INDEPENDENT AUDITORS' REPORT

To the Local Elected Officials Board
and the Nevadaworks Council
Governing Board of Nevadaworks

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Nevadaworks, as of and for the year ended June 30, 2009, which collectively comprise Nevadaworks' basic financial statements as listed in the table of contents. These financial statements are the responsibility of Nevadaworks' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Nevadaworks as of June 30, 2009 and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2009, on our consideration of Nevadaworks' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis on pages 3A-3F, is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

To the Local Elected Officials Board
and the Nevadaworks Council
Governing Board of Nevadaworks
Page 2

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Nevadaworks' basic financial statements. The accompanying Schedule of Staff and Operating Costs is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for the purpose of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT DISCUSSION AND ANALYSIS

June 30, 2009

As management of Nevadaworks, we offer readers of the Nevadaworks' financial statements this narrative overview and analysis of the financial activities of Nevadaworks for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with additional information furnished in this report.

FINANCIAL HIGHLIGHTS

- The auditors' report offers an unqualified opinion on the financial statements, the highest level of assurance that can be attained.
- The assets of Nevadaworks' governmental activities exceeded its liabilities at the close of the most recent fiscal year by \$267,119, of which \$214,623 is comprised of unrestricted net assets and \$52,496 represents net assets invested in capital assets. Governmental activities include all funds of Nevadaworks.
- As of the close of the current fiscal year, Nevadaworks' governmental funds reported combined ending fund balance of \$214,623, a decrease of \$1,987 compared to the prior year. The total amount of \$214,623 is available for spending at Nevadaworks' discretion.
- Revenue from all sources totaled \$4,062,134 an increase of \$1,099,395 (37%) from the prior year.
- Subrecipient expenditures (excluding depreciation) for delivery of direct program services by contracted service providers totaled \$3,271,520 (80%) of total expenses, an increase of \$1,059,686 (48%) from the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction and overview of the Nevadaworks' annual financial report. The Nevadaworks' basic financial statements consist of two parts: Management's Discussion and Analysis, and the Financial Statements including Notes to the Financial Statements. This report also contains Supplemental Information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide an overview of Nevadaworks' finances in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of Nevadaworks' assets and liabilities, with the difference between the two reported as net assets.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Financial Statements (Continued)

The Statement of Activities presents information showing how Nevadaworks' net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.

Governmental activities are supported primarily through the U.S. Department of Labor, through the Workforce Investment Act of 1998 which represent approximately 99% of all revenue. Nevadaworks has no business-type activities, resulting in the financial statements representing only governmental activities.

Fund Financial Statements

A fund is a legal and accounting entity with a self-balancing set of accounts to track specific sources of funding and spending. Nevadaworks, as with other government agencies, uses fund accounting to ensure and demonstrate compliance with grant funding requirements. All funds of Nevadaworks are considered governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike government-wide financial statements, governmental funds focus on the current inflows and outflows of resources.

To provide a better understanding of the relationship between the fund statements and the government-wide statements, both the governmental funds balance sheet and governmental funds statement of revenues, expenditures, and changes in fund balances provide reconciliations between the two statement types.

The focus of the governmental funds statements is on major funds. Nevadaworks has two (2) individual major governmental funds, including the Workforce Investment Federal Grant Programs and the General Fund.

The Workforce Investment Federal Grant Programs fund accounts for three (3) separate and distinct federal programs designated as Adult, Dislocated Worker and Youth grants. Additional grants have been received from the State of Nevada statewide Workforce Investment Act discretionary funds for specialized pilot projects and incumbent worker projects which are also included in the Workforce Investment Federal Grant Programs fund.

Notes to Financial Statements

Notes are included to provide information that is crucial to the full and complete understanding of the data provided in the government-wide and fund financial statements.

Supplementary Information

In addition to the basic financial statements, this report also includes a Schedule of Staff and Operating Costs of Nevadaworks that are recorded into the Cost Pool and subsequently allocated to other funds. These items cannot be traced in total to the financial statements due to direct program and cost pool allocations.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Governmental Activities

Total program revenues and expenses for governmental activities, as shown in the Statement of Activities, amounted to \$4,050,188 and \$4,089,660, respectively for the June 30, 2009 ending fiscal year. Total general revenues for governmental activities amounted to \$11,946 for fiscal year ending June 30, 2009. The change in net assets amounted to \$(27,526) for the year ended June 30, 2009, with ending net assets amounting to \$294,645. Total combined program and general revenues, as shown in the Statement of Revenues, Expenditures and Changes in Fund Balance, amounted to \$4,062,134 and total expenses amounted to \$4,064,121.

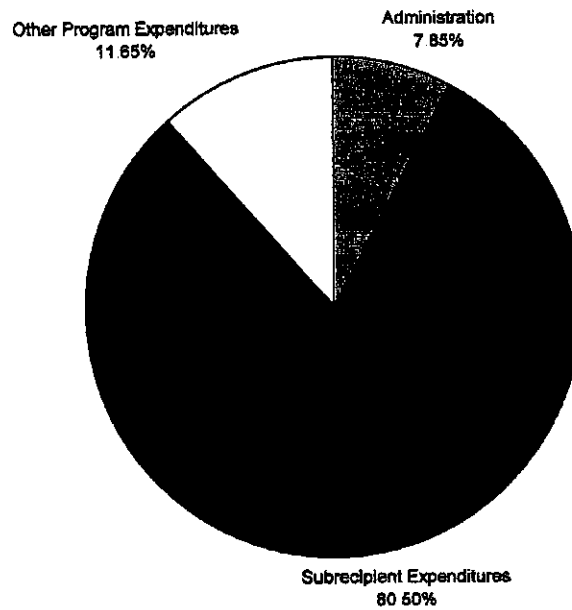

Revenue sources include program revenues comprised of Workforce Investment Act pass-through grants for Adult, Dislocated Worker and Youth programs, program income for Workforce Investment Act and Governor's Discretionary Reserve for pilot projects. Revenues also include general fund revenues comprised of interest earned on unrestricted cash funds.

Governmental Activities (Continued)

Total Expenses by Function - Governmental Activities

Subrecipient expenditures represent the majority of expenditures. Subrecipients provided services to individuals in the Nevada JobConnect Centers located in Reno, Sparks and Carson City, Nevada, in rural areas of northern Nevada and targeted services through specialized programs.

Classification of expenditures incurred directly by Nevadaworks for implementation of Nevadaworks Board initiatives and Nevadaworks operations is represented in the combined administration cost and other program expenditures line items. Administration costs represent expenditures for defined functions under the administrative cost category definition under the Workforce Investment Act programs and are not representative of total operating expenditures for Nevadaworks.

FINANCIAL ANALYSIS OF NEVADAWORKS' FUNDS

As noted earlier, Nevadaworks uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds

The focus of Nevadaworks' governmental funds is to provide information on current inflows, outflows, and balances of spendable resources. Unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Nevadaworks' governmental funds reported combined ending fund balances of \$214,623 in unrestricted net assets.

KNOWN ECONOMIC FACTORS

- The Workforce Investment Act continues to not be reauthorized by the U. S. Congress. A continuing resolution was passed within budgets again this fiscal year. It is anticipated that this trend will continue into the foreseeable future.
- Nevadaworks sustained a 350% increase in allocated formula funds and American Recovery and Reinvestment Act funds for Program Year 2009 over Program Year 2008.
- Local economic downturn should result in more funding for Nevadaworks Dislocated Worker programs.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the financial activity and condition of Nevadaworks to all having such an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Nevadaworks, 6490 South McCarran Blvd., Building A, Suite 1, Reno, Nevada 89509-6119.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Nevadaworks is a legal and administrative public entity formed under a cooperative agreement, dated June 1999, by and between certain city and county governments in Northern Nevada, pursuant to the Workforce Investment Act of 1998, Public Law 105-220 (WIA) to provide centralized administration of Northern Nevada's workforce programs.

Nevadaworks is governed jointly by the Board of Local Elected Officials (LEO), consisting of the Chairman of each County Commission/Board of Supervisors, and the Local Workforce Investment Board (LWIB), known as Nevadaworks Council, pursuant to a Cooperative Agreement between the two groups. Reference is made herein to the Nevadaworks Board.

Nevadaworks is an independent reporting entity and not a component unit of another government. This conclusion is based on the following criteria:

1. Composition of the Board

The Governing Board as defined above consists of elected officials from thirteen (13) Northern Nevada counties and representatives of the private sector, educational agencies, organized labor, rehabilitation agencies, community-based organizations, economic development agencies and the public employment service agencies. The Board oversees the Nevadaworks Chief Executive Officer who is responsible for staffing and the day-to-day operations.

2. Accounting for Fiscal Matters

Nevadaworks is responsible for reviewing, approving, and revising its own budget. Nevadaworks is solely responsible for financing any deficits that may occur and has sole control of its surplus funds. Nevadaworks enjoys the corporate rights typically associated with separate legal status including the ability to have its own name, the ability to sue or be sued in its own name, and the ability to own property in its own name.

See Independent Auditors' Report

Nevadaworks

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (Statements of Net Assets and the Statement of Activities) report information about the activities of Nevadaworks. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of each function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Unrestricted investment earnings and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide information about the governmental activities of Nevadaworks. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, Nevadaworks considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal period. Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. Expenditures generally are recorded when the related liabilities are incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

See Independent Auditors' Report

Nevadaworks

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Federal and state grants and investment earnings associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Other revenue items are considered to be measurable and available only when cash is received by Nevadaworks.

Nevadaworks reports the following major governmental funds:

General Fund: Operating fund that accounts for all financial resources of Nevadaworks, except those required to be accounted for in another fund.

Workforce Investment Federal Grant Programs Special Revenue Fund: Accounts for Workforce Investment Act (WIA) program awards. These programs include Title I-B Adult Program, Dislocated Worker, and Youth Activities. The fund also accounts for program income used for grant purposes.

D. Budgets and Budgetary Accounting

Nevadaworks prepares an annual plan, which is approved by the Nevadaworks' Board. Subsequently, the plan is submitted to the Governor of the State of Nevada. Upon approval of the plan, Nevadaworks has budgetary authority to expend the funds. Budgetary control is at the cost category level with maximum levels set for administrative activities. Nevadaworks' expenditures were within the federally mandated cost category limitations for the year ended June 30, 2009.

Management may request budget modification approval from the Nevadaworks' Board at any time throughout the year. Appropriations lapse at the end of the grant period for the WIA program. Working budgets are prepared for other non-federal funds as the funds become available, and are monitored internally. Annual budgets are not legally adopted and, therefore, budgetary comparison schedules for the general fund and each major special revenue fund are not required to be included as supplementary information or as basic financial statements.

E. Staff and Operating Costs

Staff and operating costs for administration and program support services of WIA are allocated to cost categories based primarily on individual Nevadaworks employee functions. The costs are allocated to the individual funds using procedures approved by the State of Nevada.

See Independent Auditors' Report

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds."

Management does not expect any material collection losses with respect to the other receivable balances.

G. Capital Assets

Capital assets, which include furniture and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by Nevadaworks as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Furniture and equipment of Nevadaworks are depreciated using the straight line method over estimated useful lives ranging from five to twenty years.

H. Compensated Absences

For all Nevadaworks' employees, vacation leave is earned at rates dependent on length of employment and can be accumulated to a maximum of two hundred (200) hours. Employees are allowed to accumulate sick days; however, only one hundred twenty (120) hours may be carried over to a subsequent year. Unused sick leave will not be compensated upon termination of employment. The government-wide statements accrue compensated absences as it is earned, and sick pay as it is used or accumulated. A liability for these amounts is reported in governmental funds as it comes due for payment (when the time is taken off, or employees terminate).

I. Concentrations

Nevadaworks receives a substantial portion of its revenue and support (approximately 99%) from the U.S. Department of Labor.

See Independent Auditors' Report

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH AND INVESTMENTS

A summary of cash and investments for Nevadaworks at June 30, 2009, is as follows:

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Represented by:		
Cash in bank, checking (insured by SIPC)	\$ 414,316	\$ <u>559,676</u>
Cash and investments held by Washoe County	<u>51,160</u>	N/A
Total Cash and Investments	<u>\$ 465,476</u>	

Nevadaworks is a voluntary participant in Washoe County's external investment pool. The Board of County Commissioners has overall responsibility for investment of County funds in accordance with NRS 355.175. The Investment Committee created by Washoe County Code Section 15.220 has been delegated investment decision authority. Investments are carried at fair value. The fair value of the position in the pool is the same as the value of pool shares. All interest earned on these investments is collected by the Washoe County Treasurer's office. Nevadaworks receives its portion of the interest income based on average monthly cash balances.

Cash deposited with the Washoe County Treasurer is available upon demand. Interest earned on federal funds received in advance is included in miscellaneous revenue in the fund financial statements.

5. DEFINED BENEFIT PENSION PLAN

Plan Description: Nevadaworks contributes to the Public Employees Retirement System of the State of Nevada (PERS), a cost sharing, multiple employers, defined benefit plan administered by the Public Employee Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. Chapter 286 of the Nevada Revised Statutes establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained by writing to the Public Employees Retirement System of the State of Nevada, 693 West Nye Lane, Carson City, Nevada 89703-1599 or by calling (775) 687-4200.

Funding Policy: Benefits for plan members are funded under one of two methods; the employer paid contribution plan or the employer/employee paid contribution plan where Nevadaworks is required to contribute all amounts due under the plan. Chapter 286 of the Nevada Revised Statutes establishes the contribution requirements of Nevadaworks. The funding mechanism may only be amended through legislation. Nevadaworks' contribution rates and amounts contributed (equal to the required contributions for the year) for the last three years are as follows:

<u>Fiscal Year</u>	<u>Contribution Rate Regular Member</u>	<u>Total Contribution</u>
2008-2009	20.50%	\$ 69,039
2007-2008	20.50%	\$ 63,132
2006-2007	20.50%	\$ 107,265

**INDEPENDENT AUDITORS' REPORT
ON COMPLIANCE AND ON INTERNAL CONTROL OVER
FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Local Elected Officials Board
and the Nevadaworks Council
Governing Board of Nevadaworks

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund balance of Nevadaworks as of and for the year ended June 30, 2009, which collectively comprise the Nevadaworks' basic financial statements, and have issued our report thereon dated December 16, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Nevadaworks' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of Nevadaworks' internal control over financial reporting. Accordingly we do not express an opinion on the effectiveness of Nevadaworks' internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

To the Local Elected Officials Board
and the Nevadaworks Council
Governing Board of Nevadaworks
Page 2

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

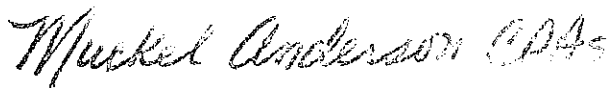

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Nevadaworks' basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management in a separate letter dated December 16, 2009.

This report is intended solely for the information and use of the Governing Board, management, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT
ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Local Elected Officials Board
and the Nevadaworks Council
Governing Board of Nevadaworks

Compliance

We have audited the compliance of Nevadaworks with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. Nevadaworks' major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Nevadaworks' management. Our responsibility is to express an opinion on Nevadaworks' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Nevadaworks' compliance with those requirements and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Nevadaworks' compliance with those requirements.

In our opinion, Nevadaworks complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

and the Nevadaworks Council

Internal Control over Compliance

The management of the Nevadaworks is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Nevadaworks' internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Nevadaworks' internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that non-compliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Governing Board, management, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than those specified parties.
