All of the basic activities and functions performed in fulfilling the Commission's legislative mandate are recorded in this account. The Commission is entirely funded by its customers and receives no state or federal funds in carrying out its activities. The Colorado River Basin states are in almost constant contact regarding the issues of the lower basin, and it is to California and Arizona that the bulk of Commission travel occurs. In addition the Commission has extensive involvement with a number of agencies of the federal government including the Bureau of Reclamation, Western Area Power Administration, Fish and Game, Environmental Protection Agency, Bureau of Land Management, and others.

**CRC - FORT MOHAVE DEVELOPMENT FUND**

**296-4496**

**PROGRAM DESCRIPTION**

The Fort Mohave Development Fund is used to record the sale of land in the Fort Mohave Transfer Area. The transfer area was established by Congress in the Fort Mohave Transfer Act (Public Law 86-433) in April of 1960. The transfer area is located in the area adjacent to the town of Laughlin in the southern tip of the state. The Commission has completed the purchase of all of the land available to Nevada under the Act, approximately 15,000 acres. Of this amount, the Commission has sold all but approximately 9,000 acres. This land is currently available for sale. Under state law, the proceeds from the sale of this land go to Clark County to be used in the development of infrastructure in the Laughlin area. Pursuant to the requirements of the law, the Town of Laughlin is to develop a list of potential infrastructure projects in compliance with the County master plan and submit the list of projects to the County for review and approval. Once approved by the County Commission, the list of projects is submitted to the Colorado River Commission for inclusion (to the extent monies are available) in the Commission's budget. Over the years, this fund has provided in excess of \$20,000,000 in funding for this purpose. Statutory Authority: NRS 321.480-321.536.

**BASE**

Provides for travel and allocatons from the Colorado River Commission, BA 4490, to reimburse staff effort on behalf of this program.

## CRC - RESEARCH AND DEVELOPMENT

296-4497

### PROGRAM DESCRIPTION

The Research and Development Fund provides for the costs of engineering studies, analyses, negotiations and other efforts in protecting the interests of the state in the development of any of the resources under the control of the Commission. This fund is now used primarily for specific resource programs of the Commission, approved and funded on an individual basis through contractual agreements with Commission customers. In addition, some small projects may be funded from this account as approved by the Director. The major current use of the fund is as a pass through account for the costs related to the Lower Colorado River multi-species Conservation Program (LCRMSCP). Funding is provided to the Commission by its water and power contractors in accordance with the Multi-Species funding contracts, and collections under the contracts are used to fund the development of the LCRMSCP plan. The LCRMSCP Program will be funded based on new contracts with Commission customers and is planned to be accounted for in this fund. Authority: NRS 538.191.

### PROGRAM DESCRIPTION

This delivery system represents activity related to the Power Delivery Project. This project is a high voltage transmission, transformer, and distribution system designed and tied into the Southern Nevada Water Authority's (SNWA) water delivery system. This fund accounts for all of the power purchases for the water deliveries in Southern Nevada, and for all of the operation and maintenance costs associated with the project. The funding for this activity is provided by the SNWA under a funding contract. The contract provides for detailed line item costs to be approved by the SNWA at the beginning of each year. The authorization for this fund provides for all necessary and appropriate costs of the project within the approved SNWA budget.

## DCNR - NEVADA NATURAL HERITAGE

101-4101

### PROGRAM DESCRIPTION

The Nevada Natural Heritage Program is responsible for developing and maintaining comprehensive databases on the locations, habitats, population status, and biology of sensitive species throughout Nevada. Data is mapped and computerized to allow retrieval in a variety of formats. The data is increasingly important in planning for development and conservation endeavors, species recovery, revegetation efforts, habitat restoration, impact of invasive plants and animals, and community vegetation analyses. The program publishes a "Scorecard" of high priority sites, that focuses on our most vulnerable areas, where intervention is needed to avoid population declines or serious losses, and is charged with the development of a Statewide Wetlands Plan and Inventory.

**PROGRAM DESCRIPTION**

The Division of Conservation Districts and the State Conservation Commission regulate the activities of Nevada's 28 locally elected conservation districts. Conservation districts work for the proper development and conservation of the state's renewable natural resources by taking available technical, financial, and educational resources, and focusing and coordinating them so that they meet the needs of individual landowners and users, often working in cooperation with counties, the United States Department of Agriculture's Natural Resources Conservation Service, and other public and private agencies for conservation of soil, water, and related resources. Statutory Authority: NRS 548, 232.090, and 232.125.

**M590 CLEAN AIR ACT**

Requires the State to ensure that overall air quality is maintained at levels below federal air quality standards. Over the last four calendar years, the Bureau of Air Pollution Controls (BAPC) Compliance and Enforcement Branch has experienced a significant increase in workload due to growth and increases in federal requirements. Likewise, there has been a corresponding decrease in ability to accomplish programmatic requirements. Funds four full time equivalent positions and associated costs to meet workload demands.

## DNCR - DEP WATER POLLUTION CONTROL

101-3186

### PROGRAM DESCRIPTION

The Bureau of Water Pollution Control ensures compliance with water pollution control laws by issuing permits to discharge to surface and/or ground water. Facilities are inspected to ensure compliance and enforcement actions are taken if necessary. Staff reviews the design of waste water treatment plants and infrastructure. Subdivisions are reviewed to ensure that adequate systems are in place to treat waste water. The Bureau has also provided low interest loans to municipalities for waste water plant construction and drinking water facilities. These loan programs, including five positions, are being transferred to Bureau of Waste Management, Corrective Actions and Federal Facilities, BA 3189, using decision units E902-909.

## DCNR - DEP WATER QUALITY PLANNING

101-3193

### PROGRAM DESCRIPTION

The Bureau protects Nevada's limited surface water through the establishment of water quality standards, monitoring, public education and funding of water quality improvement projects. The Bureau develops local, regional, and statewide plans to ensure water quality standards are maintained and impaired surface waters are restored where possible. The Bureau also administers a laboratory certification program to ensure laboratories performing water analysis for the purposes of meeting the Safe Drinking Water, RCRA and/or Clean Water Act are adhering to prescribed methods and procedures. This budget account receives a small general fund appropriation as match to federal grants. Staff Members are responsible for carrying out various provisions of the Clean Water Act.

## DCNR - DEP SAFE DRINKING WATER REGULATORY PROGRAM

101-3197

### PROGRAM DESCRIPTION

The Bureau of Safe Drinking Water (BSDW) implements the Public Water System Supervision Program (PWSSP) authorized under the federal Safe Drinking Water Act (SDWA) and maintains primacy for the State of Nevada. State implementation of the PWSSP ensures Nevada's public water systems comply with state and federal drinking water standards by enforcing the sampling and monitoring requirements for water quality, enforcing requirements for surface water treatment and corrosion control. The program assesses water sources (including identification of potential contaminant sources), conducts annual sanitary surveys, certifies the qualifications of public water system operators, and requires public notification when systems are of compliance. The BSDW also reviews engineering plans for public water systems and the subdivision of land. Additionally, PWSSP staff provides training, information transfer, and regulatory update presentations at meetings of water industry associations. Statutory authority is provided in NRS 445A.800 through 445A.955.

## DCNR - DEP MINING REGULATION/RECLAMATION

101-3188

### PROGRAM DESCRIPTION

This budget is entirely funded by fees and comprised solely of the Bureau of Mining Regulation and Reclamation. This bureau is responsible for the Mining Regulatory Program developed pursuant to NRS 445A.300 through 445A.730 (Nevada Water Pollution Control Law), NAC 445A.070 through 445A.447 (Mining Regulations), NRS 519A.010 through 519A.280 (Nevada Mined Land Reclamation Law), and NAC 519A.010 through 519A.415 (Reclamation Regulations). The bureau established a system which is responsive to both environmental and economic concerns associated with the development of Nevada's natural resources. The workload of the bureau is dependent to a certain extent upon rising and falling metals prices, which cause fluctuations in mining activity. In FY06, metals prices rose dramatically. A number of regulatory and procedural revisions were implemented in the past ten years to address bankruptcies and abandonment's of mining operations due to low metals prices. Measures were taken to enhance the strength and security of the regulations, especially in the areas of mine closure and bonding. Nevada's mining regulatory programs address the design, construction, operation, closure and reclamation of mining and exploration operations. Principle objectives include protection of human health, ground and surface water resources, and completion of reclamation activities which provide for a productive post-mining land use. Major program elements consist of permitting, inspection, compliance monitoring, enforcement, and plan and report review.

## DCNR - TAHOE REGIONAL PLANNING AGENCY

101-4204

### PROGRAM DESCRIPTION

Jointly created by the States of Nevada and California, and the U.S. Congress, the Tahoe Regional Planning Agency's (TRPA) mission is to cooperatively lead the effort to preserve, restore, and enhance the unique natural and human environment of the Lake Tahoe region now and in the future. TRPA's vision is to have a lake and environment that is clean, healthy and sustainable for the community and future generations. Under the compact, Nevada pays one-third of the State of California/Nevada costs to support TRPA's operation. As a planning agency, TRPA has the power to exercise effective environmental controls, and perform other essential functions over the water, land, air, wildlife and development of the Lake Tahoe region. Starting in 1997 with the Nevada and California Governors' Memorandum of Understanding and the Presidential forum, TRPA has led the cooperative efforts of funding Environmental Improvement Program. Statutory Authority: NRS 277.190 - 277.220s.

**M502 FEDERAL MANDATE**

Federal Mandate - Bike Path Planning. The Nevada Bicycle Advisory Board was established by AB517 of the 1991 Legislature. This program satisfies federally mandated TEA-21 bicycle planning (Sec. 1025 (A) USC 135 (E)). Funding is supported by 1/4 of \$0.50 fee on driver's licenses. As required by the 2008-2009 Budget Instructions, the M-502 adjustment reflects the difference between FY 2006 actual revenue transferred from DMV and FY 2006 actual expenditures. NDOT anticipates revenue for this program will remain the same in FY 2008 and FY 2009.

## RETIRED EMPLOYEE GROUP INSURANCE

680-1368

### PROGRAM DESCRIPTION

The Retired Employee Group Insurance budget account provides a centralized collection mechanism for contributions made by each state entity for the benefit of all retired state employees. These contributions defray a portion of the individual insurance premiums for employees who retire from state government and elect to continue coverage in the state group insurance plan. The program is funded by payroll assessments to agency budgets and covers all state agencies, boards and commissions; the Judicial Branch; the Legislative Counsel Bureau; the Public Employees Retirement System; and the Nevada System of Higher Education.

The fund for the Retired Employee Group Insurance budget account has been reclassified to an irrevocable trust fund. Included in the budget request is pre-funding of the Retired Group Insurance liability. Under the requirements of Governmental Accounting Standards Board (GASB) Statements 43 and 45, employer's contributions to the Other Post Employment Benefit (OPEB) plan to prefund benefits are irrevocable transfers of assets for the benefit of plan members and their beneficiaries.

Statutory Authority: NRS 287.046.

### BASE

Continues funding for group insurance premiums to be paid to the state group insurance plan, administered by the Public Employees' Benefits Program, on behalf of retired employees who elect to continue coverage in the state group insurance plan.

## DEFINITIONS

This section contains brief explanations of certain areas of the budget and brief definitions of common terms employed in the budget.

**Adjusted Base Budget** The portion of the budget that includes last year's actual expenditures adjusted for specific factors:

### Actual Expenditures

- One-time expenditures including all equipment
- + Annualized salaries and operating expenses
- + Merit salary increases (net of any special adjustments)
- + Across-the-board pay increases previously granted by the Legislature
- +/- Differences in number of working days
- +/- Annualization of new programs approved by the previous Legislature or by Interim Finance Committee, and of programs sunseted by the previous Legislature
- +/- Changes in already signed contracts, such as leases
- +/- Expenses required every other year
- = **Adjusted Base Budget**

**Appropriation** A legislative allocation from the General Fund or Highway Fund for a specific purpose or for the support or operation of an agency. Expenditures from a given appropriation need not, and generally do not, exactly coincide with the amount of the appropriation, since less than full amounts of the appropriation may be spent within the specified period.

**Authorization** This is the authority granted by the Legislature that allows state agencies to collect and expend funds from sources other than the General Fund or Highway Fund. A primary source of authorization is federal funds. Other sources may include county funds, gifts, grants, donations, fees, sales, etc.

**Base** Last year's actual expenditures. See also Adjusted Base Budget.

**Building Construction Outside Cap** NRS 353.213 provides limitations upon the total proposed expenditures from the General Fund included in the Executive Budget. As per NRS 353.213, construction is excluded from this limit.

**Classified Employee** An employee, other than non-classified, unclassified or an elected official, who is selected and governed by the state's merit system as found in the Nevada Administrative Code and Nevada Revised Statutes. Classified employees are paid on a biweekly basis at levels based on a compensation plan, which includes salary increases approved by the Legislature. Salaries for recommended new classified

positions and requested reclassifications are shown at approximate classification levels. After establishment by the Legislature, the Department of Personnel may review these positions to determine the appropriate classification level.

**Cost Allocation** A number of agency budgets contain indirect cost allocations within the agency organization to fund various administrative efforts. Each individual decision in a single budget account can affect the total administrative assessment within the department. To avoid creating separate decision units to incrementally allocate portions of each recommended decision, one maintenance and one enhancement decision unit have been created to capture the cumulative effect of all allocations within a budget account for the maintenance and enhancement portions of the budget. Separate spreadsheets have been individually prepared outside the Executive Budget for review by legislators or their staff to view the effect of each individual decision.

**Decision Unit** A separate component built into a budget account to display the cost associated with the decision to fund a new program, change the configuration of an existing program, or to add or subtract from ongoing budgetary levels. Each decision unit has a numerical heading, such as E800, and a title, such as Cost Allocation.

**E730 - Maintenance of Buildings and Grounds** Maintenance and renovations for buildings and grounds, including major and minor building improvements. See M425.

**E750** See Building Construction Outside Cap.

**E800 - Cost Allocation** See Cost Allocation.

**E805 - E811 - Significant Reclassifications** The incremental costs to fund reclassifying one or more positions.

**E812 - Sworn Salary Adjustment** A pay increase for selected sworn positions in the departments of Health and Human Services, Business and Industry, Agriculture, and Motor Vehicles.

**E813 - Unclassified Step Adjustment** Equity adjustment for unclassified employees due to the addition of one step to the classified employees' salary schedule by the 2005 Legislature.

**E814 - Other Salary Adjustment** Pay increases for nurses, mental health counselors, psychologists, clinical social workers, construction inspectors, and others. This pay increase is based on a market survey completed by the Department of Personnel to ensure pay equity between the state and the private sector, city and county governments, and western state governments.

**E817 - Nevada Department of Transportation 800 MHz Radio Cost Allocation**

Equitably shares costs for the operation and maintenance of the NDOT 800 MHz radio system between those state agencies that use the system.

**E818 - IT Contract Unit** The unit that negotiates information technology contracts is moving from the Department of Information Technology (DoIT) to the Purchasing Division. Agencies using this service share the cost of providing it. E818 redirects this expenditure from DoIT to the Purchasing Division.

**E900 - Program Transfer** Transfers a program from one budget account to another. The budget receiving the proposed transfer will have positive (+) numbers, while the budget from which the program is transferred out will have negative (-) numbers. If several decision units from the originating budget are proposed to be transferred, a series of E900 decision units, i.e., E901, E902, etc. may be displayed. Position transfers are included in these modules.

**Economic Forum** The Economic Forum consists of experts from the private sector who forecast General Fund revenues. The Forum's forecast is binding on both the Executive and Legislative branches of government. The Executive Budget uses the Forum's November 30 forecast. The Forum will issue a revised forecast May 1.

**Enhancement Decision Unit** A recommendation to fund program expenses or positions in an agency budget to address the Governor's functional goals. Also includes program improvements or changes in levels of service not related specifically to a functional goal. See also Maintenance Decision Unit.

**Executive Budget** This is the Governor's recommended program for the coming biennium expressed in dollar terms. It is an overall plan of recommended expenditures necessary to execute his proposed program, together with an estimate of income expected to be available to support these expenditures.

**Fiscal Year** The state financial accounting year runs July 1 through June 30. We are currently in fiscal year 2006-2007. This may be abbreviated using the last calendar year of the fiscal year, so the current year may be abbreviated fiscal year 2007, FY 2007, or FY 07. The federal fiscal year (FFY) runs from October 1 through September 30. Agencies that receive federal funds may use the abbreviation SFY to distinguish the state fiscal year from its federal counterpart.

**Fringe Benefit Adjustment** Includes the impact of all fringe benefit recommendations as shown in the rates table. Fringe benefit adjustments include retirement, group insurance, retirement group insurance, workers' compensation, personnel assessments, and unemployment compensation changes.

**FTE - Full-time Equivalent** Most state employees are full-time, but some positions are part-time, and some full-time positions are funded by more than one budget account, so in an individual budget account they would appear as part-time positions. Two half-time positions, at 0.50 each, would add up to the equivalent of one full time position:  $0.50 + 0.50 = 1.00$  full-time equivalent or FTE.

**Functional Goals** Many enhancement decision units link to the Governor's functional goals:

**E125 - Equitable Stable Tax Structure** Provide a tax structure that is equitable, stable, and keeps taxes and fees to a minimum.

**E175 - Increase Non-Gaming Business** Protect the state's interest and competitive advantage in gaming and tourist-related industries, but increase the share of non-gaming business in Nevada's economy.

**E225 - Eliminate Duplicate Effort** Eliminate duplication of services and effort among state agencies while providing an environment where state agencies and employees operate more efficiently.

**E250 - Working Environment and Wage** Maintain lean but appropriate state staffing levels and provide state employees with a good working environment and a competitive wage.

**E275 - Maximize Internet and Technology** Maximize the use of the Internet and other technologies to make government more accessible and economical.

**E300 - Improve Pupil Achievement** Improve pupil achievement in elementary and secondary schools and increase the number of students going on to higher education in Nevada.

**E325 - Service at Level Closest to the People** Foster the delivery of government services at the level closest to the people.

**E375 - Reduce Recidivism Rate and Juvenile Violence** Reduce the recidivism rate of prison inmates and reduce the incidence of juvenile violence.

**E400 - Access to Health Care and Health Insurance** Increase the percentage of Nevadans who have access to health care and who have health insurance.

**General Fund** The General Fund is the major operating fund of the state. It receives all revenues and accounts for all expenditures not otherwise required by statute to be

in any other fund. The Executive Budget must recommend a General Fund reserve for each fiscal year of between 5% and 10% of proposed General Fund appropriations and authorizations for the operation of state government. The fund presently receives its income from the Sales Tax, Gaming Taxes, Insurance Premium Tax, Modified Business Tax, Live Entertainment Tax, Real Property Transfer Tax, and other taxes and miscellaneous sources such as interest, licenses, fees, and fines.

**Highway Fund** The Highway Fund derives its income from state gasoline taxes and fees on the use and operation of motor vehicles. The Highway Fund is restricted to the construction, maintenance and repair of public highways, and related administrative costs. The Highway Fund provides support to the Departments of Transportation, Motor Vehicles, and Public Safety, plus the Transportation Services Authority.

**M100 - Inflation (Statewide)** Includes changes in internal service fund rates such as Motor Pool, state-owned building rent, Attorney General employee tort, employee bond, Department of Information Technology (DoIT) assessment and rates, property and contents insurance rates, and vehicle insurance. See the rate table for details. See also Maintenance.

**M101 - Inflation (Agency Specific)** Inflation on items unique to an agency, such as pharmaceuticals, included in some budgets.

**M300 - Fringe Benefit Adjustment** See Fringe Benefit Adjustment.

**M303 - Occupational Studies** Personnel conducts occupational studies to: 1) ensure that the class specifications for an occupational group or subgroup are effective recruitment and classification tools; 2) consolidate classes when possible and create generic classes that encompass a broad ranges of duties; 3) abolish obsolete classes; and 4) evaluate changes in the work performed and the required knowledge, skills, and abilities in relation to the established grade level. Occupational studies require the approval of the Personnel Commission and funding by the Legislature prior to implementation.

**M304 - 2% Year 1 and 4% Year 2 COLA** Cost of living pay increase of 2% in fiscal year 2008 and 4% in fiscal year 2009 for all K-12 education employees and state and higher education employees.

**M425 - Facility Maintenance** Preventive facility maintenance, addressing deferred maintenance and issues that contribute to an unhealthy work environment for employees, clients, and the public, and for maintenance of buildings and equipment to ensure they last their intended life span.

**M750 - Building Construction Outside Cap** See Building Construction Outside Cap.

**M800 - Cost Allocation** See Cost Allocation.

**Maintenance** Some costs to continue existing programs are affected by external factors. These costs are separated from the adjusted base budget into maintenance decision units. Included are costs associated with inflation, demographic/caseload changes, occupational study recommendations, fringe benefit rate adjustments, federal mandates, court orders, and consent decrees.

**Occupational Studies** See M303.

**One-Time Appropriation** Also known as one-shot or special appropriations. An appropriation made for a particular purpose that is not anticipated to continue. A one-time appropriation usually does not add to a previous appropriation, but is generally a new appropriation. It often becomes effective during the fiscal year in which it is made and usually does not revert until the end of the new biennium. In contrast, regular appropriations normally are for continuing expenses and revert after a single fiscal year. See reversions.

**Operation and Maintenance of New Buildings and Facilities** Information on the operation and maintenance of new buildings recommended for funding in this Executive Budget will be provided to the Legislature with the Capital Improvement Program.

**Program Transfer** See E900.

**Reclassification** See E805 - E811.

**Reversion** The balance of an appropriation remaining after the close of the specific time period allowed for expenditures. Reversions are returned to the original source of the appropriation.

**Salary** The individual salary figures for the upcoming biennium are based on the current compensation plan for state employees. Changes in salary amounts from year to year reflect step adjustments within existing pay grades and may also indicate changes in incumbents. Those employees currently covered under the employer-paid retirement system and all new employees are budgeted as employer-paid.

**Supplemental Appropriation** An additional appropriation to meet an actual or anticipated deficit in an ongoing program. A supplemental appropriation adds funds to an appropriation made by a preceding Legislative Session.

**Transfers** See E900.

***RATE TABLES***

The rate tables that follow detail the charges specific state agencies levy against other agencies in the state for services provided. The charges are a method of recouping costs incurred by the centralized agencies providing the services and allows for an equitable distribution of costs and planning for future personnel and infrastructure needs.
