
REPORT OF THE PROCEEDINGS
OF THE
Nevada State Board of Agriculture.

1894.

International Exposition, I here reproduce a portion of my annual report for 1893:

"In compliance with a request of Governor R. K. Colcord and a number of prominent citizens, the Board of Directors held a meeting at which the Governor was present, and urged the necessity of having the State of Nevada make an exhibit of its products and resources at the coming California Midwinter International Exposition, and requested the Board of Directors to take charge of the matter, and in compliance with the request Director F. H. Martin and your Secretary were appointed as such managers.

PRESIDENT'S REPORT.

RENO, Nevada, December 31, 1894.

To His Excellency R. K. COLCORD, Governor of Nevada:

SIR: I have the honor to submit herewith the full reports of the Secretary and Treasurer of the proceedings, receipts and expenditures of the Nevada State Board of Agriculture for the fiscal year ending December 1, 1894.

Respectfully submitted,

W. O. H. MARTIN, President.

REPORT OF THE SECRETARY.

RENO, Nevada, November 25, 1894.

To the Honorable State Board of Agriculture:

GENTLEMEN: I have the honor to submit the following report for the fiscal year ending December 1, 1894:

At the annual meeting, held December 2, 1893, the following officers were elected for the ensuing term:

W. O. H. Martin	-----	President.
C. H. Stoddard	-----	Secretary.
R. S. Osburn	-----	Treasurer.

Director T. K. Hymers was appointed Superintendent of the Grounds and W. D. Phillips Superintendent of the Pavilion, and the following named Directors were appointed as the Executive Committee, viz: Theo. Winters, C. C. Powning, M. D. Foley, T. K. Hymers, Joseph Marzen, W. O. H. Martin.

In order to have a full report of the exhibit at the California

International Exposition, I here reproduce a portion of my annual report for 1893:

"In compliance with a request of Governor R. K. Colcord and a number of prominent citizens, the Board of Directors held a meeting, at which the Governor was present, and urged the necessity of having the State of Nevada make an exhibit of its products and resources at the coming California Midwinter International Exposition, and requested the Board of Directors to take charge of the matter and appoint managers to secure and take charge of an exhibit; and in compliance with this request Director P. H. Mulcahy and your Secretary were appointed as such managers.

"The Secretary was instructed to communicate with the Boards of County Commissioners, and ask their co-operation, and request them to appoint committees to act in conjunction with the managers in securing exhibits for the respective counties.

"I have complied with these instructions, and beg to state that the counties of Ormsby, Douglas, Lyon, Storey and Washoe have complied with that request, and are now working to that end. It is expected that the other counties will take action next Monday.

"On November 18th another meeting was held, and in response to an invitation a number of citizens, together with the Governor, were present. At this meeting a committee, consisting of R. K. Colcord, E. Williams, C. C. Powning and W. E. Sharon were appointed to proceed to San Francisco to make the best possible arrangements for space for the Nevada exhibit, and also to induce the Southern Pacific Railroad Company to rearrange their rates of fare from all parts of the State, giving a one-rate fare for the round trip, with a thirty-day limit.

"This committee have reported that they could not induce the managers of the Midwinter Fair to modify their rules in regard to space, but insisted on charging \$1 50 per square foot, and that they had secured the refusal of 5,000 square feet from S. P. Davis for \$500. At a subsequent meeting of the Board this proposition was accepted, and Directors Foley, Martin, Bradley and Winters, and Governor R. K. Colcord, subscribed the amount of \$100 each to secure the ground.

"They also reported that the railroad company had taken the matter of fares under consideration, with a promise of granting the request, if possible.

"The President and Secretary were instructed to solicit subscriptions from the citizens of the State to pay the expense of the Nevada exhibit, with the understanding that the amount so contributed should be refunded when the Legislature should appropriate an amount for that purpose.

"The Board of Agriculture, through its officers and the Governor, were also requested to solicit from J. P. Jones, D. O. Mills, J. G. Fair, the estate of W. S. Hobart, James L. Flood, Wm. M. Stewart,

Francis G. Newlands and the Virginia and Truckee Railroad Company and the Southern Pacific Railroad Company, the sum of \$1,000 each for the Nevada exhibit."

At a meeting held December 2d, the President and Secretary were authorized and directed to request the several counties, through their Boards of County Commissioners, to appropriate the sum of \$1,000 each, or such sums as they might deem expedient, to aid in making an exhibit at the Midwinter Fair, with the understanding that the money advanced be refunded when the Legislature shall have appropriated money for that purpose. At this meeting a resolution was adopted stating that under no circumstances should the expense of maintaining the exhibit exceed the sum of \$15,000.

Governor Colcord and the committee appointed to secure ground having succeeded, and recommending the erection of a separate building for the State, Mr. J. A. Yerington, who having been appointed by the Board as Managing Director, was requested to proceed at once in the discharge of his duties, with full power to make arrangements and erect a building on the ground selected.

The Executive Committee of the National Irrigation Congress, consisting of Hon. J. E. Jones, R. L. Horton, O. Ring and L. H. Taylor, made a proposition to co-operate with the State Board of Agriculture in making the exhibit, for the advancement of the irrigation question and other resources of the State, and the Board of Directors accepted their proposition, and the matter of preparing literature and other modes of advertising the resources of the State was placed in their hands, and the amount of \$500 was appropriated for this purpose.

On the 11th day of December Manager J. A. Yerington presented plans and specifications with bids for the erection of the Nevada Building, and he was instructed to proceed under said plans at a cost of \$4,900 and have them carried into effect at once.

On January 13th, at a meeting of the Board, the names of W. E. Sharon of Storey county and W. T. Smith of Elko county were added to the list of managers.

At a meeting of the Board held in April, it being generally discussed by the members, and agreed to, that on account of the financial depression, and of the expense incurred in making an exhibition of the State's products and resources at the California Midwinter Fair, it was deemed advisable, and for the best interests of the State, not to hold its Tenth Annual Fair, and it was so decided.

The thanks of the Board of Directors are due Mr. Richard Foote, the actor, who volunteered his services and gave six performances in the State which netted \$401, which was donated to the Midwinter Fair fund. Also to the Virginia and Truckee and Southern Pacific railroad companies for the free transportation of exhibits, and to those who have advanced money, a list of whom is attached hereto, also all who made exhibits, and whose names are herewith presented.

The building erected was situated in the northwest corner of the exhibition grounds near the '49 Mining Camp. It was 50x60 feet, fronting south, and was two stories in height with a flat roof beneath an awning upon which was located a cafe. Upon the lower floor the agricultural and public school exhibits were attractively arranged, and on the second floor or gallery was the mining and women's exhibit. Besides the individual exhibits was the display made by the Nevada State Experimental Station, consisting of all kinds of grains and vegetables; also a chemical analysis of milk and its products, and alfalfa hay, which attracted general attention, it being the only exhibit of its kind on the grounds. The Experimental Station also showed all the different kinds of bugs and insects, both beneficial and injurious, and all the different kinds of weeds in Nevada, all of which were very interesting and attractive to visitors. There were also shown the prehistoric footprints and fossils found at the Nevada State Prison, with charts and photographs of the same.

There can be no doubt that this exhibit of the products and resources of the State will eventually redound to the benefit of the State in a way that will be satisfactory to every citizen who feels an interest in the future of Nevada. It is to be hoped that the Legislature will not permit the few who are not in favor of advancement to prejudice their minds against reimbursing those of our citizens who have generously advanced funds to maintain the Nevada State exhibit.

For a full and interesting report in detail of the exhibit, I respectfully refer you to the report of the Managing Director, James A. Yerington.

I herewith submit a detailed report of the receipts and disbursements of the Midwinter Fair funds, and a statement showing the indebtedness of the Nevada State Agricultural Society.

Respectfully submitted,

C. H. STODDARD, Secretary.
