NEVADA STATE LIBRARY AND ARCHIVES PRESERVATION MICROFILMING AND RESEARCH RESOURCE PROJECT

Project Overview

In 1991 the Nevada State Library and Archives undertook this project to microfilm Nevada's nineteenth and early twentieth century historical government reports to help preserve the limited number of originals from vandalism, theft and continued deterioration from handling and photocopying. These reports were all printed on acidic paper which will eventually self-destruct from exposure to air and light. Original preservation microfilms will be preserved in the Division of Archives and Records for future reproduction of use copies. Copies of the microfilm were distributed to the libraries in the state documents depository system and a copy is available at the State Library for inter-library loan for use throughout the country.

This film series contains the official reports of territorial and state government officials required by statute and the Constitution (1865 - 1930), which were selected for their continuing legal and historical values. These documents include the governors inaugural speeches, addresses to the legislatures, and official appointments, 1861-1931; the reports of the Secretary of State that include information on the elections, the 1875 census, domestic and foreign corporations; the reports of the State Controller which include information on mines and ranching, agriculture and insurance companies licensed to do business in the state; the reports of the Superintendent of Public Instruction which includes information on the history of education, courses of study, schools, teacher licensing and the first state museum created in 1877; the State Treasurers' reports on government finances and expenditures; the State Mineralogists' reports on the development of 19th century mines; reports of the State Insane Asylum; the State Orphans Home reports; the reports of the Warden of the State Prison; the Attorney General and the Adjutant General regarding Nevada's activities in the Civil War, Spanish American War, Indian and civil disturbances.

NSLA made research copies of the already microfilmed records of Carson County, Utah and Nevada Territories, 1851-1864; Storey County court cases and mining claims, marriages and deaths, deeds and probates; Washoe County records of deeds, mortgages and court cases; Lyon County birth, death and marriage records and mining claims; Douglas County deeds, assessment rolls, court cases; and Ormsby County deaths, court cases, deeds and assessment rolls. These records

were filmed at the expense of the late Grace Dangberg, granddaughter of Nevada pioneers, scholar and patron of the study of Nevada history. The correspondence of Territorial Governor James Warren Nye with indexes, the Muster Rolls of the Civil War Volunteers with indexes, and the microfilmed reports of the territorial and state officers were distributed to the depository libraries for state document distribution. These libraries also received copies of a revised edition of Guide to the Reports in the Appendices to the Journals of the Senate and Assemble, 1864-1905), revised to include those reports from 1905 to 1930. and The Guide to the Grace Dangberg Microfilming project, compiled by Robert Mann in 1982 for Special Collections at the University of Nevada, Reno.

This project was a collaborative effort involving a number of people whose contributions should be acknowledged. The Project Director wishes to thank the following people: State Archivist Guy Louis Rocha for his emphasis of the historical importance of these reports in the Appendixes to the Journals of the Senate and Assembly and his encouragement throughout this project; Assistant State Librarian Joyce C. Lee ; Librarians Ann Brinkmeyer and Sherry Evans for their guidance regarding cataloging and classification; Desiree Smith who typed the database from which the tables of contents and guide can be compiled; Archivist Christopher Driggs for collating and arranging hundreds of documents, and for his ideas and editorial assistance; Archives Assistant Jody James-Smokey who also collated and prepared the tables of contents and labels for each roll of film; Clyde Jurey, at the Division of State Printing for painstakingly removing the bindings from the appendices, so that the individual reports could be filmed in chronological sequence; David Casida and the staff at the Printing and Micrographics Division for their patience and assistance in filming the reports. Finally this project would not have been possible without the grant from the Nevada 125th Anniversary Commission, who by their support have guaranteed the preservation of these historical documents.

Introduction

In 1861 Governor James W. Nye commissioned Dr. Henry DeGroot to conduct an aggregate census of the Nevada Territory, excluding emigrants and Indians. (Organic Act; v, 4) The Territorial Legislative Assembly required another census of the territory in 1861, which was not completed until 1863. (Statutes, 1861; 263) Not all of the nine original counties nor Nye county, created in 1864, have a list of the residents, notably Churchill County (1862) and Lyon and Churchill Counties (1863). It should also be noted that Esmeralda County's census is missing -- its whereabouts is unknown.

In 1875 a statewide census was taken. (Statutes, 1875; 143) The enumeration of Washoe County is the only one that has been found in manuscript form. The entire census was published as Volumes 2 and 3 of the Appendix to the Journals of the Senate and Assembly for the Ninth Legislature of the State of Nevada in 1877. A name index for each county is available on microfiche from the Nevada State Library and Archives.

This film contains the existing census of Nevada Territory, 1861-64, and Washoe County, 1875 which are kept by the Division of Archives and Records. They have been refilmed to include portions that were missing earlier and to include a table of contents, partial name index for Storey and Ormsby Counties and new target pages to facilitate the use of this census. The 1875 Washoe County census was included because it contains more information about individuals than appeared in the published version cited above.

The index was compiled by volunteers of the Division of Archives and Records in the early 1980s. Most recently Betty Worts, Chris Franklin and Cleo Ross, volunteers at the State Library, typed the information from index cards into a computer database. Since it was a product of past workers, the present staff cannot vouch for its completeness or accuracy. We are presenting it here with the hope that it will prove helpful to genealogists and family historians.

Copies of this film and index is may be purchased from:
